D. The charter shall establish a constituency with at least the powers set forth in Section 3.110.210 A through D unless the Mayor expressly determines that a constituency with such powers would not be in the public interest and approves a charter without a constituency, or a charter amendment to abolish or modify it. A charter that does not provide for a constituency or that prescribes a constituency with advisory capacity only shall repose stewardship for management and determination of all corporate affairs in the council.

E. If a constituency be provided, the council or a committee thereof shall report to the constituency at a meeting held at least quarterly and receive such advice, council or directions as the charter shall designate.

3.114.080 ADMINISTRATION

A. In selecting a consultant to provide services estimated to cost Twenty Thousand Dollars (\$20,000) or more, as adjusted pursuant to SMC Section 3.114.140, or establishing a certified roster, each department or Executive Department office head shall take into consideration the report and recommendations of the consultant evaluation committee appointed in connection with said proposed selection. In the event said department or Executive Department office head determines not to accept and act on the recommendation of the consultant evaluation committee, said official shall file with the Executive Services Director a written justification describing the reasons for such determination. Each such department or Executive Department office head shall make a good-faith effort to rotate the award of consultant service(s) contracts among consultants evaluated as being equally qualified and capable of performing the desired services.

B. No consultant shall be retained to perform accounting or auditing services and to provide management consulting services for the same department or Executive Department office at or about the same time. One (1) year after completion of such services for a department, a consultant who provides either accounting or auditing services shall become eligible to contract for management consulting services, and a consultant who provides management consulting services shall become eligible to contract to provide accounting and/or auditing services.

C. No contract shall be made with any consultant for performance of services on a retainer basis (whether for a term of years, or from year-to-year, or on another successive arrangement) for more than five (5) consecutive years, provided this restriction shall not apply to:

1. Contract for services in connection with a particular project or activity although completion of the assignment may extend for more than five (5) years;

2. A retainer agreement used to establish eligibility for placement on a roster from which consultants are selected from time to time for particular assignments; or

3. An agreement implementing a deferred compensation plan for City employees contemplated by 26 USC § 457.

(Ord. 118397 § 51, 1996; Ord. 116000 § 4, 1991; Ord. 112334 § 7, 1985; Ord. 110504 § 1(part), 1982; Ord. 108762 § 6, 1980.)

3.114.070 Notification of selection or nonselection.

Every department or Executive Department office that receives a proposal from a consultant to provide services for which such administrative unit has advertised in accordance with SMC Section 3.114.030, shall notify each such consultant, in writing, as to whether such consultant was selected to provide the desired services, or qualified for placement on a certified roster.

3.114.145 Findings and declaration of policy.

The City Council finds that:

A. National policy encourages the establishment and growth of small business in order to

strengthen free competition, expand economic opportunity and further economic development, improve managerial skills, and encourage individual investment, among other goals; and the United States has established many governmental programs to foster and assist small business.

B. The State of Washington has established an office of small business (RCW 43.31.925), provided programs to assist small business such as the small business innovators opportunity program (RCW Chapter 43.170), authorized participation in federal small business programs (RCW Chapter 31.20), and declared that small businesses are essential to the well-being of Washington's economy, represent a majority of the businesses in the state and provide nearly one-half (1 /2) of Washington's jobs, insure essential economic competition, and broaden the industrial base of Washington industries (RCW 43.31.915).

C. Small businesses are very important to the City's economy. Consulting contracts within the limits of Sections 3.114.150 and 3.114.160 provide small businesses a needed opportunity to develop their skills and reputations; the City's experience with its certified rosters during the last two (2) years has shown that services provided by small business on such assignments are equal to those secured from larger enterprises. Awarding such consultant contracts to small business through the roster system provides added indirect benefits to the City and its economy through the stimulation of small business, allowing a greater development of individual skills, generating increased competition in the Seattle area, and providing more employment and economic opportunity.

D. Placing qualified women's and minority business enterprises on such rosters, and awarding them contracts so that they may participate fully as prime contractors in City projects and programs furthers the City's goals and policies declared in Section 20.40.020 of this Code, the Women's and Minority Business Utilization Ordinance.

(Ord. 113797 § 1, 1987.)

3.114.150 Certified consultants' roster.

Through the competitive process contemplated by SMC Sections 3.114.020 through 3.114.070, the Executive Services Department, in conjunction with participating departments, may establish certified rosters of qualified consultants for the use by any City department or Executive Department.

(Seattle 12-98)

ment office, hereinafter referred to as “participating department,” for skills or services in specialized areas of knowledge or experience including, among other specialties, architectural and engineering services; and without soliciting proposals on such assignments or projects individually, each such participating department may contract with a consultant on the appropriate roster as the City's needs arise for assignments or projects within the described specialty as long as each contract is estimated to cost no more than an adjusted amount established pursuant to SMC Section 3.114.140 by using Eighty Thousand Dollars (\$80,000.00) as a base amount, as established by Ordinance No. 113797 § 2, 1987. (Ord. 118397 § 57, 1996; Ord. 117583 § 1, 1995; Ord. 116000 § 13, 1991; Ord. 113797 § 2, 1987; Ord. 112334 § 1(part), 1985.)

3.114.160 Establishment and operation of rosters.

These terms apply to the establishment, maintenance and use of certified rosters by City departments:

A. Solicitation. A solicitation for consultants for a certified roster shall describe the particular specialty sought, the contract dollar limits, the type of assignments or projects to be made, and the duration of the roster. The terms in a solicitation may be more restrictive than this chapter, and if so, shall control.

B. Consideration.

1. A participating department may contract with the consultants on the roster for assignments or projects within the specialty and for services described in the roster on assignments or projects estimated to cost no more than an adjusted amount established pursuant to SMC Section 3.114.140.

2. In applying for and accepting placement on a certified roster, a consultant shall agree to maintain a readiness to contract with the City to provide the services for particular assignments or projects contemplated by the solicitation, when and if offered; and, if awarded a contract, the consultant shall agree to complete the assignment or project in a timely and professional manner in accordance with the contract's standard and/or special terms and conditions.

C. Opportunities for Small Business. Whenever eight (8) or more such consultants qualify for certification, the roster shall consist only of those

consultants who are eligible to be classified as a “small business concern” under the Small Business Act of the United States, 15 USC § 632, and its implementing regulations, 13 CFR Part 121. If seven (7) or fewer such consultants are certifiable, the roster shall be selected without regard to the eligibility of consultants under the small business criteria. A consultant may evidence its qualification as a “small business concern” by showing its acceptance by the Small Business Administration or its certification by the Washington Office of Minority and Women's Business Enterprises, or by signing a notarized affidavit swearing under oath that the consultant is a “small business concern” based on the United States Small Business Administration—Small Business Size Standards according to the Federal Standard Industrial Classification Codes.

D. Standard Contracts.

1. A participating department may require that all consultants placed on a certified roster agree to contract on a standard form of contract having terms and conditions generally controlling the work or services to be performed; if so, the participating department's contracts with a consultant for a particular assignment or project may adopt the standard form and supply the scope of work; the time for performance; the hours of work and consideration to be paid; and other special terms and conditions specific to the particular assignment or project.

2. A standard contract may quote an hourly or piece rate for the consultant, which shall remain a firm offer for a stated period.

E. Duration.

1. A certified roster shall expire at the earliest of the following:

- a. Three (3) years after its establishment;
- b. A shorter duration stated in the City's solicitation; or
- c. Reduction of the number of consultants on the roster to one-third (1/3) of its original membership or one (1) consultant, whichever is greater.

2. After notice to the consultants on a roster and allowing them a hearing, a roster may be dissolved sooner than its expiration when it is deemed in the best interests of the City for one (1) or more causes stated in the notice.

F. Number. The Executive Services Department in conjunction with participating departments shall determine the number of consultants selected for each roster category. The number shall not exceed fifteen (15) consultants.

G. Deletion From a Roster.

1. After allowing the consultant an opportunity to be heard, if the Executive Services Department in conjunction with participating departments find a consultant falls under any of the following circumstances, the consultant shall be deleted from the City's certified roster program:

a. The consultant requests deletion (the deletion shall take effect ten (10) business days after notice to the Executive Services Department);

b. The consultant is found to be in default in the performance of a City contract or is disqualified from City contracting, or the consultant has failed to file applicable business and occupation tax reports; or

c. The consultant has made a material misrepresentation in its response to a solicitation. (A misrepresentation is material if the consultant's rating in the evaluation scores would probably have been reduced if the facts were fully known.)

2. After allowing the consultant an opportunity to be heard, a participating department may delete a consultant from its certified roster, if:

a. The consultant fails to execute a contract for service within the specialty for an assignment or project when offered to it;

b. The consultant discontinues business within the Puget Sound area of Western Washington;

c. The consultant changes its organization or operations so that its response to the City's solicitation, although correct when made, is no longer descriptive of its current status, and the changes place the department at a disadvantage;

d. The circumstances presented provide good cause under rules established by the Executive Services Director; or

e. The consultant and/or a firm with an affiliation in ownership with the consultant receives contracts from the participating department

through a certified roster category which exceeds, in the aggregate, three (3) times the dollar limitation established pursuant to SMC Section 3.114.150 when the consultant was selected for this roster category.

3. Replacements. The Executive Services Department in conjunction with participating departments may replace a consultant deleted from a roster by adding the next highest ranked consultant in the selection process; provided, that a replacement for women's business enterprise or a minority business enterprise, as defined in SMC Section 20.46A.050, shall be the next highest ranked women's business enterprise or minority business enterprise, respectively, except for consultant services governed by RCW 39.80.

H. Executive Services Department Review. The City's solicitation and selection process and a standard contract shall be subject to review by the Executive Services Director for compliance with the Women's and Minority Business Utilization Ordinance, SMC Chapter 20.46A.

I. Disclaimer. Placement on a certified roster makes a consultant eligible for consideration and possible selection as the contractor by a participating department for the providing of services within the specialty for assignments or projects estimated to cost no more than the roster program limitations, all as more fully described or limited in the City's solicitation, and subject to the terms of this chapter and the need of the participating department for the service and the availability of funds. Placement on a roster does not guarantee any consultant any contract for any amount. In addition, the City reserves the power to amend or repeal this chapter and to change or discontinue the roster system at any time.

J. Evaluation Criteria. Consultants shall be evaluated for placement on a roster on the basis, among other factors, of their record of utilization of women and minority-owned business on sub-contracts, except for consultant services governed by RCW 39.80.

K. Insurance. A participating department, after consultation with the City's risk manager, shall determine the appropriate contract insurance requirements to reflect its evaluation of the risk of liability and the City's liability exposure. If commercial general liability insurance is required, the City must be named as an additional insured on the consultant's commercial general liability policy.

3.114.170 Environmental Impact Statement (EIS) consultant hiring procedures.

This section regulates the establishment, maintenance and use of rosters of consultants qualified to produce Environmental Impact Statements (EISs) for the City. A department or Executive Department office may establish rosters of qualified EIS consultants for skills or services in specialized areas of knowledge or experience; and such administrative unit may contract with a consultant on the appropriate roster as the City's need arises for consultants with the described specialty.

A. Solicitation. A solicitation for an EIS consultant roster shall describe terms of the services sought; the name of the department or Executive Department office seeking an EIS consultant, including a contact person's name and telephone number; an indication of applicable laws and ordinances regarding equal opportunity employment; and duration of the roster with conditions for adding or deleting information.

B. Consideration.

1. Except for the circumstances described in SMC Section 3.114.110, a department or Executive Department office which maintains an EIS roster may contract only with the consultants on the roster for the production of an EIS, except that such administrative unit may:

a. Execute change orders to contracts made originally without using the roster, for work or services related to the original contracts;

b. Select consultants through the EIS selection process as defined in this section, for projects which fall generally within a specialty for which there is an EIS roster, but which require a level of expertise that is not available within the firms on the EIS roster or for which no consultant on the EIS roster is available;

c. Disregard an EIS roster in order to carry out an applicable procurement regulation mandated by the grant agreement on a project with federal or state assistance;

d. Execute a change order or contract amendment with the consultant for additional work related to the original contract and not

foreseen when the contract was originally executed.

2. In applying for and accepting placement on an EIS roster, a consultant shall agree to maintain a readiness to contract with the City to provide the services contemplated by the solicitation, when and if offered; and, if awarded a contract, the consultant shall agree to complete the assignment in a timely and professional manner in accordance with the contract's standard and/or special terms and conditions.

C. Standard Contracts.

1. A department or Executive Department office may require that all consultants placed on an EIS roster agree to contract on a standard contract which contains terms and conditions generally controlling the work or services to be performed; if so, the department's or Executive Department office's contracts with a consultant for a particular project may adopt the standard form and supply the scope of work; the time for performance; the hours of work and consideration to be paid; and other special terms and conditions specific to the particular assignment or project.

2. A standard contract may quote an hourly or piece rate for the consultant, which shall remain a firm offer for a stated period.

D. Duration. After notice to the consultants on an EIS roster, a roster may be dissolved when it is deemed in the best interests of the City for one (1) or more causes stated in the notice.

E. Deletion from a Roster.

1. A consultant shall be deleted from an EIS roster under any of the following circumstances:

a. The consultant requests deletion. The deletion shall take effect ten (10) business days after notice to the department or Executive Department office;

b. The consultant is found to be in default in the performance of a City contract or is disqualified from City contracting, or the consultant has failed to file applicable business and occupation tax reports; or

c. The consultant has made a material misrepresentation in its response to a solicitation. (A misrepresentation is material if the consultant's rating in the evaluation scores would

(Seattle 12-98)

probably have been reduced if the facts were fully known.)

2. After allowing the consultant an opportunity to be heard, a department or Executive Department office may delete a consultant from an EIS roster, if:

a. The consultant discontinues business within the Puget Sound area of Western Washington; or

b. The consultant changes its organization or operations so that its response to the department's or Executive Department office's solicitation, although correct when made, is no longer descriptive of its current status, and the changes make the consultant less qualified or otherwise less suitable for EIS contracting work.

F. Disclaimer. Placement on an EIS roster makes a consultant eligible for consideration and possible selection as the contractor of the soliciting department or Executive Department office for the providing of services as described or limited in the department's or Executive Department office's solicitation, and subject to the terms of this section and the need of the department or Executive Department office for the service. Placement on an EIS roster does not guarantee any consultant any contract for any amount.
