PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

1

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Deparment's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

3

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

22

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

31

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election, and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

(9)

40

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

16 48

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the understimed citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

2 57

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

4 66

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

75 (5)

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

9 85

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

102

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al or petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

121

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

3 131

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election, and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

2

112

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit higher rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

5 152

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

171

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit higher buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (became height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM

VACATION OF EIGHTH AVENUE

16

179

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

5

187

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

196 11

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

204

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

15

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit higher rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM 5 213
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

221

3

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

231

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

257

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

257

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

282

14

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM

291

VACATION OF EIGHTH AVENUE

(1)

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

300

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

303

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

316

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election, and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

326

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

18 334

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

343

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to East Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

353

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

364

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

371

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

371

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election, and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFE[illegible]NDUM of the qualified electors of the City of Seattle at the [illegible]gular municipal election; and each of us for himself says: I have personally signed this Petition, I am a qualified and legal voter [illegible] City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

388

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electon of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM

VACATION OF EIGHTH AVENUE

397

To the City Council
City of Seattle:

10

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM

VACATION OF EIGHTH AVENUE

407

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

415

5

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

1 432

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

10

441

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM

18 451

VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

460

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

470

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

480

13

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval!

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

517

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

515

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

(13)

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit higher rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition, I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

524

(7)

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

10

510

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

559

(3)

To the City Council:
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

560 PETITION FOR REFERENDUM 558

VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 99643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be contracted to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 99643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM 4 559
VACATION OF EIGHTH AVENUE

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

569

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

579 | 5

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

583 5

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizen of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.

PETITION FOR REFERENDUM
VACATION OF EIGHTH AVENUE

597

To the City Council
City of Seattle:

Ordinance 93643 should be referred to the citizens of Seattle for their approval or disapproval:

1. Access to First Hill and the Jackson-Rainier area will be prevented. The city has appropriated funds for an over-all study of the street system in this area to link these districts. The results of the study are not complete. No streets should be given away until all the facts are known.

2. Fire protection and the hospital. This ordinance was passed in spite of the Fire Department's protest. It cuts off a much needed approach to Harborview County Hospital. A street can be constructed to serve the hospital.

3. High-rises, congestion, and view. This street closing will permit high-rise buildings in the area to go even higher (because height is limited by distance to the street and you are eliminating the street). Views will be blocked and the hospital area will become more congested.

4. Parking and traffic. The Harborview Hospital area is already congested to a critical degree. The street area has been used for parking until now. This ordinance permits a building to be built where the public right of way now is.

5. Therefore, we the undersigned citizens of Seattle, Washington and qualified voters of the City of Seattle, under the authority of the Charter of the City of Seattle, do hereby petition your honorable body to submit said Ordinance No. 93643 passed the 24th day of February 1965 entitled: An ordinance vacating Eighth Avenue et al on petition of Seattle Housing Authority.

TO A REFERENDUM of the qualified electors of the City of Seattle at the next regular municipal election; and each of us for himself says: I have personally signed this Petition; I am a qualified and legal voter of the City of Seattle; and my residence is correctly stated.
