15.02.010 Title.

This subtitle shall constitute the "Street Use Ordinance" of the City and may be referred to as such.
(Ord. 90047 § 1, 1961.)

15.02.015 Chapter headings and captions.

Chapter headings, tables of contents, and captions of sections are for convenient reference only and do not modify or limit the text of a section. An ordinance number and section in parenthesis following a section in the codification of this title refers to the enacting ordinance.
(Ord. 117569 § 1(part), 1995.)

15.02.020 Exercise of police power.

This subtitle is an exercise of police power of the City for the public safety, health and welfare, and its provisions shall be liberally construed for the accomplishment of that purpose.
(Ord. 90047 § 2, 1961.)

15.02.025 Disclaimer of City liability.

A. Issuance of any permit pursuant to the Street Use Ordinance¹ does not constitute the creation of a duty by the City to any person or to indemnify any person for any wrongful acts of a permit holder against any person or the public or to otherwise shift responsibility from the licensee to the City.

B. Nothing contained in this subtitle is intended to be nor shall be construed to create or form the basis for any liability on the part of the City, or its officers, employees or agents, for any injury or damage resulting from the failure of a permit holder or applicant for permit to comply with the provisions of this subtitle, or by reason or in consequence of any act or omission in connection with the implementation or enforcement of this subtitle on the part of the City by its officers, employees, or agents.

C. It is expressly the purpose of this subtitle to provide for and promote the health, safety and welfare of the general public, and not to create or otherwise establish or designate any particular class or group of persons who will or should be especially protected or benefited by the terms of this subtitle.

D. It is the specific intent of this subtitle to place the obligation of complying with its requirements upon the permit holder or applicant for permit within its scope, and no provision of nor term used in this subtitle is intended to impose any duty whatsoever upon the City or any of its officers or employees, for whom the implementation or enforcement of this subtitle shall be discretionary and not mandatory.

E. Nothing contained in this subtitle is intended to be nor shall be construed to create or form the basis for any liability on the part of the City, or its officers, employees or agents, for any injury or damage resulting from the failure of a permit holder or applicant for permit to comply with the provisions of this subtitle, or by reason or in consequence of any act or omission in connection with the implementation or enforcement of this subtitle on the part of the City by its officers, employees or agents.
(Ord. 109969 § 3, 1981.)

1. Editor's Note: The Street Use Ordinance is codified in Chapters 15.02 through 15.54 of this Code.

15.02.027 First Amendment rights; personal freedoms.

This ordinance shall be interpreted in a manner consistent with the First and Fourteenth Amendments to the United States Constitution and Article I, Sections 3, 4, 5, and 11 of the Washington Constitution. (Ord. 117569 § 1(part), 1995.)

15.02.030 Right to prosecute civil action.

Nothing in this subtitle shall be construed to curtail or abridge the right of anyone to prosecute a civil action for damages by reason of injury to person or property resulting from the negligent use by any other person of any public place or the space above or beneath the same, nor shall the issuance of a permit under this subtitle be construed as relieving the persons accepting the same, or anyone, from liability over to the City, nor from any damages accruing to or suffered by anyone, caused by the occupation, obstruction of or encroachment on, any public place. (Ord. 90047 § 4, 1961.)

15.02.035 "May"--"Shall."

Unless the context clearly indicates otherwise, the word "may" or "is authorized to" means that the City or its official has discretion to take an action or decline to do so. The word "shall" expresses an intention that an action be taken or a requirement be met, but, if the sentence is negative, "shall" is prohibitory; for example, Sections 15.42.010-15.42.040. (Ord. 117569 § 1(part), 1995.)

15.02.040 Definitions--General principles.

The words and phrases identified in Sections 15.02.042 through 15.02.048 shall be construed in accordance with their respective definitions or explanations, except where the same shall be clearly contrary to or inconsistent with the context of this title or the section in which used.

public.

(Ord. 117569 § 3, 1995; Ord. 99650 § 1, 1971; Ord. 90047 § 15, 1961.)

1. Editor's Note: The Building Code is codified in Title 22 of this Code.

15.02.060 Scope of authorization.

A permit is an authorization to proceed under this ordinance with activities only in a public place. A permit under this ordinance is subject to compliance with other City ordinances, with applicable state laws and regulations, and with the laws and regulations of the United States. The issuance of a permit under this ordinance does not authorize the taking of an action that conflicts with another City ordinance or with other state or federal laws. An applicant is responsible for ascertaining and complying with other applicable laws.

A permit under this ordinance does not authorize the damaging of privately owned property lawfully within the public place unless the permit expressly states otherwise and identifies the property involved. An applicant has the responsibility for identifying the limits of the public place, for locating and protecting underground utilities pursuant to RCW Chapter 19.122, for avoiding unnecessary interference with surface and overhead uses, for preserving trees, and for preventing damage to such privately owned property. When a permit authorizes displacement of privately owned property, the permit holder shall first give notice to the owner, if known, and allow the owner an opportunity to remove it.

(Ord. 117569 § 1(part), 1995.)

15.02.070 Nearest equivalent.

When an activity combines elements which come within two (2) or more chapters of this title, the provisions of each chapter shall apply to each element to the extent practical; where two (2) provisions of this chapter are overlapping on a particular activity, the provision providing the greater protection to the public safety shall apply and duplicate forms and processing avoided.

In the event a use contains a single element that may be classified within two (2) or more chapters or categories within a chapter, the City official responsible for issuing the permit shall select the chapter or classification within a chapter, as the case may be, that is most descriptive of the proposed use.

(Ord. 117569 § 1(part) 1995.)

15.02.080 Assemblies and gatherings.

It is City policy to encourage the holding of public assemblies and other gatherings in parks and at the Seattle Center rather than in streets open for vehicular travel or sidewalks with substantial pedestrian traffic; and it is City policy to permit use of University Street between Fourth and Fifth Avenues (Victory Square) on weekdays only if the event can not reasonably be accommodated in Seattle's downtown parks and pedestrian ways.

(Ord. 117569 § 1(part), 1995.)

15.02.085 Public fora.

The Director of Transportation and the Superintendent are authorized to designate by permit from time to time one (1) or more particular areas within a public place where citizens may place commemorative displays, monuments, or symbols, for up to ten (10) days in order to communicate a message to the public, and

to establish the terms and conditions of their placement. Unless the permit expressly provides otherwise, the commemoration must be removed between the hours of 12:01 a.m. and six a.m. (6:00 a.m.) each day. An appropriate sign shall be placed near the commemoration identifying its sponsor and the location as a public forum.
(Ord. 118409 § 36, 1996; Ord. 117569 § 1(part), 1995.)

15.02.090 Appeals to Municipal Court.

If an applicant asserts a right protected by the First Amendment of the United States Constitution and/or Article I, Sections 3, 4, and 5 of the Washington Constitution, and is aggrieved by an action of the City in denying a permit, and time be of the essence, the applicant may petition the presiding judge of the Seattle Municipal Court for a prompt review thereof. The matter shall be granted priority as a case involving constitutional liberties and shall be heard in the manner provided by the Municipal Court by rule, and the decision of the Municipal court shall be final subject only to judicial review.
(Ord. 117569 § 1(part), 1995.)

15.02.100 Effect of ordinance.

This title prohibits an action or activity whenever it requires a permit for a "use" defined in Section 15.02.048, and:

- A. This title authorizes issuance of a permit for the type of activity, but the applicant fails to apply for and secure a permit;
- B. The applicant is granted a permit upon conditions or subject to restrictions and the applicant fails to comply therewith; or
- C. The City, by policy, does not issue permits for that type of use.

Issuance of permits under this title is discretionary; this title does not create any right to a street use permit.
(Ord. 117569 § 1(part), 1995.)

15.02.110 Authority cumulative.

The authority granted by this title to any City officer or employee is in addition to and supplemental of powers granted by other sections of the Seattle Municipal Code or City ordinances and does not limit any other authority granted to City officials by other ordinances or laws.
(Ord. 117569 § 1(part), 1995.)

15.04.012 Nuisances.

Any structure built, excavation made, and/or material placed in or on any public place by anyone without a permit therefor first having been obtained, as provided in this title may be deemed a public nuisance. In the discretion of the authorizing official identified in Section 15.04.015, such nuisances may be abated with or without action at law, and/or such other proceedings may be taken as are authorized by law and the ordinances of the City for the prevention, abatement and punishment of nuisances.

(Ord. 117569 § 83, 1995; Ord. 90047 § 29(part), 1961.)

15.04.015 Authorizing official.

Continuation of such uses after completion of construction is subject to compliance with the terms and conditions of this title; inspection and administration by the Director of Transportation or the Superintendent, as the case may be; and payment of an annual fee, if applicable.

B. The Superintendent of Parks and Recreation may authorize the use and occupation of, and administer this title for, public places under the jurisdiction of the Department of Parks and Recreation, including park drives and boulevards. These areas are identified in Appendix I or shown on the map as Appendix II.

C. The Director of Transportation has authority to issue and occupation of, and administer this title for, all other public places and for uses other than those authorized to the Director of Planning and Development under Chapter 23.76. The Director of Transportation may delegate to the Director of the Seattle Center the administration of permits for streets within the Seattle Center, and to the Superintendent the administration of permits for sidewalks and planting strips adjacent to parks.

D. When a street, bridge, overpass or underpass crosses a park, park drive, or boulevard, the authorizing official shall be the Director of Transportation as to the surfaces or structures maintained by Seattle Transportation, and the Superintendent as to areas within the jurisdiction of the Department of Parks and Recreation.

E. In order to better coordinate the administration of this title for a particular event or project, any of the foregoing officials may delegate to another authorized official the issuance of any particular permit or its supervision. When the appropriate official to process an application is uncertain, the Director of Transportation may receive and forward the materials to the appropriate official.

approving a permit, the applicant shall make the studies, or authorize the City to make the studies at the applicant's cost or expense or from the applicant's indemnity deposit. 15.04.035 Approval; considerations.

A. If the application conforms to the requirements of this title and the proposed use is consistent with the rights of the public, the authorizing official may approve the application, fix the duration and the terms or conditions of the permit, and when required, upon the applicant's furnishing of a deposit or surety bond, insurance, covenant and indemnification and payment of all required fees, issue the permit. The original permit shall remain in the custody of the City and a copy shall be given to the permittee and be posted or available at the site.

B. Factors for consideration in evaluating an application for a permit include but are not limited to the rights of the applicant (both constitutional liberties and abutter's property rights); the site and its terrain; the public and private benefits of the proposed use; the impact of the proposed use on the following:

- The paramount purpose of streets for travel and transportation;
- Utilities; authorized secondary street uses; and any usage being made by the public of the site;
- Fire access and public safety;
- Uses under permit; street trees; and other proposed or past uses of the site;
- Rights of light, air, and access and lateral support of abutting properties and on access or easements of properties dependent upon the public place for access;
- The environment;
- Drainage, surface and underground; springs and watercourses; and the stability of soils; and
- Where applicable, City land use, transportation, open space, shoreline, and beautification policies and approved neighborhood land use plans.

In addition, where these situations occur, factors for consideration include:

- As to public places under the jurisdiction of the Department of Parks and Recreation, their character as a park drive or boulevard, or as open space;
- As to shoreline street ends, their purpose to provide the public with visual or physical access to the water and the shoreline;
- As to submerged streets, the Harbor Code, Title 16;

15.04.037 Overview of indemnity deposit, accounts, escrow, insurance, and surety bond.

A. Sections 15.04.040 through 15.04.060 are coordinated elements of a package of protections intended to assist the City in collection of expenses charged under this ordinance and costs associated with a use under permit; to assure performance of the requirements of this ordinance and the covenants or conditions in a permit; to place on the user the risks associated with the use and provide a degree of financial responsibility in the event of an accident or injury; and, when their use is completed, to have public place restored to at least as good a condition as before the use began; and thereby further compliance and protect the public treasury. The City's acceptance of an indemnity deposit, an escrow account, a surety bond, or insurance or the establishment of a subaccount in the City Treasury in favor of a permittee do not limit a permittee's liability to the amount thereof.

B. Sections 15.04.040 through 15.04.060 relate to each other as follows:

1. A deposit with the City under Section 15.04.040 provides a source of funds, held by the City, to pay probable City expenditures arising from a proposed use and/or restoration of the public place after the use, the time of City employees for inspection and Code enforcement, and ancillary City expenses. Annual fees are billed separately.
2. An escrow account maintained under Section 15.04.042 may be an alternative to a deposit under Section 15.04.040 for amounts at or over One Thousand Dollars (\$1,000) and/or to providing a surety bond under Section 15.04.044 in an amount up to Ten Thousand Dollars (\$10,000), or a supplement to either or both of them. It differs from a deposit in that the stakeholder, rather than the City, is a public depository; interest on the deposit accrues to the account, rather than to the City; and withdrawals from the account are governed by the escrow agreement rather than by City rules on guaranty deposits.
3. A subaccount under Section 15.04.050 establishes a balance with the City in favor of the applicant or permittee against which a City department may deduct fees and charges as they occur, including annual fees and deposits for particular permits.
4. A surety bond under Section 15.04.044 provides a promise by a licensed surety company, within the limits and according to the terms of the bond, to perform work or pay the City's expenses to perform the work in the event of the permittee's default. A surety bond is not a substitute for providing the City public liability insurance for any tortious injury.
5. Liability insurance under Section 15.04.045 protects the City as an additional insured from public liability as a result of an accident, injury, or damage arising from the use of a public place, and assists in making permittees financially responsible for meeting liabilities that may arise from their use of public places.

6. The covenant for indemnity under Section 15.04.060 holds the City harmless from any and all claims, actions, or damages. It applies independently of the foregoing and authorizes a tender of defense by the City to the permittee in event of a claim or lawsuit arising from the use.

7. Section 15.04.017 empowers an authorized official, when required to do so by a constitutional provision or state law, to waive compliance with any of these sections.

C. The amount set by an authorizing official for an indemnity deposit, an escrow account or a surety bond, and the correctness of a charge or deduction shown on the City's account statement or made from an escrow account shall be subject to review or reconsideration pursuant to SMC Section 15.04.112. (Ord. 118369 § 4, 1996; Ord. 117569 § 5(part), 1995.)

15.04.040 Indemnity deposit -- Escrow -- Surety bond.

A. If the authorizing official determines that there is a substantial risk of injury, damage, or expense to the City or probable City expenditures arising from an applicant's proposed use of any public place, the authorizing official may require the applicant to make an indemnity deposit with the City Director of Executive Administration in an amount based on the official's estimate of the injury, damage or expense to the City and/or cost of restoration of the public place if a mishap or accident were to occur. The funds shall be deposited to the credit of the Guaranty Deposit Fund.

B. The indemnity deposit shall be used to pay the cost of restoring the public place, or removing any earth or other debris, of replacing or repairing any utility interrupted or damaged or of any trees in the public place, of completing any work left unfinished, of resetting any traffic control devices, of the expenses of engineering and other studies authorized by Section 15.04.035, and any other expense that the City may sustain in conjunction with the permitted work, plus a City administrative charge equal to fifteen percent (15%) of the amounts expended for the City's expenses for services such as inspections, surveys, preparing plans, letting contracts, and contract administration or supervision. The balance of the cash indemnity deposit, if any, after all deductions shall be returned to the applicant. If the indemnity deposit be insufficient, the applicant shall be liable for the deficiency.

C. The authorizing official may authorize the filing of a surety bond in accordance with Section 15.04.044 in lieu of making all or part of an indemnity deposit and may suspend its application or waive compliance when required by Section 15.02.027. (Ord. 120794 § 205, 2002; Ord. 117569 § 8(part), 1995; Ord. 116368, § 217, 1992; Ord. 115994 § 4, 1991; Ord. 108020 § 2, 1979; Ord. 95823 § 1, 1967; Ord. 90047 § 10, 1961.)

15.04.042 Escrow.

An authorizing official may accept the establishment of an escrow account in a qualified public depository as defined in RCW 39.58 that is eligible to receive City moneys (a) as a substitute for making all or part of an indemnity deposit required by Section 15.04.040 if the amount involved equals or exceeds One Thousand Dollars (\$1,000.00) and the terms of the escrow authorize the deduction and payment to the City of charges identified in Section 15.04.040; and/or (b) as a substitute for filing a surety bond required by Section 15.04.044 if the amount involved is Ten Thousand Dollars (\$10,000.00) or less, and, in the event of the

applicant's default, the authorizing official anticipates that the City could reasonably complete the work needed to protect the public and restore the public place for the amount placed in the escrow account. Interest accruing in the escrow account shall be added to the principal account and the balance after deductions returned to the applicant.

(Ord. 117569 § 8(part), 1995; Ord. 116368, § 217, 1992; Ord. 115994 § 4, 1991; Ord. 108020 § 2, 1979; Ord. 95823 § 1, 1967; Ord. 90047 § 10, 1961.)

15.04.044 Surety bond.

A. If required by the authorizing official, the applicant shall file with the City Clerk or such official's functional successor, in lieu of, or in addition to the indemnity deposit, a surety bond approved as to surety and as to form by the City Attorney. The bond shall assume all the requirements provided in Section 15.04.060 in relation to an indemnity deposit, shall run for the full period of the permit, and shall be in an amount to be fixed by the authorizing official, and conditioned that such applicant shall faithfully comply with all the terms of the permit and all the provisions of this title and all other ordinances of the City, and, to the extent permitted by RCW Chapter 19.72, indemnify and save the City free and harmless from any and all claims, actions or damages of every kind and description which may accrue to, or be suffered by, any person by reason of the use of any public place, as provided for in the application.

B. If the application shall be to construct, reconstruct, repair, maintain, or remove any pavement, sewer, water main, storm drain, grading, street lighting, or appurtenance thereto, the applicant shall file with the City Director of Executive Administration or such official's functional successor a surety bond approved as to surety and as to form by the City Attorney. The bond shall be conditioned that the applicant shall faithfully complete all portions of the work according to the City's Standard Plans and Specifications, the special plans approved by the authorizing official, and the terms of the permit. The bond shall run for the full period of the permit plus one (1) year after City acceptance of the permitted work. The authorizing official shall set the amount of the bond.

C. If an applicant shall be periodically using public places, the authorizing official may require the applicant to post a surety bond in an amount the authorizing official deems sufficient to cover the accumulated cost or risk involved at any certain time in a calendar year for the number of permits outstanding. The bond shall be in force during the period of all outstanding permits, but in no case for less than one (1) year. The bond shall be subject to approval by the City Attorney as to surety and as to form. The bond shall be conditioned to assume all of the requirements of this title in relation to a cash indemnity deposit.

D. If at any time any applicant shall apply for a permit to use a public place or to modify an issued permit, and in the opinion of the authorizing official the aggregate amount of bonds needed for the additional work or risk involved in the proposed use, together with that involved under other permits outstanding to the applicant, exceed the amount of the then posted surety bond, the authorizing official may require the applicant, prior to issuing the permit, to post an additional or separate surety bond in an amount the authorizing official deems sufficient to cover the additional risk or work involved. The bond shall remain in force during the period of all outstanding permits, but in no case for less than one (1) year from and after the date of the permit. Also, the authorizing official may require any permittee to post a surety bond in the calendar year following the period of a permit when the extent of possible damage to a public place has not been completely determined.

E. Registered side sewer contractors who post a one (1) year bond under the provisions of

subsubsection C or D shall not be required to post an additional surety bond specifically covering work under separate side sewer ordinances. An authorizing official may waive the requirement of surety bond under subsubsection C upon finding that the bond posted under Section 21.16.060 C is adequate to fully protect the City. The surety bond shall contain all the requirements of side sewer ordinances in the same manner as required bonds posted pursuant to the side sewer ordinances and Section 21.16.060 C.

F. Sections 15.02.027 and 15.04.017 may apply when constitutional freedoms or statutory rights are exercised. (Ord. 120794 § 206, 2002; Ord. 117569 §§ 8(part), 9(part), 1995; Ord. 116368 §§ 217, 218, 1992; Ord. 115994 §§ 4, 5, 1991; Ord. 108020 § 2, 1979; Ord. 95823 §§ 1, 2, 1967; Ord. 90047 §§ 10, 11, 1961.)

15.04.045 Liability insurance.

An applicant for a permit shall maintain in full force and effect during the full period of the permit, public liability insurance in an amount sufficient to cover potential claims for any bodily injury, death, or disability and for property damage, which may arise from or be related to the use allowed by the permit. The insurance policy shall name the City as an additional insured; apply as primary insurance regardless of any insurance which the City may carry; and obligate the insurance company to give notice to both the authorizing official and the City's Risk Manager at least thirty (30) days before any cancellation of the policy. The authorizing official may establish the amount of such insurance, subject to review or reconsideration pursuant to SMC Section 15.04.112, and unless constitutional liberties prohibit it, may require that the insurance be provided prior to issuance of the permit.

(Ord. 118369 § 5, 1996; Ord. 117569 § 8(part), 1995; Ord. 116368 § 217, 1992; Ord. 115994 § 4, 1991; Ord. 108020 § 2, 1979; Ord. 95823 § 1, 1967; Ord. 90047 § 10, 1961.)

15.04.050 Account or bond for multiple permits.

In the alternative to making an indemnity deposit for each permit under Section 15.04.040, an applicant who anticipates seeking two (2) or more permits from the same department, may establish with the City a subaccount by depositing with the City Director of Executive Administration, to the credit of the Guaranty Deposit Fund, a minimum sum of at least Five Hundred Dollars (\$500) or the amount fixed for the permit being sought, whichever is greater. On notice from the City, the applicant shall replenish such sum from time to time, whenever the subaccount balance shall have been reduced to the sum of Three Hundred Dollars (\$300) or less.

(Ord. 120794 § 207, 2002; Ord. 117569 § 9(part), 1995; Ord. 116368 § 218, 1992; Ord. 115994 § 5, 1991; Ord. 95823 § 2, 1967; Ord. 90047 § 11, 1961.)

15.04.060 Covenant for indemnity.

A. If the application is for a permit to use or occupy a public place with an areaway, fuel opening, sidewalk elevator or door, a bulkhead, steps, retaining wall, rockery, structure, or an extension or appurtenance to a structure or any facility with an anticipated continued occupancy of a public place of more than one year, the owner of the adjacent property, and any existing lessee, sublessee, tenant and subtenant using or occupying the part of the premises served or connected to the permitted use shall, in the manner provided by law for the execution of deeds, execute and deliver to the City upon a form to be supplied by the authorizing official, an agreement in writing, signed and acknowledged by such owners and by any such existing lessee, sublessee, tenant and subtenant, and containing an accurate legal description of the premises and a covenant on the part of

Such owner, lessee, sublessee, tenant and subtenant, for themselves and their heirs, executors, administrators, successors, assigns, lessees, sublessees, tenants and subtenants, forever to hold and save the City free and harmless from any and all claims, actions or damages which may accrue to, or be suffered by, any person by reason of the use of such public place, or of the construction, existence, maintenance or use of the use permitted; provided, no indemnification is required on account of injury to persons or damage to property caused by or resulting from the sole negligence of the City, its agents or employees. If the application is for a permit to construct and maintain an areaway, such agreement shall also contain a covenant on the part of the persons or corporations executing the same, for themselves and their heirs, executors, administrators, successors, assigns, lessees, sublessees, tenants and subtenants, assuming the duty of inspecting and maintaining all services, instrumentalities and facilities installed in the areaway to be constructed or occupied under authority of such permit, and assuming all liability for, and saving and holding the City harmless from any and all loss, damage or injury that may result to his or her own person or property, or the person or property of another, by reason of such services, instrumentalities or facilities. All agreements shall be a covenant running with the land.

B. In addition such agreement shall contain a provision that the permit is wholly of a temporary nature, that it vests no permanent right whatsoever, that upon thirty (30) days' notice, posted on the premises, or by publication in the official newspaper of the City, or without such notice, in case the permitted use shall become dangerous or such structures shall become insecure or unsafe, or shall not be constructed, maintained or used in accordance with the provisions of this title, the same may be revoked and the structures and obstructions ordered removed. Every such agreement after it has been received and after the same has been recorded with the King County Department of Records and Elections, shall be retained by the City Clerk in the files and records of the Clerk's office.

C. The authorizing official may waive execution of the signature on an agreement by a tenant or subtenant on a month-to-month lease or on a tenancy at will. If the application be by a condominium or cooperative apartment, the authorizing official may accept an agreement by the condominium or apartment association together with documentation showing its authority to execute the agreement in lieu of execution of the agreement by all unit or apartment owners.

Seattle**, 67 Wn.2d 555, 408 P.2d 1012(1965).

15.04.072 Authority to remove occupancy.

For current SMC, contact
the Office of the City Clerk

If any structure or obstruction, or use or occupancy, is not discontinued on notice from the City to do so, the Director of Transportation or the Superintendent with respect to public places under jurisdiction of the Department of Parks and Recreation may forthwith prohibit its further use and remove such structure or obstruction from the public place, or make such repairs upon such structure or obstruction as may be necessary to render the same secure and safe, at the expense of the permittee or the permittee's successor or user or person responsible for said use. The City may collect such expense in the manner provided by law. (Ord. 118409 § 40, 1996; Ord. 117569 § 11(part), 1995; Ord. 115994 § 6, 1991; Ord. 115942 § 2, 1991; Ord. 112522 § 20(part), 1985; Ord. 110951 § 1, 1982; Ord. 101351 § 1, 1972; Ord. 100603 § 1, 1972; Ord. 90047 § 13, 1961.)

15.04.074 Permit--Fees.

A. From time to time the Director of Transportation shall prepare and recommend for adoption by the City Council a schedule of fees applicable to all such permits for public places under the jurisdiction of Seattle Transportation. The Director of the Office of Economic Development shall prepare and recommend for adoption by the City Council a schedule of fees applicable to master filming permits. The Superintendent shall prepare and recommend a schedule of fees applicable to permits for use of public places under the jurisdiction of the Department of Parks and Recreation, and the Director of Planning and Development shall recommend a schedule of fees applicable to permits required by Section 15.44.020. The fee schedule, when adopted by ordinance, shall govern the amount of the fee for permits heretofore or hereafter issued. The amount of the fee shall be commensurate with the cost of administration, inspection and policing involved in the issuance and continuance of such permits and with the use and occupation thereby granted. Fees for use of the public right of way may take into consideration the undesirability of the use or occupation relative to the rights of the public, such as the City policy of discouraging encroachments inconsistent with the public right of access to the shorelines or right-of-way and may be included in the schedule of fees for use of public places under the jurisdiction of Seattle Transportation. Fees for use of park drives and boulevards may take into consideration City policy of discouraging encroachments inconsistent with their park-like character and may be included in the schedule of fees for use of facilities of the Department of Parks and Recreation.

B. The fee shall be collected as a condition to the issuance or continuance of any such permit or use except when such permit is issued as a component of a master filming permit pursuant to SMC Section 15.35.010. In order to effectuate collection of such fees the Director of Transportation, the Director of the Office of Economic Development as to master filming permits, or the Superintendent as to public places under the jurisdiction of the Department of Parks and Recreation, shall promptly notify holders of outstanding permits issued to pay the applicable fee or the permit will be revoked.

The rate in the schedule for master filming permits shall identify which, if any, of the factors identified in SMC Section 15.35.020 are taken into consideration in setting the rate and which are to be determined with respect to particular applications.

C. Upon petition by a public agency for a vacation of street area, street use fees for such street area shall be suspended if the Director of Transportation finds that such public agency, as a current practice, would convey to, or permits use by, the City of a portion of the public agency's property for street or other public purpose without charge; provided, should the street vacation petition be denied, street use fees shall be payable for the full period of use.

D. Except as provided in Subsection E of this Section, when a use requiring a permit is made of a public place without first obtaining the permit, the fee shall be double the amount provided in the schedule of fees. The double fee shall apply only to the first tenure of the permit.

E. When a use of a public place for which a Master Filming Permit may be obtained under Seattle Municipal Code Ch. 15.35 is made without first obtaining such a permit or the required component permits, the fee shall be \$500.

F. Fees for the use of public places under the jurisdiction of the Department of Parks and Recreation shall be deposited in the Park and Recreation Fund; all other fees under the jurisdiction of Seattle Transportation shall be deposited in the Transportation Fund. (Ord. 121334 § 3, 2003; Ord. 121317 § 6, 2003; Ord. 120822 § 1, 2002; Ord. 119673 § 4, 1999; Ord. 118409 § 41, 1996; Ord. 118238 § 3, 1996; Ord. 117569 § 11(part), 1995; Ord. 115994 § 6, 1991; Ord. 115942 § 2, 1991; Ord. 112522 § 20(part), 1985; Ord. 110951 § 1, 1982; Ord. 101351 § 1, 1972; Ord. 100603 § 1, 1972; Ord. 90047 § 13, 1961.)

15.04.090 Refund of permit fee.

Whenever the fee paid for any use or occupation permit shall be erroneous for any reason, and application is made for refund, the authorizing official shall certify the facts justifying such refund, the amount thereof, and his or her approval of such refund, and upon presentation of such certificate to the City Director of Executive Administration, a warrant shall be drawn and paid in the amount of such refund. The necessary appropriations are hereby made and authorized. If such restoration work has not been completed by the sixtieth calendar day after receipt by such owner of the authorizing official's written order to perform such work by such deadline, the City may perform such restoration and bill the cost thereof to the property owner, together with fifteen percent (15%) of its costs to cover administrative expenses.

The Director of Construction and Land Use shall refer to the Director of Transportation the relevant part of every application for a permit that involves constructing, reconstructing, repairing, or altering any driveway providing direct vehicular access to a street which serves as an approach or exit from a limited access facility where all or any portion of the driveway lies or would lie between the proximate margin of the limited access facility and a line projected at right angles to the centerline of the street from a point thereon which is four hundred feet (400') distant, measured along the centerline of the street, from the proximate margin of the limited access facility.

The Director of Transportation shall make a report and recommendation to the Director of Construction and Land Use as to the potential effect of the use of the proposed driveway upon the safe and efficient flow of traffic. The Director of Construction and Land Use shall issue a permit for the driveway work only upon a determination (a) that the design, standard of construction, operational use, location or number of locations of the proposed driveway or driveways will not unreasonably interfere with the safe and efficient flow of vehicular and pedestrian traffic upon the adjoining streets and sidewalks, giving particular consideration to the effect upon traffic flowing to and from the proximate limited access highway facility, and (b) that denial of the permit would totally deprive the property to be served of vehicular access. The Director of Construction and Land Use may attach such conditions to any such permit as may be reasonably required under the particular circumstances for the protection of public safety.

(Ord. 118409 § 44, 1996; Ord. 117569 § 17, 1995; Ord. 109754 § 11(part), 1981; Ord. 95776 § 2, 1967.)

15.06.070 Revocation of permit or alteration of driveway.

Where the safe and efficient flow of vehicular and pedestrian traffic requires it, the Director of Transportation may revoke any permit for a driveway to a street or other public place under its jurisdiction and order removal of the driveway or order the alteration of a driveway for which a permit has been issued. The Superintendent has a similar authority as to park drives and boulevards. The notice to remove or to make an alteration shall be in writing, be served upon the permittee, or the permittee's successor, and shall require compliance within one hundred eighty (180) days.

If no such conflict is evident, and the authorizing official using the guidelines in Section 15.14.010 shall determine that the placement represents a reasonable accommodation furthering the overall public interest, the authorizing official may issue a permit for such proposed newsstand.

D. In determining whether to issue or deny a permit for a proposed newsstand under this section, the Director of Transportation shall consider: (1) whether there is a satisfactory alternate location for such newsstand in the vicinity, and if no such location exists, (2) whether an existing newsstand shall be displaced for such proposed newsstand. 15.17.200 Street fairs and vending by nonprofit organizations.

The Director of Transportation, the Superintendent, and the Director of the Seattle Center are authorized to adopt rules relating to the time, place and manner in which a nonprofit organization may vend merchandise in which the organization's political, religious, sociological or ideological message is inextricably intertwined when the sale exercises the vendor's rights guaranteed by the United States or the Washington Constitution. Such rules may address the issuance and duration of permits, the size and placement of tables and other equipment used, their siting and location on the sidewalks, the type of merchandise offered for sale, advertising and posting of prices, the display of licenses, the exclusion of ineligible merchandise, documentation to accompany applications for registration, and prohibitions against discrimination, among other subjects.

An authorizing official may authorize vending in a public place as part of a street fair, carnival, athletic activity, or other public event authorized by and in accordance with a permit issued by the Special Events Committee under Chapter 15.52.

15.18.010 Duty to maintain--Notice of hazardous condition--Barricading.

A. The owner of a structure on property adjoining a public place has an obligation to maintain it so that it does not create a hazard to the public using the public place; and, if a hazard to the public should develop, to promptly place barricades in the public place to warn the public of the danger and discourage entry into the area of risk. Upon discovering the hazard, the owner shall immediately inform the Director of Planning and Development, and, as to park drives and boulevards, the Superintendent of Parks and Recreation, and as to other

public places, the Director of Transportation.

B. Whenever the Director of Planning and Development finds that a building is unsafe, according to the Building Code (SMC Title 22), or any other applicable ordinance, and a hazard to public safety, health or welfare may exist to members of the public using a public place, then the authorizing official may in his or her discretion immediately barricade the public place or require the owner or occupant of the adjoining property to set up barricades to the extent necessary, so as to prevent public access to such area in the interest of public safety. If the City incurs an expense in erecting or maintaining barricades, the authorizing official shall bill the owner or occupant the cost thereof together with an administrative charge equal to fifteen percent (15%) of the amounts expended.

The Director of Planning and Development forthwith shall notify the owner or his or her agent of such hazardous condition and to correct this condition within ten (10) days from the date of notice thereof.
(Ord. 121276 § 37, 2003; Ord. 118409 § 60, 1996; Ord. 117569 § 51(part), 1995; Ord. 90047 § 23(A), 1961.)

15.18.020 Construction of covered way.

If the hazardous condition described in Section 15.18.010 has not been corrected by the owner or agent within the ten (10) day period, the owner or agent shall be notified to obtain a permit for the construction and maintenance of a covered way over that portion of the sidewalk or street area as directed by the Director of Transportation, or in the case of boulevards and park drives, by the Superintendent of Parks and Recreation. The covered way shall comply with the standards in Section 15.22.120, and with specifications in City manuals for work in public places. An owner or agent who fails to begin and complete construction according to a permit or to obtain such permit in the time specified is subject to the penalties in Chapter 15.50. In addition, the City may cause such covered way to be constructed and charge the cost plus fifteen percent (15%) thereof against the property described, and such charges shall be collected in the manner of the collection of debts.
(Ord. 118409 § 61, 1996; Ord. 117569 § 51(part), 1995; Ord. 90047 § 23(B), 1961.)

It is unlawful for anyone to occupy a public place with scaffolding, ladders or equipment to clean or paint a building, wall, or sign without first obtaining a permit to do so from the Director of Transportation, or, as to park drives and boulevards, the Superintendent of Parks and Recreation. No permit is required for using a single, attended ladder fourteen feet (14') or less in length, without other equipment. The term "equipment" includes machinery and power tools for generating or applying steam, high-pressure granular material, water,

compressed air, and/or chemical solvents, paints and other coatings.

15.20.020 Permit--Contents; validity.

The permit shall specify the portion of the public place which may be occupied, the equipment that may be used, the dates or days and hours of use, and the purpose. The permit shall be valid only for the dates or number of days stated, for the occupation of such portion of the public place set forth, and at such hours as may be designated, and for the purpose of cleaning, painting, erecting or hanging scaffold for the particular structure for which the permit is issued.

15.20.040 Chemicals and contaminants.

The use of acids, chemicals, any other cleaning material, paint or other coating is subject to and must comply with rules and regulations of the Environmental Protection Agency and the Puget Sound Air Pollution Control Agency both as to substances used and to the manner of application.

(Ord. 117569 § 54, 1995; Ord. 90047 § 24(D), 1961.)

15.20.050 Scaffolding--Compliance.

15.20.070 Public protection.

Any person who uses a public place for cleaning or painting a structure, with or without a permit, is required to protect the general public from injury or damage. The general public includes people who may also be using the public place in the vicinity; vehicles that may be traveling or parked on the roadway; and adjoining properties. Protective measures include, where applicable, controls on spraying; placement of tarpaulin or other coverings to intercept spillage or droppings; and screening devices.

During cleaning or painting operations, a suitable portion of the public place shall be closed to the general public; and barricades, warnings, or other traffic-control devices required by the authorizing official shall be placed in an approved manner. Hours of operation and/or additional construction may be specified to protect the public from injury or damage.

15.22.010 Compliance required.

When a building is to be erected, razed, repaired or altered, the specifications set out in this chapter shall be complied with by the owner of the building or his or her agent.
(Ord. 117569 § 59, 1995; Ord. 106780 § 2(part), 1977; Ord. 90047 § 25(part), 1961.)

15.22.020 Application for use permit.

An application shall be filed with the Superintendent of Parks and Recreation for use of a park drive or boulevard and with the Director of Transportation for use of other public places for construction, demolition, or repair of a building. The application shall specify the proposed use of the area and the period of time the applicant desires to use the specified area and be accompanied by a plan of the definite limits of areas desired for use. The use shall be confined to the public place adjoining the property to be improved, but if the application is accompanied by written permission of other adjacent property owners, the authorizing official may allow the use of a public place extending beyond the immediately adjoining property.
(Ord. 118409 § 63, 1996; Ord. 117569 § 60(part), 1995; Ord. 115994 § 23, 1991; Ord. 106780 § 2(part), 1977; Ord. 90047 § 25(A), 1961.)

15.22.022 Investigation.

The Director of Transportation or the Superintendent of Parks and Recreation as to park drives or boulevards shall investigate the area of the proposed use to determine the traffic carried by the adjacent roadway and walks, and to determine the inconvenience and hazard to the public. The authorizing official may revise the applicant's plans and confine the proposed use of the public place to an area that the official finds to be consistent with public safety and use of the street and boulevard for travel and transportation.
(Ord. 118409 § 64, 1996; Ord. 117569 § 60(part), 1995; Ord. 115994 § 23, 1991; Ord. 106780 § 2(part), 1977; Ord. 90047 § 25(A), 1961.)

15.22.024 Policies.

It is City policy (1) to protect the public passage within the existing roadways and walks; if (1) is not practical, then (2) to authorize a detour around the work area on the same side of a street or boulevard within the right-of-way; and if (2) is not practical, then (3) to close the sidewalk, and as a last resort, the street. In determining the practicality of an alternative, an authorizing official may take into consideration the purpose of the proposed use, its hazard to the public and the user's need for control of adjoining right-of-way, traffic patterns (both pedestrian and vehicular), the terrain, the impact of a detour or closure on adjoining properties and businesses, the expense of the alternative, and its duration. A compelling need must be shown to close a bus or trolley route. The authorizing official may limit a detour or closure to certain hours, such as work day while construction is in progress on the adjoining site.

(Ord. 117569 § 60(part), 1995; Ord. 115994 § 23, 1991; Ord. 106780 § 2(part), 1977; Ord. 90047 § 25(A), 1961.)

15.22.026 Insurance; conditions.

A. Upon completion of the investigation of the application, the authorizing official may grant the requested permit, subject to the applicant's furnishing public liability insurance and a deposit and/or surety bonds or an escrow account as the authorizing official deems necessary to protect the City from any claims for damages to persons or property or any other cause arising out of the proposed use.

B. The authorizing official may alter a condition of the permit at any time that the authorizing official finds that such use may cause damage to persons or property.

C. The Director of Transportation shall determine the adequacy of protective devices installed in a public place to safeguard utility and traffic facility devices.

D. All determinations of the Director of Transportation with respect to the issuance or denial of permits under this chapter are final subject to review pursuant to SMC Section 15.04.112. A person aggrieved by a determination of the Superintendent may petition the Superintendent for an opportunity for a hearing and reconsideration of the decision.

(Ord. 118409 § 65, 1996; Ord. 118369 § 9, 1996; Ord. 117569 § 60(part), 1995; Ord. 115994 § 23, 1991; Ord. 106780 § 2(part), 1977; Ord. 90047 § 25(A), 1961.)

15.22.030 Fence or enclosure--When required.

A fence or enclosure shall be erected at any location at which a building is to be erected, razed, repaired or altered, and a hazard to pedestrian traffic is created: (A) within ten feet (10') of a walk or roadway, (B) in a business district, or (C) in any case deemed necessary by the City Director of Transportation or, as to park drives and boulevards, the Superintendent.

(Ord. 118409 § 66, 1996; Ord. 117569 § 61, 1995; Ord. 106780 § 2(part), 1977; Ord. 90047 § 25(B), 1961.)

15.22.040 Fence or enclosure--Materials and construction.

A. Fences or enclosures at building sites on which construction or demolition activity occurs shall be continuous for their full length, except for such openings which shall be provided with sliding gates or hinged gates swinging inward, as may be necessary for the proper execution of the work. The gates of such

openings shall be securely fastened in a closed position when not in use.

B. Such fence, unless otherwise provided, shall be at least seven feet (7') in height and shall, where practicable, be erected before any work is commenced. Whenever the authorizing official determines that the construction or demolition activity may create flying debris or dust or otherwise affect pedestrians on a nearby walk or traffic on the adjacent roadway, the fence shall be solid and tight, except for the gates for entry or exit; view holes with protective screening provided for the public; and, if the enclosure is adjacent to a street intersection or corner, a portion of the fence from four feet (4') to seven feet (7') high which is within thirty feet (30') each way from the corner must be of wire mesh to provide for traffic visibility at all times, unless otherwise designated by the authorizing official. Otherwise, a wire mesh fence may be used.

C. The fence shall be designed to withstand wind loads and any other design factors imposed by the Seattle Building Code (Title 22).

(Ord. 117569 § 62, 1995; Ord. 106780 § 2(part), 1977; Ord. 90047 § 25(C) 1961.)

15.22.050 Obstruction of utility or traffic facilities prohibited.

No materials, fence or shed shall obstruct the approach to, or the normal functioning of a fire hydrant, maintenance hole, fire alarm box, catchbasin, inlet, vault, valve chamber, or any other public utility facility or traffic control device which is within an area being used by a permittee. A substantial protective frame, boarding, sand bags, etc., shall be placed or built around every streetlight pole, power pole, fire hydrant, and other utility facility or traffic control device that may be damaged by work being done on the adjacent property. This protection shall be maintained while the work is being done, shall not obstruct the normal function of the facility or device and ventilation of the maintenance holes, and shall be altered to provide for emergency access to the facility or device during periods when the workers are not present nearby.

Access to standpipes, fire escapes, and other appurtenances for fire safety of adjoining properties shall be preserved. City-owned street trees shall be protected from injury unless the authorizing official indicates otherwise.

(Ord. 117569 § 63, 1995; Ord. 106780 § 2(part), 1977; Ord. 90047 § 25(D), 1961.)

15.22.060 Removal of earth and debris.

Earth taken from excavations and rubbish from buildings shall not be stored in a public place, but shall be removed as rapidly as produced.

Materials that are dry and apt to produce dust when handled shall be kept sufficiently moist or covered to prevent the wind blowing them about. Building rubbish accumulating on upper floors and all rubbish, plaster and other loose materials, produced while wrecking, altering or repairing a building, must be lowered by elevators in closed receptacles or by closed chutes connecting to vehicles removing the same. When likely to produce dust, the chutes must be provided with means of wetting waste to prevent the wind from blowing it about.

15.22.120 Railings, barricades, and walkways.

The following Table shall be used to establish minimum requirements for pedestrian and motorist safety adjacent to building sites, demolition sites, construction sites and sites of excavations abutting upon or adjacent to public places.

WALKWAY TABLE

(Section 15.22.120)

Height of Construction	Distance from Construction	Protection Required
8 feet or less	1. Less than 6 feet	1. Railing (§ A)
	2. 6 feet or more	2. Barricades (§ B)
More than 8 feet	3. Less than one- fourth of the height of construction	3. Fence (§ C) and covered walkway (§ D and §§ 15.22.122-- 15.22.125)
	4. More than one- fourth of the height of construction	4. Fence (§ C)

Excavation within 4 feet of the street margin....Railing with midrail (§ A). See also Chapter 15.44

The height of construction in the table refers to the height of the building being built on the adjacent building site above the sidewalk grade. The distance from construction refers to the distance a pedestrian railing or fence is located from the nearest edge of the building site.

The protection required in Column 3 is as follows:

- A. Railing. A handrail not less than three and one-half feet (3 1/2') high, capable of withstanding a fifty (50) pound load per lineal foot applied horizontally to the top rail;
- B. Barricades. Four (4) or more red or flashing amber lights as required in Chapter 15.40;
- C. Fence. Sections 15.22.030--15.22.040 apply.
- D. Walkway. A walkway is required unless the sidewalk is closed. Section 15.22.122 applies to all walkways, and, in addition, Section 15.22.125 applies when the walkway table requires a covered walkway. (Ord. 117569 § 70(part), 1995; Ord. 106780 § 2(part), 1977; Ord. 90047 § 25(K), 1961.)

15.22.122 All walkways--Requirements.

- A. The walkway area shall have four feet (4') or more of clear walking width.
- B. A tight fence of board or chain link shall stand along the entire length on the side abutting the building site.
- C. The walkway shall have a handrail on the roadway side, not less than three and one-half feet (3 1/2') high capable of withstanding a fifty (50) pound load per linear foot applied horizontally to the top rail.
- D. If the walkway is also used as a bus zone, as much of the handrail and wire mesh on the roadway side as stipulated by the Director of Transportation shall be omitted or removed from the walkway.
- E. The walkway area shall be kept well lighted continuously between sunset and sunrise, and at such other times as necessary.
- F. The walkway area shall have warning lights, painting and other devices prescribed by the Traffic Control Manual for In-Street Work.
- G. A well-defined walking surface must be provided if pedestrians are to be routed off a paved sidewalk or into a roadway area. The walking surface must be solid and not slippery, and the transition between the temporary walkway surface and the sidewalk shall be without abrupt breaks or stubs. Pedestrians shall not be required to walk in a gutter.
(Ord. 118409 § 68, 1996; Ord. 117569 § 70(part), 1995; Ord. 106780 § 2(part), 1977; Ord. 90047 § 25(K), 1961.)

15.22.125 Covered walkways.

A covered walkway has a temporary protective roof extending above a pedestrian walkway to be built and maintained during construction or demolition on the adjacent property. In addition to the requirements in Section 15.22.122, the requirements of a covered walkway are:

- A. The roof shall have eight feet (8') of clearance above the walkway, and shall be tightly boarded with a covering of roofing paper or other material to prevent water from falling through.
- B. The roof shall be designed to carry the loads imposed upon it, provided the minimum live load to be used in design shall not be less than one hundred fifty (150) pounds per square foot, uniformly loaded.
- C. If the walkway is abutting upon or within the roadway area, the roadway side shall be protected by a tight board fence three and one-half feet (3 1/2') high, and wire mesh or other suitable material from the top of the handrail to the roof.
- D. If materials are stored or work is done on the roof of the walkway, the roadway side of the walkway shall extend one foot (1') above the roof, or as high as needed to contain the material stored on the roof.

A. Bond. The applicant shall furnish to the Director of Transportation, for filing with the City Clerk, a surety bond approved as to form by the City Attorney in an amount determined in accordance with Section 15.04.040, or have deposited a like amount into an escrow account under Section 15.04.042. If the Director elects to forego making an individual determination as to a particular application, the amount shall be Ten Thousand Dollars (\$10,000), and conditioned upon the requirements of Sections 15.04.040 through 15.04.044, subject to RCW 19.72.107. The bond shall be further conditioned to pay all costs and expenses contemplated by Sections 15.28.040 through 15.28.070, including the making of any necessary repairs to public places or facilities caused by reason of the permittee's operations in moving a building or equipment on or along any public place.

B. Insurance. In addition to the bond, the applicant shall furnish to the Director of Transportation a certificate stating that the City is included as an additional insured on his or her protective public liability insurance. The amount and coverage shall be determined in accordance with Section 15.04.045, but, in lieu of making an individual determination as to the particular application, the Director may stipulate that the insurance shall provide for a limit of not less than One Million Dollars (\$1,000,000) for all damages arising out of bodily injuries to, or death of any persons in any one (1) accident; and shall also provide property damage liability insurance providing for a limit of not less than One Hundred Fifty Thousand Dollars (\$150,000) for all damages arising out of injury to or destruction of property in any one (1) accident. The insurance shall state that the Director of Transportation shall be given ten (10) days' notice of any change, cancellation or expiration of such insurance policy.

C. Revocation. The Director of Transportation may revoke a permit at any time upon a failure to comply with any of the terms of the permit or this chapter or upon the conditions in Section 15.04.070. (Ord. 118409 § 73, 1996; Ord. 117569 § 77, 1995; Ord. 116368 § 221, 1992; Ord. 108382 § 2(part), 1979; Ord. 90047 § 28-A(B), 1961.)

15.28.030 Application for permit.

Every application for a permit to move a building or equipment which requires relocation of utility wires or cable through or across a public place of the City shall be made to the Director of Transportation on a form provided by the Director. Every such application shall state the location of the building to be moved, its dimensions and principal materials, and shall describe the route over which the building is to be moved, the length of time that will be required to move it, and the proposed new location thereof. Before any permit to move a building to a site within the City is issued, specific written approval must be obtained from the Department of Construction and Land Use. The concurrence of the Superintendent of Parks and Recreation is necessary if the building or such equipment will be moved along or across a park drive or boulevard; and the approval of all utilities is also necessary, if those utilities are to be disturbed. (Ord. 118409 § 74, 1996; Ord. 117569 § 78, 1995; Ord. 115994 § 25, 1991; Ord. 108382 § 2(part), 1979; Ord. 90047 § 28-A(C), 1961.)

15.28.040 Removal or trimming of trees or shrubbery.

Where the removal or trimming of any trees or other shrubbery is necessary, the building or equipment mover is required to obtain from the owner thereof a written release for any damages, holding the City free of any liability or damages whatsoever. If the building or equipment is to be moved along or across any boulevard

or other public place controlled by the Parks and Recreation Department, the building or equipment mover is also required to have written approval from the Superintendent of Parks and Recreation. (Ord. 117569 § 79, 1995; Ord. 108382 § 2(part), 1979; Ord. 90047 § 28-A(D), 1961.)

15.28.050 Wires and cables--Relocation and costs; trees in boulevards or parks.

A person who maintains wires, cable or appurtenances in or over a public place shall move or disconnect them in order to accommodate a move authorized by permit as contemplated by Section 15.32.110. When the wires are below minimum vertical clearances above the roadway surface set by state statute, City ordinance, or rules of the authorizing official, and timely notice has been given, and no adjustment or disconnection would be necessary had the minimum vertical clearance been maintained, the cost of moving the wires or cables shall be borne by the person maintaining the wires or cables; otherwise the cost shall be assessed to the grantee of the permit to move the building or equipment.

The Director of Transportation shall determine the probable injury and cost which the moving of a building or equipment will cause to owners of wires and cables that are at or above minimum vertical clearances over the surface of the public place, and also the probable injury and inconvenience the severance of such wires and cables will cause to patrons of public utilities. The Superintendent shall determine the probable injury and cost of restoration or loss which the moving of a building or equipment along or across a park drive or boulevard or a street abutting a park will cause to the department's trees and shrubbery. Such findings shall be endorsed upon the application for permit.

(Ord. 118409 § 75, 1996; Ord. 117569 § 80, 1995; Ord. 108382 § 2(part), 1979; Ord. 90047 § 28-A(E), 1961.)

15.28.060 Determination of probable interference.

A. Investigation. The Director of Transportation shall ascertain the probable interference with the rights of the public that such moving will cause, and any other facts which may aid in determining whether or not such permit should be granted. The Director of Transportation shall also prescribe the time such moving shall be done, the route to be followed and such traffic barricades and escorts and any other stipulations such official may deem necessary for public safety and convenience. The determinations of the Director shall be subject to the concurrence of the Superintendent with respect to movement along or across a park drive or boulevard.

B. Opportunity for Hearing. If the Director of Transportation finds the injury and inconvenience to the public, to owners of private property, and to public utilities is minor, or that the affected parties consent to the move, and the Superintendent concurs in authorizing the movement planned along or across a park drive or boulevard, the Director may grant the permit without a hearing. If the Director of Transportation finds that there would be substantial injury or inconvenience to the public, to public utilities or to owners of private property and there are unresolved objections to the move, the Director shall notify the applicant that the permit may only be granted through a public hearing process; and, if the applicant so requests, the Director shall designate a hearing officer and schedule a hearing.

C. Hearings. If a hearing is scheduled, the Director shall notify the applicant and the owners or agents of the properties that may be affected of the date, time, and place of the public hearing regarding such application. At this hearing, all persons interested may appear and offer their opinion regarding whether or not such permit should be granted.

D. Cost of Advertising. Whenever the Director of Transportation determines that a public hearing must be held to determine whether or not a permit to move a building or equipment should be granted, the applicant shall pay the cost to the City for advertising the hearing.

E. Decision. Based upon the findings of the hearing officer with respect to such application and the testimony received during the public hearing on such application, the Director shall determine whether or not such permit shall be granted.
(Ord. 118409 § 76, 1996; Ord. 118369 § 10, 1996; Ord. 117569 § 81, 1995; Ord. 115994 § 26, 1991; Ord. 108382 § 2(part) 1979; Ord 90047 § 28-A(F), 1961.)

15.28.070 Grantee to bear expenses.

The grantee of a permit to move a building or equipment which requires relocating utility wires or cable along or across any public place shall bear any and all expenses to the Parks, Seattle Transportation and Police Departments that may be occasioned by such moving; provided, that nothing contained in this chapter shall be construed as repealing any of the provisions of any franchise ordinance.
(Ord. 118409 § 77, 1996; Ord. 117569 § 82, 1995; Ord. 108382 § 2(part), 1979; Ord. 90047 § 28-A(G), 1961.)

15.28.080 Authority to make rules and regulations.

The Director of Transportation may make rules and regulations pursuant to the Administrative Code of the City (Ordinance 102228)1 and governing the moving of buildings along or across public places. Violation of those rules and regulations constitutes a violation of this subtitle.

(Ord. 118409 § 78, 1996; Ord. 108382 § 2(part), 1979; Ord. 90047 § 28-A(H), 1961.)

furnished by the authorizing official. The authorizing official may require that the application be accompanied by a plat drawn to an accurate scale, conforming to such reasonable rules and regulations as such official may prescribe, and showing the exact location, character, position, dimension, depth and height of the work proposed to be done.

(Ord. 118409 § 80, 1996; Ord. 117569 § 87(part), 1995; Ord. 116633 § 1, 1993; Ord. 115994 § 32, 1991; Ord. 110258 § 2, 1981; Ord. 96598 § 1(part), 1968; Ord. 90047 § 30(part), 1961.)

The authorizing official shall have the power to regulate the construction and enforce permit and ordinance requirements. 15.32.050 Coordination of projects and deferment of construction.

A. The authorizing official may, in such official's reasonable discretion, defer construction or other activity under any permit provided for in this chapter, until such time as such official deems proper in all cases where the public place on which the work is desired to be done is occupied or about to be occupied in any work by the City, or by some other person having a right to use the same in such manner as to render it seriously inconvenient to the public to permit any further obstruction thereof at such time, and in granting such permit, may so regulate the manner of doing such work in order to cause the least inconvenience to the public in the use of such public place; and in all cases any work of the City or its contractors or employees for municipal purposes shall have precedence over all work of every other kind.

B. Beginning by November 1, 1997, and by October 1st of each succeeding year, the Director of Transportation shall provide to all utilities a list of street and other improvements planned for the following three (3) years. All agencies, utilities, franchisees, and City departments planning work in a street, alley, or other public place that will require a permit under this chapter shall submit a list of proposed projects and locations to the Director of Transportation by December 31st of each year. This list shall cover planned projects for the following three (3) years. These lists of planned projects shall be entered into the City's Geographic Information System and integrated with other information on street condition and use. The Director of Transportation and the Superintendent of Parks and Recreation shall deny agencies that fail to provide this information permits for construction or other activity under this chapter unless that agency was not timely provided a list of planned street improvements for that year.

C. The Director of Transportation shall establish a Utility Coordinating Committee for the purpose of coordinating street and utility projects to minimize the frequency of street openings and disruption to neighborhoods. This committee shall consist of one (1) management representative each from Seattle Transportation, Seattle Public Utilities, and Seattle City Light. The Director of Transportation shall invite one (1) representative each from companies that applied in the previous calendar year for a permit under this chapter to serve in an advisory capacity to this committee. The committee shall meet at least twice a year to review and

coordinate street and utility projects for the next three (3) years. The committee shall decide which of the submitted projects will be scheduled for the next twelve (12) months, taking into consideration maximizing efficiencies, reducing inconvenience to the public, and avoiding work conflicts in the street rights-of-way; and shall not allow pavement cuts within three (3) years after resurfacing or reconstruction. By March 1, 1998, and by February 1st of each succeeding year, the committee shall develop and publish a Street and Utility Improvement Plan that lists projects it has scheduled for the next twelve (12) months and shall make information available to affected residents, property owners, neighborhood organizations, and businesses about these projects. The committee shall also annually review and comment on the City's Pavement Opening Policies and associated fees, charges, inspection costs, and street restoration costs. The Director of Transportation shall propose to the City Council legislation to establish fees and charges by ordinance.

D. Except for activities included in the current Street and Utility Improvement Plan, no permit shall be issued under this chapter for construction or other activity that will commence in the street, alley, or other public place; except, that this prohibition shall not apply to:

1. Emergency repairs that could not have been anticipated or are necessary for the protection of the public's health and safety;
2. New or revised service connections that have been requested by a utility's customer;
3. Construction or other activity that will commence in the street, alley, or other public place that does not affect or conflict with other projects in the Street and Utility Improvement Plan or other work anticipated by the City or other permit holders over the next three (3) years; or
4. Work for which the City's denial of a permit would violate federal law.

E. No permit shall be issued under this chapter for work that requires cutting or disturbing the paved surface of any street, alley, or other public place for a period of three (3) years from the completion of resurfacing or reconstruction of that public place; except that this prohibition shall not apply to:

1. Emergency repairs that could not have been anticipated and are necessary for the protection of the public's health and safety;
2. New or revised service connections that have been requested by a utility's customer; or
3. Work for which the City's denial of a permit would violate federal law.

F. An applicant denied a permit under the provisions of this section may appeal to the Director of Transportation, whose decision in such matter shall be final.
(Ord. 118751 § 2, 1997; Ord. 117569 § 84, 1995; Ord. 115994 § 30, 1991; Ord. 9004 § 29(part), 1961.)

15.32.060 Payment of fees.

Anyone doing construction work under permit pursuant to this chapter shall, in addition to the permit fee authorized in Section 15.04.074, pay to the City for deposit into the Transportation Fund or in the case of park drives and boulevards, the Park and Recreation Fund such amounts as, in the judgment of the authorizing

(Ord. 117569 § 87(part), 1995; Ord. 116633 § 1, 1993; Ord. 115994 § 32, 1991; Ord. 110258 § 2, 1981; Ord. 96598 § 1(part), 1968; Ord. 90047 § 30(part), 1961.)

15.32.070 Additional ducts or conduits.

Anyone constructing under authority of this chapter and ordinances amendatory thereof any underground ducts or conduits, shall:

A. When the number of main line ducts or conduits exceeds two (2), reserve free of cost to the City for the exclusive use of governmental communication, traffic signal, and other governmental signal purposes, additional ducts in the proportion of one (1) duct for every five (5) or less constructed; provided, the authorizing official may, in such official's reasonable discretion, limit the number of ducts to be reserved; and

B. Upon request, provide the City with additional duct or conduit space over and above the duct or conduits planned to be constructed for the entity holding the permit or provided free to the City pursuant to subsection A above. Such additional ducts or conduits shall be of a size and configuration specified by the City and shall be dedicated to the City. The City shall have the right to use the ducts and conduit for any purpose, including but not limited to leasing them to other entities. The incremental costs of adding the specified ducts and conduits for the City shall be borne by the City.

(Ord. 117569 § 87(part), 1995; Ord. 116633 § 1, 1993; Ord. 115994 § 32, 1991; Ord. 110258 § 2, 1981; Ord. 96598 § 1(part), 1968; Ord. 90047 § 30(part), 1961.)

15.32.080 Joint use poles.

A. Attachments to City-owned poles shall be governed by this chapter and policies adopted by the City in accordance with this chapter. See particularly Section 15.32.300.

B. Anyone erecting or maintaining any privately owned pole installed under the authority of this chapter shall permit joint use of such pole to another who is authorized to construct and maintain such a pole or attachments thereto if directed to do so by the authorizing official and shall obey any order issued by the authorizing official relative to the joint use of such pole.

C. Other than the City, anyone who pursuant to subsection B makes a joint use of a privately owned pole or set of poles of another shall pay to the owner a reasonable proportion of the cost of installing and maintaining the pole or set of poles, respectively, provided, by mutual agreement the affected parties may adopt an alternative arrangement for compensation. Section 15.32.090 denies compensation for use of a privately owned pole by the City for governmental communication.

(Ord. 117569 § 87(part), 1995; Ord. 116633 § 1, 1993; Ord. 115994 § 32, 1991; Ord. 110258 § 2, 1981; Ord. 96598 § 1(part), 1968; Ord. 90047 § 30(part), 1961.)

1. For any concrete surface fifteen (15) years old or less or in excellent condition as determined by the Director of Transportation, entire replacement of any concrete panel affected by the construction or other activity is required, except that in the case of a large concrete panel, the Director of Transportation may authorize the panel to be saw cut and require only the affected portion of the panel be replaced.
2. For any concrete surface where forty (40) percent or more of a concrete panel is affected by the construction or other activity, entire replacement of any concrete panel so affected by the construction or other activity is required, except that in the case of a large concrete panel, the Director of Transportation may authorize the panel to be saw cut and require only the affected portion of the panel be replaced.
3. For any other concrete surface, restoration of the area of the panel affected is required.

2. For any asphalt surface where thirty (30) percent or more of the width of any lane is affected by the construction or other activity, new asphalt for the length of the cut and width of all lanes affected is required.
3. For any other asphalt surface, new asphalt for the length and width of the affected area is required.

E. Permittees shall be responsible for any necessary repair of a temporary restoration of a street, alley, or other public place until the permanent restoration is completed. Permittees shall be responsible for any necessary repair of a permanent restoration until the street, alley, or other public place has exceeded its useful life or has been repaved or reconstructed, unless the permittee contracted with the Director of Transportation for the permanent restoration. pay to the Director of Transportation, or as to park drives and boulevards, the Superintendent of Parks and Recreation, a standard charge from a schedule adopted by ordinance reflecting the Director of Transportation's estimate of the loss in useful life of the street, alley, or other public place as a result of the construction or other activity. Such charge shall be based on the size of the area affected and the types of surface (concrete, asphalt, or other) and subgrade material of the street, alley, or other public place prior to the commencement of activity under the permit. This charge shall be paid regardless of whether the permanent street restoration is completed by the permittee or by the Director of Transportation. All funds collected from this charge shall be deposited in the Transportation Fund, or as to park drives and boulevards, the Parks and Recreation Fund, and used only for pavement replacement, repair, and maintenance, and not for any other purpose.

15.32.300 Attachments to City-owned poles.

The terms and conditions for attaching to City-owned poles by entities other than co-owners of the poles shall be as follows:

- A. Definitions. The following words, used in this section, have the following meanings:
1. "Pole" means City-owned poles including electrical distribution poles and other poles owned or installed by the City, but excluding facilities for electrical transmission purposes.
 2. "Communication space" means that portion of a pole above the minimum ground clearance for communication conductors and below the maximum height allowed by the separation between communication and power conductors required by applicable national, state and local electrical safety codes.
 3. "Transmission poles/towers" means structures whose primary purpose is to support electrical transmission conductors, distinguished from distribution conductors by exceeding 34.5 kV.
 4. "Special attachment, Class I" means attachments that can be accommodated on existing poles without disruption to current users or use of a communication space and without significant visual impact.
 5. "Special attachment, Class II" means attachments:
 - a. That extend above the electrical facilities, above the top of an existing pole or require the replacement of an existing pole with a taller pole to achieve adequate height for the applicant's purposes; or
 - b. That have significant visual impacts.
- B. The City shall reserve one (1) communication space on City-owned poles for its own use.
- C. If additional communication space is available on City-owned poles, after reserving one (1) space for the City and after accounting for the space occupied by existing services already on the poles, the City may permit additional attachments in communication space under the following conditions:

For current SMC, contact
the Office of the City Clerk

1. The needs of the City are paramount. The City shall be the determinant regarding any question of right to attach, construction compliance or contract interpretation regarding attachment to poles. Permission to make attachments to the City's poles may be withdrawn for violation of applicable codes, for breach of contract, for failure to supply proof of required permits, by governmental directive or for any reason associated with the City's requirements for the use of its poles or public right-of-way. The City may direct the immediate removal of attachments at the owner's expense, if attachments fail to conform to codes or the City's requirements, or if attachments interfere with City operations.
2. All attachments shall be made in accordance with all applicable codes as well as City electrical standards, guidelines and practices.
3. All attachments, including co-lashing, shall be subject to prior approval of the Department of Information Technology, Seattle Department of Transportation and the City Light Department in accordance with the following principles, requirements and procedures:
 - a. Providing for the safety of the public, City employees, private contractors, and other users of poles is a fundamental principle which must be observed.
 - b. The primary function of the City's poles is to support the City's electrical lines and equipment.
 - c. The City shall neither replace existing poles with taller poles nor add crossarms to existing poles to create more communication space on the poles, except as described in subsection C4 below.
 - d. Any new attachments must accommodate any prior agreements between the City and other entities regarding use of space on the poles.
 - e. The City shall not relinquish the one (1) communication space reserved for its own use on every pole. At the request of the applicant, however, the City shall consider creating additional space for communication uses on the poles by taking such actions as removing secondary rack wiring and substituting triplex wire, moving streetlight fixtures, guy wires and other attachments to the poles and by providing for co-lashing. Any actions undertaken to create more communication space shall be considered make-ready work, and any such costs shall be borne by the applicant.
 - f. Approval of attachments may include requirements for extra mitigation measures in certain areas, such as residential, critical areas and shoreline zones, greenbelts, parks, historic districts and viewsheds. All such extra measures, including any additional public involvement and/or environmental review, shall be taken in accordance with directives from the Superintendent of the City Light Department, and all costs associated with such extra measures and review shall be paid by the applicant.
 - g. All make-ready costs such as costs for any permits, environmental review, adjustment of

other equipment on the pole, tree replacement and tree trimming, shall be paid by the applicant prior to making any attachments to the poles.

- h. As a condition of securing the City's permission to use its poles for attachment of cable, all applicants shall be required to permit co-lashing to their own cable of up to two (2) other cables, which may be owned and operated by other entities. All cable attachments that initially occupy a space on a City-owned pole shall be required to provide an external or internal support ("messenger") wire that is capable of supporting two (2) other cables in addition to the initial cable installed by the applicant. Owners of cable subsequently co-lashed to the initial cable shall pay the owner of the initial cable a proportionate share of the cost of the messenger wire. All entities co-lashing together shall be required to provide one another with reciprocal indemnity provisions equivalent to those which must be granted to the City by each of them pursuant to Section 15.32.150. Co-lashing shall not be required of any applicant until all other spaces on the pole, other than the City's reserved space, have been utilized. The City Light Department shall issue a Department Policy and Procedure for providing co-lashing space based on costs, operational convenience, cable size, and other criteria which are developed in the course of producing such Department Policy and Procedure.
- i. In addition to the indemnification required by Section 15.32.150, the City may require that the applicant provide the City and entities permitted to co-lash with additional indemnification, such as indemnification from a parent company, and/or require that the applicant provide proof of specific insurance provisions acceptable to the City which cover potential exposure of both the applicant and the City.
- j. As a further condition of securing the City's permission to use its poles for attachment of cable, all applicants upon request shall be required to provide the City with capacity on the applicant's cable over and above the capacity specifications submitted by the applicant. Such additional capacity may be in the form of dedicated fiber or dedicated space on the same cable being installed by the applicant or in the form of separate cable, as specified by the Department of Information Technology, and shall be dedicated to the City for as long as the cable is attached to the City's poles. The City shall have the right to use that capacity for any governmental purpose and the right to lease that capacity to any public or nonprofit entities. The incremental costs of adding the specified amount of capacity for the City shall be borne by the City.
- k. Applications for attachment to City-owned poles shall be submitted to the City Light Department. The City Light Department shall then coordinate that request with Seattle Department of Transportation and the Department of Information Technology. Approval of all three (3) departments shall be required prior to the issuance of a permit to attach to the poles.
- l. All applications for pole attachment shall be considered on a first-come, first-serve basis, provided that where space is limited, attachment permits shall be given first to public entities, second to entities which are common carriers, third to entities which request attachment to six (6) poles or less for their own private communication needs, and fourth

to others.

m. If no space can be created on the poles requested, the applicant may seek an exception to any of the requirements set forth in this section by submitting a written request to a three (3) person review committee comprised of one (1) representative each from the Department of Information Technology, Seattle Department of Transportation and the City Light Department. The committee shall review the request with reference to considerations which may warrant making an exception including, but not limited to reduced environmental effects, the lack of alternatives for achieving equivalent service available to the applicant, the lack of alternative routing which can be made available and the feasibility of undergrounding all or part of the cable. After engaging in a review of the application, the committee shall forward a recommendation to the Mayor and City Council. Exceptions will not be recommended where the City Light Department believes the safety will be compromised by the granting of an exception. Any exceptions to the requirements of this section must be approved by ordinance.

n. All entities that are provided attachments to City-owned poles, other than Class II attachments, including attachments by means of co-lashing, shall pay a rental fee for each such attachment at a rate established by ordinance. All income from such pole rental rates shall be paid into the Light Fund.

4. Provisions for Special Attachments.

a. Class II attachments shall be limited to situations where: (i) make-ready costs are paid by the provider; (ii) pole/equipment, installation, operation, and maintenance costs are paid by the provider; and (iii) visual impacts of antennas and other attachments are reduced to a degree acceptable to the Superintendent.

b. Class II attachment requests are subject to public notice and comment. Approval of attachments may include requirements for extra mitigation measures in certain areas, such as residential, critical areas and shoreline zones, greenbelts, parks, historic districts and view-sheds. All such extra measures, including any additional public involvement and/or environmental review, shall be taken in accordance with directives from the Superintendent of the City Light Department, and all costs associated with such extra measures and review shall be paid by the applicant. Where a request meets the following criteria in Seattle, the applicant shall apply to the Department of Planning and Development and pay for an attachment siting review and recommendation consistent with the application, fee, notice, timeline and criteria for an administrative conditional use permit. The recommendation of the Department of Planning and Development shall be advisory to the Superintendent:

Zone	Street Type	Zoning Height Limit	Pole Height Requested
SF, L-1, NC-1	Nonar-terial	<40	<60
SF, L-1, NC-1	Arterial	<40	>60
L-2, L-3, L-4, NC-2	Either	<40	>60
NC-3, C, I, MI	Either	<40	>60

c. Where the request is for a location outside Seattle, the applicant shall comply with all applicable requirements of the local jurisdiction where the property is located.

For current SMC, contact
 the Office of the City Clerk

d. Class II attachments shall be permitted substantially in the form of the site agreements authorized by Ordinance 118737,¹ together with special terms and conditions within the site agreement.

e. Class II rental rates shall be established at fair market value as determined by the City Light Department and set forth in the special terms and conditions within the site agreement. All income from such Class II rental rates shall be paid into the Light Fund.

The impounding may be made under the direction of the authorizing official by any City employee, or by any police officer, by a contractor, or by an authorized volunteer.

C. Order to Remove. As an alternative to taking custody, the City may decline to accept the property and require the owner or the last person in possession of the property to remove the property from a public place; or, if the owner is known, relocate the property to the owner's premises.

B. Personal property that the owner disclaims or authorizes the City to take; and property that appears to be abandoned and is valued at Twenty-five Dollars (\$25.00) or less, unless the property is of a character to be of interest to the Chief of Police;

C. D. Any unauthorized sign, signal or marking as defined in RCW 46.61.075 or Seattle Municipal Code Sections 11.50.520 through 11.50.560; and

E. Any advertising sign or notice affixed without City permission to a traffic control device, a utility pole, a City structure, other than a poster board or kiosk designated for handbills, or a City-owned tree or shrub.

authorizing official shall allow the Chief an opportunity to take possession as contemplated by RCW 63.21.050--63.21.060 and RCW Chapter 63.32, and if the Chief declines to take custody, the authorizing official may dispose of it.

Each authorizing official may authorize any person or association to assist in removing litter, solid waste, debris, disclaimed or abandoned property, and unauthorized signs or notices from a public place and may arrange for disposal of material so collected.
(Ord. 118409 § 85, 1996; Ord. 117569 § 93(part), 1995.)

15.38.050 Motor vehicles; boats; animals; newsstands.

The impoundment and disposition of abandoned and/or unauthorized vehicles is regulated by Seattle Municipal Code Chapter 11.30 and RCW 46.55.080 through 46.55.115, and as to a vehicle, watercraft, camper, or component part thereof whose manufacturer's serial or distinguishing number or mark has been removed or altered by RCW 46.12.310--46.12.340. The Director of Transportation and the Superintendent are authorized to assist the Chief of Police and the Director of Licenses and Consumer Affairs in arranging for the removal thereof from public places.

The impounding of animals is regulated by Seattle Municipal Code Chapter 9.25.

The impounding of newsstands is regulated by Seattle Municipal Code Section 15.14.070.
(Ord. 118409 § 86, 1996; Ord. 117569 § 93(part), 1995.)

15.38.060 Evictions; evacuations; emergencies.

A. Reasonable Opportunity. An authorizing official shall allow the owner or custodian a reasonable opportunity to remove his or her personal property from a public place or make other disposition whenever privately owned property is placed into the sidewalk or planting strip pursuant to: (a) an eviction ordered by the Superior Court; (b) an evacuation of premises pursuant to an order of the Fire Chief; (c) activities of firefighters in the course of extinguishing a fire or explosion; or (d) a storm, slide, disaster or other catastrophe.

B. Determining the Duration. The opportunity allowed for removal may be as short as twenty-four (24) hours or as long as seven (7) days, but may be extended if good cause is shown by issuing a permit for use of a public place. In establishing a deadline for removal, the Director or Superintendent may consider the following factors: (a) the public's use made of the public place and its need for clear access; (b) the time that an owner, proceeding diligently, would need to relocate his or her possessions, including, if services of a commercial transportation company are needed, whether arrangements therefor are in process; (c) the impact of allowing the accumulation on the sidewalk or planting strip to continue, including the risk of accident, the attraction to vermin, and its appearance; (d) weather conditions; and, (e) if applicable, the risk that if prompt action is not taken, removal may ultimately become more burdensome to the City.

C. Notice to Remove. The authorizing official shall provide written notice to the owner or custodian at his or her address, if known; if the owner or custodian or either's address is not known, or the owner or custodian is not available at the site, the authorizing official may post notice to remove property on the sidewalk or planting strip. The notice shall direct the owner or custodian to remove his or her property, set a time for completion of removal; and inform the owner that if the property is not so removed, the City will take

possession and remove the same at the owner's or custodian's costs and expense.

D. Warnings. The authorizing official may require the owner to place safe and adequate guidance to pedestrian and vehicular traffic moving past the site as contemplated by Chapter 15.40.

E. Impounding and/or Disposition. Upon expiration of the deadline for removal, the authorizing official may impound the property remaining in the public place; and as to those items within the criteria of Section 15.38.040, make summary disposition and as to the remainder, make disposition in accordance with Section 15.38.040. (Ord. 117569 § 93(part), 1995.)

15.38.070 Presumption.

Personal property in a public place is presumed to be abandoned by the owner or custodian so as to permit an authorizing official to take custody whenever:

A. The property is placed out for collection in conjunction with solid waste or recyclable material on the scheduled date for City collection, or it is placed there on a date contemporaneous with a community collection or clean-up;

B. A reasonable person would not allow the property to be there unattended for the length of time the property has been there, taking into account the location of the property in the sidewalk or roadway, the type of property, the danger of theft, and the risk of damage from weather;

C. No name appears on the property and the occupant or owner of the adjacent real property on inquiry disclaims ownership, and there is no permit for such a use of the public place; or

D. The property (other than a newsstand or recreational equipment) is unattended, without a permit, on a sidewalk or planting strip adjoining a park or in a park drive or boulevard.

Whenever the presumption applies, a claimant has the burden of establishing his or her ownership or right to custody in seeking a release of the property impounded. (Ord. 117569 § 93(part), 1995.)

The filing of an application for a permit required by Section 15.44.020 or the making of an excavation or fill described in Section 15.44.020, shall constitute consent by the applicant, contractor, and property owner for the authorizing official to enter upon the property at reasonable times and to inspect and investigate the soil conditions, the progress of the excavation or fill, or any facts and circumstances related to the application, permit or excavation or fill.

(Ord. 117569 § 105, 1995; Ord. 109507 § 1(part), 1980; Ord. 106078 § 1(part), 1976; Ord. 103060 § 1(part), 1974; Ord. 98197 § 1(part), 1969; Ord. 94436 § 1(part), 1965; Ord. 90047 § 41(f), 1961.)

15.44.070 Special plans.

A. If the safety or stability of a public place may be jeopardized by an excavation or fill described in Section 15.44.020, the authorizing official may require special plans, specifications and proposed methods of construction to be submitted for approval prior to issuing the permit required by Section 15.44.020.

B. Approval of the plans shall not relieve the contractor and/or owner making such excavation or fill of responsibility for damages, expenses or costs which may result from the excavation or fill, the failure of shoring, or the method of operation.

(Ord. 117569 § 106, 1995; Ord. 109507 § 1(part), 1980; Ord. 106078 § 1(part), 1976; Ord. 103060 § 1(part), 1974; Ord. 98197 § 1(part), 1969; Ord. 94436 § 1(part), 1965; Ord. 90047 § 41(g), 1961.)

(Ord. 117569 § 107, 1995; Ord. 109507 § 1(part), 1980; Ord. 106078 § 1(part), 1976; Ord. 103060 § 1(part), 1974; Ord. 101351 § 2, 1972; Ord. 98197 § 1(part), 1969; Ord. 94436 § 1(part), 1965; Ord. 90047 § 41(h), 1961.)

15.44.090 Permit procedures.

The following procedures and criteria shall be used in processing an application for the permit required by Section 15.44.003 or Section 15.44.020:

A. Plans, specifications and methods of construction required by the authorizing official shall be submitted in quadruplicate.

B. Shoring plans submitted shall be designed by and bear the seal of a professional engineer licensed in the state.

C. All shoring systems, including the members, their connections and support, shall be designed to carry the loads imposed on them and details shall be shown on the plans.

D. Allowable stresses, including allowances for short term loading, for timber, steel or concrete shall be based on the Seattle Building and Construction Code (Title 22).

For current SMC, contact
the Office of the City Clerk

E. Soil investigations and reports may be required for all excavations described in Section 15.44.020 so that appropriate pressures may be established. The authorizing official may require investigations at any depth whenever specific conditions existing at the site of such excavation reveal an unstable soil structure, circumstances indicate that the excavation may impair the lateral support of any public place or any adjacent City property, or that such further investigation will supply information necessary to properly evaluate the application for the permit or shoring plans submitted. When highway traffic can come within a horizontal distance from the top of the shoring equal to one-half (1/2) of its height, the pressure shall have added to it a live load surcharge equal to not less than two feet (2') of earth.

F. Soldier piles, tie-back rods, anchors and other shoring materials that are intended to remain in a public place after completion of the construction on adjoining property shall be shown on the plans submitted and so identified. If approved, the authorizing official may require that the plans filed be supplemented upon completion of construction, with a set of plans or other documents showing such residuals in public places, as constructed.

G. When the plans presented show an encroachment upon the property interest of an abutting owner or of a franchise holder in a public place, the authorizing official may require that the consent of the person so affected be obtained as a condition of the issuance of the permit provided for in Section 15.44.020.

H. If in the opinion of the Director of Transportation or Director of Construction and Land Use the design of any excavation or fill, whether shored or not, does not adequately protect the public place, the authorizing official may require a third party review of the design. Third party review requires the applicant's geotechnical and/or additional technical studies to be reviewed by an independent third party, paid for by the applicant but hired by the authorizing official. Third party review shall be conducted by a qualified engineering consultant.

I. Backfilling and restoring of excavations or cave-ins in public places is regulated by Chapter 15.26.

 6. The permit has not been acted upon within one (1) year of the time allowed by the permit or extensions;
 7. The related building permit has expired without renewal, or has been revoked or canceled.

B. Upon suspension or revocation of the permit, all work thereupon shall cease, except as authorized or directed by the authorizing official.

Where excavations or fills are to be made in a public place, itself, the owner, agent or contractor shall maintain the lateral support of the remainder of the public place and any utilities therein, and shall prevent any overflow, slides, or damage from fills to areas outside the scope of the permit.

B. Whenever an excavation has been made in a public place, a cave-in or slide of earth has occurred extending into a public place, or an excavation or fill has caused or contributed to a condition that appears to substantially impair the lateral support of the adjacent public place, or endangers the public, an adjoining public place, utilities in a public place, or City property, the authorizing official may require that the contractor making such excavation or fill and/or the owner of the property upon which such excavation or fill is being made, at his or her own expense, take actions to protect the public, adjacent public places, City property, and utilities, including compliance within a prescribed time.

C. In the event that the owner or contractor fails or refuses to take the actions directed promptly, or fails to fully comply with such directions given by the authorizing official, or if emergency conditions exist

requiring immediate action, the authorizing official may enter upon the property and take such actions as he or she deems necessary to protect the public, the adjacent public places, or utilities in the public places, or to maintain the lateral support thereof, including placing of temporary shoring, backfilling, alteration of drainage patterns and any other actions reasonably necessary to decrease the possibility or extent of earth movement, or regarded as necessary safety precautions; and the owner, agent and/or contractor shall be jointly and severally liable to the City for the costs thereof together with a charge equal to fifteen percent (15%) of the City's costs to cover administrative expenses.

D. The determinations of City officials as to whether, when and how to take remedial action, if any, are discretionary judgments; this enabling authority in this section and in Section 15.22.090 does not impose any duty to take action to protect the public, utilities in the public place or adjacent properties. 15.48.110 Removal authorized.

For the purposes of SMC Section 15.48.120, the following persons are authorized to remove any handbill, sign, or poster found affixed to any object, and to obliterate any of the foregoing that is not readily removed, in violation of Section 15.48.105:

Any person responsible for any posting made in violation of Section 15.48.105 shall be liable to the City for the costs incurred by the City in removal thereof and, in event of a failure to pay, for billing and collection charges.

The Director of the Seattle Department of Transportation, or his or her designee, is authorized to effect the collection of the removal cost incurred by the City, and, if the charge is not paid promptly, interest and the costs of collection, including reasonable attorney's fees. 15.48.130 Presumptions for assessing cost of removal.

For the purpose of recovering the costs of removal, there is a rebuttable presumption that:

number appears on a handbill, sign or poster is the person responsible for posting the handbill, sign or poster advertising the property for sale, lease or rent;

B. A candidate seeking office is the person responsible for posting a handbill, sign or poster promoting his or her candidacy for public office;

C. A person conducting a yard, garage, estate or moving sale is the person responsible for posting a handbill, sign or poster advertising the sale; and, unless the sale is advertised as that of a merchant or liquidator engaged in the business of selling personal property, that the owner, or lessee if the property is leased, of the premises where the sale occurs is responsible for conducting the sale;

D. An owner, or lessee if the property is leased, of property used for a commercial activity or event is the person responsible for posting a handbill, sign or poster advertising the commercial activity or event;

E. A person whose name, telephone number or address appears as the sponsor of a sporting event, concert, theatrical performance or similar activity is the person responsible for posting a handbill, sign, or poster advertising the activity or event;

F. A person whose name, telephone number or address appears as the person to contact on any handbill, sign or poster is the person responsible for posting the handbill, sign or poster.

A person presumed to be responsible for posting a handbill, sign, or poster under the presumptions in this section may rebut the presumption by declaring under penalty of perjury or swearing under oath that the person did not cause, authorize or permit the posting of the handbill, sign, or poster on any public or utility property within the public place.

The presumptions in this section for recovering the costs of removal of handbills, signs or poster do not apply to proceedings to collect a civil fine under Section 15.50.050.
(Ord. 117066 § 1(part) 1994.)

15.48.900 Civil penalty.

A. Each violation of Section 15.48.040 shall be a civil infraction as contemplated by RCW Chapter 7.80 and deemed to be a Class 3 civil infraction under RCW 7.80120(c), and shall subject the violator to a maximum penalty and a default amount of Fifty Dollars (\$50) plus statutory assessments. If the person is unable to pay the monetary penalty, the court may order performance of a number of hours of community service in lieu of a monetary penalty.

B. Each violation of Section 15.48.105 shall be a civil infraction as contemplated by RCW Chapter 7.80 and deemed to be a Class 1 civil infraction under RCW 7.80.120(a), and shall subject the violator to a maximum penalty and default amount of Two Hundred Fifty Dollars (\$250) plus statutory assessments. The penalty for a civil infraction is in addition to the civil liability of the person responsible for the posting to the City for the cost of removal under Sections 15.48.120 and 15.48.130.

C. As contemplated by RCW 7.80.160, a person who fails to sign a notice of civil infraction or who willfully violates his or her written and signed promise to appear in court or his or her written and signed

15.52.040 Special event permits required.

A. A special event permit or authorization from the Special Events Committee is required for any special event, as defined in this chapter, except that no special event permit shall be required if the event sponsor, organizer or other party and the City have entered into a written agreement covering the same matters as would otherwise be included in a special event permit for such an event. Such special event permit shall be in addition to any street or park use permit, or other regular permits as may be required by ordinance.

B. To avoid duplication, when a special event permit covers the subject matter to their satisfaction, the Director of Transportation and/or as to parks, park drives and boulevards, the Superintendent of Parks and Recreation, respectively, may waive issuing a separate street use permit or park use permit.

C. When a special event permit is required, no street use permit shall issue under this title, nor shall a park use permit issue pursuant to Title 18, for such an event until the Special Events Committee has issued its special event permit therefor or otherwise authorized the issuance of the departmental permits, unless pursuant to subsection B the Director and/or the Superintendent waive issuance of separate permits.

D. When a special event permit is required, the Special Events Committee shall, after reviewing the application and if necessary meeting with the organizer, advise the organizer of all other permits that appear to be required for the event based on information contained in the application; and assist the organizer in contacting other departments to apply for all other permits in a timely manner.

E. When such an event will be an exercise of rights protected by the First and Fourteenth Amendments to the United States Constitution, or Article I, Sections 3, 4, 5, or 11 of the Washington Constitution, the application shall be processed promptly, without charging a fee for political or religious activities or imposing terms or conditions that infringe constitutional freedoms, and in a manner that respects the liberties of applicants and the public.

(Ord. 120631 § 4, 2001; Ord. 118409 § 106, 1996; Ord. 117569 § 128, 1995; Ord. 115982 § 1(part), 1991.)

15.52.050 Conditions authorized.

The Special Events Committee may include in a special event permit, among other provisions, reasonable terms or conditions as to the time, place and manner of the event; the implementation of a plan presented by the applicant and approved by the Committee for crowd control, traffic control and security; compliance with health and sanitary regulations as explicated by the Seattle-King County Health Department for the event; coordination with the Fire Department or medical personnel for emergency treatment and evacuation of people who may need immediate care, cardio-pulmonary resuscitation or ambulance service; emergency communication; fire suppression equipment with structures; maintenance of unobstructed emergency passageways; and, where traffic congestion may be anticipated, encouraging the use of transit and car pooling. In determining conditions, the Special Events Committee shall consider anticipated impacts of the event based on an assessment of the event, including size, scope, complexity and history as well as the event's or event organizer's successful implementation of conditions included in previous permits. Conditions shall be based upon projected impacts on public safety, public places and public services, but shall not be based upon the programming content of the event or message that the proposed event may convey.

For current SMC, contact
the Office of the City Clerk

In order to accommodate other concurrent events, the rights of abutting owners and the needs of the public to use streets or parks, the conditions may include, but are not limited to, reasonable adjustments in the date, time, route or location of the proposed event; accommodations of pedestrian or vehicular traffic using the street; and limitations on the duration of the event.
(Ord. 120631 § 5, 2001; Ord. 115982 § 1(part), 1991.)

15.52.060 Processing, denial, revocation of permit.

A. Processing. To assist the City in planning for and assigning its police, fire, and other department personnel, the organizers of annual special events subject to a special event permit are encouraged to submit their applications at least three (3) months before the scheduled event; and the Special Events Committee shall process such application within sixty (60) days of the application, if practicable.

B. Denial. The Special Events Committee may deny an application for a special event permit if:

1. The applicant supplies false or misleading information; the applicant fails to complete the application or to supply other required information or documents; or the applicant declares or shows an unwillingness or inability to comply with reasonable terms or conditions contained in the proposed permit;
2. The proposed event is proximate to another previously permitted or previously scheduled exempt event, so that the combined impacts and required public services exceed what the City, after reasonable efforts have been made to accommodate both events, can reasonably provide; or the proposed event would interfere with construction or maintenance work in the immediate vicinity, or unreasonably infringe upon the rights of abutting properties; or
3. The proposed event would unreasonably disrupt the orderly or safe circulation of traffic as would present an unreasonable risk of injury or damage to the public.

In the event subsection 2 or 3, above, applies, the Special Events Committee shall offer the applicant the opportunity to submit an alternative date or place for the proposed event before denying the application.

If the Special Events Committee denies an application, the Committee shall state in writing the reasons for its denial.

C. Revocation. The Special Events Committee may cancel or revoke a permit already issued upon written notice to the applicant stating the grounds for revocation if:

1. The applicant, in the information supplied, has made misstatement of a material fact; the applicant has failed to fulfill a term or condition of the permit in a timely manner; or the check submitted by an applicant in payment of the fee for a permit has been dishonored;
2. The applicant requests the cancellation of the permit or cancels the event; or
3. An emergency or supervening occurrence requires the cancellation or termination of the event in

order to protect the public health or safety.

The City shall refund the permit fee in the event of a revocation caused by an emergency or supervening occurrence; the City shall refund the balance of the fee less its costs incurred if the cancellation occurs at the request of an applicant who is in compliance with this chapter.

D. Administrative Review. An applicant may request an administrative review of a Special Events Committee denial of a special events permit application, or conditions placed upon a permit that the applicant alleges are unconstitutional or will prevent the applicant from holding the proposed event. Such a review shall be conducted by an Administrative Review Committee, comprised of the Superintendent of Parks and Recreation, the Director of Transportation, and the Fire Chief, or their deputies, provided that if the deputy is a member of the Special Events Committee, then the department head shall serve on the Administrative Review Committee. A request for an administrative review shall be made to the Special Events Committee in writing within three (3) business days after the denial or issuance of the permit with conditions. The Administrative Review Committee shall issue its decision within five (5) business days of its receipt of the request for review. (Ord. 120631 § 6, 2001; Ord. 115982 § 1(part), 1991.)

15.52.070 Fees.

- A. Computation of Fees. The fee for a special event permit shall be computed as follows:
1. No fee shall be charged for events exempt from fees under Section 15.52.080 or excluded under Section 15.52.090;
 2. The schedule in subsection B sets the base fee for 1992; the base fee is supplemented by a factor of Twenty-five Cents (\$.25) per registered entrant in a sporting event;
 3. The base fee applicable to events in 1993 and each year thereafter shall be revised by the Special Events Committee annually based on changes in the purchasing power of the dollar during the preceding year shown by the Consumer Price Index for Urban Wage Earners and Clerical Workers for Seattle, First Six Months, published in or about August of each year by the U.S. Department of Labor, Bureau of Labor Statistics. Adjustments shall use 1992 as the base year, provided, as to events with fifty thousand (50,000) or more people in attendance, the rates in Note 2 to the schedule in subsection B apply, and 1994 shall be the base year for calculating inflation adjustments for events in calendar year 1995 and thereafter. Except as provided in Note 2, the base fee for any classification of anticipated attendance in the schedule in subsection B may not increase by more than ten percent (10%) from one (1) year to the next;
 4. The base fee schedule applies for each day of the event. If any event extends over two (2) or more days and its anticipated attendance varies from day to day, the fee will be calculated on the anticipated peak attendance for each date. A fee for a sporting event may encompass two (2) or more activities as long as all activities are part of a coordinated program. A fee for a day-event in the same area or along the same route encompasses all activities that occur as a part of that event within the block segments or park areas of the permit. When a day-event occurs with a sporting event or parade outside the area of the permit, the fee will be based on the charge for both events. The fee for an event that extends for two (2) or more days is the sum of the charges for each day;

the Office of the City Clerk

5. These fees for a special permit do not displace any other fees required by ordinance for the event.

No special event shall be exempted from paying the fees in subsection B except those activities described in Sections 15.52.080 and 15.52.090.

B. Base Fee Schedule per Day of Event.

"Anticipated Attendance" on Date (Note 1)	"Sporting Event" or "Parade"		"Day-Event"	
	No Fee	"Entry Fee"	No Fee	"Entry Fee"
50--1,000	\$ 100.00	\$ 500.00	\$ 100.00	\$ 500.00
1,001--5,000	250.00	1,250.00	250.00	1,000.00
5,001--10,000	500.00	2,000.00	500.00	1,500.00
10,001--25,000	1,000.00	3,000.00	1,000.00	2,500.00
25,001--50,000	3,000.00	6,750.00	3,000.00	5,500.00
50,000 or more	10,000.00	12,000.00	10,000.00	12,000.00

Note 1: Terms in quotation marks are defined in subsection C.
Note 2: During 1993, the base fee for an event with an anticipated attendance of fifty thousand (50,000) or more people shall be Fifteen Thousand Dollars (\$15,000.00) for an event free of charge for the public, and Seventeen Thousand Dollars (\$17,000.00) for an event with an entry charge to the public. During 1994, the base fee for such an event shall be Twenty Thousand Dollars (\$20,000.00) for an event free of charge to the public, and Twenty-five Thousand Dollars (\$25,000.00) for an event with an entry charge to the public.

C. Explanations of Base Fee Schedule.

The "anticipated attendance" is calculated as everyone present at the peak time for the event, including participants, spectators, performers and patrons.

A "day-event" occupies a portion of a public place and/or park, typically with booths or stands, an exhibition, activities on a stage or platform, and/or amusement rides. Examples include street fairs, festivals, carnivals, concerts, hydroplane races, major displays of fireworks, and outdoor circuses.

An "entry fee" is a charge made to the general public to attend or participate in a special event. It does not mean a payment to the producer of a special event by a seller of merchandise or services, an entertainer, a sponsor or advertiser, or an exhibitor, such as a percentage, concession or booth fee.

A "parade" is a march or procession. It may include floats, motor vehicles, and/or animals.

"Public place" is defined in Section 15.02.040.

A "sporting event" is a gathering of people, most of whom participate in an athletic activity or in physical exertion. It includes a run, walk, bicycling, a race or competitive contest.

D. When Payable. A deposit in the amount of the base fee is due and payable upon issuance of the permit unless the Special Events Committee authorized an alternate arrangement. The entire fee, including the per entrant charge in Section 15.52.070 A2, is due and payable thirty (30) days after the event. All payments shall be deposited into the City Treasury to the credit of the Treasurer's Clearing Fund; and upon settlement, the

amount due to the City shall be transferred to the General Fund, Special Event Revenue Account, and any balance refunded.

E. Refund. A holder of a permit who has paid a base fee for an event based on an anticipated attendance greater than the attendance at the event as reported by the Police Department afterward shall be entitled to a refund of the amount overpaid if the permittee applies to the Special Events Committee within thirty (30) days after the event.
(Ord. 115982 § 1(part), 1991.)

15.52.080 Exemptions from fees.

No fee shall be imposed when prohibited by the First and Fourteenth Amendments to the United States Constitution, or Article I, Section 3, 4, 5, or 11 of the Washington Constitution. Political or religious activity intended primarily for the communication or expression of ideas shall be presumed to be a constitutionally protected event. Factors that may be considered in evaluating whether or not the fee applies include the nature of the event; the extent of commercial activity, such as the sales of food, goods, and services; product advertising or promotion, or other business participation in the event; the use or application of any funds raised; if part of an annual tradition or a series, previous events in the sequence; and the public perception of the event.

No fee shall apply to a block party with an anticipated attendance of three hundred (300) people or fewer that closes off a residential street segment no more than one (1) block in length, a sidewalk or alley abutting a park, or an unopened right-of-way for eight (8) hours or less during daylight hours, and does not need police service for crowd control.

No fee shall be imposed under this chapter on events that are authorized by a special ordinance which sets out fees or charges for that particular event.
(Ord. 115982 § 1(part), 1991.)

15.52.090 Exclusions.

This chapter excludes events at the Seattle Center; events of or under the authority of the United States; and/or use of streets or parks as a result of or preparation for a fire, earthquake or other disaster, or practices or exercises for disaster management.
(Ord. 115982 § 1(part), 1991.)

15.54.020 Review and Approval of a Monorail Guideway.

A. Any city transportation authority desiring to construct a monorail guideway in City right-of-way or city transportation authority right-of-way (even where such rights-of-way may consist only of aerial easements) shall obtain the approval of the Director of Transportation of final construction plans before commencing any such work. In exercising his or her authority under this chapter, the Director of Transportation shall follow applicable procedures in this title and not procedures in Chapter 23.76.

B. The Director of Transportation may approve a monorail guideway only if the horizontal and vertical alignment of the monorail guideway has been approved by the City Council by ordinance or resolution.

C. Where necessary to achieve consistency with the terms of the City Council's approval of the monorail transit system, the Director of Transportation may waive or modify development standards pursuant to Title 23, including but not limited to, height, setbacks, yards, landscaping, or lot coverage. In addition, to promote consistency with any monorail transit system-specific design guidelines to be developed by the City and a city transportation authority and approved by the City Council by ordinance, development standards other than height may be waived or modified.

D. The Director of Transportation may impose reasonable conditions:

1. Where necessary to achieve consistency with the terms of the City Council's approval of the monorail transit system; or
2. Pursuant to Chapter 25.05 to lessen identified impacts caused by the monorail transit facilities; or
3. To ensure consistency with any monorail transit system-specific design guidelines to be developed by the City and a city transportation authority and approved by the City Council by ordinance.

E. Nothing in this chapter shall prevent the City from granting further rights to, or imposing further conditions upon, a city transportation authority's use of the City's streets or the City's rights-of-way pursuant to a non-exclusive transit-way agreement for use of said streets or rights-of-way.

Every petition for the vacation of any street, alley or public place, or any part thereof, shall be accompanied by an initial payment to the City of a pre-hearing fee of Four Hundred Fifty Dollars (\$450.00) to defray a portion of the administrative costs incurred in processing such vacation petitions. Subsequent fees for post-hearing activities shall be One Hundred Fifty Dollars (\$150.00) for single-family residential zoned land, and Three Hundred Dollars (\$300.00) for all other street vacation petitions. Such fees shall not be refunded under any circumstances. In addition, at the time the City Council, or a committee thereof, recommends granting a vacation petition for single-family residential zoned land, the petitioner shall deposit Six Hundred Dollars (\$600.00) with the Director of Transportation to be applied to the cost of an appraisal. If the land is zoned other than single-family residential or multiple parcels of land are involved in the vacation, the petitioner shall deposit an amount determined by the Director of Transportation to be the Director's best estimate of the cost of an appraisal of the land. In the event an appraisal cost is less than the amount deposited, the vacation compensation payable to the City shall be reduced by the difference between the deposit and the actual cost or, in the alternative, such difference shall be refunded. In the event an appraisal cost is more than the amount deposited, the vacation compensation payable to the City shall be increased by the difference between the deposit and the actual cost, or, in the alternative, such difference shall be separately billed and paid prior to final approval of the vacation.

Upon the passage of the resolution fixing the time for hearing the petition or proposal for vacation, the City Clerk shall give not less than twenty (20) days' notice of the time, place and purpose of the hearing by written notice posted in three (3) of the most public places in the City and by posting written placards in conspicuous places on and near the street, alley or public place sought to be vacated. The cost of such inspection shall be paid by the grantee of any such franchise or special permit. The Director of Transportation, and/or as to park drives and boulevards, the Superintendent of Parks and Recreation,

is authorized to bill for and collect fees in such amounts as are commensurate with the reasonable cost of such inspections.
(Ord. 118409 § 122, 1996; Ord. 117569 § 139, 1995; Ord. 96715 § 2, 1968.)

15.76.030 Chapter not applicable when.

This chapter shall not be applicable to inspections made in accordance with specific provisions of an ordinance authorizing or granting any such franchise or special permit where the payment of the cost of inspection is specifically provided for in such ordinance.
(Ord. 96715 § 3, 1968.)

15.76.050 Barricading of hazards authorized.

If the inspection authorized in Section 15.76.010 should disclose that there is a hazard to the public safety, health or welfare, then the Director of Transportation, and as to park drives and boulevards, the Superintendent of Parks and Recreation may order that the grantee of the franchise immediately close the structure and set up barricades, warnings, and/or lights to the extent necessary, so as to prevent public access to the area of the hazard in the interest of public safety. If the City incurs an expense in erecting or maintaining barricades, warnings, lights, and/or detours of traffic, the authorizing official shall bill the owner or occupant the cost thereof together with an amount equal to fifteen percent (15%) of such costs to cover administrative charges.
(Ord. 118409 § 123, 1996; Ord. 117569 § 137(part), 1995.)

15.76.060 Other protective action.

A. If the inspection authorized in Section 15.76.010 should disclose that the structure is not being maintained in accordance with approved plans and specifications, the Director of Transportation, and as to park drives and boulevards, the Superintendent of Parks and Recreation (the "authorizing official") may require that the grantee within ten (10) days present a plan for making the necessary repairs or improvements to bring the structure into as good or better condition than contemplated by the approved plans and specifications; that the plan include time tables for completion of the work, and that the grantee adopt a plan of regular maintenance and repair.

B. If the inspection should disclose that the structure endangers persons in the public place (whether through a collapse, dropping of materials, channelizing water or debris, or subsidence of the surface of the public place) or that the structure does not meet applicable standards of the Building and Construction Code (Title 23), the authorizing official may direct that the grantee at his or her expense make immediate repairs to correct the hazard to the public place and to bring the structure into conformity with applicable City codes. The authorizing official, in consultation with the Director of Planning and Development, may set a reasonable deadline for the grantee to complete the necessary repairs or removal of the structure.

C. Should the grantee fail to make satisfactory progress toward remedying a hazard to the public health, safety, or welfare or a reasonable time elapse after notice to the grantee to make such repairs, the Director of Transportation or the Superintendent of Parks and Recreation, as to park drives and boulevards, may enter upon the property and take such actions as deemed necessary to protect the public from the hazard; and the owner or grantee shall be liable to the City for the costs thereof together with an amount equal to fifteen

percent (15%) of such costs to cover the City's administrative expenses.

D. In the event a franchise ordinance provides an alternative procedure for remedying a hazard to the public health, safety or welfare, from such structures, the procedure in the franchise ordinance shall be followed.

(Ord. 121276 § 37, 2003; Ord. 118409 § 124, 1996; Ord. 117569 § 137(part), 1995.)

B. It is a violation of Title 15 for any person to use any public place in any manner that is not permitted by the terms of any permit or authorization issued pursuant to Title 15 or previous codes, provided that the terms or conditions are explicitly stated on the permit or the approved plans.

C. It is a violation of Title 15 to remove or deface any sign, notice, complaint or order required by or posted in accordance with Title 15.

D. It is a violation of Title 15 to misrepresent any material fact in any application, plans or other information submitted to obtain any street or sidewalk use authorization.

E. It is a violation of Title 15 for anyone to fail to comply with the requirements of Title 15.
(Ord. 121241 § 3, 2003.)

15.90.004 Authority to enforce.

A. The Director of the Seattle Department of Transportation is authorized to enforce Title 15. The Director may call upon the police, fire, health or other appropriate City departments to assist in enforcement.

The Director is also authorized to enforce Section 23.55.004, Signs projecting over public rights-of-way.

B. Upon presentation of proper credentials, the Director or duly authorized representative of the Director may, with the consent of the owner or occupier of a building or premises, or pursuant to a lawfully issued inspection warrant, enter at reasonable times any building or premises subject to the consent or warrant to perform the duties imposed by the Street and Sidewalk Use Code. The Director or duly authorized representative of the Director may enter any public place at any time.

C. The Street and Sidewalk Use Code shall be enforced for the benefit of the health, safety and welfare of the general public, and not for the benefit of any particular person or class of persons.

D. It is the intent of this Street and Sidewalk Use Code to place the obligation of complying with its requirements upon the adjacent property owner, occupant or other person responsible for the use of public places within the scope of this Code.

E. No provision of or term used in this Code is intended to impose any duty upon the City or any of its officers or employees which would subject them to damages in a civil action.
(Ord. 121241 § 3, 2003.)

15.90.006 Investigation and notice of violation.

A. The Director is authorized to investigate any use of a public place which the Director reasonably believes does not comply with the standards and requirements of this Street and Sidewalk Use Code.

B. If after investigation the Director determines that the standards or requirements have been violated, the Director may issue a notice of violation to the adjacent property owner, occupant or other person responsible for the violation. The notice of violation shall state separately each standard or requirement violated, shall state what corrective action, if any, is necessary to comply with the standards or requirements; and shall set a reasonable time for compliance.

C. The notice shall be served upon the adjacent property owner, occupant or other person responsible for the violation by personal service in the manner set forth in RCW 4.28.080 for service of a summons or sent by first class mail, addressed to the last known address of such person(s). Service shall be complete at the time of personal service, or if mailed, three (3) days following the date of mailing. If a notice of violation sent by first class mail is returned as undeliverable, service may be made by posting the notice of violation at a conspicuous place on the site.

D. Nothing in this section shall be deemed to limit or preclude any action or proceeding pursuant to Section 15.90.010 or Section 15.90.012, and nothing in this section shall be deemed to obligate or require the Director to issue a notice of violation prior to the imposition of civil or criminal penalties.

E. A notice or an Order may be amended at any time in order to:

1. Correct clerical and other errors, or
2. Cite additional authority for a stated violation.

the Office of the City Clerk

F. Violations of SMC 15.48.040 and 15.48.100 shall be cited in accordance with SMC 15.48.900.

G. Unless a request for review before the Director is made in accordance with Section 15.90.014 the notice of violation shall become the final order of the Director. After the notice of violation becomes the final order of the Director, a copy of the notice of violation may be filed with the King County Department of Records and Elections. Any final order other than a stop-work order or emergency order issued by the Director pursuant to this subtitle may be appealed to the Hearing Examiner by an aggrieved person. Appeals to the Hearing Examiner shall be initiated by filing a written notice with the applicable fee within fifteen (15) days of the date set for compliance in the notice of violation or Order following a review by the Director. (Ord. 121241 § 3, 2003.)

15.90.008 Time to comply.

When calculating a reasonable time for compliance, the Director shall consider the following criteria:

1. The type and degree of violation cited in the notice;
 2. The stated intent, if any, of an adjacent property owner, occupant or other responsible party to take steps to comply;
 3. The procedural requirements for obtaining a permit to carry out corrective action;
 4. The complexity of the corrective action; and
 5. Any other circumstances beyond the control of the adjacent property owner, occupant or other responsible party.
- (Ord. 121241 § 3, 2003.)

15.90.010 Stop Work Order.

Whenever a violation of this Code will materially impair the Director's ability to secure compliance with this Code, when the violation threatens the health or safety of the public, or when the violation interferes with the public's use and enjoyment of the public place the Director may issue a Stop Work Order specifying the violation and prohibiting any work or other activity at the site by posting the Stop Work Order in a conspicuous place at the site, if posting is physically possible, or by serving the adjacent property owner, occupant or other person responsible for the use. A failure to comply with a Stop Work Order shall constitute a violation of this Street and Sidewalk Use Code. (Ord. 121241 § 3, 2003.)

15.90.012 Emergency Order.

Whenever any use or activity in violation of this Code threatens the health and safety of any member of the public, the Director may issue an Emergency Order directing that the use or activity be discontinued and the condition causing the threat to the public health and safety be corrected. The Emergency Order shall specify the time for compliance and shall be posted in a conspicuous place at the site, if posting is physically possible, or

served on the adjacent property owner, occupant or other person responsible for the use. A failure to comply with an Emergency Order shall constitute a violation of this Street and Sidewalk Use Code. (Ord. 121241 § 3, 2003.)

15.90.014 Review by the Director.

A. Any person aggrieved by a notice of violation issued by the Director pursuant to Section 15.90.006 may obtain a review of the notice by requesting such review in writing within ten (10) days of the date of the notice. When the last day of the period so computed is a Saturday, Sunday or federal or City holiday, the period shall run until five (5:00) p.m. on the next business day. The request shall be in writing, and within thirty (30) days of the request for review the aggrieved person shall submit any additional information to be considered for the review. Before the deadline for submission of information, any person aggrieved by or interested in the notice of violation (including any persons served the notice of violation and the complainant) may submit any additional information in the form of written material to the Director for consideration as part of the review.

B. The review will be made by a representative of the Director who is familiar with the case and the applicable ordinances. The Director's representative will review all additional information received by the deadline for submission of information. The reviewer may also request clarification of information received and a site visit. After review of the additional information, the Director may:

1. Sustain the notice of violation;
2. Withdraw the notice of violation;
3. Continue the review to a date certain for receipt of additional information; or
4. Modify the notice of violation, which may include an extension of the compliance date.

C. The Director shall issue an Order of the Director containing the decision and shall cause the same to be mailed by first class mail to the person or persons named on the notice of violation. The Director may file the Order with the Department of Records and Elections of King County. Appeal of the Order shall be made in accordance with SMC 15.90.006(G). (Ord. 121241 § 3, 2003.)

15.90.016 Extension of compliance date.

The Director may grant an extension of time for compliance with any notice or Order, whether pending or final, upon the Director's finding that substantial progress toward compliance has been made and that the public will not be adversely affected by the extension. An extension of time may be revoked by the Director if it is shown that the conditions at the time the extension was granted have changed, the Director determines that a party is not performing corrective actions as agreed, or if the extension creates an adverse effect on the public. The date of revocation shall then be considered the compliance date. (Ord. 121241 § 3, 2003.)

15.90.018 Civil penalty.

For current SMC, contact
the Office of the City Clerk

A. In addition to any other sanction or remedial procedure which may be available, any person violating or failing to comply with any of the provisions of Title 15 and who is identified in an order of the Director shall be subject to a cumulative penalty of up to Five-hundred Dollars (\$500) per day for each violation from the date set for compliance until the person complies with the requirements of the code.

B. The penalty imposed by this section shall be collected by civil action brought in the name of the City. The Director shall notify the City Attorney in writing of the name of any person subject to the penalty, and the City Attorney shall, with the assistance of the Director, take appropriate action to collect the penalty. In any civil action for a penalty, the City has the burden of providing by a preponderance of the evidence that a violation exists or existed; the issuance of the notice of violation or of an order following a review by the Director is not itself evidence that a violation exists.

C. The violator may show as full or partial mitigation of liability:

1. That the violation giving rise to the action was caused by the wilful act, or neglect, or abuse of another; or
2. That correction of the violation was commenced promptly upon receipt of the notice thereof, but that full compliance within the time specified was prevented by inability to obtain necessary materials or labor, inability to gain access to the public place, or other condition or circumstance beyond the control of the defendant.

(Ord. 121241 § 3, 2003.)

15.90.020 Alternative criminal penalty.

Any person who violates or fails to comply with any of the provisions of Title 15 shall be guilty of a gross misdemeanor subject to the provisions of Chapters 12A.02 and 12A.04, except that absolute liability shall be imposed for such a violation or failure to comply and none of the mental states described in Section 12A.04.030 need be proved. The Director may request the City Attorney to prosecute such violations criminally as an alternative to the notice of violation procedure outlined in this chapter. Each day any person shall continue to violate or fail to comply with the provisions of this title and each occurrence of a prohibited activity shall be deemed and considered a separate offense.

(Ord. 121241 § 3, 2003.)

15.90.022 Additional relief.

The Director may seek legal or equitable relief to enjoin any acts or practices and abate any condition which constitutes or will constitute a violation of the Street and Sidewalk Use Code when civil or criminal penalties are inadequate to effect compliance. In any such action, the City has the burden of proving by a preponderance of the evidence that a violation exists or will exist; the issuance of the notice of violation or of an order following a review by the Director is not itself evidence that a violation exists or will exist. Nothing in this section shall prevent the Director from abating any use of a public place without a permit or impounding personal property in a public place without a permit pursuant to SMC 15.04.072, 15.18.020, and Chapter 15.38.

provisions referenced in Section 15.91.002 have been violated, the Director may issue a citation to the owner and/or other person or entity responsible for the violation. The citation shall include the following information: (1) the name and address of the person to whom the citation is issued; (2) a reasonable description of the location of the property on which the violation occurred; (3) a separate statement of each standard or requirement violated; (4) the date of the violation; (5) a statement that the person cited must respond to the citation within fifteen (15) days after service; (6) a space for entry of the applicable penalty; (7) a statement that a response must be sent to the Hearing Examiner and received not later than five (5:00) p.m. on the day the response is due; (8) the name, address and phone number of the Hearing Examiner where the citation is to be filed; (9) a statement that the citation represents a determination that a violation has been committed by the person named in the citation and that the determination shall be final unless contested as provided in this chapter; and (10) a certified statement of the Director's representative issuing the citation, authorized by RCW 9A.72.085, setting forth facts supporting issuance of the citation.

B. Service. The citation may be served by personal service in the manner set forth in RCW 4.28.080 for service of a summons or sent by first class mail, addressed to the last known address of such person(s). Service shall be complete at the time of personal service, or if mailed, on the date of mailing. If a citation sent by first class mail is returned as undeliverable, service maybe made by posting the citation at a conspicuous place on the property.
(Ord. 120822 § 12(part), 2002.)

15.91.006 Response to citations.

- A. A person must respond to a citation in one (1) of the following ways:
1. Paying the amount of the monetary penalty specified in the citation, in which case the record shall show a finding that the person cited committed the violation; or
 2. Requesting in writing a mitigation hearing to explain the circumstances surrounding the commission of the violation and providing a mailing address to which notice of such hearing may be sent; or
 3. Requesting a contested hearing in writing specifying the reason why the cited violation did not occur or why the person cited is not responsible for the violation, and providing a mailing address to which notice of such hearing may be sent.

B. A response to a citation must be received by the Office of the Hearing Examiner no later than fifteen (15) days after the date the citation is served. When the last day of the appeal period so computed is a Saturday, Sunday, or federal or City holiday, the period shall run until five (5:00) p.m. on the next business day.
(Ord. 120822 § 12(part), 2002.)

15.91.008 Failure to respond.

15.91.010 Mitigation hearings.

A. Date and Notice. If a person requests a mitigation hearing, the mitigation hearing shall be held within thirty (30) days after written response to the citation requesting such hearing is received by the Hearing Examiner. Notice of the time, place, and date of the hearing will be sent by first class mail to the address provided in the request for hearing not less than ten (10) days prior to the date of the hearing.

B. Procedure at Hearing. The Hearing Examiner shall hold an informal hearing which shall not be governed by the Rules of Evidence. The person cited may present witnesses, but witnesses may not be compelled to attend. A representative from the Department of Transportation may also be present and may present additional information, but attendance by a representative from the Department of Transportation is not required.

C. Disposition. The Hearing Examiner shall determine whether the person's explanation justifies reduction of the monetary penalty. Factors that may be considered in whether to reduce the penalty include whether the violation was caused by the act, neglect, or abuse of another.

D. Entry of Order. After hearing the explanation of the person cited and any other information presented at the hearing, the Hearing Examiner shall enter an order finding that the person cited committed the violation and assessing a monetary penalty in an amount determined pursuant to this section. The Hearing Examiner's decision is the final decision of the City on the matter.
(Ord. 120822 § 12(part), 2002.)

15.91.012 Contested hearing.

A. Date and Notice. If a person requests a contested hearing, the hearing shall be held within sixty (60) days after the written response to the citation requesting such hearing is received.

B. Hearing. Contested hearings shall be conducted pursuant to the procedures for hearing contested cases contained in Section 3.02.090 and the rules adopted by the Hearing Examiner for hearing contested cases, except as modified by this section. The issues heard at the hearing shall be limited to those that are raised in writing in the response to the citation and that are within the jurisdiction of the Hearing Examiner. The Hearing Examiner may issue subpoenas for the attendance of witnesses and the production of documents.

C. Sufficiency. No citation shall be deemed insufficient for failure to contain a detailed statement of the facts constituting the specific violation which the person cited is alleged to have committed or by reason of defects or imperfections, provided such lack of detail, or defects or imperfections do not prejudice substantial rights of the person cited.

D. Amendment of Citation. A citation may be amended prior to the conclusion of the hearing to conform to the evidence presented if substantial rights of the person cited are not thereby prejudiced.

E. Evidence at Hearing. The certified statement or declaration authorized by RCW 9A.72.085 shall be prima facie evidence that a violation occurred and that the person cited is responsible. The certified statement or declaration authorized under RCW 9A.72.085 and any other evidence accompanying the report shall be

admissible without further evidentiary foundation. Any certifications or declarations authorized under RCW 9A.72.085 shall also be admissible without further evidentiary foundation. The person cited may rebut the Department of Transportation evidence and establish that the cited violation(s) did not occur or that the person contesting the citation is not responsible for the violation.

F. Disposition. If the citation is sustained at the hearing, the Hearing Examiner shall enter an order finding that the person cited committed the violation and impose the applicable penalty. The Hearing Examiner may reduce the monetary penalty in accordance with the mitigation provisions in Section 15.91.010. If the Hearing Examiner determines that the violation did not occur, the Hearing Examiner shall enter an order dismissing the citation.

G. Appeal. The Hearing Examiner's decision is the final decision of the City. Any judicial review must be commenced within thirty (30) days of service of the Hearing Examiner's decision in accordance with RCW 34.05.542. (Ord. 120822 § 12(part), 2002.)

15.91.014 Failure to appear for hearing.

Failure to appear for a requested hearing will result in an order being entered finding that the person cited committed the violation stated in the citation and assessing the penalty specified in the citation. For good cause shown and upon terms the Hearing Examiner deems just, the Hearing Examiner may set aside an order entered upon a failure to appear. (Ord. 120822 § 12(part), 2002.)

15.91.016 Penalties.

A. First Violation. The first time that a person or entity is found to have violated one of the provisions referenced in Section 15.91.002, after the effective date of the ordinance codified in this chapter, the person or entity shall be subject to a penalty of One Hundred Fifty Dollars (\$150).

B. Second and Subsequent Violations. Any subsequent time that a person or entity is found to have violated one of the provisions referenced in Section 15.91.002 within a five (5) year period after the first violation, the person or entity shall be subject to a penalty of Five Hundred Dollars (\$500) for each such violation. (Ord. 120822 § 12(part), 2002.)

15.91.018 Alternative criminal penalty.

Any person who violates or fails to comply with any of the provisions referenced in Section 15.91.002 shall be guilty of a misdemeanor subject to the provisions of Chapters 12A.02 and 12A.04, except that absolute liability shall be imposed for such a violation or failure to comply and none of the mental states described in Section 12A.04.030 need be proved. The Director may request the City Attorney to prosecute such violations criminally as an alternative to the citation procedure outlined in this chapter. (Ord. 120822 § 12(part), 2002.)
