Honorable City Council  
Seattle, Washington

Via Mayor Wes Uhlman

Gentlemen:

In furtherance of the recently-announced decision to construct wheelchair ramps on sewer separation projects already under contract, we request the appropriation of \$1,800 from the City Street Fund, City Engineer's City Street Fund Budget Item 6507 entitled "Miscellaneous Unforeseeable Projects", and the authority to construct wheelchair ramps in connection with the curb restoration on the following described projects:

South Columbian Way, N.I.P. No. 1,  
Sewer Separation Project Ordinance  
No. 100135 - approximately 11 crossings

Lake Washington Southwest, Contract  
#6, Sewer Separation Project  
Ordinance No. 99789 - approximately 2 crossings

Ballard Unit 1, Contract #3,  
Sewer Separation Project  
Ordinance No. 100081 - approximately 44 crossings

Estimates received from contractors indicate that the construction of ramps on these projects will cost substantially more than was recently agreed to by the contractor on the Lake Union project.

We also recommend that the legislation ratify and confirm prior acts done in connection therewith so that the respective contractors may be requested to do this work with the least possible delay.

We attach a list of the anticipated locations for such construction.
