**Notice of Seattle City Council Public Hearing on the SR99 Tunnel Project  
Parking Mitigation Plan**

**Thursday, October 10, 2013, 5:30 p.m.  
City Council Chambers, City Hall, Floor 2  
600 4<sup>th</sup> Avenue, Seattle, WA 98104**

The Washington State Department of Transportation (WSDOT) and the City of Seattle are constructing and will continue to construct the Alaskan Way Viaduct Replacement Project (Project). The Final Environmental Impact Statement (FEIS) for the Project, prepared by the Federal Highway Administration, WSDOT and the City of Seattle Department of Transportation (SDOT), identified the loss of on-street, public parking as one of the environmental impacts caused by the construction of the Project; and provided that SDOT, in coordination with WSDOT, would develop and implement strategies to mitigate these impacts. In August 2011, the Federal Highway Administration issued a Record of Decision (ROD) for the Project with funds to mitigate the effects of Project construction

on parking, including funds to acquire existing off-street parking. As provided in the FEIS and ROD, WSDOT and SDOT developed the SR 99 Tunnel Project Parking Mitigation Plan ("Parking Mitigation Plan"). The Parking Mitigation Plan contains strategies to mitigate the loss of parking and specifically identifies building new or acquiring existing parking as a key strategy to mitigate the loss of short-term, on street parking in impacted neighborhoods, including the Central Waterfront and Pioneer Square neighborhoods.

This hearing is being held in conjunction with the City Council's consideration of [Council Bill 117933](#). Revised Code of Washington (RCW) 35.86.050 requires that the City Council hold a public hearing on the Parking Mitigation Plan prior to taking action on the Council Bill.

## **PUBLIC COMMENT**

For those wishing to provide in-person public comment at the hearings, sign-up sheets will be available outside the door to Council Chambers at 5:00 p.m.
