Warren Av.

Prospect St.

Aloha St. honors the Hawaiian Islands:
word is a Greeting or Farewell - a salutation
mixed with love + affection; Islands annexed
to U.S. in 1898, became a Territory in 1900,
the 50th State in 1959.

"MUNICIPAL" JURISDIC.
(not designated as Park)
Maint. by Park Dept.

Cutting Blvd. across corner in 1930 caused
demolition of former residence of John
MS Graw (d. 1910)

"Queen Anne Hill" was first named "Eden" by
Thomas Mercer, who was certain he'd found the
Promised Land. Then it was named "Galer
Hill" because Jacob Galer + family lived on the
hilltop (Galer St.). Later it became known for
its "Queen Anne" (18th C. English) architecture, first
built by Rev. Daniel Bagley or Herman Chapin.
The Kinnear Mansion, demolished in 1959, was
an outstanding example. During Prohibition Days

Queen Anne Ave. was known as "Temperance
Way" - only a sober man could drive up or down it.
In 1898 the 17-degree incline street became
known as the "Counterbalance" with the construction
of double cable car line up the slope: tunnel
under the track in which the 16 ton concrete
counterbalance ran for the 21 ton cable car:
hauled passengers both directions on each track;
open vestibules on each end of car, car operated by
conductor and brake/motor man. "Counterbalance"
replaced with trackless trolleys in 1940, tracks
removed in 1943. (Tunnels filled?)
