CITY CLERK

Seattle Children's
HOSPITAL • RESEARCH • FOUNDATION | Research Institute

March 1, 2012

Lisa Van Horn, Education Manager
Seattle Fire Department
Fire Prevention Division

Dear Lisa Van Horn,

Please find attached my current resume as an application to become a volunteer member of the Seattle Fire Code Advisory Board.

I am applying to fill the vacant position representing Research/labs, as I am currently the Director of Technical Operations at Seattle Children's.

I have over 20 years experience and believe I can competently represent the life sciences industry in Seattle while offering fresh perspective.

I am very interested in this position and look forward to hearing from you.

Please feel free to contact me for further information or questions at david.moore2@seattlechildrens.org or by phone at 206.884.7669.

Regards,

David Moore
Director , Technical Operations
Seattle Children's

David Moore

EXECUTIVE SUMMARY

Proven technical services and environmental health and safety professional. Extensive experience with project management and all aspects of environmental, health & safety, including health physics, industrial hygiene, occupational health, hazardous materials management and minimization, biological safety, radiation safety training, lab safety training, bloodborne pathogens training, ergonomics, workers compensation, safety engineering, security policy and management, record keeping, and regulatory compliance and affairs. Created and directed multi-site lab services and EH&S core functions, developed and implemented broad and long range facilities design solutions, established outsourcing relationships that addressed emerging business needs, and led the development and implementation of the corporate disaster recovery and business continuity plan. Planned, directed and implemented improvements in systems, processes and procedures to increase efficiency, productivity and quality in the laboratory to ensure compliant laboratory practices. Formulated and deployed long-term plans for enabling efficient and cost-effective safety and lab service programs. A dedicated business partner with a proven record of achieving bottom-line business objectives that paved the way for future growth. Excellent problem solver with strong interpersonal, team building, supervisory, analytical and communication skills.

PROFESSIONAL EXPERIENCE AND ACCOMPLISHMENTS

SEATTLE CHILDREN'S, SEATTLE, WA **2007 - PRESENT**

Director, Technical Operations

Responsible for Research Support Services, including Environmental Health & Safety, code interpretation, implemntation and compliance, lab operations, and business continuity/disaster recovery for all Seattle Children's Research facilities in Seattle.

CORIXA CORPORATION – GLAXOSMITHKLINE , SEATTLE, WA **1997 - 2007**

Director, Technical Services/EH&S (2005-2007)
Director, Corporate EH&S (2000-2004)
Manager, Corporate EH&S (1997-2000)

Oversight for design and management of corporate Technical Services, Lab Management and EH&S functions at sites located in Seattle, WA, Hamilton, MT, Redwood City, CA and South San Francisco, CA.

- Formulated and deployed long-term strategic plans for acquiring and enabling efficient and cost-effective information processing and communication technologies.
- Directed EH&S and technical services operational and strategic planning, including allocation of resources to meet corporate business requirements.
- Developed, coordinated, and reviewed budgets to ensure compliance with stated goals, guidelines, and objectives. Partnered with company executives and senior scientific staff to ensure companywide program integration.
- Negotiated, authorized and managed the service and support contracts with external consultants and contractors based on corporate business and technical needs.

- Oversaw management and administration of Corixa Corporation programs, including Accident Prevention, Biohazard Exposure Control, Radiation Safety, Hazardous Materials Management, Respiratory Protection, Ergonomics, and Chemical Hygiene (including HazCom).
- Responsible for lab, office, manufacturing/production, vivarium, and special use construction planning of new and existing facilities in WA, CA, and MT. Also, responsible for interfacing with regulatory agencies with regard to the Uniform Fire Code and the Uniform Building Code and the creation of the Materials Management and Business Plans.
- Project Manager for Corixa Corporate Business Continuity and Recovery Plan as well as the Corporate Disaster Recovery Plan, including coordination and inclusion of all core business functions, projects and objectives. Performed business impact analysis to determine gaps and impacts. Identified and addressed these in a working document.
- Served as Corixa Corporation Radiation Safety Officer responsible for license administration, amendments, and implementation of comprehensive Radiation Safety Program.
- Chair of Corporate Safety Committee and NIH Institutional Biosafety Committee, member Institutional Animal Care and Use Committee.
- Responsible for program coordination and compliance with GMP, GLP, and GCP requirements. Also, responsible for ensuring lab, manufacturing, and production facility and operations compliance.
- Managed corporate insurance(s) to ensure lease compliance, worker's compensation and liability considerations were met.
- Supervised staff at four facilities, in four municipalities, successfully navigating unique codes and specific regulations.
