Projects and Assignments

• Section Chief & Director, Hospitalist Service

- Successfully managed and administered the Hospitalist Service during the largest expansion of the group in the history of the organization, from 6 hospitalist physicians to 16
- From a leadership position, created an infrastructure for restructure and expansion of Hospitalist Section
- Presented short and long-term visions for the Hospitalists' growth and expansion as a broadly integrated presence with the hospital – Successfully Implemented
- Created foundation for VAPSHCS Hospitalist handbook with clinical and operational standards for care delivery
- Created and implemented a unified approach to operational problem-solving for the group and subsequently successfully positioned physicians as "Inpatient Barrier Champions".
- Created a system for expansion of hospitalist services to medicine subspecialties, surgery and other services – Standard Operating Procedures (SOP's) implemented after initial pilot programs with Interventional Radiology, Oncology, and Bone Marrow Transplant Unit. In progress: Emergency Department (Seattle), Emergency Department (American lake VA), Surgery, Spinal Cord Unit, Mental health
- UW Medicine & Family Medicine Residency Programs – Coordinated pilot program to better identify problems and implement solutions to ACGME House staff work hour rule violations
- Developed and executed upon a system to maintain closer collaboration between the VAPSHS Hospitalist Section and the UW and Harborview Medical Center with a focus on Academic Advancement, maintaining Clinical, Procedural & health Systems Competency with an emphasis on Quality & safety Initiatives.
- Created a foundation for Hospitalist collaboration with Chaplaincy Residency Program and Integrated Ethics.
- Instrumental in implementing a system of close collaboration between the Hospitalist Section and Critical Care Medicine.

• Associate Chief of Staff, Hospital Operations (ACOS)

- Led an overhaul of the organization's Patient Emergency Response System; successfully leading a team of physicians, nurses, System Redesign experts and Quality Consultants on an initial focused RPIW; the implementation of a pilot project culminating in an organization-wide restructured Patient Emergency Response System
- Successfully identified clinical and operational barriers to care delivery and devised and implemented clinical operational solutions; including in areas involving transitions of care (inter- and intra-facility transfers, emergency department admissions, direct admissions and local and regional patient transfers.
- Successfully implemented a culture of collaboration with Service Line Chiefs, Section Chiefs, Nursing, patient Access Coordinators, Medicine House staff, pharmacy and Quality Management and Patient Safety staff.
 - Identified and effectively utilized needed resources to enhance and optimize care delivery while eliminating non-value added tasks.Quality, safety, performance Improvement, Analytics, Informatics
 - Restructure Emergency Care Committee with identification of barriers to effective prompt, care delivery in Code Blue and Rapid Response scenarios, including Review of emergency alert, operator response and consistency in ACLS code team practices.

- Chair, Admissions Performance Improvement Team – Tasked with review and recommendations for admissions process barriers to quality-driven, prompt patient management immediately post admission
- Creation of a streamlined process of patient interfacility transfers; working with Patient Access Center, Health Plan Management, Clinical Informatics, Bed Control, administration, providers and nursing. – Implementation and monitoring of new veteran interfacility transfer protocol.
- Collaboration with analytics to create inpatient dashboard.

Faculty Positions - University of Washington

2011-2013 Clinical Instructor, Division of General Internal Medicine
 2007-2011 Associate Clinical Instructor, School of Nursing, University of Washington
 1996-1998 Clinical Instructor, Introduction to Clinical Medicine, University of Washington School

GLOBAL HEALTH

Current focus is on collaborative endeavors with public and private organizations and academic centers in Nigeria and the U.S. to assist in building, restructuring and providing strategic direction for Health Systems Infrastructural development in the acute care setting in urban and rural areas.

Specific activities to date are noted below. Current activities are focused on enhancing evaluation and diagnostic processes with the aid of technology and diagnostic devices and equipment customized to low resource areas. Parties involved to date include Path Care Nigeria (the only ISO-certified laboratory services system in Nigeria), the University Of Washington School Of Medicine, Dept. of Medicine and the institute of Simulation and Interprofessional studies and a variety of for profit and not for profit organizations to identify entrepreneurial solutions to clinical services and public health services delivery.

Office of His Excellency, the Governor of Lagos State

Office of the Commissioner of Health, Lagos State

Ministry of Health, Lagos State, Nigeria

Lagos State University Teaching Hospital, Lagos Nigeria

Consultant, Health Administration, Clinical Services, Training and health Information Technology
