Legislation Title: AN ORDINANCE relating to City procurement, deleting obsolete language, and updating definitions, authorities, practices, and requirements; amending Sections 20.60.100, 20.60.101, 20.60.102, 20.60.106, 20.60.110, 20.60.112, 20.60.114, 20.60.116, 20.60.118, 20.60.120, 20.60.122, 20.60.124, and 20.60.132; and repealing Sections 20.60.108, 20.60.126, 20.60.130, and 20.60.140 of the Seattle Municipal Code in connection thereto.

Summary of the Legislation:
This legislation amends language related to City purchasing and procurement that is found in Seattle Municipal Code Chapter 20.60 to bring it up to date with current practices and procedures. Specifically, the proposed legislation updates language to conform to commonly understood procurement nomenclature; clarifies cooperative purchasing authorities; makes clear how procurement estimates are calculated to determine bid thresholds; recognizes Requests for Proposals as an accepted procurement method; deletes obsolete sections of the Code that are no longer necessary; and assigns departments with responsibility for receiving, inspecting, invoicing, handling, and tracking their purchases.

Background:
Chapter 20.60, which was originally enacted in 1973, has had minor changes incorporated, but has not undergone a major update since that time. The purpose of this legislation is to clarify intended procurement authorities, authorize modern procurement practices that are not currently recognized in the Seattle Municipal Code, clarify language and intent for better readability, and provide greater transparency in City procurement.

Office of the Mayor

December 10, 2013

Honorable Sally J. Clark
President
Seattle City Council
City Hall, 2nd Floor

Dear Council President Clark:

I am pleased to transmit the attached proposed Council Bill, which amends Seattle Municipal Code Chapter 20.60 by clarifying language to better reflect the City's current procurement practices and procedures. While related sections of the code have had minor changes incorporated over the years, significant modifications have not been made since 1973.

Specifically, the proposed legislation updates language to conform to commonly understood procurement nomenclature; clarifies cooperative purchasing authorities; makes clear how procurement estimates are calculated to determine bid thresholds; recognizes Requests for Proposals as an accepted procurement method; deletes obsolete sections of the Code that are no longer necessary; and assigns departments with responsibility for receiving, inspecting, invoicing, handling, and tracking their purchases.

Passage of this legislation will improve the overall understanding of the City's current procurement-related practices as reflected in the Seattle Municipal Code. Thank you for your consideration of this legislation. Should you have questions, please contact City Purchasing and Contracting Services Director Nancy Locke at 684-8903.

Sincerely,

Michael McGinn
Mayor of Seattle
