Mr. C. W. Saunders;

My Dear Sir;

I have draughted a reply to your letter of 7th about the Doze proposition and have sent it to my office to be copied and forwarded.

I understand that Thompson wants to do some planting on Volunteer Park this fall. I trust you will send the Topographical map of Volunteer Park promptly so we can have plenty of time to study our plan, to submit it and get it approved and then to study a planting plan. It would very decidedly be putting the cart before the horse to plant without a general plan.

Yours very truly,

John C. Olmsted.
