23.62.002 LAND USE CODE

thousand feet (4,000'). The inner approach surfaces extend for a horizontal distance of ten thousand feet (10,000') at a slope of fifty (50) horizontal to one (1) vertical.

D. The "Outer Approach Area" is defined as that area which lies directly below imaginary inclined surfaces (the "Outer Approach Surfaces") longitudinally centered on the extended runway centerline and extending outward and upward from the north and south outer edges of the inner approach surfaces. The inner edges of the outer approach surfaces are four thousand feet (4,000') wide and expand uniformly to a width of eight thousand feet (8,000'). The outer approach surfaces extend for a horizontal distance of forty thousand feet (40,000') at a slope of forty (40) horizontal to one (1) vertical.

E. The "Turning Area" is defined as that area which lies directly below an imaginary horizontal oval surface (the "Turning Surface") one hundred fifty feet (150') above the established airport elevation (which is seventeen feet (17') above sea level), the perimeter of which is constructed by swinging ten-thousand-foot (10,000') radii arcs from the center of the end of the primary surface and by connecting the adjacent arcs with parallel lines tangent to those arcs.

F. The "Conical Area" is defined as that area which lies directly below an imaginary surface (the "Conical Surface") which extends outward and upward from the periphery of the horizontal surface at a slope of twenty (20) horizontal to one (1) vertical for a horizontal distance of four thousand feet (4,000').

G. The "Transitional Areas" are defined as the areas which lie directly below the imaginary inclined surfaces (the "Transitional Surfaces") which extend outward and upward from the edges of the primary surface and the inner and outer approach surfaces. The transitional surfaces extend at a slope of seven (7) horizontal to one (1) vertical at right angles to the runway centerline and extension of the runway centerline. Transitional surfaces for those portions of the approach surfaces which project through and beyond the limits of the conical surface, extend a distance of five thousand feet (5,000') measured horizontally from the edge of the approach surface and at right angles to the runway centerline. Transitional surfaces for those portions of the inner approach surface and the primary surface extend up to the turning surface.

(Ord. 114561 § 1(part), 1989.)

23.64.006 Development standards.

A. No structure shall be erected, or altered, in any area defined in this section to a height in excess of the limits established in this chapter unless otherwise provided.

B. The maximum height permitted for structures and trees in each area shall be as follows, and shall be known as the height limits of the Airport Height Overlay District:

1. In Inner Approach Areas (IA), the boundaries of which are shown on the Official Airport Height Map, structures and trees shall not exceed the height of the Inner Approach Surface. This shall not restrict heights in Inner Approach Areas to less than thirty-seven feet (37').

2. In Outer Approach Areas (OA), the boundaries of which are shown on the Official Airport Height Map, structures and trees shall not exceed the height of the Outer Approach Surface.

3. In Turning Areas (TN), the boundaries of which are shown on the Official Airport Height Map, structures and trees shall not exceed the height of the Turning Surface. This shall not restrict heights in Turning Areas to less than sixty-five feet (65').

4. In Conical Areas (CA), the boundaries of which are shown on the Official Airport Height Map, structures and trees shall not exceed the height of the Conical Surface. This shall not restrict heights in Conical Areas to less than sixty-five feet (65').

5. In Transition Areas (TN), the boundaries of which are shown on the Official Airport Height Map, structures and trees shall not exceed the height of the inclined Transition Surfaces. This shall not restrict heights in Transition Areas to less than thirty-seven feet (37').

C. Trees exceeding the height limits of the Airport Height Overlay District shall not be required to be cut or trimmed to conform to the height limits of the Airport Height Overlay District unless the Director is notified by the Federal Aviation Administration (FAA) that the trees are a potential hazard to aviation.

(Ord. 114561 § 1(part), 1989.)

23.64.008 Application of regulations.

All properties located within the Airport Height Overlay District shall be subject to both the requirements of the underlying zone classification

(Seattle 3-92)

and to the requirements imposed for the Airport Height Overlay District. At no time shall the provisions of this chapter be read to modify the provisions of the underlying zoning, other overlay districts or special districts, except for height restrictions stated in this chapter. In any case where the provisions of the Airport Height Overlay District conflict with the provisions of the underlying zone, the more restrictive height limit shall apply.
(Ord. 114561 § 1(part), 1989.)

23.64.010 Special exception.

The Director may permit a structure to exceed the limits of the Airport Height Overlay District as a special exception pursuant to Chapter 23.76, Procedures for Master Use Permits and Council Land Use Decisions. Such an exception shall only be permitted if the Director finds that all of the following conditions exist:

- A. The Federal Aviation Administration advises the Director that the exception to the height limits does not create a hazard to aviation; and
- B. The additional height is necessary for the successful physical function of the structure; and
- C. The exception will not result in re-routing of aircraft; and
- D. The structure is designed to minimize adverse impacts of lighting on surrounding uses while complying with the lighting requirements of the Federal Aviation Administration.
(Ord. 114561 § 1(part), 1989.)

Subchapter I General Provisions

23.66.010 Establishment of special review districts.

The Council may establish special review districts by ordinance to control development in such districts.

(Ord. 112134 § 1(part), 1985.)

23.66.015 Procedure to establish, alter or abolish special review districts.

A petition to establish, alter or abolish a special review district shall be filed and considered in the same manner as amendments to the Official Land Use Map, Chapter 23.32. A petition or proposal to establish a special review district shall include a statement of purpose. The boundaries of a special review district shall be drawn on the Official Land Use Map.

(Ord. 112134 § 1(part), 1985.)

23.66.020 Special review boards.

A. The ordinance establishing a special review district may create a special review board. Unless otherwise specified, a special review board shall consist of seven (7) members. Five (5) of the members shall be chosen at annual elections, called and conducted by the Department of Neighborhoods Director, at which all residents, persons who operate businesses, their employees, and property owners of the special review district shall be eligible to vote. Two (2) of the members shall be appointed by the Mayor and confirmed by the Council. The Mayor shall, in making board appointments, attempt to assure that a diversity of interests in the district is represented on the board. The Department of Neighborhoods Director shall

provide twenty (20) days' notice of the board's first meeting in the City's official newspaper, by general mailed release, and by publishing notice in one (1) or more community newspapers which are circulated within the district. Thereafter, notice of annual meetings shall be provided to the public by the board's publication of notice in one (1) or more district community newspapers. The Council shall establish terms of service for members of a special review board in the ordinance creating the district. No person shall serve more than two (2) consecutive terms on a special review board.

B. Each special review board shall elect a chairperson and adopt procedures as required to conduct its business. Staff assistance to each special review board shall be provided by the Department of Neighborhoods Director. A majority of all members of the special review board shall constitute a quorum for the purpose of transacting business. All decisions shall be by majority vote of those members present. In the event of a tie vote, a motion shall be defeated. The special review board shall keep minutes of all of its official meetings which shall be maintained by the Department of Neighborhoods Director. The Department of Neighborhoods Director shall also maintain a copy of the procedures of the special review board.

C. When use and development standards for a special review district are not provided in the ordinance creating the district, the special review board shall recommend such standards pursuant to Section 23.66.025 of this chapter.

D. The special review board shall review applications for certificates of approval, and all petitions or applications for amendments to the Official Land Use Map, conditional uses, special exceptions, variances and planned unit developments or planned community developments and shall make a recommendation on any such application or petition to the Department of Neighborhoods Director.

E. The special review board may, in its discretion, make recommendations to the Mayor, the Council, and any public or private agency concerning land use and development in the district. (Ord. 116744 § 29, 1993; Ord. 112134 § 1(part), 1985.)

23.66.025 Use and development standards.

A. The Council may include use and development standards in the ordinance establishing a

special review district. If use and development standards are not included, the special review board may, after at least one (1) public hearing, recommend use and development standards for the special review district to the Department of Neighborhoods Director who shall recommend use and development standards to the Council. If the special review board fails to recommend use and development standards within ninety (90) days after its first meeting, the Department of Neighborhoods Director shall prepare use and development standards and recommend such standards to the Council. The Council shall consider proposed use and development standards in the same manner as Land Use Code text amendments. Use and development standards shall be adopted by ordinance and may thereafter be amended in the same manner as Land Use Code text amendments as provided in Chapter 23.94.

B. The use and development standards shall identify the unique characteristics of the district, shall include a statement of purpose and intent, and shall be consistent with the purposes for creating the special review district. The standards shall identify uses, structures and design features that have positive or negative effects upon the character of the district, and may modify use and development standards and other provisions of the Land Use Code to allow and encourage or to limit or exclude structures, designs, and uses. All provisions of the Land Use Code shall apply in special review districts. Use and development standards shall specify the criteria by which uses, structures and designs will be evaluated. In the event of irreconcilable differences between the use and development standards adopted pursuant to this chapter, and the provisions regulating the underlying zone, the provisions of this chapter shall apply.

C. The Department of Neighborhoods Director, following recommendation by the board, may adopt rules consistent with the use and development standards of the special review district, in accordance with Chapter 3.02 of the Seattle Municipal Code.

(Ord. 116744 § 30, 1993; Ord. 112134 § 1(part), 1985.)

23.66.030 Certificates of approval—Application, review and appeals.

A. Certificate of Approval Required. No person shall alter, demolish, construct, reconstruct, restore, remodel, make any visible change to the exterior appearance of any structure, or to the public rights-of-way or other public spaces in a special review district, and no one shall remove or substantially alter any existing sign or erect or place any new sign or change the principal use of any building, or any portion of a building, structure or lot in a special review district, and no permit for such activity shall be issued unless a certificate of approval has been issued by the Department of Neighborhoods Director.

B. Fees. The fees for certificates of approval shall be established in accordance with the requirements of the Permit Fee Ordinance, Chapter 22.900 of the Seattle Municipal Code.

C. Application.

1. An application for a certificate of approval may be filed with the special review board staff in the Department of Neighborhoods or with the Director or the Director of Engineering as part of a permit application. When a permit application is filed with the Director or with the Director of Engineering for work requiring a certificate of approval, he or she shall refer the application to the Department of Neighborhoods Director, and the application shall be considered an application for a certificate of approval.

2. After the special review board has given notice of the meeting at which an application for a certificate of approval will be considered, no other application for the same alteration or change of use may be submitted until the Department of Neighborhoods Director has approved or denied the existing application and all appeals have been concluded.

D. Review.

1. Review When No Special Review Board is Established.

a. When there is no special review board, the Department of Neighborhoods Director shall, within thirty (30) days of receipt of an application for a certificate of approval, determine whether the proposed action is consistent with the use and development standards for the district and shall, within fifteen (15) days, issue, issue with conditions or deny the requested certificate of approval.

(Seattle 9-93)

b. A copy of the Department of Neighborhoods Director's decision shall be sent to the Director and mailed to the owner and the applicant at the addresses provided in the application.

2. Review When Special Review Board is Established.

a. When a special review board has been established, the board shall hold a public meeting to receive comments on certificate of approval applications.

b. Notice of the board's public meeting shall be posted in two (2) prominent locations in the district at least three (3) days prior to the meeting.

c. The board, after reviewing the application and considering the information received at the public meeting, shall make a written recommendation to the Department of Neighborhoods Director to grant, grant with conditions, or deny the certificate of approval application based upon the consistency of the proposed action with the requirements of this chapter, the district use and development standards, and the purposes for creating the district. The board shall make its recommendation within thirty (30) days of the receipt of a completed application by the board staff. The Department of Neighborhoods Director may extend this thirty (30) day period for cause, and shall advise the board and the applicant in writing of the length of time of the extension.

d. The Department of Neighborhoods Director shall, within fifteen (15) days of receiving the board's recommendation, issue or deny a certificate of approval or issue an approval with conditions.

e. A copy of the decision shall be sent to the Director and mailed to the owner and the applicant at the addresses provided in the application.

3. A decision denying a certificate of approval shall state the specific reasons for the denial and explain why the proposed changes are inconsistent with the requirements of this subchapter and adopted use and development standards for the district.

E. Appeal to Hearing Examiner.

1. Any interested person may appeal the decision of the Department of Neighborhoods Director to the Hearing Examiner by filing a notice of appeal within fourteen (14) days of the Department of Neighborhoods Director's decision.

The Hearing Examiner shall hear the appeal de novo in accordance with the standards and procedures established for Hearing Examiner appeals by Chapter 3.02 of the Seattle Municipal Code. Appeals shall be limited to the issues cited in the notice of appeal. The decision appealed may be reversed or modified only if the Hearing Examiner finds that the Department of Neighborhoods Director's decision was arbitrary and capricious.

2. If evidence is presented to the Hearing Examiner that was not presented to the board, or if the Hearing Examiner determines that additional information is required, then the Hearing Examiner shall remand the decision to the Department of Neighborhoods Director for consideration of the additional information or evidence.

3. The decision of the Hearing Examiner shall be final. Copies of the Hearing Examiner's decision shall be mailed to all parties of record.

F. Revocation of Certificates of Approval. Building construction, remodeling, restoration, renovation, removal, demolition and use shall conform to the requirements of the certificate of approval granted by the Department of Neighborhoods Director. Approval may be revoked for failure to comply with this chapter, the ordinance creating the district, or the conditions of the certificate of approval.

G. Expiration of Certificates of Approval. Certificates of approval shall expire one (1) year from the date of issuance unless the Department of Neighborhoods Director determines that extenuating circumstances justify extension of the expiration date.

(Ord. 116744 § 31, 1993; Ord. 112134 § 1(part), 1985.)

23.66.035 Other land use decisions.

The Director and the Department of Neighborhoods Director shall deliver copies of petitions for amendments to the Official Land Use Map, copies of applications for planned unit developments and planned community developments, and copies of applications for conditional uses, special exceptions, and variances which affect property within a special review district, to the appropriate special review board for its recommendation. The special review board shall submit any recommendations in writing within thirty (30) days of receipt of copies of the application.

(Ord. 116744 § 32, 1993; Ord. 112134 § 1(part), 1985.)

23.66.040 Enforcement and penalties.

Enforcement of the provisions of this chapter shall be pursuant to Chapter 23.90 of this Land Use Code.

(Ord. 112134 § 1(part), 1985.)

Subchapter II Pioneer Square Preservation District

Part 1 General Purpose and Organization

23.66.100 Creation of district, legislative findings and purpose.

A. During The City of Seattle's relatively brief history, it has had little time in which to develop areas of consistent historical or architectural character. It is recognized that the Pioneer Square area of Seattle contains many of these rare attributes and consequently is an area of great historical and cultural significance. Further, the King County domed stadium (Kingdome), constructed in the Pioneer Square area, and the traffic and activities which it generates has resulted in adverse impacts upon the social, cultural, historic and ethnic values of the Pioneer Square area. To preserve, protect, and enhance the historic character of the Pioneer Square area and the buildings therein; to return unproductive structures to useful purposes; to attract visitors to the City; to avoid a proliferation of vehicular parking and vehicular-oriented uses; to provide regulations for existing on-street and off-street parking; to stabilize existing, and encourage a variety of new and rehabilitated housing types for all income groups; to encourage the use of transportation modes other than the private automobile; to protect existing commercial vehicle access; to improve visual and urban relationships between existing and future buildings and structures, parking spaces and public improvements within the area; and to encourage pedestrian uses, there is established as a special review district, the Pioneer Square Preservation District. The boundaries of the District are shown on Map A¹ and on the Official Land Use Map.

B. The District shall consist of an historic core and a buffer zone, as depicted on Map A.¹ All property in the entire District shall be developed and used in accordance with the use and develop-

ment standards established in this chapter and the use and development standards for the underlying zone in which the property is located. In the event of irreconcilable differences between the use and development standards of this chapter and other provisions of this Land Use Code, the provisions of this chapter shall apply.

C. Reasons for Designating the Pioneer Square Preservation District.

1. Historic Significance. The Pioneer Square Preservation District is unique because it is the site of the beginning of The City of Seattle. The area also retains much of the original architecture and artifacts of its early history. The District has played a significant role in the development of Seattle, the Puget Sound region and the State of Washington. It was the first location of industry, business and homes in early Seattle and the focus of commerce and transportation for more than a half century.

2. Architectural Significance. As a collection of late nineteenth and early twentieth-century buildings of similar materials, construction techniques and architectural style, the District is unique, not only to the City but to the country as well. Most of the buildings within the District embody the distinctive characteristics of the Late Victorian style. Many buildings are the work of one architect, Elmer H. Fisher. For these and other reasons, the buildings combine to create an outstanding example of an area that is distinguishably in style, form, character and construction representative of its era.

3. Social Diversity. The District represents an area of unique social diversity where people from many income levels and social strata live, shop and work. It is an area in which social services, including missions, low-income housing and service agencies exist.

4. Business Environment. The District is an area of remarkable business diversity. The street level of the historic core is pedestrian-oriented, with its storefronts occupied primarily by specialty retail shops, art galleries, restaurants and taverns. The upper floors of buildings in the historic core are occupied by professional offices, various types of light manufacturing, and housing for persons of many income groups. The buffer zone is made up predominantly of light manufacturing and warehousing uses. The ongoing restoration and sensitive rehabilitation of many Dis-

(Seattle 9-93)

district structures, combined with proposed compatible new construction will continue to enhance the District's economic climate.

5. **Educational Value.** The restoration and preservation of the District will yield information of educational significance regarding the way of life and the architecture of the late nineteenth-century as well as adding interest and color to the City. Restoration of the District will preserve the environment which was characteristic of an important era of Seattle's history.

6. **Geographic Location.** The District is uniquely situated adjacent to Seattle's waterfront, the central business district, the International District, and the King County domed stadium. (Ord. 112134 § 1(part), 1985.)

1. Editor's Note: Map A is codified at the end of this chapter.

23.66.110 Responsible agency.

A. A special review board for the Pioneer Square Preservation District is created and shall be known as the "Pioneer Square Preservation Board" (hereafter, the "Board" or the "Preservation Board"). The Preservation Board shall be composed of nine (9) members, all of whom shall be appointed by the Mayor and confirmed by the Council, and shall consist of two (2) architects, two (2) owners of property in the District, one (1) District retail business owner, one (1) attorney, one (1) human service representative, one (1) at-large member, and one (1) historian or architectural historian. At least one (1) of the Board's members shall be a resident of the District. Appointments shall be for terms of three (3) years each, except that initial appointments shall be staggered so that three (3) of the appointees shall serve for three (3) years, three for two (2) years, and three (3) for one (1) year each. All members of the Pioneer Square Preservation Board, established by Ordinance 110058¹, are appointed and confirmed as interim members of the Pioneer Square Preservation Board and shall serve until appointments pursuant to this chapter have been completed. Members of the Preservation Board shall serve without compensation.

B. The Department of Neighborhoods Director shall provide staff and clerical support for the Preservation Board and shall assign a member of the Department's staff to act as Preservation Board Coordinator. The Coordinator shall be the custodian of the Board's records,

handle official correspondence, and organize and supervise the Board's clerical and technical work. The Coordinator shall also recommend to the Preservation Board such actions, policies, rules and regulations as may be necessary to carry out the purposes of this chapter.

C. The Department of Neighborhoods Director, after receiving the Board's recommendations, shall formulate detailed rules, to be adopted after a public hearing pursuant to Chapter 3.02 of this Code, which will clarify the use and development standards for the District.

(Ord. 116744 § 33, 1993; Ord. 112134 § 1(part), 1985.)

1. Editor's Note: Ord. 110058 was repealed by Ord. 112134.

23.66.115 Demolition approval.

A. Demolition or removal of buildings or other structures in the District is prohibited unless approved by the Department of Neighborhoods Director. Except as provided in subsection B below, no approval shall be given for building demolition or removal unless the following prerequisites are met:

1. The Director of Neighborhoods, following a recommendation by the Preservation Board, determines that the building or structure has no architectural or historic significance; and

2. Use and design of the replacement structure has been approved by the Department of Neighborhoods Director; and

3. Proof acceptable to the Department of Neighborhoods Director of a valid commitment for interim and long-term financing for the replacement structure has been secured. In addition to other proof, the Department of Neighborhoods Director may accept a bond, letter of credit or cash deposit as a demonstration that the project has adequate financial backing to ensure completion; and

4. Satisfactory arrangements have been made for retention of any part of the structure's facade which the Department of Neighborhoods Director, following a recommendation by the Preservation Board, determines to be significant; and

5. Satisfactory assurance is provided that new construction will be completed within two (2) years of demolition.

B. When demolition or removal of a building or other structure in the District is essential to protect the public health, safety and welfare or when

23.66.115 LAND USE CODE

the purposes of this ordinance will be furthered by the demolition or removal, then the Director of Neighborhoods, following review and recommendation by the Board, may authorize such demolition or removal whether the prerequisites of this section are satisfied or not. (Ord. 116744 § 34, 1993; Ord. 112134 § 1(part), 1985.)

Part 2 Use and Development Standards

23.66.120 Permitted uses.

A. All uses are permitted outright except those that are specifically prohibited by Section 23.66.122 and those that are subject to special review as provided in Section 23.66.124.

B. All uses not specifically prohibited are permitted as both principal and accessory uses except:

1. Gas stations, which shall be permitted as accessory uses only in parking garages; and
2. Principal use parking garages, which shall be permitted only after special review by the Preservation Board pursuant to Section 23.66.124 of this chapter. Accessory parking garages shall be permitted outright.

C. Essential Public Facilities. Permitted essential public facilities shall also be reviewed according to the provisions of Chapter 23.80, Essential Public Facilities. (Ord. 117430 § 79, 1994; Ord. 112134 § 1(part), 1985.)

23.66.122 Prohibited uses.

A. 1. The following uses are prohibited in the entire District as both principal and accessory uses:

- Retail ice dispensaries;
- Plant nurseries;
- Frozen food lockers;
- Animal services;
- Automotive retail sales and service, except gas stations located in parking garages;
- Marine retail sales and service;
- Heavy commercial services;
- Fuel sales;
- Sales, service and rental of commercial equipment and construction materials;
- Adult motion picture theaters;
- Adult panorams;
- Bowling alleys;
- Skating rinks;
- Communication utilities;

- Advertising signs and off-premises directional signs;
- Transportation facilities, except passenger terminals;
- Outdoor storage;
- Jails;
- Work-release centers.

2. Commercial uses which are vehicle-oriented shall be prohibited in the area of the District identified on Map B.¹ Such uses include, but are not limited to the following:

- Drive-in businesses, except gas stations accessory to parking garages;
- Principal and accessory surface parking areas not in existence prior to August 10, 1981;

Motels.

B. All general and heavy manufacturing uses, salvage and recycling uses except recycling collection stations, and all high-impact uses are prohibited both as principal and as accessory uses.

C. Discouraged Street-level uses.

1. The following uses are discouraged at street level in the area designated on Map D:²

- a. Any use occupying more than fifty percent (50%) of any block frontage;
- b. Retail sales and services over three thousand (3,000) square feet and all other uses over ten thousand (10,000) square feet;
- c. Administrative offices and medical services which comprise more than twenty percent (20%) of any block frontage;
- d. Parking garages which are not accessory to preferred uses.

2. Discouraged uses may be approved by the Department of Neighborhoods Director after review and recommendation by the Preservation Board if an applicant demonstrates that the proposed use is compatible with uses preferred at street level.

D. Approved street-level uses in the area designated on Map D² shall be subject to the following conditions:

1. No use may occupy more than fifty percent (50%) of the street-level frontage of a block that is twenty thousand (20,000) square feet or more in area;
2. Human service uses and personal service establishments, such as hair cutting and tanning salons, may not exceed twenty-five per-

(Seattle 3-95)

cent (25%) of the total street-level frontage of any block front.

E. The following uses shall be prohibited at street level in the area designated on Map D:²

- Wholesale showrooms;
- Vocational and fine arts schools;
- Radio and television studios;
- Taxidermy shops;
- Appliance repair shops;
- Upholstery establishments;
- Miniwarehouses;
- Warehouses;
- Other similar uses.

F. The street-level location of entrances and exits of all vehicular-oriented uses, where permitted, shall be approved by the Department of Neighborhoods Director after review and recommendation by the Preservation Board. View-obscuring screening may be required as needed to reduce adverse visual impacts on the immediate area.

(Ord. 116744 § 35, 1993; Ord. 114623 § 16, 1989; Ord. 112777 § 33, 1986; Ord. 112303 § 6, 1985; Ord. 112134 § 1(part), 1985.)

1.Editor's Note: Map B is codified at the end of this chapter.

2.Editor's Note: Map D is codified at the end of this chapter.

23.66.124 Uses subject to special review.

A. Principal-use parking garages for long-term parking in areas designated on Map C,¹ and principal-use short-term parking garages at any location, shall require approval of the Department of Neighborhoods Director after review and recommendation by the Preservation Board.

B. A principal-use parking garage may be permitted if the following conditions are met:

1. The use will not increase the ambient noise level in existing residences within line of sight of the proposed parking structure; and
2. Exterior materials, height, wall openings and fenestration will reflect, to the extent possible, the character of the adjoining structures or structures on the adjoining block facing the site; and
3. Access will comply with the standards provided in Section 23.66.170 of this chapter; and
4. Automobile circulation within the garage will not be visible from the adjoining public streets.

C. Uses at the street level of approved parking garages shall be limited to those uses permitted in

the area, other than parking, to a minimum depth of twenty feet (20') along all street frontages, and along alleys and malls which are limited solely to pedestrian use.

(Ord. 116744 § 36, 1993; Ord. 112134 § 1(part), 1985.)

1.Editor's Note: Map C is codified at the end of this chapter.

23.66.130 Street-level uses.

A. Uses at street level in the area designated on Map D¹ shall require the approval of the Department of Neighborhoods Director after review and recommendation by the Preservation Board.

B. Preferred Street-Level Uses.

1. Preferred uses at street level shall be highly visible and pedestrian oriented. Preferred street-level uses either display merchandise in a manner that contributes to the character and activity of the area, and/or promote residential uses, including but not limited to the following uses:

a. Art galleries, restaurants and other retail sales and service uses under three thousand (3,000) square feet in size;

b. Theaters.

2. Accessory parking garages which serve preferred street-level uses on streets or malls, parks or alleys designed for pedestrian uses shall also be preferred.

C. Discouraged Street-Level Uses.

1. The following uses are discouraged at street-level in the area designated on Map D:¹

a. Any use occupying more than fifty percent (50%) of any block frontage;

b. Retail sales and services over three thousand (3,000) square feet and all other uses over ten thousand (10,000) square feet;

c. Professional services establishments or offices which comprise more than twenty percent (20%) of any block frontage;

d. Parking garages which are not accessory to preferred uses.

2. Discouraged uses may be approved by the Department of Neighborhoods Director after review and recommendation by the Preservation Board if an applicant demonstrates that the proposed use is compatible with uses preferred at street level.

D. Conditions on Street-Level Uses. Approved street level uses in the area designated on Map D¹ shall be subject to the following conditions:

1. No use may occupy more than fifty percent (50%) of the street-level frontage of a block that is twenty thousand (20,000) square feet or more in area;

2. Human service uses and personal service establishments, such as hair cutting and tanning salons, may not exceed twenty-five percent (25%) of the total street-level frontage of any block front.

E. The following uses shall be prohibited at street-level in the area designated on Map D:¹

- Wholesaling, storage and distribution uses;
- Vocational and fine arts schools;
- Research and development;
- Radio and television studios;
- Taxidermy shops;
- Appliance repair shops;
- Upholstery establishments;
- Other similar uses.

F. The street-level location of entrances and exits of all vehicular-oriented uses, where permitted, shall be approved by the Department of Neighborhoods Director after review and recommendation by the Preservation Board. View-obscuring screening may be required as needed to reduce adverse visual impacts on the immediate area.

(Ord. 116744 § 37, 1993; Ord. 112134 § 1(part), 1985.)

1.Editor's Note: Map D is codified at the end of this chapter.

23.66.132 Council conditional uses.

City facilities and public projects which do not meet use and development standards may be permitted by the Council pursuant to Chapter 23.80 of this Land Use Code.

(Ord. 112134 § 1(part), 1985.)

23.66.140 Height.

A. Maximum Height. Maximum structure height shall be as designated on the Official Land Use Map, Chapter 23.32.

B. Minimum Height. No structure shall be erected or permanent addition added to an existing structure which would result in the height of the new structure totaling less than the minimum height established by Map G.¹ Height of the structure is to be measured from mean street level

fronting on the property to the mean roofline of the structure.

C. Rooftop Features. The height limits established for the rooftop features described in this subsection may be increased by the average height of the existing street parapet or a historically substantiated reconstructed parapet on the building on which the rooftop feature is proposed. The setbacks required for rooftop features may be modified by the Department of Neighborhoods Director, after a sight line review by the Preservation Board to ensure that the features are minimally visible from public streets and parks within three hundred feet (300') of the structure.

1. Radio and television receiving antennas excluding dishes, religious symbols such as belfries or spires and that portion of the roof which supports them, smokestacks and flagpoles may extend up to fifty feet (50') above the roof of the structure or the maximum height limit, whichever is less, except as regulated in Chapter 23.64 of this Land Use Code, provided that they are a minimum of ten feet (10') from all lot lines.

2. Open railings, planters, clerestories, skylights, play equipment, parapets and firewalls may extend up to four feet (4') above the roof of the structure or the maximum height limit, whichever is less, with unlimited rooftop coverage.

3. Solar collectors, excluding greenhouses, may extend up to seven feet (7') above the roof of the structure or the maximum height limit, whichever is less, with unlimited rooftop coverage, provided they are a minimum of ten feet (10') from all lot lines.

4. The following rooftop features may extend up to eight feet (8') above the roof or maximum height limit, whichever is less, when they are set back a minimum of fifteen feet (15') from the street and three feet from an alley. They may extend up to twelve feet (12') above the roof when set back a minimum of thirty feet (30') from the street. A setback may not be required at common wall lines subject to review by the Preservation Board and approval by the Department of Neighborhoods Director. The combined coverage of the following listed features shall not exceed fifteen percent (15%) of the roof area:

- Solar collectors, excluding greenhouses;
- Stair and elevator penthouses;
- Mechanical equipment;

(Seattle 9-93)

- Dish antennas.
- 5. Residential and Office Penthouses.

a. Residential penthouses may cover a maximum of fifty percent (50%) of the total roof surface and may extend up to eight feet (8') above the roof when set back a minimum of fifteen feet (15') from the street property line, or twelve feet (12') above the roof when set back a minimum of thirty feet (30') from the street property line.

b. Office penthouses shall be permitted only when the footprint of the existing structure is greater than ten thousand (10,000) square feet and the structure is at least sixty feet (60') in height. When permitted, office penthouses shall be set back a minimum of fifteen feet (15') from all property lines and may cover a maximum of fifty percent (50%) of the total roof surface. Office penthouses may extend up to twelve feet (12') above the roof of the structure and shall be functionally integrated into the existing structure.

c. The combined height of the structure and a residential penthouse or office penthouse, where permitted, shall not exceed the maximum height limit for that area of the District in which the structure is located.

D. New Structures. When new structures are proposed in the District, the Preservation Board shall review the proposed height of the structure and make recommendations to the Department of Neighborhoods Director who may require design changes to assure reasonable protection of views from Kobe Terrace Park.

(Ord. 116744 § 38, 1993; Ord. 112303 § 7, 1985; Ord. 112134 § 1(part), 1985.)

1.Editor's Note: Map G is codified at the end of this chapter.

23.66.150 Maximum setbacks.

Structures located in the area designated on Map E¹ shall cover the full width of the lot along street property lines and shall abut upon street property lines, although interior open spaces may be permitted by the Department of Neighborhoods Director following review and recommendation by the Preservation Board.

(Ord. 116744 § 39, 1993; Ord. 112134 § 1(part), 1985.)

1.Editor's Note: Map E is codified at the end of this chapter.

23.66.155 Waiver of common recreation area requirements.

The Director of Neighborhoods, after review and recommendation by the Preservation Board, may waive or reduce the common recreation area required by the underlying zoning or modify the required standards for common recreation area under the following conditions:

A. Allocation of all or a portion of the required gross floor area would adversely affect the visual character of the structure or the District; or

B. Common recreation area requirements would adversely affect the economic feasibility of the project; or

C. It can be shown that the project is reasonably served by existing public or private recreation facilities located nearby.

(Ord. 116744 § 40, 1993; Ord. 112134 § 1(part), 1985.)

23.66.160 Signs.

A. The following signs shall be prohibited throughout the Pioneer Square Preservation District:

Permanently affixed, free-standing signs (except those used to identify areas such as parks);

Roof signs;

Billboards;

Electric signs, excluding neon signs.

B. All flags and banners shall be subject to Preservation Board review, and approval of the Department of Neighborhoods Director.

C. To ensure that flags, banners and signs are of a scale, color, shape and type compatible with the character of the District and the buildings in the district and to ensure that the messages of signs are not lost through undue proliferation or competition with other signs, and to enhance views and sight lines into and down streets, the overall design of a sign including size, shape, typeface, texture, method of attachment, color, graphics and lighting, shall be reviewed by the Board. Building owners shall be encouraged to develop an overall signage plan for their entire buildings. In determining the appropriateness of signs, the Preservation Board shall consider the following:

1. Signs Attached or Applied to Structures.

a. The relationship of the shape of the proposed sign to the architecture of the building and with the shape of other approved signs;

b. The relationship of the texture of the proposed sign to the building for which it is proposed, and with other approved signs;

c. The possibility of physical damage to the structure and the degree to which the method of attachment would conceal or disfigure desirable architectural features or details of the structure. The method of attachment shall be approved by the Director;

d. The relationship of the proposed colors and graphics with the colors of the building and with other approved signs;

e. The relationship of the proposed sign with existing lights and lighting standards, and with the architectural and design motifs of the building;

f. Whether the proposed sign lighting will detract from the character of the building; and

g. The compatibility of the colors and graphics of the proposed sign with the character of the District.

2. Wall signs painted on or affixed to a building shall not exceed ten percent (10%) of the total area of the facade or two hundred forty (240) square feet, whichever is less. Area of original building finish visible within the exterior dimensions of the sign (e.g., unpainted brick) shall not be considered when computing the sign's area.

3. Signs not attached to structures shall be compatible with adjacent structures and with the District generally.

4. When determining the appropriate size of a sign the Board and the Department of Neighborhoods Director shall consider the purpose of the sign and the character and scale of buildings in the immediate vicinity, the character and scale of the building for which the sign is proposed, the proposed location of the sign on the building's exterior, and the total number and size of signs proposed or existing on the building, as well as the type of sign proposed (e.g., informational, theater marquees, building identification, business identification, address or hours-open signing).

5. Signing displayed on the valance of awnings, canopies or marquees shall be limited to identification of the name or address of the building or of an establishment located in the building.

6. Projecting signs, neon signs, signs which appear to be in motion, and signs with

flashing, running or chaser lights may be recommended only if the Preservation Board determines that all other criteria for permitted signs have been met and that historic precedent, locational or visibility concerns of the business for which the signing is proposed warrant such signing.

D. Temporary Signs.

1. The following signs may be permitted for six (6) months or less if their design, location, shape, size, color and graphics are approved by the Department of Neighborhoods Director after review and recommendation by the Preservation Board:

a. Signs for shows, political campaigns and other special events;

b. Temporary, non-illuminated signs advertising real estate "For Sale or Lease" or announcing contemplated construction or improvements to the structure on the property;

c. Temporary signs erected in connection with new construction work and displayed on the premises only during such time as the actual construction work is in progress.

2. Temporary signs required by law shall be permitted.

(Ord. 116744 § 41, 1993; Ord. 112134 § 1(part), 1985.)

23.66.170 Parking and access.

A. Parking shall be required in the Pioneer Square Preservation District, according to Section 23.49.016 of this Land Use Code.

B. To mitigate the potential impacts of required accessory parking and loading on the District, the Director of Neighborhoods, after review and recommendation by the Preservation Board, may waive or reduce required parking or loading in the following circumstances:

1. After incorporating high-occupancy-vehicle alternatives such as carpools and vanpools, required parking spaces exceed the net usable space in all below-grade floors; or

2. Reasonable application of the parking or loading standards will adversely affect the visual character of the District.

(Seattle 9-93)

C. When parking is provided it shall be subject to the requirements of Section 23.54.030 of this Land Use Code.

D. Standards for Location of Access to Parking.

1. Access to parking and loading from alleys, and from streets which generally run east/west, is preferred to access from Avenues. When a lot abuts more than one (1) right-of-way, the location of access shall be determined by the Department of Neighborhoods Director in consultation with the Director of Engineering. This determination shall be made according to the traffic classification of the street, depicted on Map F.¹ Access shall be from rights-of-way classified as follows, from the most to least preferred, except when the Department of Neighborhoods Director, following review and recommendation by the Board, determines that access from the preferred right-of-way would create a hazardous condition:

- Alleys;
- Access streets;
- Class II pedestrian streets—minor arterial;
- Class II pedestrian streets—principal arterial;
- Class I pedestrian streets—minor arterial;
- Class I pedestrian streets—principal arterial;
- Principal transit street;
- Street parks.

2. Curbcut width and the number of curbcuts permitted per street frontage shall be governed by Section 23.54.030 of this Land Use Code.

3. The street-level location of entrances and exits of all parking garages, where permitted, shall be permitted only if approved by the Department of Neighborhoods Director after review and recommendation by the Preservation Board. View-obscuring screening may be required as needed to reduce adverse visual impacts on the immediate area.

(Ord. 116744 § 42, 1993; Ord. 113279 § 31, 1987; Ord. 112519 § 39, 1985; Ord. 112134 § 1(part), 1985.)

1.Editor's Note: Map F is codified at the end of this chapter.

23.66.180Exterior building design.

To complement and enhance the historic character of the District and to retain the quality and continuity of existing buildings, the following requirements shall apply to exterior building design:

A. Materials. Unless an alternative material is approved by the Department of Neighborhoods Director following Board review and recommendation, exterior building facades shall be brick, concrete tinted a subdued or earthen color, sandstone or similar stone facing material commonly used in the District. Aluminum, painted metal, wood and other materials may be used for signs, window and door sashes and trim, and for similar purposes when approved by the Department of Neighborhoods Director as compatible with adjacent or original uses, following Board review and recommendation.

B. Scale. Exterior building facades shall be of a scale compatible with surrounding structures. Window proportions, floor height, cornice line, street elevations and other elements of the building facades shall relate to the scale of the buildings in the immediate area.

C. Awnings. Awnings shall be functional, serving as weather protection for pedestrians at street level, and shall overhang the sidewalk a minimum of five feet (5'). Awnings may be permitted on upper floors for the purpose of climate control. All awnings shall be of a design compatible with the architecture of buildings in the area.

(Ord. 116744 § 43, 1993; Ord. 112134 § 1(part), 1985.)

23.66.190Streets and sidewalks.

A. Review by the Preservation Board shall be required before any changes are permitted to sidewalk prism lights, sidewalk widths or street paving and curbs.

B. New access to underground areaways shall be limited to access from buildings, except that new access through the sidewalks shall be permitted where stair access existed at any time prior to September 17, 1981, or as approved by the Department of Neighborhoods Director after review and recommendation by the Preservation Board.

(Ord. 116744 § 44, 1993; Ord. 112134 § 1(part), 1985.)

For current SMC, contact the Office of the City Clerk

Subchapter III International Special Review District

(Ord. 112134 § 1(part), 1985.)

1.Editor's Note: Map A is codified at the end of this chapter.

Part 1 General Purposes and Organization

23.66.302 International Special Review

District goals and objectives.

The International District is the urban focal point for the Asian American community. The International Special Review District is established to promote, preserve and perpetuate the cultural, economic, historical, and otherwise beneficial qualities of the area, particularly the features derived from its Asian heritage, by:

A. Reestablishing the District as a stable residential neighborhood with a mixture of housing types;

B. Encouraging the use of street-level spaces for pedestrian-oriented retail speciality shops with colorful and interesting displays;

C. Protecting the area and its periphery from the proliferation of parking lots and other automobile-oriented uses;

D. Encouraging the rehabilitation of existing structures;

E. Improving the visual and urban design relationships between existing and future buildings, parking garages, open spaces and public improvements within the International District;

F. Exercising a reasonable degree of control over site development and the location of off-street parking and other automobile-oriented uses; and

G. Discouraging traffic and parking resulting from Kingdome events and commuters working outside the District.

All property within the International Special Review District, as designated on the Official Land Use Map, shall be subject to the use and development standards of the underlying zoning and the applicable use and development standards of this chapter. In the event of irreconcilable differences between the use and development standards of this chapter and the provisions of the underlying zone or other chapters of the Seattle Municipal Code or other City ordinances, the provisions of this chapter shall apply. The boundaries of the International Special Review District are shown on the Official Land Use Map, and on Map A,¹ International Special Review District Boundaries, included at the end of this subchapter.

(Seattle 9-93)

23.66.304 International District Mixed (IDM) Zone goals and objectives.

The IDM zone designation shall recognize and promote the area's unique social mix and urban design character. This area is the core of the International District which exemplifies Asian culture. A wide range of uses, including street-level retail, housing development above street level, and the rehabilitation of existing buildings, shall be encouraged. New residential uses and the rehabilitation of existing structures shall be encouraged to provide a diversity of residential opportunities. Specific objectives include the following:

A. To maintain and protect the International District core as an Asian cultural, retail and residential center;

B. To allow flexibility and discretion in land use controls, regulations and guidelines to address present conditions and those which may develop in the future;

C. To protect, preserve and promote small retail and commercial businesses;

D. To encourage development of housing above street level;

E. To encourage the rehabilitation of existing buildings; and

F. To assure new development compatible in scale and character with existing buildings.

(Ord. 112519 § 40, 1985: Ord. 112134 § 1(part), 1985.)

23.66.306 International District Residential (IDR) Zone goals and objectives.

The International District residential area shall be predominantly a residential neighborhood with primarily residential uses. Other compatible uses shall be permitted to the extent that they reinforce and do not detract from the primary use of the area. The IDR designation and the regulations of the International Special Review District shall recognize and promote the area's unique social and urban design character. Special objectives include:

A. The establishment of the International District hilltop as one of downtown's predominant residential neighborhoods;

B. The development of flexible land use controls, regulations and guidelines to address present conditions and those which may develop in the future;

C. The design, siting, and construction of structures which minimize view blockage from Kobe Terrace Park and from existing structures which are used primarily for residential purposes;

D. The design, siting and construction of structures which insure reasonable solar exposure and air circulation to adjacent properties;

E. The design, siting and construction of structures that are aesthetically compatible with the area's steep topography and/or nearby public open spaces.

(Ord. 112519 § 41, 1985; Ord. 112134 § 1(part), 1985.)

23.66.308 International district goals and objectives east of the interstate 5 Freeway.

Preferred uses for that portion of the International District that lies east of the Interstate 5 Freeway include residential uses, small-scale commercial processing of food for human consumption, and custom and craft work. Processing of food and the production of arts and crafts with an Asian emphasis are preferred. Permitted uses should contribute to the International District's business core or to the function and purposes of the International District.

(Ord. 112134 § 1(part), 1985.)

23.66.310 Union Station Corridor goals and objectives.

The Union Station Corridor is that area bounded by Yesler Way, Fifth Avenue, Airport Way South, and Fourth Avenue. The City, in cooperation with Metro, local property owners and the affected community, should attempt to formulate a strategy for the redevelopment of the Union Station Corridor in coordination with the Downtown Transit Project. Specific objectives for a Planned Community Development in the Union Station Corridor include the following:

A. Preservation. The historic Union Station structure should be retained and rehabilitated with consideration given to a mix of private and public uses.

B. Uses. Development in the Corridor should incorporate a mix of uses, such as office, housing, hotel and retail uses in conformance with the IDM Zone designation and the regulations of the International Special Review District. Retention of existing low-income housing should be given a high priority. Consideration should be given to the inclusion of public open space and public uses serving the community.

C. Planned Community Development. The provisions of Section 23.49.036, Planned Community Developments, shall apply in the area. This procedure shall allow projects to modify the provisions of the IDM designation as long as the entire project is in conformance. All planned community developments shall be reviewed by the International Special Review District Board which shall make a recommendation to the Department of Neighborhoods Director.

D. Open Space. Public open space should be included in the development plan for the area. Consideration should be given to the development of a linear open space along Fifth Avenue south of Jackson Street and of a major focal point at the west end of King Street.

E. Parking. A major parking facility should be considered for development in the area south of the Union Station building. The number of parking spaces provided should be sufficient to meet the requirements for development in the corridor, as well as to contribute to the long-range needs of the International District.

F. Scale. Building height and bulk should conform to the IDM Zone designation and the regulations of the International Special Review District. Development south of Jackson Street should preserve the Union Station building as the dominant structure.

G. View Corridors. Views from Jackson and King Streets should be retained.

H. Pedestrian Environment. To integrate Union Station and the Kingdome and provide a pedestrian link between the International District retail core and Pioneer Square, a pedestrian connection should be developed south of King Street. Consideration should be given to pedestrian improvements along Jackson Street and along Fifth Avenue between Jackson Street and Airport Way South such as streetscaping, widened sidewalks and benches, to "humanize" what are now vehicular-oriented streets.

23.66.310 LAND USE CODE

(Ord. 116744 § 45, 1993; Ord. 112519 § 42, 1985; Ord. 112134 § 1(part), 1985.)

23.66.312 Composition of the Special Review Board.

The International District Special Review Board (hereafter, the "Board") shall consist of seven (7) members, five (5) of whom are elected and two (2) of whom are appointed by the Mayor and confirmed by the City Council. The five (5) elected members of the Board shall consist of two (2) members who own property in the International District, or who own or are employed by businesses located in the International District; two (2) members who are either residents (including tenants), or persons with a recognized and demonstrated interest in the welfare of the International District Community; and one (1) member at large. One (1) member of the Pioneer Square Special Review Board shall serve as a nonvoting member appointed by the Pioneer Square Special Review Board to serve at that Board's pleasure.

(Ord. 112134 § 1(part), 1985.)

23.66.314 Staff support for the Special Review Board.

The Department of Neighborhoods Director shall provide staff and clerical support for the Board, and shall assign a member of the Department's staff to act as Board Coordinator. The Coordinator shall be the custodian of the Board's records, handle official correspondence, and organize and supervise the clerical and technical work of the Board. The Coordinator shall also recommend such actions, policies, rules and regulations for adoption by the board as may be necessary to accomplish the objectives of this chapter.

(Ord. 116744 § 46, 1993; Ord. 112134 § 1(part), 1985.)

Part 2 Use and Development Standards

23.66.316 Special Review Board recommendation on certificate of approval.

The Board shall review all applications for use or development within the International District which require a certificate of approval. The Board shall make recommendations based upon the extent to which proposals are consistent with the

goals and objectives of the International Special Review District and the use and development standards of this chapter. The Department of Neighborhoods Director shall, within fifteen (15) days of receiving the Board's recommendation, issue or deny a certificate of approval or issue a certificate of approval with conditions.

(Ord. 116744 § 47, 1993; Ord. 112134 § 1(part), 1985.)

23.66.318 Demolition approval.

A. To discourage the unnecessary demolition of useful existing structures which contribute to the District's cultural and social character, an assessment of the structure to be demolished shall be prepared and circulated to the Board prior to its consideration of a certificate of approval. Among other factors, the economic, social and physical consequences and benefits of the requested demolition and any alternatives to demolition shall be assessed. Except as provided in subsection B below, a certificate of approval may be granted only when the requested demolition will not adversely affect the District and no reasonable alternatives to demolition exist, and when:

1. The Director of Neighborhoods, following a recommendation by the Special Review Board, determines that the building or structure has no important architectural or historic significance; and

2. Use and design of a replacement structure have been approved by the Department of Neighborhoods Director; and

3. Proof acceptable to the Department of Neighborhoods Director of a valid commitment for interim and long-term financing for the replacement structure has been secured. In addition to other proof, the Department of Neighborhoods Director may accept a bond, letter of credit, or cash deposit as a demonstration that the project has adequate financial backing to ensure completion; and

4. Satisfactory arrangements have been made for retention of any part of the structure's facade which the Department of Neighborhoods Director and Special Review Board determine to be significant; and

5. Satisfactory assurance is provided that new construction will be completed within two (2) years of demolition.

(Seattle 9-93)

B. When demolition or removal of a building or other structure in the District is essential to protect the public health, safety and welfare or when the purposes of this ordinance will be furthered by the demolition or removal, then the Director of Neighborhoods, following review and recommendation by the Board, may authorize such demolition or removal whether the prerequisites of this section are satisfied or not. (Ord. 116744 § 48, 1993; Ord. 112134 § 1(part), 1985.)

23.66.320 Permitted uses.

A. All uses shall be permitted outright except those specifically prohibited by Section 23.66.322 and those subject to special review under Section 23.66.324.

B. All uses not specifically prohibited shall be permitted as both principal and accessory uses except:

1. Gas stations, which are not permitted as principal uses and are permitted as accessory uses only in parking garages;

2. Surface parking areas, which are not permitted as principal uses but may be permitted as accessory uses pursuant to Section 23.66.342 of this Land Use Code; and

3. Principal use parking garages, which may be permitted only if approved after special review by the Board pursuant to Section 23.66.324 of this Land Use Code. Accessory parking garages shall be permitted outright. (Ord. 112134 § 1(part), 1985.)

23.66.322 Prohibited uses.

A. The following uses shall be prohibited as both principal and accessory uses in the entire International Special Review District:

- Adult motion picture theaters;
- Adult panorams;
- All general and heavy manufacturing uses;
- All high-impact uses;
- All salvage and recycling uses, except recycling collection stations;
- Automotive retail sales and service;
- Bowling lanes;
- Communication utilities;
- Sales, service and rental of commercial equipment and construction materials;
- Drive-in businesses;
- Frozen food lockers;
- Heavy commercial services;

- Marine retail sales and services;
- Medical testing laboratories;
- Mortuary services;
- Motels;
- Outdoor storage;
- Plant nurseries;
- Retail ice dispensaries;
- Shooting galleries;
- Skating rinks;
- Mobile home parks;
- Transportation facilities except passenger terminals;
- Animal services;
- Jails;
- Work-release centers.

B. In addition to the prohibited uses listed in subsection A, light manufacturing uses that occupy more than ten thousand (10,000) square feet are prohibited in that portion of the International Special Review District west of the Interstate 5 Freeway.

C. All light manufacturing uses are prohibited in that portion of the District in the IDR Zone. (Ord. 114623 § 17, 1989; Ord. 112777 § 34, 1986; Ord. 112519 § 43, 1985; Ord. 112303 § 8, 1985; Ord. 112134 § 1(part), 1985.)

23.66.324 Uses subject to special review.

A. The following uses shall be subject to special review by the Board:

- Fast food restaurants;
- Hotels;
- Planned community developments;
- Principal use parking garages;
- Street-level uses subject to special review as provided in Section 23.66.326 C.

B. Nature of Review.

1. The evaluation of applications for uses subject to special review shall be based upon the proposal's impacts on the cultural, economic, social, historical and related characteristics of the International District, particularly those characteristics derived from its Asian heritage; existing and potential residential uses; the pedestrian environment; traffic and parking in the District; noise and light and glare.

2. In reviewing applications for principal-use parking garages, the Board shall consider the potential of the proposal to serve the particular parking needs of the International District. The Board shall encourage participation in an area-wide merchants' parking association.

23.66.324 LAND USE CODE

C. The Board may recommend to the Director that an application for special review be approved, approved with conditions, or denied. (Ord. 112303 § 9, 1985; Ord. 112134 § 1(part), 1985.)

23.66.326 Street-level uses.

A. To retain and strengthen the King Street business core as a pedestrian-oriented retail shopping district, street-level uses shall be required on streets designated on Map B,¹ the International District Retail Core. Required street-level uses shall satisfy the standards of this section.

B. Preference shall be given to pedestrian-oriented retail shopping and service business uses that are highly visible or prominently display merchandise in a manner that contributes color and activity to the streetscape, including but not limited to:

- Apparel shops;
- Bakeries;
- Banks;
- Barbecue shops;
- Bookstores;
- Coffee shops;
- Floral shops;
- Groceries;
- Museums;
- Oriental crafts shops;
- Personal services such as beauty shops and barbershops;
- Restaurants;
- Sidewalk cafes;
- Travel agencies;
- Variety stores.

C. The Board may, following a special review of potential impacts, including, but not limited to traffic, parking noise and the scale and character of the pedestrian environment, recommend to the Department of Neighborhoods Director that the following uses at street level be approved when the impacts of such uses are not significantly adverse:

- Appliance repair shops;
- Experimental laboratories;
- Radio and television studios;
- Residential uses;
- Taxidermy shops;
- Upholstery establishments;
- Vocational or fine arts schools;
- Warehouses or wholesale showrooms, especially when including storage of jewelry,

optical or photographic goods, pharmaceuticals, cosmetics, and other similar high-value, low-bulk articles.

The Board may recommend, and the Director may impose, conditions to mitigate the impacts of approved uses.

D. Standards for Required Street-level Uses.

1. Street-level uses designated on Map B,¹ Retail Core, shall not exceed fifty feet (50') of street frontage per use when located within the interior portion of a block, or one hundred forty-five feet (145') of street frontage per use when located on a corner.

2. Street-level uses shall comply with exterior building finish requirements of Section 23.66.336 of this Land Use Code.

E. Nonpedestrian-oriented uses and businesses which are not typically visible from the sidewalk shall not exceed twenty-five feet (25') of street frontage per use when located within the interior portion of a block, or one hundred forty-five feet (145') of street frontage per use when located on a corner. Examples of nonpedestrian-oriented uses include but are not limited to:

- Community clubs and centers;
 - Family associations;
 - Human service uses;
 - Nonprofit community service organizations;
 - Places of public assembly.
- (Ord. 116744 § 49, 1993; Ord. 112303 § 10, 1985; Ord. 112134 § 1(part), 1985.)

1. Editor's Note: Map B is codified at the end of this chapter.

23.66.328 Uses above street level.

A. To encourage and facilitate the rehabilitation and renovation of existing structures for housing or other uses not preferred at street level, uses above street level on streets designated on Map B,¹ Retail Core, shall meet the standards of this section.

B. Residential uses and nonvehicular-oriented commercial uses which primarily serve the District and are in operation throughout the day shall be preferred. Preferred uses above street level include but are not limited to:

- Community clubs and centers;
- Expansion of existing retail sales and service uses at street level;
- Medical services, such as offices for doctors or dentists;

(Seattle 9-93)

Offices;
 Vocational or fine arts schools;
 Wholesale showrooms.
 (Ord. 112777 § 35, 1986; Ord. 112134 § 1(part), 1985.)

Stair and elevator penthouses;
 Mechanical equipment that is set back at least fifteen feet (15') from the roof edge.
 (Ord. 112134 § 1(part), 1985.)

1.Editor's Note: Map B is codified at the end of this chapter.

23.66.330 Residential Uses east of Interstate 5.

Residential uses shall be permitted in those parts of the International Special Review District east of the Interstate 5 Freeway. This provision shall supersede any prohibition of residential use and Floor Area Ratio established in the underlying zoning for the area.
 (Ord. 112134 § 1(part), 1985.)

23.66.332 Height.

A. Maximum structure height shall be as designated on the Official Land Use Map, Chapter 23.32, for that portion of the International District located west of the Interstate 5 Freeway.

B. For that portion of the International District located east of the Interstate 5 Freeway, maximum structure height shall be sixty-five feet (65').

C. Rooftop Features.

1. The Special Review Board and the Director shall review rooftop features to preserve views from Kobe Terrace Park.

2. Radio and television receiving aerials excluding dishes, religious symbols such as belfries or spires and that portion of the roof which supports them, smokestacks and flagpoles are exempt from height controls, except as regulated in Chapter 23.64 of this Land Use Code, provided they are at least ten feet (10') from all lot lines.

3. Open railings, planters, clerestories, skylights, dish antennae, play equipment, parapets and firewalls may extend up to four feet (4') above the maximum height limit and may have unlimited rooftop coverage.

4. Solar collectors excluding greenhouses may extend up to seven feet (7') above the maximum height limit and may have unlimited rooftop coverage.

5. The following rooftop features may extend up to fifteen feet (15') above the maximum height limit provided that the combined coverage of all features listed in this subsection does not exceed fifteen percent (15%) of the roof area:

Solar collectors, excluding greenhouses;

23.66.334 Streets and sidewalks.

Review by the Special Review District Board and approval by the Department of Neighborhoods Director shall be required before any changes may be made to sidewalk prism lights, sidewalk furniture, sidewalk widths, or street paving and curbs.
 (Ord. 116744 § 50, 1993; Ord. 112134 § 1(part), 1985.)

23.66.336 Exterior building finishes.

A. General Requirements. To retain and enhance the visual order of the District, which is created by existing older buildings that provide unique character and form through their subtle detailing and quarter-block and half-block coverage, new development, including exterior remodeling, should respect the architectural and structural integrity of the building in which the work is undertaken, through sympathetic use of colors, material and style. Exterior building facades shall be of a scale compatible with surrounding structures. Window proportions, floor height, cornice line, street elevations and other elements of the building facades shall relate to the scale of the existing buildings in the immediate area.

B. Asian Design Character District. The Asian Design Character District of the International District shall be the same as the ID Retail Core, as illustrated on Map B.¹ To strengthen and preserve the existing Asian architectural character of the Design District, tiled awnings, recessed balconies, heavy timber construction, and materials and colors as specified below are encouraged.

1. Materials. Building facades shall be limited to earthen materials such as brick, concrete, stucco and wood. Other materials, such as anodized aluminum, may be used if approved by the Board. Brick and concrete may not be painted unless approved by the Board. Stucco may be used in conjunction with other contrasting materials such as dark stained wood. Decorative ceramic glazed roof tiles are encouraged, as are tiled awnings and marquees when appropriately integrated into the overall design.

2. Colors. Building facade colors must be reviewed by the Special Review Board and

approved by the Department of Neighborhoods Director. Colors shall be compatible with those of adjacent buildings.

3. Surfaces. Textured concrete, brick and wood surfaces are preferred over nontextured surfaces. Recesses and voids which break up monotonous surface areas and create visual relief are encouraged. The design and location of mechanical equipment visible from the street must be reviewed by the Board and approved by the Department of Neighborhoods Director.

4. Transparency Requirement. Street-level uses shall have highly visible linkages with the street. Transparent surfaces shall be provided for at least fifty percent (50%) of the exposed street facade measured between sidewalk level and a height of ten feet (10') or the height of the second floor level, whichever is less. The average height of window sills shall be no greater than three feet (3') above the sidewalk. A decrease in the percentage of required transparency may be permitted by the Board when:

a. There is a design constraint, such as permanent wainscoting, and removal or alteration would detract from the structural or architectural integrity of the building; or

b. The existing layout of the building or other physical constraints such as the placement of load bearing walls or columns creates a hardship. Whenever transparency requirements are reduced, wall murals, landscaping, colored awnings, display cases, or other means appropriate to the setting shall be provided to create visual interest.

5. Awnings. Awnings shall be functional, serving as weather protection for pedestrians at street level. Awnings over sidewalks shall overhang the sidewalk a minimum of five feet (5'). All awnings shall be of a design compatible with the architecture of the area.

C. Exterior Building Design Outside the Asian Design Character District. Outside the Asian Design Character District, earthen colors and masonry construction with nonmetallic surfaces are preferred. Concrete construction will also be permitted when treated in a manner or incorporated into a design that provides visual interest and avoids large unbroken surface areas.

(Ord. 116744 § 51, 1993; Ord. 112134 § 1(part), 1985.)

1. Editor's Note: Map B is codified at the end of this chapter.

(Seattle 9-93)

23.66.338 Business identification signs.

To ensure that the scale, shape, color and type of signs within the International Special Review District are consistent with permitted uses and are in keeping with the Asian character of the area, the following sign controls shall apply:

A. Message. Signs shall be limited to those that identify the name of the establishment and/or the primary business or service provided by it. Advertising related to businesses or services not provided on the premises or products not manufactured on the site are prohibited; provided, that product name signs that are incidental to other signs on the premises may be permitted when the establishment or use on the premises is the sole distributor of the product in the District.

B. Permitted Signs. Permitted signs include projecting and nonprojecting signs integrated into the building facade, marquee, awning and window signs that are approved by the Department of Neighborhoods Director following a recommendation by the Board. Banners and flags bearing emblems, symbols or messages shall be permitted on an interim basis only and shall be subject to periodic review and approval to ensure that their appearance is maintained and that they comply with the requirements of this Code.

C. Prohibited Signs. Freestanding signs (except signs in parks or parking lots), roof signs, portable signs, off-premises advertising signs (billboards), and product advertising signs of a permanent nature are prohibited. Flashing signs or signs that appear to be in motion shall be prohibited unless of a public service nature, such as signs indicating the temperature or time of day.

D. Permitted Sign Area.

1. Asian Character Signs. Asian character signs are Asian bilingual or multilingual business identification signs at street level in which at least forty percent (40%) of the message area is in a non-English medium, or signs that have recognizable Asian symbols or designs that have been reviewed by the Board and approved by the Department of Neighborhoods Director. The total message area of all such signs for an individual use shall not exceed the area indicated on Table 338 D. For street frontages not listed on Table 338 D, the Maximum Sign Area column shall be interpolated proportionally.

2. Non-Asian Character Signs. The total message area of non-Asian character signs for each street-level use shall not exceed seventy percent (70%) of the area authorized in subsection D1 and indicated on Table 338 D.

3. The total number of signs permitted per use is not limited; provided, that the total area of all signs for an individual use shall not exceed the area authorized in subsections D1 and D2. The maximum size for any single sign face for Asian and non Asian character signs at street level shall be seventy-five (75) square feet for a single-faced sign and one hundred and fifty (150) square feet for a double-faced sign, unless the Department of Neighborhoods Director, after review and recommendation by the Board, approves a greater sign area because of hardships resulting from location, topography or similar conditions.

4. Businesses located on or above the second floor may have business identification signs with a total sign area that does not exceed one-half (1/2) of the area authorized in subsection D1 and indicated on Table 338 D. The maximum size for any single sign face above the second floor shall be forty (40) square feet for a single-faced sign and eighty (80) square feet for a double-faced sign unless the Department of Neighborhoods Director, after review and recommendation by the Board, approves a greater sign area because of hardships resulting from location, topography or similar conditions.

5. The total illuminated area of theater marquees shall not exceed eighty (80) square feet in addition to the sign area authorized in subsections D1 and D2.

6. Parking Lot Signage. The total signage area permitted for each accessory parking lot shall not exceed one (1) square foot for each parking space up to a maximum of twenty-four (24) square feet. Existing principal use parking lots shall have a maximum total sign area of one-half (1/2) square foot per parking space in the lot, to a maximum of eighteen (18) square feet.

a. Parking lots shall display a sign with the following message:

(1) For customer parking lots: "Customer Parking for (Principal User or Users) Only. Other cars will be impounded (location)." The sign may also contain the name and address of the principal user or users and mention validation of parking if applicable.

(2) For long-term reserved parking lots: "Reserved Parking Under Contract. Other cars will be impounded (location)." The sign may also contain the name and telephone number of the owner.

b. Small directional signs, such as those designating the entrance to or exit from accessory parking areas, that are three (3) or fewer square feet in area and are located at a height four (4) or fewer feet above grade at points of egress or ingress are permitted. Such signs shall not be counted against the total permitted sign area.

7. Sign size shall be calculated according to the provisions of Section 23.86.004 of this Land Use Code.

E. Illumination. Neon-lit signs are encouraged to create an exciting and enhanced visual image in the retail core.

1. No sign or light shall move, flash or make noise. Exceptions may be granted by the Department of Neighborhoods Director for indicators of time or temperature, after review and recommendation by the Board.

2. Illuminated signs shall be designed and sited in a manner to minimize glare on floors above grade in nearby residences.

F. Exceptions for Miscellaneous Signs.

1. Signs that are handpainted, goldleafed or decaled onto the glass area of a building facade shall be permitted without the approval of the Department of Neighborhoods Director or review by the Board when the area of such signs does not exceed four (4) square feet per business. Signs in excess of four (4) square feet shall be subject to review by the Board and approval by the Department of Neighborhoods Director for visual interest and compatibility with the surrounding area, and shall be calculated against the total permitted signable area. Nonilluminated symbolic signs painted on wood or other exterior surfaces that are four (4) square feet or less shall be permitted outright.

2. Graphics and paintings are permitted on building walls that do not abut a street lot line

only if such graphics and paintings are not primarily used to advertise or identify businesses or products and comply with the building facade provisions of Section 23.66.336 of this chapter. All graphics and paintings on building walls shall be subject to review by the Board and approval by the Department of Neighborhoods Director.

3. Temporary Signs.

a. The design, location and size of signs for special events, shows and political campaigns shall be subject to review by the Board and approval by the Department of Neighborhoods Director. Such signs may be permitted for periods not exceeding six (6) months.

b. Temporary, nonilluminated signs advertising real estate "For Sale or Lease" or announcing contemplated improvements of the real estate on the premises shall be subject to Board review and approval by the Department of Neighborhoods Director.

c. Temporary signs erected in connection with new construction work and displayed on the property during the actual period of construction shall be subject to Board review and approval by the Department of Neighborhoods Director.

d. Temporary signs required by law shall be permitted without review or approval.

G. Criteria for Approval.

1. The overall design of a sign including size, shape, texture, method of attachment, color and lighting, shall be compatible with the use to which the sign refers, with the architecture of the building upon which it is to be installed, and with the District.

2. Signs shall be affixed to structures so that they do not conceal, damage or disfigure desirable architectural features or details of the structure.

3. Projecting signs shall be sited in a manner that minimizes view blockage of abutting business signs.

4. All projecting signs shall be installed or erected so that there are no visible angle iron sign supports above the roof, building face or wall.

(Ord. 116744 § 52, 1993; Ord. 112519 § 44, 1985; Ord. 112134 § 1(part), 1985.)

23.66.340 Minimum maintenance.

All buildings in the District shall be maintained and preserved against decay and deterioration caused by neglect or defective or inadequate weather protection.

(Ord. 112134 § 1(part), 1985.)

23.66.342 Parking and access.

A. Principal-use Parking Garages. Principal-use parking garages are subject to special review by the Board pursuant to Section 23.66.324 of this Land Use Code. Parking garages shall be designed so that the street-level portion of the garage is committed to pedestrian-oriented uses permitted in the District. When abutting street slopes exceed eight percent (8%) this requirement may be waived by the Department of Neighborhoods Director, following review and recommendation by the Board. View-obscuring screening may be required by the Department of Neighborhoods Director as needed to reduce adverse visual impacts on the area.

B. Accessory Parking and Loading.

1. Parking Quantity. The number of parking spaces required for any use shall be the number required by the underlying zoning, except that restaurants shall be required to provide one space per five hundred (500) square feet for all gross floor area in excess of two thousand five hundred (2,500) square feet; motion picture theaters shall be required to provide one (1) space per fifteen (15) seats for all seats in excess of one hundred fifty (150); and other entertainment uses and places of public assembly shall be required to provide one (1) space per four hundred (400) square feet for all gross floor area in excess of two thousand five hundred (2,500) square feet.

2. Exceptions to Parking Quantity. To mitigate the potential impacts of required accessory parking and loading on the District, the Department of Neighborhoods Director, after review and recommendation by the Special Review Board, may waive or reduce required parking and loading under the following conditions:

a. After incorporating high-occupancy-vehicle alternatives such as carpools and vanpools, required parking spaces exceed the net usable space in all below-grade floors; or

b. Strict application of the parking or loading standards would adversely affect desirable characteristics of the District; or

c. An acceptable parking plan is submitted to meet parking demands generated by the use. Acceptable elements of the parking plan may include but shall not be limited to the following:

- (1) Valet parking service,
- (2) Validation system,
- (3) Lease of parking from parking management company,
- (4) Provision of employee parking.

C. When parking is provided it shall be subject to the requirements of Section 23.54.030 of this Land Use Code.

D. Access to Parking.

1. Access to parking shall be reviewed by the Board on a case-by-case basis, according to the following criteria:

- a. Alley access shall be preferred.
- b. Conflicts with pedestrian traffic, with efforts to provide continuous street facades, and with transit access shall be minimized.

2. The number and width of curbcuts shall be as required in Section 23.54.030 of this Land Use Code.

3. The Board may recommend, and the Department of Neighborhoods Director may require, changes to proposed access to parking in order to meet the criteria of this section.

E. Special Parking Restrictions.

1. All new surface parking areas shall be accessory and may be permitted in connection with customer parking which is determined by the Board to be consistent with District goals and policies or area-wide parking plans.

2. A sign complying with Section 23.66.338 of this Land Use Code shall be required at each parking entrance.

3. Adequate screening shall be required along the perimeter of each new surface parking area.

(Ord. 116744 § 53, 1993; Ord. 113279 § 32, 1987; Ord. 112519 § 45, 1985; Ord. 112134 § 1(part), 1985.)

**Chapter 23.67
SOUTHEAST SEATTLE REINVESTMENT
AREA**

Sections:

23.67.010 Purpose and intent.

23.67.020 Establishment of Southeast Seattle Reinvestment Area (SESRA).

23.67.030 Application of regulations.

23.67.040 Southeast Seattle Reinvestment Area—Rezoning for boundary changes.

23.67.050 Use restrictions—Prohibited uses.

23.67.060 Public notice requirements for rezoning applications.

23.67.010 Purpose and intent.

The purpose of this chapter is to implement the Southeast Seattle Reinvestment Area Policy, Resolution 28401 and adopted Land Use Policies by creating a Southeast Seattle Reinvestment Area (SESRA). The intent is to promote community revitalization and investment, and to encourage development which supports business activity and provides employment opportunities and needed services to the residents of Southeast Seattle. (Ord. 116145 § 3(part), 1992.)

23.67.020 Establishment of Southeast Seattle Reinvestment (SESRA).

There is established, pursuant to Chapter 23.56 of the Seattle Municipal Code, an overlay district known as the Southeast Seattle Reinvestment Area (SESRA) as shown on the Official Land Use Map, Chapter 23.32. (Ord. 116145 § 3(part), 1992.)

23.67.030 Application of regulations.

All property within the SESRA boundaries shall be subject to both the requirements of its zone classification and to the requirements of this chapter. In the event of conflict between this chapter and underlying zone requirements, the requirements of this chapter shall prevail. (Ord. 116145 § 3(part), 1992.)

23.67.040 Southeast Seattle Reinvestment Area—Rezoning for boundary changes.

A. A rezoning pursuant to Chapter 23.34 shall be required to change the established boundaries of the SESRA or to rezone property within the

SESRA. A rezoning shall be subject to the provisions of Chapter 23.76, Procedures for Master Use Permits and Council Land Use Decisions.

B. SESRA Boundaries.

1. Areas to be included within the SESRA boundaries shall demonstrate all of the following characteristics:

- a. An existing concentration of commercial activity or commercial activity and vacant land which abuts Rainier Avenue South or Martin Luther King, Jr. Way South; or has access to these arterials without going through residential zones;
- b. Adequate existing infrastructure or improvements are being planned to accommodate increased development; and
- c. Adequate buffers or transition areas that can reduce impacts to adjacent residential or otherwise less intensively zoned areas.

2. In addition to the above criteria, one (1) or more of the following conditions shall be met:

- a. The area contains vacant land, or vacant or dilapidated structures, parking or open storage uses and is abutting or across the street or alley from an existing concentration of commercial activity; or
- b. The area is identified by the City as a Business Improvement Area; or
- c. The area is targeted for Federal or State economic development funds; or
- d. The area can provide opportunities for expansion of existing businesses or location of new business enterprises within an existing commercial node; or
- e. The area has the potential to strengthen or reinforce a concentration of retail activity, personal services, employment centers or business incubators.

23.67.040 LAND USE CODE

C. Rezone Criteria for Property Within SESRA. A rezone within the boundaries of the SESRA shall be subject to the general rezone criteria of Chapter 23.34 and the locational criteria for the proposed classifications. In addition, the criteria contained in this section shall also apply. No single location shall be expected to meet all criteria, nor shall the criteria be ranked in order of importance. A balance shall be sought between the intent of the policies for the underlying land use category and this policy. Specific conditions may be established as part of the rezone process to ensure negative impacts on the area and its surroundings are mitigated.

1. The proposed designation shall strengthen and reinforce existing commercial nodes, and encourage the development and retention of businesses while retaining or providing adequate buffers between commercial and residential areas; or

2. The proposed designation shall enhance the vitality of business activity according to the following:

a. Increase and enhance pedestrian activity, thereby increasing property surveillance and public safety, and

b. Enable an established business to expand rather than relocate outside the Rainier Valley or increase employment and job training opportunities for residents of the surrounding area or

c. Increase retail, entertainment, or personal services for residents of the surrounding area, or

d. Encourage development on land which is vacant or contains abated or dilapidated buildings, or

e. Increase recreational opportunities in Southeast Seattle.

(Ord. 116145 § 3(part), 1992.)

23.67.050 Use restrictions—Prohibited uses.

A. Whether a use is permitted outright, or as a conditional use, or whether a use is prohibited shall be governed by the provisions of the underlying zone; provided that in addition to uses prohibited by the underlying zone, the following principal uses shall be prohibited throughout the Southeast Seattle Reinvestment Area:

1. Outdoor storage (accessory outdoor storage permitted);

2. Animal control shelters;

3. Helistops;

4. Heliports;

5. Adult motion picture theaters;

6. Adult panoramas;

7. Salvage yards;

8. Recycling centers;

9. Work release centers;

10. Construction services;

11. Towing services.

(Ord. 116145 § 3(part), 1992.)

23.67.060 Public notice requirements for rezone applications.

In addition to the notice requirements for Type IV rezones contained in Chapter 23.76, public notice shall also be provided by publishing the notice of application in at least one community newspaper in the area affected by the proposal.

(Ord. 116145 § 3(part), 1992.)

**Chapter 23.68
INDUSTRIAL OVERLAY DISTRICT**

(Ord. 113658 § 5(part), 1987.)

**Sections:
Subchapter I Manufacturing Center Overlay
District**

**23.68.008 Manufacturing Center
Overlay—General development
plan.**

**23.68.002 Establishment of Manufacturing
Center Overlay District.**

A. A General Development Plan shall be submitted for Council approval with the request for a rezone to a Manufacturing Center Overlay. The General Development Plan shall outline the key features of the development including:

23.68.004 Application of regulations.

**23.68.008 Manufacturing Center
Overlay—General
development plan.**

1. Site plan including the location of structures, street layout identifying streets to be vacated or improved and parking and loading layout;

**23.68.009 Manufacturing Center
Overlay—General use
provisions.**

2. Landscaping plan showing how the plan will meet the provisions of Subsection 23.68.022;

**23.68.010 Manufacturing Center
Overlay—Permitted uses.**

3. Uses to be accommodated in the development, including the amount of manufacturing and research or development uses proposed in relation to other uses;

**23.68.012 Manufacturing Center
Overlay—Prohibited uses.**

4. The location and bulk of structures on the property, and the physical relationship of the development to adjacent areas and the topography;

**23.68.014 Manufacturing Center
Overlay—Conditional uses.**

5. Proposed density and height limit departures required from underlying industrial zoning to accommodate development;

**23.68.016 Manufacturing Center
Overlay—Development
standards.**

6. Traffic circulation, both within the development and in relation to the general circulation of the surrounding area. This shall include considerations for truck and service vehicle access and storage, vehicular movement and parking, transit access, and pedestrian and bicycle circulation;

**23.68.018 Manufacturing Center
Overlay—Structure height.**

7. Integration of the development with surrounding areas, including pedestrian connections, visual and physical access to surrounding amenities and services, compatibility with adjacent activities, and impact of street vacations;

**23.68.020 Manufacturing Center
Overlay—Floor area ratio
(FAR).**

8. Special amenities and infrastructure improvements included in the development; and

**23.68.022 Manufacturing Center
Overlay—Screening and
landscaping provisions.**

9. Staging of the development, including timing of proposed infrastructure improvements.
(Ord. 113658 § 5(part), 1987.)

**Subchapter I Manufacturing Center Overlay
District**

**23.68.002 Establishment of Manufacturing
Center Overlay District.**

There is established, pursuant to Chapter 23.56 of the Seattle Municipal Code, the Manufacturing Center Overlay District.
(Ord. 113658 § 5(part), 1987.)

23.68.004 Application of regulations.

All property located within the Manufacturing Center Overlay District shall be subject to both the requirements of its zone classification and to the requirements of the Manufacturing Center Overlay District. In any case where the provisions of the Manufacturing Center Overlay District conflict with the provisions of the underlying zone, the Manufacturing Center Overlay District shall apply.

23.68.009 LAND USE CODE

**23.68.009 Manufacturing Center
Overlay—General use
provisions.**

Except for those uses listed in Sections 23.68.010, 23.68.012, and 23.68.014, the use provisions of the underlying industrial zones shall apply.

(Ord. 113658 § 5(part), 1987.)

**23.68.010 Manufacturing Center
Overlay—Permitted uses.**

The following uses shall be permitted even when they are prohibited by the underlying industrial zone:

- A. Lodging; and
- B. Colleges and universities.

(Ord. 113658 § 5(part), 1987.)

**23.68.012 Manufacturing Center
Overlay—Prohibited uses.**

The following uses shall be prohibited, as both principal and accessory uses, in addition to any uses prohibited by the underlying industrial zone:

- A. Salvage yard;
- B. Outdoor storage;
- C. Passenger terminals;
- D. Transit vehicle bases;
- E. Heliports;
- F. Airports;
- G. Solid waste transfer stations;
- H. Solid waste incineration facilities;
- I. Power plants;
- J. Sewage treatment plants; and
- K. High-impact uses.

(Ord. 113658 § 5(part), 1987.)

**23.68.014 Manufacturing Center
Overlay—Conditional uses.**

A. All conditional uses shall be subject to the procedures set forth in Chapter 23.76, Procedures for Master Use Permits and Council Land Use Decisions, and shall meet the following criteria:

1. The use shall be determined not to be materially detrimental to the public welfare or injurious to property in the zone or vicinity in which the property is located;

2. The benefits to the public that would be provided by the use shall outweigh the negative impacts of the use;

3. Landscaping and screening, vehicular access controls and other measures shall insure

the compatibility of the use with the surrounding area and mitigate adverse impacts;

4. The conditional use shall be denied if it is determined that the negative impacts cannot be mitigated satisfactorily. However, adverse negative impacts may be mitigated by imposing requirements or conditions deemed necessary for the protection of other properties in the zone or vicinity and the public interest; and

5. In areas covered by City Council adopted Neighborhood Plans adopted after 1983, uses shall be consistent with the recommendations of the Plans.

B. Helistops may be permitted as Council conditional uses when the criteria of this subsection and subsection A are met:

1. The helistop is for takeoff and landing of helicopters which serve a public safety, news gathering or emergency medical care function; is part of a City and regional transportation plan approved by the City Council and is a public facility; or is part of a City and regional transportation plan approved by the City Council and is not within two thousand feet (2,000') of a residential zone.

2. The helistop is located to minimize impacts, such as noise and dust impacts, on surrounding lots;

3. The lot is of sufficient size that the operations of the helistop and the flight paths of the helicopter are buffered from the surrounding area;

4. Open areas and landing pads are hard-surfaced; and

5. The helistop meets all Federal requirements including those for safety, glide angles and approach lanes.

(Ord. 116907 § 12, 1993; Ord. 116616 § 11, 1993; Ord. 113658 § 5(part), 1987.)

(Seattle 3-95)

**23.68.016 Manufacturing Center
Overlay—Development
standards.**

The development standards of Sections 23.68.018 through 23.68.022 shall apply to all structures and uses within the boundaries of a Manufacturing Center Overlay. Development standards may be modified according to approval of a General Development Plan submitted to the Council with the request for a rezone to Manufacturing Center Overlay.

(Ord. 113658 § 5(part), 1987.)

**23.68.018 Manufacturing Center
Overlay—Structure height.**

Structure height within the boundaries of a Manufacturing Center Overlay may be increased above the height limit of the underlying zone up to a maximum height of one hundred and twenty-five feet (125'). The Council shall use the following criteria in reviewing the General Development Plan to determine appropriate increases in the height limit:

A. By allowing additional height, additional landscaping and/or open space within the project would be provided that improves the character of the area;

B. Allowing additional height on portions of the project site will help overall to reduce shadows on open spaces and public rights-of-way and prevent view blockage from these areas;

C. Additional height will help reinforce the special character of the project and promote the desired mix of uses;

D. Additional height, combined with setbacks, reduced lot coverage, view corridors and other features, will allow a design alternative that provides a better scale relationship with surrounding areas and protects important views from these areas.

(Ord. 113658 § 5(part), 1987.)

**23.68.020 Manufacturing Center
Overlay—Floor area ratio
(FAR).**

Within the boundaries of a Manufacturing Center Overlay, the floor area ratio (FAR) permitted in the underlying zone may be increased up to a maximum FAR of four (4.0). The Council shall use the following standards and criteria in reviewing the General Development Plan to determine appropriate increases in density:

A. Mixed Use Requirement.

1. In IG1 zones, the project includes a manufacturing use and/or a research and development laboratory which comprises at least forty percent (40%) of the gross floor area of the project;

2. In IG2 and IB zones, the project includes a manufacturing use and/or a research and development laboratory which comprises at least twenty-five percent (25%) of the gross floor area of the project;

3. Mechanical equipment and gross floor area used for parking shall not be included in the calculations of gross floor area for purposes of this section.

B. Criteria for Density Increases. To determine the extent to which the Manufacturing Center Overlay can accommodate additional density, the following criteria shall be considered:

1. Whether the capacity of the existing infrastructure, including transportation, can accommodate the increased density, or, alternatively, whether the development will result in improvements providing additional capacity to accommodate an increase in density;

2. Whether through bulk, siting and setback treatment, the development maintains an appropriate transition in scale and intensity of activity with surrounding development and enhances the character of the area by preventing excessive view blockage and providing additional open space and landscaped areas;

3. Whether increased density will negatively affect existing viable manufacturing uses in the area.

(Ord. 113658 § 5(part), 1987.)

**23.68.022 Manufacturing Center
Overlay—Screening and
landscaping provisions.**

A minimum of fifteen percent (15%) of the area included within the boundaries of the Manufacturing Center Overlay shall be landscaped according to a landscaping plan approved by the Council as part of the General Development Plan. The landscaped area may be reduced to a minimum of ten percent (10%) of the area for large sites exceeding eighty thousand (80,000) square feet if the project also provides additional recreational open space for employees. The Council shall use the following guidelines in

23.68.022 LAND USE CODE

reviewing the General Development Plan to establish sufficient landscaping conditions:

A. Landscaping shall be used to establish a special character for the project and reinforce the cohesiveness of development, and shall follow guidelines A1 through A3:

1. Landscaping along street rights-of-way should emphasize cohesiveness and establish a special identity for the project area. Generally, planting strips shall be provided, except when the Director determines that unusual circumstances make providing them infeasible. The planting strips shall be landscaped and planted with street trees according to The City of Seattle Engineering Department Tree Planting Standards. If it is not feasible to plant trees within the planting strip, they should be planted on private property at least two feet (2') from, but within five feet (5') of, the street property line.

2. Landscaping shall be provided to mitigate impacts associated with additional height and density allowed for projects. Such mitigation may include buffering to protect less-intensive uses in abutting areas, view corridors to preserve views through the site, landscaped setbacks to reduce the presence of bulkier structures, and/or recreational open space to compensate for the greater working population associated with the increased densities allowed. Wherever possible, required landscaping and open space shall be integrated with adjacent landscaped areas to create the impression of large open spaces.

3. Open spaces included in the project should provide sufficient landscaping to assure the opportunity for passive and/or active recreational activity. Recreational open space may be landscaped or occupied by sculpture, fountains or pools, benches or other recreational facilities such as game courts.

B. Screening and landscaping shall be used to improve the visual character of the project as follows:

1. Blank facades which are one hundred twenty feet (120') or more in length and twenty feet (20') or less from a street property line shall be screened to a height of at least six feet (6') by trellises and vining plants, or by trees or shrubs planted in front of the facade.

2. All trash disposal areas shall have a solid screen that is at least as high as the material to be screened.

3. Rooftop equipment shall be surrounded with a screen that is at least as high as the equipment to be screened. Screens shall be of a material and design that is compatible with the building.

4. Screening and landscaping for surface parking areas shall be similar to the provisions of Chapter 23.49.020, Screening and Landscaping of Surface Parking Areas in Downtown Zones. Loading berths should be screened from view as much as possible along principal circulation routes within and bordering the project, either by locating them behind structures or through landscaping and screening on sides visible from the street.

C. Curbs and sidewalks shall be required, unless the Director determines that unusual circumstances make providing them infeasible.

D. Signs and lighting standards shall enhance the quality of the street environment and promote design cohesiveness within the project area. (Ord. 116744 § 54, 1993; Ord. 113658 § 5(part), 1987.)

(Seattle 9-93)

**Chapter 23.69
MAJOR INSTITUTION OVERLAY
DISTRICT**

**23.69.035 Master plan amendment.
23.69.036 Master plan renewal.**

Sections:

**Subchapter I Establishment of Overlay
District**

Subchapter I

- Establishment of Overlay District**
- 23.69.002 Purpose and intent.**
- 23.69.004 Major Institution Overlay District established.**
- 23.69.006 Application of regulations.**
- 23.69.007 Definition of development.**

23.69.002 Purpose and intent.

The purpose of this chapter is to implement the Major Institution Policies, Resolution 28081, by regulating Seattle's major educational and medical institutions in order to:

Subchapter II Use Provisions

- 23.69.008 Permitted uses.**
- 23.69.012 Conditional uses.**

A. Permit appropriate institutional growth within boundaries while minimizing the adverse impacts associated with development and geographic expansion;

B. Balance a major institution's ability to change and the public benefit derived from change with the need to protect the livability and vitality of adjacent neighborhoods; and

C. Encourage the concentration of major institution development on existing campuses, or alternatively, the decentralization of such uses to locations more than two thousand five hundred feet (2,500') from campus boundaries.

(Ord. 115002 § 23(part, 1990.))

Subchapter III Nonconforming Structures and Uses

- 23.69.016 Standards for nonconforming structures.**
- 23.69.017 Standards for nonconforming uses.**

Subchapter IV Development Standards

- 23.69.020 Development standards.**

23.69.004 Major Institution Overlay district established.

Subchapter V Development Outside a Major Institution Overlay District

- 23.69.021 Signs in Major Institution Overlay Districts.**
- 23.69.022 Development permitted within 2,500 feet of a Major Institution Overlay District.**
- 23.69.023 Major Institution acquisition, merger or consolidation.**

There is hereby established pursuant to Chapter 23.56 of the Seattle Municipal Code, the Major Institution Overlay District which shall overlay each major institution designated according to the provisions of Section 23.69.024. All land within the Major Institution Overlay (MIO) District shall be designated with one (1) of the following height limits as shown on the Official Land Use Map, Chapter 23.32:

Subchapter VI Procedures

Part 1 Major Institution Designation

- 23.69.024 Major institution designation.**

Designation Height Limit

MIO-37	37 feet
MIO-50	50 feet
MIO-65	65 feet
MIO-70	70 feet
MIO-90	90 feet
MIO-105	105 feet
MIO-160	160 feet
MIO-200	200 feet
MIO-240	240 feet

(Ord. 115002 § 23(part, 1990.))

Part 2 Major Institution Master Plan

- 23.69.025 Intent of Major Institution master plans.**
- 23.69.026 Determination to prepare a master plan.**
- 23.69.028 Major institution master plan—General provisions.**
- 23.69.030 Contents of a master plan.**
- 23.69.032 Master plan process.**
- 23.69.033 Approval of master use permits prior to master plan adoption.**
- 23.69.034 Effect of master plan adoption.**

23.69.006 Application of regulations.

All land located within the Major Institution Overlay District shall be subject to the regulations and requirements of the underlying zone unless specifically modified by this chapter. In the event of irreconcilable differences between the provisions of the Major Institution Overlay District and the underlying zone, the provisions of this chapter shall apply.

(Ord. 115002 § 23(part, 1990.)

23.69.007 Definition of development.

A “development” is the establishment of any new major institution use or the expansion of an existing major institution use, the relocation of an existing major institution use for a period of at least one (1) year, or the vacation of streets for such uses.

(Ord. 115002 § 23(part, 1990.)

Subchapter II Use Provisions

23.69.008 Permitted uses.

A. All uses that are functionally integrated with the central mission of the major institution or that primarily and directly serve the users of the institution shall be defined as Major Institution uses and shall be permitted in the Major Institution Overlay District. Major Institution uses shall be permitted either outright or as conditional uses according to the provisions of Section 23.69.012. Permitted Major Institution uses shall not be limited to those uses which are owned or operated by the major institution.

B. The following characteristics shall be among those used by the Director to determine whether a use is functionally integrated with the central mission of the major institution. No one of these characteristics shall be determinative:

1. Functional contractual association;
2. Programmatic integration;
3. Direct physical circulation/access connections;
4. Shared facilities or staff;
5. Degree of interdependence.

C. Major Institution uses shall be subject to the following:

1. Major Institution uses which are determined to be heavy traffic generators or major noise generators shall be located away from abutting residential zones;

2. Uses at which there would be present a hazardous chemical, extremely hazardous substance or toxic chemical that is required to be reported under Title III of the Superfund Amendments and Reauthorization Act of 1986 or its associated regulations, shall be reviewed by the Director. The Director shall consult with the Seattle-King County Department of Public Health and The City of Seattle Fire Department.

Based on this consultation and review, the Director may prohibit uses, or impose conditions regulating the amount and type of materials allowed on-site, or the procedures to be used in handling hazardous or toxic materials;

3. Where the underlying zone is Commercial, uses at street level shall complement uses in the surrounding commercial area and be located in a manner which provides continuity to the commercial street front. Where the underlying zoning is a pedestrian-designated zone, the regulations of Section 23.47.042 governing required street level uses shall apply;

4. Professional offices shall be limited to use by individuals or groups whose activities have a primary and direct relationship to the central mission of the major institution.

D. When a use is determined to be a Major Institution use, it shall be located in the same Major Institution Overlay District as the major institution with which it is functionally integrated or the users of which it primarily and directly serves. To locate outside but within two thousand five hundred feet (2,500') of that Major Institution Overlay District, a Major Institution use shall be subject to the provisions of Section 23.69.022.

E. Major Institution uses, within two thousand five hundred feet (2,500') of the boundary of the Major Institution Overlay District, which were legally established as of January 1, 1989 and are located on sites which are not contiguous with the Major Institution Overlay District shall be permitted uses in the zone in which they are located when:

1. The use is located on a lot which was contained within the boundary of a Major Institution Overlay District as it exists on the effective date of this provision;¹ or

2. The site was deleted from the Major Institution Overlay District by master plan

(Seattle 9-93)

amendment or renewal according to the provisions of Sections 23.69.035 and 23.69.036.

F. Uses which are not Major Institution uses shall be subject to the use provisions of the underlying zone.

(Ord. 115002 § 23(part, 1990.)

1.Editor's Note: Ordinance 115002 was adopted by the Council on March 26, 1990.

23.69.012 Conditional uses.

A. All conditional uses shall be subject to the following:

1. The use shall not be materially detrimental to the public welfare or injurious to property in the zone or vicinity in which the property is located.

2. The benefits to the public of the use shall outweigh the negative impacts of the use.

3. In authorizing a conditional use, adverse impacts may be mitigated by imposing conditions such as landscaping and screening, vehicular access controls and any other measures needed to mitigate adverse impacts on other properties in the zone or vicinity and to protect the public interest. The Director shall deny or recommend denial of a conditional use if it is determined that adverse impacts cannot be mitigated satisfactorily.

B. Administrative Conditional Uses.

1. The following uses may be permitted as administrative conditional uses:

a. Development requiring preparation of a master plan may be permitted by the Director as an administrative conditional use according to the standards of subsections F or G of Section 23.04.040.

b. Development requiring preparation of a master plan may be permitted by the Director as an administrative conditional use according to the standards of Section 23.69.033.

2. In considering an application for a conditional use, the Director's decision shall be based on the following criteria:

a. Parking areas and facilities, trash and refuse storage areas, ventilating mechanisms and other noise-generating or odor-generating equipment, fixtures or facilities shall be located so as to minimize noise and odor impacts on the surrounding area. The Director may require measures such as landscaping, sound barriers, fences, mounding or berming, adjustments to parking

location or setback development standards, design modification, limits on hours of operation or other similar measures to mitigate impacts; and

b. Required landscaping shall be compatible with neighboring properties. Landscaping in addition to that required by the Code may be required to reduce the potential for erosion or excessive stormwater runoff, to minimize coverage of the site by impervious surfaces, to screen parking, or to reduce noise or the appearance of bulk and scale; and

c. Traffic and parking impacts shall be minimized; and

d. To reduce the impact of light and glare, exterior lighting shall be shielded or directed away from residentially zoned properties. The Director may require that the area, intensity, location or angle of illumination be limited.

C. Council Conditional Uses. Helistops, when determined to meet the criteria of Section 23.69.008, may be permitted by the Council as a Council Conditional Use when:

1. The helistop is needed to save lives; and

2. Use of the helistop is restricted to life-threatening emergencies; and

3. The helistop is located so as to minimize impacts on the surrounding area.

The Director's report to the Council shall examine alternative locations for the helistop as identified by the major institution, including sites outside the institution's boundaries, which would accomplish the purpose of the helistop with a lesser impact upon the surrounding area.

(Ord. 115043 § 14, 1990; Ord. 115002 § 23(part, 1990.)

Subchapter III Nonconforming Structures and Uses

23.69.016 Standards for nonconforming structures.

A. Legally established structures containing major institution uses as defined in Section 23.69.008 existing on the effective date of this provision¹ which are not in conformance with one (1) or more of the development standards, for institutions, of the underlying zone in which they are located or as contained in an adopted master plan, may be improved, renovated and/or expanded as long as the expansion does not increase the extent of the nonconformity. Expansion which

23.69.016 LAND USE CODE

increases the extent of nonconformity shall be permitted only when necessary to improve access for the elderly or disabled or to make changes otherwise required by law.

B. If a legally established nonconforming structure containing Major Institution uses is destroyed by fire or other act of nature, it may be reestablished to the same or smaller configuration existing immediately prior to the time the structure was destroyed. Where replacement of a nonconforming structure or portion of a structure is permitted under this section, action toward that replacement must be commenced within twelve (12) months after the demolition or destruction of the structure. Action toward replacement shall include application for a building permit, commencement of construction, or other significant activity directed towards the replacement of the structure.

(Ord. 115002 § 23(part, 1990.)

1.Editor's Note: Ordinance 115002 was passed by the Council on March 26, 1990.

23.69.017Standards for nonconforming uses.

A. Legally established uses authorized in accordance with the provisions of former SMC Chapter 23.48 existing on the effective date of this provision¹ that are not in conformance with the use provisions of this chapter may be continued, but not expanded or extended except as otherwise required by law, or as necessary to improve access for the elderly and disabled, or as provided in subsection C.

B. Any nonconforming use that has been discontinued for more than twelve (12) consecutive months shall not be reestablished, recommenced, or changed to another use not otherwise permitted by the underlying zoning or by this chapter. A use shall be considered discontinued when:

1. A permit to change the use of the property or structure has been issued and acted upon; or
2. The structure, or that portion of the structure formerly occupied by the nonconforming use, is no longer used for the use authorized by the most recent permit; or
3. The structure is vacant, or the portion of the structure formerly occupied by the nonconforming use is vacant. The use of the structure shall be considered discontinued even if materials

from the former use remain or are stored on the property.

C. A nonconforming use that is destroyed by fire, act of nature, or other cause beyond the control of the owner may be resumed. The structure containing the nonconforming use may be rebuilt to the same or smaller configuration existing immediately prior to the time the structure was destroyed.

(Ord. 115002 § 23(part, 1990.)

1.Editor's Note: Ordinance 115002 was passed by the Council on March 26, 1990.

Subchapter IV Development Standards

23.69.020Development standards.

A. Major Institution uses shall be subject to the development standards for institutions of the underlying zone in which they are located, except for the dispersion requirements of the underlying zoning for institutions.

B. Development standards for Major Institution uses within the Major Institution Overlay District, except the provisions of Chapter 23.52, may be modified through adoption of a Major Institution Master Plan according to the provisions established in Subchapter V, Part 2 of this chapter.

C. Maximum structure heights for structures containing major institution uses may be allowed up to the limits established pursuant to Section 23.69.004 through the adoption of a master plan for the major institution. A rezone shall be required to increase maximum structure height limits above levels established pursuant to Section 23.69.004.

D. The demolition of structures containing residential uses which are not Major Institution uses shall be prohibited if the demolition is intended to provide a parking lot or structure to accommodate non-required parking or to reduce a parking deficit.

E. When a pedestrian designation in a commercial zone occurs along a boundary or within a campus, the blank facade standards of the underlying zoning shall apply.

(Ord. 117383 § 10, 1994; Ord. 115002 § 23(part, 1990.)

(Seattle 3-95)

Subchapter V Development Outside a Major Institution Overlay District

23.69.021 Signs in Major Institution Overlay Districts.

A. General Standards.

1. Signs shall be stationary and shall not rotate.
2. No flashing, changing-image or message board signs shall be permitted.
3. Signs may be electric, externally illuminated, or nonilluminated.

B. The following signs shall be permitted in all major institution overlay districts, regardless of the facing zone:

1. Electric, externally illuminated or nonilluminated signs bearing the name of the occupant of a dwelling unit, not exceeding sixty-four (64) square inches in area;
2. Memorial signs or tablets, and the names of buildings and dates of building erection when cut into a masonry surface or constructed of bronze or other noncombustible materials;
3. Signs for public facilities indicating danger and/or providing service or safety information;
4. Properly displayed national, state and institutional flags.

C. Signs across a street, alley or easement from a residential zone, and signs which face an abutting lot in a residential zone, shall meet the following standards:

1. Sign area shall be limited to:
 - a. Thirty-five (35) square feet per sign face for main entrance signs;
 - b. Such size as is necessary for emergency entrance signs to be clearly visible; and
 - c. Twenty (20) square feet per sign face for all other signs.
2. The number of signs permitted shall be as follows:
 - a. One (1) identifying sign for each use per street frontage; plus
 - b. One (1) sign for each entrance to the institution; plus
 - c. Emergency entrance and directional signs as necessary.
3. Pole, ground, roof, wall, marquee, under-marquee, projecting or combination signs shall be permitted.
4. The maximum height of any portion of a pole sign shall be twelve feet (12').

5. No portion of a roof sign shall:

- a. Extend beyond the height limit of the overlay district;
- b. Exceed a height above the roof in excess of the height of the structure on which the sign is located; or
- c. Exceed a height of thirty feet (30') above the roof, measured from a point on the roofline directly below the sign or from the nearest adjacent parapet.

D. Signs across from nonresidential zones shall have no area, type or number limitations.

E. Off-premises signs shall not be permitted. (Ord. 115165 § 12, 1990.)

23.69.022 Development permitted within 2,500 feet of a Major Institution Overlay District.

A. Major Institution uses proposed to be developed by, or leased to, or located in a structure(s) or on land owned by, the major institution or an entity that is controlled in whole or in part by the major institution or by a parent or affiliate entity of the major institution, shall be permitted to locate outside a Major Institution Overlay District, and within two thousand five hundred feet (2,500') of the Overlay District boundary, subject to the following limitations:

1. No such use or combination of uses shall exceed ten thousand (10,000) square feet on any lot; and
2. Such uses shall be separated from each other and from the Major Institution Overlay District boundary by a minimum distance of three hundred feet (300') between property lines; and
3. The cumulative total of such uses shall be limited to forty thousand (40,000) square feet; and
4. The measurement of such uses shall include the site area used for parking or other outdoor uses or activity areas, such as ball courts and playfields, primarily used by the major institution; and
5. The use(s) shall conform to the use and development standards of the applicable zone; and
6. The cumulative total of permitted Major Institution uses subject to this subsection outside a Major Institution Overlay District within two thousand five hundred feet (2,500') of the Overlay District boundary may exceed forty

23.69.022 LAND USE CODE

thousand (40,000) square feet only where permitted in an approved master plan.

B. A medical service use not subject to subsection A of this section over ten thousand (10,000) square feet shall be permitted to locate within two thousand five hundred feet (2,500') of a medical Major Institution Overlay District only as an administrative conditional use subject to the conditional use requirements of the applicable zone.

C. Major Institution uses located in a Downtown zone shall not be subject to the limitations established in subsections A or B, except that subsection A5 shall apply.

D. Uses to be developed by, or leased to, or located in a structure(s) or on land owned by, the major institution or an entity that is controlled in whole or in part by the major institution or by a parent or affiliate entity of the major institution, shall not be permitted outside a Major Institution Overlay District and within two thousand five hundred feet (2,500') of an Overlay District boundary when it would result in the demolition of a structure(s) which contains residential uses or would change residential uses to nonresidential uses.

E. Acquisition, merger or consolidation involving two (2) major institutions shall be governed by the provisions of Section 23.69.023. (Ord. 115165 § 3, 1990; Ord. 115043 § 15, 1990; Ord. 115002 § 23(part, 1990.)

23.69.023 Major Institution acquisition, merger or consolidation.

A. Notwithstanding any other provisions of Title 23, one (1) major institution may acquire, merge with, or otherwise consolidate with, another major institution of the same type (medical or educational), if boundaries of the two (2) Major Institution Overlay Districts are contiguous.

B. Within ten (10) days of the acquisition, merger or consolidation, the new/surviving major institution shall notify the Director of the acquisition, merger or consolidation and the name of the new/surviving major institution. Upon receiving this notice, the Director shall adjust the Official Land Use Map to reflect a single, combined Major Institution Overlay District, with the single name of the new/surviving major institution. The entire Major Institution Overlay District of each major institution shall be included in the single, combined Major Institution Overlay District.

C. The new/surviving major institution created through acquisition, merger or consolidation shall prepare a new or revised transportation management program for the combined Major Institution Overlay District, according to the provisions of Section 23.54.016. The new/surviving major institution shall submit a draft transportation management program with any master use permit application for changes on any portion of the combined Major Institution Overlay District not already covered by an adopted master plan, or within one (1) year of the acquisition, merger or consolidation, whichever occurs first. The new or revised transportation management program shall be completed and approved by the Director as soon as is practicable, and at least before any master use permit, for which an application is filed more than one (1) year after the acquisition, merger or consolidation, is issued, for changes on any portion of the combined Major Institution Overlay District not already covered by an adopted master plan; provided that this shall not affect the Director's authority to consider and mitigate traffic and transportation impacts under the SEPA policies and procedures in SMC Chapter 25.05.

D. Within ninety (90) days of the acquisition, merger or consolidation, or within ninety (90) days of the promulgation of regulations governing reporting, by major institutions, as to how they address the City's health policies and human services goals, whichever is later, the new/surviving institution shall submit to the Director a statement of the extent to which the two (2) major institutions have addressed in the past, and the extent to which the new/surviving major institution will address in the future, the City's health policies and human services goals, including the provision of medical and/or educational services to low-income people regardless of their ability to pay.

E. The Director, in consultation with other government agencies, shall review the statement. The Director or other City department or office may schedule one (1) or more public hearings to receive public comment on the new/surviving major institution's proposal to address the City's health policies and human services goals in the future. The Director may direct the institution to meet with representatives of City departments, including the Health Department, the Department of Housing and Human Services and the Department of Neighborhoods, to develop steps to im-

(Seattle 9-93)

prove the new/surviving major institution's proposal to address the City's health policies and human services goals.
(Ord. 116744 § 55, 1993; Ord. 115165 § 4, 1990.)

Subchapter VI Procedures

Part 1 Major Institution Designation

23.69.024 Major Institution designation.

A. Major Institution designation shall apply to all institutions which conform to the definition of major institution.

B. New Major Institutions.

1. When a medical or educational institution makes application for new development, or when a medical or educational institution applies for designation as a major institution, the Director shall determine whether the institution meets, or would meet upon completion of the proposed development, the definition of a major institution in Section 23.84.025. Measurement of an institution's site or gross floor area in order to determine whether it meets minimum standards for Major Institution designation shall be according to the provisions of Section 23.86.036.

2. If the Director determines that Major Institution designation is required, the Director shall not issue any permit that would result in an increase in area of Major Institution uses until the institution is designated a major institution, a Major Institution Overlay District is established, and a master plan is prepared according to the provisions of Part 2, Major Institution Master Plan.

3. The Director's determination that an application for a Major Institution designation is required shall be made in the form of an interpretation and shall be subject to the procedures of Section 23.88.020.

4. The procedures for designation of a major institution shall be as provided in Chapter 23.76, Procedures for Master Use Permits and Council Land Use Decisions. The Council shall grant or deny the request for Major Institution designation by resolution.

5. When the Council designates a new major institution, a Major Institution Overlay District shall be established by ordinance according to the procedures for amendments to the Official Land Use Map (rezones) in Chapter

23.76, Master Use Permits and Council Land Use Decisions.

6. A new Major Institution Overlay District shall not be established in Single Family or Industrial zones.

7. Boundaries of a Major Institution Overlay District and maximum height limits shall be established or amended in accordance with the rezone criteria contained in the City's Major Institution Policies, except that acquisition, merger or consolidation involving two (2) major institutions shall be governed by the provisions of Section 23.69.023.

C. Upon determination that an institution no longer meets the definition of a major institution, the Director shall notify the Council. The revocation of a Major Institution designation shall be subject to the procedures set forth in Chapter 23.76, Master Use Permits and Council Land Use Decisions, for Major Institution designation and revocation.

(Ord. 115165 § 6, 1990; Ord. 115002 § 23(part, 1990.)

Part 2 Major Institution Master Plan

23.69.025 Intent of major institution master plans.

The intent of the Major Institution Master Plan shall be to balance the needs of the major institutions to develop facilities for the provision of health care or educational services with the need to minimize the impact of major institution development on surrounding neighborhoods.

(Ord. 115002 § 23(part, 1990.)

23.69.026 Determination to prepare a master plan.

A. Any major institution may elect to prepare a master plan.

B. A major institution shall be required to prepare a master plan or a master plan amendment in the following circumstances:

1. The establishment of a new Major Institution Overlay District is required according to Section 23.69.024; or

2. Expansion of a Major Institution Overlay District boundary or change in a Major Insti-

For current SMC, contact the Office of the City Clerk

23.69.026 LAND USE CODE

tution Overlay District height designation is proposed; or

3. An application is filed for a structure containing major institution use(s) that is located within the Major Institution Overlay District and would exceed the development standards of the underlying zone, provided other means of modifying development standards that apply to similar uses located in the zone may also be sought; or

4. An application is filed to establish more than a cumulative total of forty thousand (40,000) square feet of Major Institution uses outside a Major Institution Overlay District boundary and within two thousand five hundred feet (2,500') of the institution's Overlay District boundaries; or

5. A major institution proposes to demolish or change the use of a residential structure inside the boundaries of a Major Institution Overlay District, provided that a master plan need not be prepared when:

a. The use is changed to housing for the institution; or

b. Not more than two (2) structures containing not more than four (4) dwelling units are demolished or changed to a nonresidential use within a two (2) year period and are replaced in the general vicinity by the same number of dwelling units; or

6. An application is filed for development that would require a major amendment to an adopted master plan as set forth in Section 23.69.035, Master plan amendment, or renewal of a master plan development program component according to Section 23.69.036, Master plan renewal; or

7. One (1) major institution has acquired, merged with, or consolidated with another major institution, pursuant to Section 23.69.023, and an application is filed for a project containing major institution use(s) that is located on any portion of the combined Major Institution Overlay District not already covered by an adopted master plan and would either:

a. Exceed the envelope of structures existing on the date of the acquisition, merger or consolidation, except for the addition of heating, ventilating, air conditioning, mechanical or similar equipment; or

b. Demolish all or most of any existing structure; or

c. Result in an increase of more than one hundred thousand (100,000) square feet of gross floor area of medical offices, over the amount existing on the date of the acquisition, merger or consolidation, in the portion of the combined Major Institution Overlay District not already covered by an adopted master plan, excluding any structure for which medical service use is the established use, and excluding medical offices that directly serve hospital clinic, laboratory, nursing facility, and blood bank uses.

C. A master plan shall not be required for replacement of existing structures where the replacement structure:

1. Would be located on the same lot; and

2. Would not contain uses which would require a change of use and which the Director determines would not result in an increase in adverse impacts on the surrounding area; and

3. Would not exceed the height of the existing structure; and

4. Would not represent a significant increase in bulk over the existing structure; and

5. Would not represent a significant increase in gross floor area over the existing structure; and

6. Would not significantly reduce existing open area or landscaping.

D. The Director shall determine whether a master plan is required. The Director's determination shall be final and shall not be subject to an interpretation or appeal.

(Ord. 115165 § 7, 1990; Ord. 115002 § 23(part, 1990.)

23.69.028 Major institution master plan—General provisions.

A. A master plan may modify the following:

1. Any development standard of the underlying zone, including structure height up to the limit established by the Major Institution Overlay District;

2. Limits on housing demolition or conversion within the boundaries of the Major Institution Overlay District;

3. Limits on the maximum amount of Major Institution uses permitted within two

thousand five hundred feet (2,500') of a Major Institution Overlay District Boundary;

4. Single-occupancy vehicle goals and maximum parking limitations.

B. Except as provided in Section 23.04.040 F, Section 23.04.040 G, and Section 23.69.033, an application for a permit for development which requires preparation of a master plan shall not be approved prior to adoption of the master plan by the Council.

C. Proposed development requiring a master plan that is not specified in an adopted master plan shall require that an amendment to the master plan be approved pursuant to Section 23.69.035, Master plan amendment.

D. Changes to the boundaries of the Major Institution Overlay District or to a Major Institution Overlay District height limit shall require a rezone in addition to adoption of a master plan, except that a boundary adjustment caused by the acquisition, merger or consolidation of two (2) major institutions shall be governed by the provisions of Section 23.69.023 and Section 23.69.026 B7.

(Ord. 115165 § 8, 1990; Ord. 115002 § 23(part, 1990.)

23.69.030 Contents of a master plan.

A. The master plan is a conceptual plan for a major institution consisting of three (3) components: the development standards component, the development program component and the transportation management program component.

B. The development standards component of a master plan shall include the following:

1. Structure height limits established within the Major Institution Overlay District applicable to Major Institution development as provided for in Section 23.69.004; and

2. Existing underlying zoning applicable to the major institution; and

3. If modifications to the underlying zone development standards are proposed, the master plan shall list the specific modifications which would change the underlying zone development standards applicable to the major institution. Reasons for the proposed modifications or for special standards tailored to the specific institution shall be included. Standards in the master plan shall be defined for the following:

a. Structure setbacks along public rights-of-way and at the boundary of the Major

Institution Overlay District. In no case shall any setback be less than is required in the underlying zone or by setback requirements applicable to structures on abutting lots or structures directly across a street or alley from a structure in the Major Institution Overlay District, whichever is greater,

b. Height,

c. Lot coverage determined on the basis of the applicable Major Institution Overlay District or on a subarea basis,

d. Density as defined by maximum developable floor area or a floor area ratio (FAR),

e. Landscaping,

f. Open space;

4. Standards may also be required to address the following:

a. Transition in height and scale between development within the Major Institution Overlay District and development in the surrounding area,

b. Width and depth limits for structures or measures by which a reduction in the apparent bulk of a structure may be achieved,

c. Setbacks between structures which are not located on a public right-of-way or along the boundary of the Major Institution Overlay District,

d. Preservation of historic structures which are designated on federal, state or local registers,

e. View corridors or other specific measures intended to mitigate the impact of major institution development on the surrounding area,

f. Pedestrian circulation within and through the Major Institution Overlay District;

5. Proposed development standards shall be reviewed according to the criteria contained in Section 23.69.032 F, Reported recommendation of the Director;

6. When contained within an adopted master plan, development standards shall become the applicable regulations for physical development of major institution uses within the Major Institution Overlay District and shall supersede the development standards of the underlying zone. Where standards established in the underlying zone have not been modified by the master plan, the underlying zone standards shall continue to apply;

7. The development standards component of a master plan shall be permanent and may

23.69.030 LAND USE CODE

be changed only through a master plan amendment;

8. If a change to the underlying zoning is proposed, the master plan shall identify the proposed zone(s), which shall be subject to approval of a rezone according to the procedures of Chapter 23.76, Master Use Permits and Council Land Use Decisions.

C. The development program component shall describe proposed physical development for a ten (10) to fifteen (15) year period, provided that the period may be five (5) to ten (10) years if the institution so chooses, and shall have an explicit date of expiration no more than fifteen (15) years from the date of master plan adoption by the Council. The development program may be amended according to the provisions of Section 23.69.035 without requiring amendment of the development standards component.

D. The development program component shall include the following:

1. A description of alternative proposals for physical development including an explanation of the reasons for considering each alternative; and

2. A description of existing and future physical development on a site plan which shall contain:

a. The height, description and location of existing development, and

b. The location of existing open space and approximate location of proposed open space, landscaping and screening, and

c. The general physical characteristics including approximate height and location of any anticipated development and proposed alternatives, and

d. Public and private street layout, and

e. Existing and proposed parking areas and structures; and

3. Three (3) dimensional drawings to illustrate the height and form of existing and proposed development; and

4. A site plan showing any planned or proposed infrastructure improvements and the timing of those improvements; and

5. A description of proposed development phases and plans, including development priorities, the probable sequence for proposed development, estimated dates of construction and occupancy and anticipated interim use of property awaiting development; and

6. A description of any planned or anticipated street or alley vacations or the abandonment of existing rights-of-way; and

7. A description of the ways in which the institution will address the City's health policies and human services goals.

E. The transportation management program component shall satisfy the requirements of Section 23.54.015 K. The transportation management program shall include, at a minimum, the following:

1. A description of existing and proposed parking, loading and service facilities, and bicycle, pedestrian and traffic circulation systems within the institutional boundaries and the relationship of these facilities and systems to the external street system. This shall include a description of the major institution's impact on traffic and parking in the surrounding area; and

2. Specific institutional programs to reduce traffic impacts and to encourage the use of public transit, carpools and other alternatives to single-occupant vehicles. Any specific agreements with the City for the provision of alternative modes of transportation shall also be included.

F. Environmental information and the master plan shall be integrated into one (1) document.

G. Where two (2) or more institutions are located in close proximity to one another, the Director may require their combined land use, traffic and parking impacts on the surrounding area to be evaluated in the master plan for each institution.

(Ord. 115002 § 23(part, 1990.)

23.69.032 Master plan process.

A. Not less than sixty (60) days prior to applying for a master plan, the institution shall file a notice of intent to prepare a master plan with the Director.

B. Formation of a Citizens Advisory Committee.

1. Immediately following submittal of a notice of intent to prepare a master plan, the

institution shall initiate the establishment of a citizens advisory committee of at least six (6), but no more than twelve (12), members.

2. Where there is more than one (1) major institution in the same general area, as determined by the Director, a single advisory committee serving more than one (1) institution shall be permitted.

3. The institution, in consultation with the Director of the Department of Neighborhoods, shall develop a list of potential members to serve on the advisory committee. Groups from which members may be selected for appointment to the advisory committee shall include area community groups, residents, property owners, and business persons; consumer groups using the services of the institution; and any other persons or organizations directly affected by the actions of the institution. To the extent possible, members of the advisory committee should possess expertise or experience in such areas as neighborhood organization and issues, land use and zoning, architecture or landscape architecture, economic development, building development and educational or medical services. A non-management representative of the institution shall be included.

4. Members of the advisory committee shall have no direct economic relationship with the institution except as provided in subsection B3.

5. The Director of the Department of Neighborhoods shall review the list of potential members and recommend to the Council those individuals appropriate to achieve a balanced, independent and representative committee. After the recommendation has been submitted, the Department of Neighborhoods may convene the advisory committee. The Council may confirm the advisory committee composition, make changes in the size and/or composition of the advisory committee, or remand the matter to the Director of the Department of Neighborhoods for further action. The Council shall establish the final composition of the committee through a memorandum of agreement with the institution, prepared by the Department of Neighborhoods, and adopted by resolution.

6. For each member, an alternate(s) shall also be selected for service on the advisory committee. Alternates shall fill-in for members only

when the latter are unable to serve. Individual members may be replaced by the represented group subject to the approval of the Director of the Department of Neighborhoods, without Council confirmation.

7. Four (4) nonvoting, ex-officio members of the advisory committee shall represent the major institution, the Department of Construction and Land Use, the Department of Neighborhoods and the Seattle Engineering Department.

8. The Committee shall be staffed by the Department of Neighborhoods with the cooperation and assistance of the major institution. Technical assistance to the committee shall be provided by the Department of Construction and Land Use, the Engineering Department and the Department of Neighborhoods.

9. During the master plan review and adoption process, the Council may, in the interest of ensuring representative community participation on the advisory committee, amend the size and/or composition of the advisory committee.

10. The City-University Community Advisory Committee (CUCAC) shall serve as the advisory committee for the University of Washington.

11. The Director of the Department of Neighborhoods shall promulgate rules applicable to advisory committees, including terms of office, selection of chairpersons, and methods of conflict resolution.

C. Application for a Master Plan.

1. Within one hundred twenty (120) days of filing a notice of intent to prepare a master plan, the institution shall submit an application and applicable fees for a master plan. This application shall include an environmental checklist and a concept plan comprised of the following:

- a. Proposed institution boundaries; and
- b. A proposed site plan including proposed structure dimensions and gross floor area; and
- c. Proposed uses; and
- d. Any proposed street vacations, and parking location and access; and
- e. Proposed phasing of development and a description of alternative proposals for physical development, including a detailed explanation of the reasons for considering each alternative.

2. In order to evaluate a proposed master plan the following information shall be included in the concept plan for all master plan applications, whether for a new master plan or for an amendment to an existing master plan:

a. A statement explaining the purpose of the development proposed in the master plan, including a discussion of the public benefits resulting from the proposed new development, the way in which the proposed development will serve the public-purpose mission of the major institution, and the extent to which the growth and change may adversely affect the livability of the surrounding neighborhood; and

b. A statement of the extent to which the major institution has addressed in the past, and will address in the future with its proposed development, the City's health policies and human services goals; and

c. A description of the uses and character of the neighborhood surrounding the major institution and how the major institution relates to the surrounding area. This shall include pedestrian connections, physical and visual access to surrounding amenities and services, and the relationship of the major institution to other major institution development within two thousand five hundred feet (2,500') of its Overlay District boundaries; and

d. An analysis of the proposed master plan's consistency with the intent of the City's Major Institution and other Land Use Policies; and

e. A discussion of the major institution's facility decentralization plans and/or options; and

f. A site plan showing property lines and ownership of all properties within the applicable Major Institution Overlay District, of areas proposed to be included in an expanded Major Institution Overlay District, and of all major institution uses within two thousand five hundred feet (2,500') of Overlay District boundaries; and

g. The boundary of the Major Institution Overlay District applicable to the major institution preparing the master plan and any proposed changes.

3. The Advisory Committee shall review and submit comments on the concept plan and the environmental checklist.

4. After an application for a master plan has been filed, the Director, in consultation with the institution, shall prepare a schedule for the completion of the master plan. The Advisory Committee shall review and submit comments on the schedule. The schedule shall require that the City Council receive a recommended master plan for approval within twenty-four (24) months from the date of application, provided that the Director may approve a schedule of up to thirty (30) months from the date of application for master plans of unusual complexity or difficulty. Changes to the schedule may be made by mutual agreement between the institution and the Director.

5. Notice of application for a master plan shall be provided as required by Chapter 23.76, Procedures for Master Use Permits and Council Land Use Decisions.

D. Development of Master Plan.

1. The advisory committee shall participate directly in the formulation of the master plan from the time of its preliminary concept so that the concerns of the community and the institution are considered. The advisory committee comments shall consider the physical development and environmental impacts of the institution based upon the objectives listed in the Major Institutions Policies and Chapter 25.05, SEPA.

2. The advisory committee shall hold open meetings with the institution and City staff to discuss the master plan and resolve differences. The institution shall provide adequate and timely information to the advisory committee for its consideration of the content and level of detail of each of the specific elements of the master plan.

3. The threshold determination of need for preparation of an Environmental Impact Statement (EIS) shall be made as required by Chapter 25.05, SEPA Policies and Procedures.

4. If an EIS is required and an institution is the lead agency, it shall initiate a predraft EIS consultation with the Director. The advisory committee shall meet to discuss the scope of the document. The advisory committee shall submit its comments on the scope of the draft EIS to the lead agency and the Director before the end of the scoping comment period.

5. The institution shall prepare a preliminary draft master plan.

6. The institution or DCLU, whichever is lead agency, shall be responsible for the preparation of a preliminary draft EIS.

7. The advisory committee, the Engineering Department, the Director, and the institution shall submit comments on the preliminary draft master plan and the preliminary draft EIS.

8. The institution shall review the comments and revise the preliminary draft master plan, if necessary, discussing and evaluating the comments of all parties. The lead agency shall review the comments and be responsible for the revision of the preliminary draft EIS, if necessary. The Director shall review the revised drafts and may require further documentation or analysis on the part of the institution.

9. The Director shall publish the draft master plan, and shall publish the draft EIS as required by Section 25.05.510 of the Seattle Municipal Code.

10. The Director shall hold a public hearing on the draft master plan and draft EIS.

11. The advisory committee shall prepare a report on the draft master plan and shall submit comments on the draft EIS.

12. The institution shall prepare a preliminary final master plan and the lead agency shall be responsible for the preparation of a preliminary final EIS following the public hearing.

13. The advisory committee, the Engineering Department, the Director, and the institution shall submit comments on the preliminary final master plan and the preliminary final EIS.

14. The institution shall review the comments and revise the preliminary final master plan, if necessary. The lead agency shall review the comments and be responsible for the revision of the preliminary final EIS, if necessary. The Director shall review the revised final documents and may require further documentation or analysis on the part of the institution.

15. The Director shall publish the final EIS and the final master plan.

E. Report and Recommendation of the Director.

1. The Director shall prepare a written report on an application for a master plan as provided in Section 23.76.050, Report of the Director. The Director shall first prepare a draft Director's Report, and shall submit it to the advisory committee and the institution. The advisory committee and the institution shall review

and submit comments on the draft Director's Report. The Director shall review the comments, and prepare a final Director's Report on the final master plan.

2. In the Director's Report, a determination shall be made whether the proposed development and changes of the major institution are consistent with the framework policy of the City's Major Institution Policies, and whether the proposed development and changes represent a reasonable balance of the public benefits of development and change with the need to maintain livability and vitality of adjacent neighborhoods. Consideration shall be given to:

a. The reasons for institutional growth and change, the public benefits resulting from the proposed new facilities and services, and the way in which the proposed development will serve the public purpose mission of the major institution; and

b. The extent to which the growth and change will significantly harm the livability and vitality of the surrounding neighborhood.

3. In the Director's Report, an assessment shall be made of the extent to which the major institution, with its proposed development and changes, will address the City's health policies and human services goals, including the provision of medical and educational services to low-income people.

4. The Director's analysis and recommendation on the proposed master plan's development program component shall consider the following:

a. The extent to which the institution's plans for development conform to the City's Major Institution Policy on concentration of Major Institution development on existing campuses or decentralization of Major Institution development. The Director may require existing or proposed facilities to be located beyond two thousand five hundred feet (2,500') of a Major Institution Overlay District boundary if the following conditions are present:

(1) The facility or use does not require geographic proximity to the main institution, or

Development potential within the boundaries of the applicable Major Institution Overlay District is needed for facilities more critical to the central mission of the major institution and increasing development potential

would produce unacceptable adverse impacts on the surrounding area, and

(2) Decentralization would reduce or eliminate undesirable adverse impacts on the surrounding neighborhood, including the need for expanding the boundary of the Major Institution Overlay District,

b. The extent to which development is proposed to be located outside the Major Institution Overlay District and within two thousand five hundred feet (2,500') of the Overlay District boundary. To approve major institution development within two thousand five hundred feet (2,500') of the boundary of the Overlay District, except for development in a Downtown zone, which would result in floor area of major institution uses in excess of forty thousand (40,000) square feet or ten thousand (10,000) square feet on any one (1) site, the development shall:

(1) Conform to the standards of the zone in which it is proposed to be located, and

(2) Be compatible with other uses in the zone, and

(3) Be essential to meeting the central mission of the major institution,

c. The extent to which proposed development is phased in a manner which minimizes adverse impacts on the surrounding area. When public improvements are anticipated in the vicinity of proposed major institution development or expansion, coordination between the major institution development schedule and timing of public improvements shall be required;

d. The extent to which historic structures which are designated on any federal, state or local historic or landmark register are proposed to be restored or reused. Any changes to designated Seattle Landmarks shall comply with the requirements of the Landmarks Preservation Ordinance.¹ The major institution's advisory committee shall review any application to demolish a designated Seattle Landmark and shall submit comments to the Landmarks Preservation Board before any certificate of approval is issued.

5. The Director's analysis and recommendation on the proposed master plan's development standards component shall be based on the following:

a. The extent to which buffers such as topographic features, freeways or large open spaces are present or transitional height limits are proposed to mitigate the difference between the

height and scale of existing or proposed major institution development and that of adjoining areas. Transition may also be achieved through the provision of increased setbacks, articulation of structure facades, limits on structure height or bulk or increased spacing between structures;

b. The extent to which any structure is permitted to achieve the height limit of the Major Institution Overlay District. The Director shall evaluate the specified limits on structure height in relationship to the amount of Overlay District area permitted to be covered by structures, the impact of shadows on surrounding properties, the need for transition between the major institution and the surrounding area, and the need to protect views;

c. The extent to which setbacks of major institution development at ground level or upper levels of a structure from the boundary of the Major Institution Overlay District or along public rights-of-way are provided for and the extent to which these setbacks provide a transition between major institution development and development in adjoining areas;

d. The extent to which allowable lot coverage is consistent with permitted density and allows for adequate setbacks along public rights-of-way or boundaries of the Major Institution Overlay District. Coverage limits should insure that view corridors through major institution development are enhanced and that area for landscaping and open space is adequate to minimize the impact of major institution development within the Overlay District and on the surrounding area. Allowable lot coverage shall be specified on the basis of the entire Major Institution Overlay District or on a subarea basis within the Overlay District;

e. The extent to which allowable density of development is specified either by the provision of floor area ratios (FAR) or by allowable gross floor area of development. Density limits shall be specified on the basis of the entire

(Seattle 9-93)

Major Institution Overlay District or on a subarea basis within the Overlay District. Allowable density shall consider the impacts of density of major institution development on vehicular and pedestrian circulation, adequacy of public facilities, capacity of public infrastructure, and amount of open space provided. Density permitted shall not significantly impact the provision of neighborhood services to the surrounding area;

f. The extent to which landscaping standards have been incorporated for required setbacks, for open space, along public rights-of-way, and for surface parking areas. Landscaping shall meet or exceed the amount of landscaping required by the underlying zoning. Trees shall be required along all public rights-of-way where feasible;

g. The extent to which access to parking, loading and service areas is provided from an arterial street;

h. The extent to which the provisions for pedestrian circulation maximize connections between public pedestrian rights-of-way within and adjoining the Major Institution Overlay District in a convenient manner. Pedestrian connections between neighborhoods separated by major institution development shall be emphasized and enhanced;

i. The extent to which open space maintains the patterns and character of the area in which the major institution is located and is desirable in location and access for use by patients, students, visitors and staff of the major institution. If proposed open-space areas are deemed to be inadequate to serve the needs of the major institution, the Director may require that the major institution contribute to the provision of public open space nearby;

j. The extent to which open space, though not required to be physically accessible to the public, is visually accessible to the public;

k. The extent to which the proposed development standards provide for the protection of scenic views and/or views of landmark structures. Scenic views and/or views of landmark structures along existing public rights-of-way or those proposed for vacation may be preserved. New view corridors shall be considered where potential enhancement of views through the major institution or of scenic amenities may be enhanced. To maintain or provide for view corridors the Director may require, but not be limited

to, the alternate spacing or placement of structures or grade-level openings in structures. The institution shall not be required to reduce the combined gross floor area of proposed buildings in order to protect views other than those protected under City laws of general applicability.

6. The Director's report shall specify all measures or actions necessary to be taken by the major institution to mitigate adverse impacts of major institution development that are specified in the proposed master plan.

7. The Director shall make a recommendation on each of the issues highlighted in the advisory committee's comments on the draft Director's Report as being unresolved or inadequately addressed. In addition, on those issues where the Director's recommendation differs from the advisory committee's comments, the Director shall include written justification for the Director's recommendation.

F. Advisory Committee Report.

1. The advisory committee shall prepare a written report of its findings and recommendations on the final master plan and on the final Director's Report. The advisory committee report shall include, in addition to its recommendations, the public comments it received. The document may incorporate minority reports.

2. The advisory committee report shall set forth any issues which the committee believes were inadequately addressed in the final master plan and final EIS and clearly state the committee's position on these issues.

3. The advisory committee report shall include a record of committee meetings, including the meetings' minutes.

G. Hearing Examiner Consideration of the Master Plan.

1. The Hearing Examiner shall review the Director's report and recommendation, including the advisory committee's report on the Director's report, as provided in Section 23.76.052, Hearing examiner hearing and recommendation.

2. If the Hearing Examiner considers the proposed master plan and all recommendations for changes, alternatives, mitigating measures and conditions, and determines that a significant master plan element or environmental issue was not adequately addressed by the proposed master plan, the Hearing Examiner may request the institution to prepare new proposals on the issues

23.69.032 LAND USE CODE

identified, may request the Director to conduct further analysis or provide clarification, and may request the advisory committee to reconvene for the limited purpose of commenting on the new proposals. The new proposals shall also be submitted to the Director, advisory committee and parties of record for comment. After the new proposals and comments have been received, the Hearing Examiner may:

a. Remand the new proposals and advisory committee comments and recommendation to the Director for further consideration and report; or

b. Open the record for a hearing on the new proposals, the advisory committee comments and recommendation, and/or any comments pertaining to the limited issues which were presented by other parties of record.

3. The Hearing Examiner shall submit a recommendation to the Council on the proposed master plan within thirty (30) days following the hearing. In addition to the Hearing Examiner's recommendation, the Hearing Examiner shall transmit to the Council the proposed master plan, environmental documentation, the advisory committee's reports, and the report and recommendation of the Director.

H. Council Consideration of the Hearing Examiner's Recommendation.

1. The Council shall review and consider the Hearing Examiner's recommendation as provided in Section 23.76.054, Council consideration of hearing examiner recommendation. The goal of the Council shall be to take final action on the Hearing Examiner's recommendation no later than six (6) months after the date it receives the recommendation.

2. If the Council examines the proposed master plan and all recommendations for changes, alternatives, mitigating measures and conditions, and determines that a significant master plan element or environmental issue was not adequately addressed by the proposed master plan, the Council may request the institution to prepare new proposals on the issue identified, may request the Director to conduct further analysis or provide clarification, and may request the advisory committee to convene for the limited purpose of commenting on the new proposals. The new proposals shall also be submitted to the Director and parties of record for comment. After

the new proposals and comments have been received, the Council may:

a. Remand the new proposals and advisory committee comments and recommendations to the Director for further consideration and report; or

b. Direct the Hearing Examiner to conduct another hearing and to reconsider the recommendation based on the new proposals, the advisory committee comments and recommendation, and/or any comments pertaining to the limited issues which were presented by other parties of record; or

c. Open the record for a hearing on the new proposals, the advisory committee comments and recommendation, and any comments pertaining to the limited issues which were presented by other parties of record.

3. Consideration of a master plan for the University of Washington will be made in concert with the Board of Regents in accordance with the Agreement between The City of Seattle and the University of Washington, May 2, 1983.

I. Council Decision.

1. The Council's decision to adopt, adopt with conditions, or deny an application for a Major Institution Master Plan shall comply with the requirements of Section 23.76.056, Council decision on hearing examiner recommendation.

2. Adoption of a master plan shall be by ordinance. A master plan shall not become final until the ordinance approving it becomes law pursuant to the City Charter.²

J. Requirement for Compiled Plan. Within thirty (30) days of adoption of a master plan by the Council, the institution shall submit a draft copy of the compiled adopted plan for the Director's review and approval. Upon the Director's approval, the institution shall submit twenty-five (25) copies plus a camera-ready original of the compiled adopted plan to the Director. This compiled plan shall incorporate all changes and conditions imposed during the plan approval process. No master use permit for development first permitted in the adopted plan shall be issued until the compiled plan has been reviewed and approved by the Director except as provided in Section 23.69.033.

(Seattle 9-93)

(Ord. 116744 § 56, 1993; Ord. 115906 § 1, 1991; Ord. 115002 § 23(part, 1990.)

1. Editor's Note: The Landmarks Preservation Ordinance is set out at Chapter 25.12 of this Code.
2. Editor's Note: The City Charter is set out at the front of this Code.

23.69.033 Approval of master use permits prior to master plan adoption.

An institution may submit an application for development requiring a master plan prior to the master plan's adoption at any time following application for a master plan. The application may be approved if the following conditions are met:

- A. Development proposed in the Master Plan:
 1. The Draft Environmental Impact Statement (DEIS) and the draft master plan have been published; and
 2. The development standards shall be established through the conditional use process; and either
 3. a. The end of the schedule for submittal to Council of the master plan has been reached, and
 - b. Review of the application has been completed by the advisory committee and it has made a recommendation to the Director, and
 - c. The Council has approved the development as a Council Conditional Use according to the criteria of Section 23.69.012 A; or
 4. a. The advisory committee has reviewed the application and has recommended by a three-fourths (3/4) vote of all advisory committee members, with at least six (6) affirmative votes, approval of the application, and
 - b. The Director has approved the development as an Administrative Conditional Use according to the criteria of Section 23.69.012;

B. Development not proposed in the Master Plan:

1. The conditions of subsection A have been met; and
2. The institution shall provide a statement describing the unforeseen conditions or circumstances which warrant the need to include the proposed development; and
3. An analysis of the environmental impacts of the new proposal shall be incorporated into the environmental analysis of the proposed master plan and shall be reviewed by the advisory committee; and

4. The published final master plan and final EIS shall be amended to include the proposed development.

C. An application for development which would result in cumulative development of major institution uses developed by, or leased to, or located in a structure(s) or on land owned by, the major institution or an entity that is controlled in whole or in part by the major institution or by a parent or affiliate entity of the major institution, within two thousand five hundred feet (2,500') outside the Overlay District boundaries exceeding forty thousand (40,000) square feet or ten thousand (10,000) square feet on a single lot shall not be approved prior to adoption of a master plan. (Ord. 115002 § 23(part, 1990.)

23.69.034 Effect of master plan adoption.

A. After a master plan has been adopted, the institution may develop in accordance with the adopted master plan.

B. The Director may approve applications requiring a master plan prior to final adoption of the master plan subject to the provisions of Section 23.04.040 F, Section 23.04.040 G, or Section 23.69.033.

C. The Director shall not issue any permit for any development which has not been included within the master plan unless the institution has met the requirements of Section 23.69.035, Master plan amendment.

D. Applications for master use permits for development contained in the adopted master plan shall be subject to the requirements of Chapter 25.05, SEPA Policies and Procedures.

E. The adopted master plan shall be referenced on the Official Land Use Map and placed on file in the Department.

F. Following adoption of a master plan, the citizens advisory committee shall continue to advise the institution and the City regarding implementation or renewal of the master plan or amendments to the master plan. If more than one (1) major institution is designated within the same general area, individual advisory committees may be consolidated into one (1) committee. The committee shall meet as necessary but no less than once annually to review the status of the master plan.

G. When a master plan has been adopted prior to the effective date of these provisions¹ and there is no standing advisory committee, an advisory

23.69.034 LAND USE CODE

committee shall be established in accordance with the provisions of subsection B of Section 23.69.032 at the time an application for an amendment to the master plan, requiring Council approval, is made.

H. The institution shall provide an annual status report on institution development to the Director which shall detail the progress the institution has made in achieving the goals and objectives of the master plan. The annual report shall contain the following information:

1. A report on the status of projects which were initiated during the year; and
2. A report on progress anticipated in the following year towards the initiation or completion of development projects; and
3. A statement of the institution's land acquisition and leasing activity outside the Major Institution Overlay District boundary undertaken during the year; and
4. A report on progress made in achieving the goals and objectives contained in the transportation management program towards the reduction of single-occupant vehicle use by institution employees; and
5. A report on the progress made in achieving the goals and objectives established in the master plan for addressing the City's health policies and human services goals; and
6. A report on the progress made in meeting conditions of master plan approval. This report shall include any required annual reports relating to institution activities.

I. 1. The Director shall review the annual status report and, in consultation with other government agencies, shall evaluate the institution's progress toward achieving the goals and objectives established in the master plan for addressing the City's health policies and human services goals. The Director shall notify the Council that DCLU is conducting the review, and the Council may schedule one (1) or more public hearing(s) to receive public comment, or may request that the Director or some other City department or office conduct such public hearing(s).

2. If substantial progress is not being made in addressing the City's health policies and human services goals, the Council and/or the Director may direct the institution to meet with representatives of City departments, including the Health Department, the Department of Housing and Human Services and the Department of

Neighborhoods, to develop additional steps to improve the institution's performance in addressing the City's policies and goals. (Ord. 116744 § 57, 1993; Ord. 115165 § 9, 1990; Ord. 115002 § 23(part, 1990.)

1.Editor's Note: Ordinance 115002 was passed by the Council on March 26, 1990.

23.69.035 Master plan amendment.

A. Proposed amendments to an adopted master plan shall be reviewed by the Director. The advisory committee shall be given the opportunity to review a proposed amendment and submit comments on whether it should be considered a minor or a major amendment. The Director shall determine whether the proposed amendment is a minor amendment which complies with the original intent of the adopted master plan, or is a major amendment which does not comply with the original intent of the master plan. The Director's decision that a proposed amendment is minor or major shall be made in the form of an interpretation subject to the procedures of Chapter 23.88, Rules; Interpretation.

B. A proposed amendment to an adopted master plan shall be considered a major amendment subject to the provisions of Section 23.69.032 when:

1. An increase in a height designation or the expansion of the boundary of the Major Institution Overlay District is proposed; or
2. The proposal seeks to permit structures of significantly greater height or bulk than those contemplated in the master plan; or
3. A reduction in housing stock or development outside the boundary but within two thousand five hundred feet (2,500') of the Major Institution Overlay District, other than within a Downtown zone, is proposed that exceeds the level approved in the adopted master plan; or
4. The proposed amendment substantially alters the types or mix of institutional uses; or
5. The proposed amendment has significantly greater impacts than were contemplated in the master plan; when assessing whether impacts are significantly greater, the Director

(Seattle 9-93)

shall consider both the magnitude of the impacts and who is impacted; or

6. Changes are proposed to the single-occupancy vehicle goals of an approved transportation management program; or

7. One (1) major institution has acquired, merged with, or consolidated with another major institution, pursuant to Section 23.69.023, and an application is filed for a project containing major institution use(s) that is located on any portion of the combined Major Institution Overlay District not already covered by an adopted master plan and would either:

a. Exceed the envelope of structures existing on the date of the acquisition, merger or consolidation, except for the addition or heating, ventilating, air conditioning, mechanical, or similar equipment, or

b. Demolish all or most of any existing structure, or

c. Result in an increase of more than one hundred thousand (100,000) square feet of gross floor area of medical offices, over the amount existing on the date of the acquisition, merger or consolidation, in the portion of the combined Major Institution Overlay District not already covered by an adopted master plan, excluding any structure for which medical service use is the established use, and excluding medical offices that directly serve hospital clinic, laboratory, nursing facility, and blood bank uses;

C. A proposed amendment shall be considered minor if structures, uses or features described in the Master Plan are relocated and the Director finds the relocation would not have a significantly greater impact than the siting proposed in the master plan.

D. The Director shall notify the advisory committee of any proposed minor amendment to an adopted master plan, and the advisory committee shall comment on the proposed amendment. After the Director makes a decision, the advisory committee shall be notified.

E. Noncontiguous areas which are included in a Major Institution Overlay District as a result of a previously adopted master plan shall be deleted from the Major Institution Overlay District at the time a major amendment is approved. The change to the Overlay District boundaries shall be in accordance with the procedures for City-initiated amendments to the Official Land Use Map as provided in Chapter 23.76, Master Use Permits

and Council Land Use Decisions, and shall not be subject to the rezone criteria in the City's Major Institution Policies.

(Ord. 115165 § 10, 1990; Ord. 115002 § 23(part, 1990.)

23.69.036 Master plan renewal.

A. The process for renewal of a master plan's development program component shall follow the procedures provided in Section 23.69.032, Master plan process.

B. When the development program component of a master plan has expired, an application for a master use permit for development which does not meet the development standards of the underlying zoning shall not be approved until a new development program component has been adopted by the Council, except as provided in Section 23.69.026 C or Section 23.69.033.

C. If development approved as part of a master plan's development program component was commenced but not completed before the expiration of the development program component, an extension may be authorized. The institution shall provide a revised development schedule, not to exceed five (5) years, and a site plan describing the revised development schedule. The request shall be filed with the Director who shall, within sixty (60) days of receiving the request, transmit a report and recommendation including comments of the citizens advisory committee, to the Council for adoption.

D. Noncontiguous areas which are included in a Major Institution Overlay District as a result of a previously adopted master plan shall be deleted from the Major Institution Overlay District at the time a new master plan development program component is adopted. The change to the Overlay District boundaries shall be in accordance with the procedures for City-initiated amendments to the Official Land Use Map as provided in Chapter 23.76, Master Use Permits and Council Land Use Decisions, and shall not be subject to the rezone criteria in the City's Major Institution Policies. (Ord. 115002 § 23(part, 1990.)
