CITY OF SEATTLE
ORDINANCE ________________
COUNCIL BILL ________________

AN ORDINANCE relating to companies and drivers of a new type of for-hire vehicle in order to create a 24-month pilot program for transportation network companies and affiliated drivers: establishing minimum operating requirements for transportation network companies and affiliated for-hire drivers; creating a permit system; imposing vehicle inspections; imposing a zero tolerance drug use policy for affiliated drivers; imposing minimum insurance requirements for transportation network companies and affiliated for-hire vehicles; requiring rate transparency for transportation network companies; and establishing licensing fees for transportation network companies and affiliated drivers; raising the maximum number of taxicab licenses issued by the City; revising terminology; adding new sections to the Seattle Municipal Code; and amending various Sections of Chapter 6.310 of the Seattle Municipal Code;

Section 1. The City Council (“Council”) makes the following legislative findings of fact and declarations:

1. The Council finds that technology that allows consumers to directly dispatch drivers for trips via the internet using mobile interfaces such as smartphone applications, (“application dispatch”) did not exist in Seattle when for-hire driver and vehicle regulations were last amended by Ordinance 122763 in 2008; and

2. The Council caused a taxi, for-hire, and limousine services demand study (“demand study”) to be undertaken to evaluate passenger demand and assess the quality of service and the final study was completed by consultants on September 3, 2013; and

3. The Council finds, and the demand study supports, that the public is receptive to application dispatch technology and such technology is capturing a growing share of the traditional taxicab and for-hire vehicle market, especially during periods of peak demand1; and

---

1 2013 City of Seattle and King County Taxi, For Hire Vehicle and Limousine Services Demand Study, Final Report, page 22
4. The Council finds, and the demand study supports, that some companies using application dispatch technology to offer transportation services in Seattle are unlicensed and affiliated with unlicensed for-hire drivers (unlicensed drivers) and vehicles¹; and

5. The Council finds that as the use of application dispatch technology by unlicensed companies, vehicles, and drivers raises significant public safety and consumer protection concerns; and

6. The Council finds that the use of application dispatch technology by unlicensed companies and drivers are competing with existing licensed taxicab and for-hire drivers in the transportation market and causing negative impacts; and

7. The Council finds that unlicensed drivers using application dispatch technology are providing trips as for-hire drivers via a new type of for-hire vehicle because they are operating motor vehicles used for the transportation of passengers for compensation and these drivers are currently operating illegally without for-hire driver licenses or regulatory oversight; and

8. The Council finds that companies providing transportation services via application dispatch with unlicensed affiliated drivers are operating illegally without a license or regulatory oversight; and

9. The Council finds that there is no gratuitous purpose for offering and receiving transportation services, and unlicensed drivers and companies using application dispatch technology offer transportation services for compensation for the following nonexclusive reasons: the companies are registered for-profit corporations, drivers are recruited with promises to be paid, drivers intend to be paid, and passengers are paying for services rendered; and

10. The Council finds that the creation of a pilot program, establishing minimum operating requirements for unlicensed drivers and unlicensed companies using application dispatch technology is appropriate and necessary to protect the safety of the public; and

¹ Id.
11. The Council finds a pilot program establishing transparency of rates prior to a passenger initiating a ride via application dispatch is appropriate and necessary for consumer protection; and

12. The Council finds that the creation of a pilot program regulating unlicensed companies and affiliated drivers using application dispatch technology will promote fair competition among other licensed transportation providers; and

13. The Council finds that the creation of a pilot program strikes a balance between safety and innovation, so that regulation provides a safety net that the public can rely on for its protection while new businesses innovate and use technology to better the lives of Washingtonians;

14. The Council finds that the issuance of an additional 50 taxicab licenses as authorized by SMC 6.310.500(D) would promote fair competition and meet current and future demand for efficient and economical taxicab service; and

15. The Council finds it necessary to review the pilot program to ensure it is fulfilling its purpose of promoting public safety, consumer protection and fair competition, so City Council will assess the benefits and any negative unintended consequences of the pilot program by no later than June 30, 2015, and if no further action is taken by City Council, the program will automatically sunset on December 31, 2015; and

16. The Council finds that it has the authority to establish code to regulate for-hire vehicles as granted by Article 11, Section 11 of the Washington State Constitution and RCW 46.72.160.

NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 2. Section 6.310.100 of the Seattle Municipal Code, last amended by Ordinance 118341, is amended as follows:

SMC 6.310.100
Purpose.

A. Transportation network companies (TNC) provide application dispatch services (technology that allows consumers to directly request dispatch of for-hire drivers for trips via the internet using mobile interfaces such as smartphone applications,) to connect drivers with passengers for transportation services. While active on a TNC dispatch system, TNC drivers are for-hire drivers operating for-hire vehicles. The ordinance codified in this chapter is an exercise of The City of Seattle's power to license for-hire vehicles, taxicabs, for-hire drivers ((and)) taxicab associations, transportation network companies, and issue transportation network company permits, for regulations and revenue. Some of its regulatory purposes are to increase the safety, reliability, cost-effectiveness, and the economic viability and stability of privately-operated for-hire vehicle and taxicab services within The City of Seattle. This chapter is not intended to regulate limousines and is consistent and compliant with RCW Chapter 46.72A.

B. The Director shall not issue or renew any TNC driver permits or TNC licenses that would allow a TNC driver permittee or TNC to operate beyond December 31, 2015. Any TNC driver permits or TNC licenses whose expiration date would fall beyond December 31, 2015 shall expire on January 1, 2016.

C. The Director may issue a moratorium suspending the issuance of TNC driver permits or TNC licenses upon finding that the continued issuance of TNC driver permits or licenses threatens public safety or raises substantial consumer protection concerns. In making such a finding the Director may consider, but is not limited to considering: consumer complaints, the stability of the market for taxi and for-hire transportation services, consumer demand for transportation services, and the financial viability of transportation service providers. Where the issuance of TNC driver permits or licenses has been suspended pursuant to this section, the suspension shall last no more than 180 days.

Section 3. Section 6.310.110 of the Seattle Municipal Code, last amended by Ordinance 123361, is amended as follows:
SMC 6.310.110

For the purposes of this chapter and unless the context plainly requires otherwise, the following definitions apply:

“Affected licensee” means any licensee that may incur some penalty as a result of a violation. For example, if a for-hire driver of a taxicab commits a violation, the for-hire driver, the taxicab owner, and the taxicab association with which that taxicab is associated are all affected licensees.

"Affiliated taxicab" means a taxicab licensed to operate within a particular taxicab association.

"Application dispatch" means technology that allows consumers to directly request dispatch of for-hire drivers for trips via the internet using mobile interfaces such as smartphone applications.

affiliated with at least 15 but no more than 100 licensed or permitted TNC drivers that provides

D. A transportation network company license is valid for no more than one year. No transportation network company license may be renewed unless the renewal fee has been paid and all outstanding penalties assessed against the transportation network company and its affiliated drivers have been paid to the Director. The Director shall not renew the transportation network company license unless the Director determines that the transportation network company’s continued operation is in the public interest. All denials of renewal applications must be set forth in writing, together with the reasons for denial. The written denial shall be delivered either personally or by first class mail to the address provided by the applicant on the license renewal application.

Section 8. A new section 6.310.265 to Seattle Municipal Code is adopted, as follows:

SMC 6.310.265

Transportation network company — Standards for license application or renewal denial.

A. The operation of a transportation network company is a privilege, not a right. The transportation network company’s ability to satisfy stated criteria for a transportation network company license does not create a right to a transportation network company license.

B. The Director shall deny any transportation network company license application if the Director determines that:

1. The applicant represents more than 100 affiliated drivers;

2. The applicant represents fewer than 15 affiliated drivers;
3. The applicant fails to submit proof of insurance as required by SMC 6.310.260.

4. The applicant provides application dispatch services to licensed taxicabs;

5. The applicant provides application dispatch services to anyone other than transportation network company drivers meeting the requirements set forth in SMC 6.310.452;

6. The applicant uses more than one application dispatch system;

7. The applicant leases, permits, or otherwise allows others to use its application dispatch system;

8. The applicant affiliates with and provides application dispatch services to unlicensed or unpermitted affiliated drivers;

9. The applicant allows an affiliated vehicle, except for City licensed for-hire vehicles, to be active on its network for more than 16 hours in a given week.

10. The application has a material misstatement or omission;

11. The application is incomplete; and/or

12. Within three (3) years of the date of application, the applicant, or any owner, officer, director, managing partner, general partner or principal of the applicant, has had a bail forfeiture, conviction or other final adverse finding for crimes of fraud, theft, larceny, extortion, embezzlement, racketeering, Uniform Controlled Substances Act, prostitution, alcohol and/or narcotics where the commission of such crime(s) involved a transportation network company (TNC), vehicle affiliated with a TNC, or TNC driver.

C. The Director may deny any transportation network company license application if the Director determines that, within five (5) years of the date of application, the transportation network company applicant, or if the transportation network company applicant is a business entity, any officer, director, managing partner, general partner, registered agent or principal of the transportation network company:
1. Within five (5) years of the date of application, has had a bail forfeiture, conviction or other final adverse finding involving crimes directly related to the applicant's ability to operate a transportation network company, including but not limited to prostitution, gambling, fraud, larceny, extortion, income tax evasion; and/or

2. Has exhibited past conduct, as evidenced by a criminal conviction, bail forfeiture or other final adverse finding (including in a civil suit or administrative proceeding) in operating a transportation network company, business or vehicle that would lead the Director to reasonably conclude that the applicant will not fulfill the transportation network company responsibilities and requirements set forth in this chapter.

3. Has failed to meet one or more operating responsibilities as detailed in SMC6.310.270.

Section 9. A new section 6.310.270 to Seattle Municipal Code is adopted, as follows:

SMC 6.310.270

Transportation network company—Operating responsibilities.

This report shall also describe the economic effects, if any, of the provisions of SMC 6.310.330N on the market value of all taxicab license transfers occurring after August 1, 2008. As soon as an association or TNC accumulates more than five (5) penalty points per affiliated taxicab or for-hire vehicle, on average, it must pay a penalty to the Director of One Hundred Dollars ($100) per affiliated taxicab or for-hire vehicle. As soon as an association or TNC accumulates more than seven (7) penalty points per affiliated taxicab or for-hire vehicle, on average, it must pay an additional penalty to the Director of One Hundred Fifty Dollars ($150) per affiliated taxicab or for-hire vehicle. As soon as an association or TNC accumulates more than ten (10) points per affiliated taxicab or for-hire vehicle, on average, it must pay an additional penalty to the Director of Two Hundred Fifty Dollars ($250) per affiliated taxicab or for-hire vehicle. For purposes of this subsection, average number of penalty points per affiliated taxicab or for-hire vehicle means total association penalty points divided by number of taxicabs or for-hire vehicles within the association or TNC. (The Director will compute the number of taxicabs or for-hire vehicles within the association or TNC by averaging the number of taxicabs or for-hire vehicles in the association or TNC (rounded up) at the beginning of the year and the number of cabs or for-hire vehicles at the end of each completed quarter, i.e., March 31st, June 30th, etc.). If an association or TNC has exceeded the average amount of penalty points as outlined above, the penalty will be due as of the end of the current quarter. The association or TNC may ask for a hearing with the Director concerning the assessment of such penalty. At such hearing the association or TNC will present any evidence to refute or mitigate ((the)) its performance((of the association)). After the hearing, the Director may impose the penalty, reduce the penalty, or with just cause waive the penalty and put the association or TNC on probation with specific performance guidelines. If the association or TNC does not meet the guidelines imposed, the Director will impose the penalty. In any case, the Director’s decision is final.
Upon renewal of the taxicab association or TNC license, the association or TNC will start the new year with zero ((0))penalty points.

A Class C violation by a TNC shall result in revocation of the TNC license.

C. Taxicab or For-hire Vehicle Owner's Responsibility for Penalties Incurred by For-hire Drivers. A taxicab or for-hire vehicle owner is jointly and severally liable for each monetary penalty assessed against any for-hire driver who commits a violation while operating a taxicab or for-hire vehicle belonging to that owner. The City is not required to pursue collection of the penalty from the driver as a prerequisite to pursuing collection of the penalty from the owner.

D. Taxicab Association's or Transportation Network Company’s Responsibility for Penalties Incurred By For-hire Drivers and Taxicab Owners. In addition to incurring penalty points, the taxicab association or TNC is jointly and severally liable for each monetary penalty assessed against any for-hire driver or taxicab affiliated with the taxicab association or TNC. The City is not required to pursue collection of the penalty from the for-hire driver or the taxicab owner as a prerequisite to pursuing collection of the penalty from the taxicab association or TNC.
