1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

5 619

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM

VACATION OF EIGHTH AVENUE

2 689

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seat le for their approval or disapproval:

1. Access to First Hill and the Jacison-Rainier area will be reverted. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of th. study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

2 ~ 640

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

5 650

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

18. 660

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these dist .cts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

669

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election, and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

695

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM

VACATION OF EIGHTH AVENUE

703

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. [illegible] e protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approa[illegible] to Harborview County Hospital. A street can be constructed to serve the hospital.

3. Hi[illegible]h-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

712

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

17 722

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

731

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

766

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

7 775

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition, I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

834

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

813

8

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM

VACATION OF EIGHTH AVENUE

TO THE CITY COUNCIL, CITY OF SEATTLE:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

> The undersigned citizens respectfully urge that Eighth Avenue not be vacated until such time as this action has been approved by a vote of the people. First Hill has already been deprived of Marion Street, Columbia Street and Seventh Avenue for use as through streets. Additional streets should not be closed at this time.

Therefore, we the undersigned citizens of Seattle, Washington, and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February, 1965, entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle, and my residence is correctly stated.

VACATION OF EIGHTH AVENUE

14 832

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and ..e hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

4 863

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are elliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

872 1

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be giv away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

883

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition, I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

2 902

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

313

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit higher-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

921

To the City Council
City of Seattle:

Ordinance 93843 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropr ated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93843 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

942

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

VACATION OF EIGHTH AVENUE

950

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

930

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

10 971

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

983

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

1209

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit higher-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

VACATION OF EIGHTH AVENUE

5 1029

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition: I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit higher rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

4

1039

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM

VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

2355

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

1963

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

1072

10

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

1086 PETITION FOR REFERENDUM 10 1582

VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

10
1732

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

1107 13

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition: I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

3

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

8 1126

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

2 Tom Kelly

1156

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

1145

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM 12

VACATION OF EIGHTH AVENUE

2151

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

1270

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The result of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborv.. w County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election, and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

1183

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition, I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election, and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.
