Subject: 2025 Long-Term Overnight Vehicle Assignments

In accordance with Seattle Municipal Code (SMC) 3.126.010 and Executive Order 2018-05, attached is a list of City of Seattle vehicles assigned for long-term overnight use.

City departments issuing these assignments are responsible for ensuring that overnight vehicles are used in accordance with at least one of the criteria established in SMC 3.126.010, Section D:

- i. The relative cost of having an employee provide their own transportation (whether in automobile reimbursement or lost productive time) is greater than the cost associated with overnight vehicle use; or
- ii. Employees who, on a continuous basis, have primary supervisory responsibility (first called out) in case of an emergency and whose immediate response is required to save life or property, including employees and officials who have responsibilities of implementing the City's disaster plan, or
- iii. Employees who, on a continuous basis, are on call in case of an emergency and who require special tools and equipment carried in their assigned vehicles in order to perform their emergency duties.

The following table summarizes the number of City employees authorized to use vehicles overnight in 2024 and 2025. Detailed lists by department, position title, and vehicle ID for 2025 are provided below.
