REPORT OF COMMITTEE

Mr. President: *Judiciary and Dept. Efficiency* **FRANCHISE** Committee

Your *Petition* to which was referred the within would respectfully report that we have considered the same and respectfully recommend that *it be placed on file.*

Chairman

Oliver J. Erickson
CHAIRMAN
[Signature]

Balton

To the Honorable the City Council:

The undersigned residents of Seattle respectfully request you to take action concerning passenger transportation upon our streets. We are not interested in any existing transportation facility except as persons whose necessities require the use of such facilities as part of their daily life. We favor the maintenance of the best permanent and reliable means of street transportation which can be obtained at reasonable rates. The rates must be reasonable or we cannot pay them. The service must be adequate, reliable and permanent or we cannot afford it at any price.

At the present time we have two systems, the street railways and the "Jitneys." The railways for many years have operated for a maximum fare of five cents, have paid to the City annually 2% upon their gross railway receipts and have paid millions of dollars in taxes and for paving. The "Jitney" is a new comer and may be a "Speedy Goer" for all we know. It has only to pay a small license fee and execute a bond for \$2500 to pay damages if it injures any one and it is then authorized to operate without restriction or regulation as to service, rates or anything else. It is plain that where one of two competitors is subjected to strict regulation as to rates and service and the other to none, the first, which might otherwise give permanent and adequate service, may by unfair competition from the other be wrecked before time proves that the latter is only a costly experiment which must eventually fail and for which the public must finally pay, in one way or another. The raising of the "Jitney" rates during the recent snow storm, their abandonment of service on paved streets where street car tracks were not located and their interference with the street railways in the removal of snow from their tracks, whereby the higher "Jitney" fares were longer maintained demonstrated the need of "Jitney" regulations. You are the only body which can now provide such regulation. If "Jitney" service is not to be a permanent institution because they cannot operate if subjected to proper regulation as to rates and service then they should not be permitted to destroy or injure street railway service which is so regulated. In order to determine whether "Jitney" service is permanent it should be subjected to the test of proper regulation. We are vitally interested in the permanency of properly regulated street transportation because it is a necessity. We do not care who furnishes it, but we want it permanently and at reasonable rates and we do not want to lose or injure the certainty we have in our street railway service in order to experiment with an uncertainty which may at any time permanently fail.

We therefore respectfully pray that an ordinance be enacted for the regulation of "Jitneys" and that among other things they be required:

1. To operate on certain streets only and for certain maximum rates and from 6 A.M. to midnight of each day.
2. To refrain from operating longitudinally on streets on which street cars are operated if there be a paved street parallel with and within 600 feet on either side.
3. To refrain from allowing passengers to ride on the door or running board of any car or on or in an unsafe place.
4. To pay the same percentage on gross receipts street railways are required to pay.
5. To keep lights burning between dark and day-

every covered or enclosed car while such car is serving the public.

Respectfully,
