This Confirmation Agreement ("**Confirmation**") dated as of _____ ("**Trade Date**") is entered into by and between GOLDEN VALLEY WIND PARK, LLC ("**Seller**") and the City of Seattle, acting by and through its City Light Department ("**Buyer**"), each referred to herein individually as a "**Party**" and collectively as the "**Parties**".

The following describes a Transaction between Buyer and Seller for the sale, purchase and delivery of Product pursuant to the terms of the Master Renewable Energy Certificate Purchase and Sale Agreement between them dated _____ ("**Master Agreement**"). The Master Agreement and this Confirmation, including the Special Terms & Exceptions described in Section 8 below, shall be collectively referred to herein as the "**Agreement**". Any capitalized term used, but not defined, in this Confirmation shall have the meaning ascribed to such term in the Master Agreement. In the event that there is a conflict between the terms of the Master Agreement and the terms of this Confirmation, the terms of this Confirmation shall control.

- Product:** RECs. The REC is generated on a Unit Contingent basis from the Unit Specific Renewable Energy Facility, identified in Section 3 below, that meets the requirements of the Washington RPS as in effect on the Trade Date, the definition of a Renewable Resource under Section 19.285.030 (18) of the Revised Code of Washington ("**RCW**") as in effect on the Trade Date, and satisfies the requirements for eligibility for certification under Section II of the Green-e Energy National Standard for Renewable Electricity Products, National Standard Version 1.6. Unless a change is agreed to by the Parties in writing, Version 1.6 will be the applicable Green-e standard during the Term regardless of changes by Green-e. Buyer shall have the right to disaggregate, retain or separately sell the RECs or Environmental Attributes purchased under this Agreement; provided that (a) Seller shall not bear any costs or risks associated with such third party sale(s) or transfer(s), except that Seller will remain liable to Buyer for any failure to comply with Seller's obligations under this Agreement and (b) if Buyer provides representations or warranties to a third party in connection with such third party sale or transfer that are materially different than the

representations and warranties provided by Seller under this Agreement, then Buyer shall indemnify Seller for any liability caused by the differences between the representations and warranties in this Agreement and the representations and warranties provided by Buyer in the third party sale(s) or transfer(s).

2. **Term:** The Term of this Transaction shall commence on January 1, 2019 and shall continue through February 1, 2031 and until all obligations of the Parties under this Transaction have been satisfied, unless an Early Termination Date of this Agreement is established pursuant to Section 5.2 of the Master Agreement.

3. **Unit Specific Renewable Energy Facility Information:**

The Vintage of the Replacement RECs must be no older than the most recent (i.e., for a Performance Measurement Period 2019 to 2021, the Vintage of Replacement RECs is 2021) calendar year of the Performance Measurement Period with respect to which the REC Shortfall occurred. If Seller is unable to provide Replacement RECs to the Buyer in the full amount of the REC Shortfall, then Buyer shall procure Replacement RECs in an amount equal to the portion of the REC Shortfall for which Seller did not provide Replacement RECs. If Buyer is able to obtain such Replacement RECs, Seller will reimburse Buyer for the cost of such Replacement RECs ("Replacement REC Reimbursement") up to a maximum amount per Replacement REC equal to the applicable administrative penalty set forth in RCW 19.285.060 (or any successor statute) ("REC Shortfall Penalty"). Shortfall Penalty and the Replacement RECs that could not be obtained by Seller or Buyer.

Buyer will pay the Purchase Price for any Replacement RECs Delivered hereunder.

In the event that the Renewable Energy Facility substation transformer fails such that a replacement is necessary (a "Transformer Failure Event"), the Guaranteed Minimum Volume set forth above will be reduced for each Performance Measurement Period affected by the Transformer Failure Event by an amount equal to the product of (i) the original Guaranteed Minimum Volume set forth above, and (ii) the quotient of the number of hours during the applicable Performance Measurement Period that the transformer was unavailable, divided by the total number of hours during the applicable Performance Measurement Period.

expenses reasonably incurred by such Party either in terminating or replacing any arrangement pursuant to which it has hedged its obligations, as determined by the Non-Defaulting Party in a commercially reasonable manner.

- d. Definition 1.23 is deleted and replaced in its entirety with the following: "**Downgrade Event**" means (a) with respect to Buyer, that Buyer's Credit Rating falls below BBB- from S&P or Baa3 from Moody's or becomes no longer rated by either S&P or Moody's, and (b) with respect to Seller, that Seller has failed to Deliver WREGIS Certificates in respect of the most recently concluded calendar year period during the Term in an amount equal to or greater than the product of fifteen percent (15%), multiplied by the Renewable Energy Facility's Nameplate Capacity, multiplied by 8760.
- e. Definition 1.49 is deleted and replaced in its entirety with the following: "**Renewable Energy Certificate**" or "**REC**" means a tradable certificate, credit, allowance, green tag, or other transferable document conferring ownership, howsoever entitled, created by an Applicable Program or Certification Authority, indicating proof of one megawatt-hour of generation from a Renewable Energy Source by a Renewable Energy Facility. Owning a REC means the right to claim title to all the Environmental Attributes attributable to the generation of electric energy from the Renewable Energy Facility and includes all of the Environmental Attributes associated with the generation of electricity from which the REC is derived. The Environmental Attributes may be disaggregated and retained or sold separately, all as the Parties agree in a Confirmation. A REC is separate from the energy produced and may be separately transferred or conveyed. RECs are measured in one megawatt-hour increments.
- f. Definition 1.52 is deleted and replaced in its entirety with the following: "**Renewable Portfolio Standard**" or "**RPS**" means a state or federal law, rule or regulation that requires a stated amount or minimum proportion or quantity of electricity that is sold or used by specified persons to be generated from Renewable Energy Sources, and includes the Washington Renewable Portfolio Standard.

The following is added to the end of Section 2.2 "**Product Delivery**": If WREGIS ceases operations such that the transfer procedure set forth in this Section 2.2 becomes incapable of being performed or administered, then either Party, on notice, may request that the Parties enter into negotiations to make the minimum changes to this Master Agreement and any applicable Confirmation(s) necessary to identify and implement an alternate tracking system or transfer mechanism in a manner that gives effect to the original intention of the Parties, while attempting to preserve to the maximum extent possible the benefits, burdens and obligations set forth in this Master Agreement as of the Effective Date. Upon receipt of a notice requesting negotiations, the Parties shall negotiate in good faith. If the Parties are unable, within sixty (60) days after the sending of the notice requesting negotiations, to agree upon changes to this Master Agreement and any applicable Confirmation(s), then either Party may submit the issues for dispute resolution pursuant to Section 9.7.
- h. The second paragraph to Section 2.10 "**Secondary Markets**" is deleted and replaced in its entirety with the following: Any representation of compliance with an Applicable Program applies only up to the Trade Date. If applicable, a Confirmation may provide by its terms that the Renewable Energy Facility will be designated by Seller after the Trade Date and on or before the Delivery Date, so long as once having been specified, the

Delivery complies with the requirements of the Applicable Program, in the manner represented by Seller.

- i. Section 3.2(d) is deleted and replaced in its entirety with the following: each Environmental Attribute and REC sold hereunder meets the specifications set forth in the Confirmation;
- j. Section 3.5 is deleted and replaced in its entirety with the following: **Cooperation on Delivery; Review of Records.** Upon either Party's receipt of notice from an Administrator that the transfer of RECs pursuant to a Transaction will not be recognized or Product Delivery was not made as required pursuant to the terms of a Transaction, that Party will immediately so notify the other Party, providing a copy of such notice, and both Parties will cooperate in taking such actions as are necessary and commercially reasonable to cause such transfer to be recognized and Product Delivered. Each Party agrees to provide copies of its records to the extent reasonably necessary for the Verification Provider or Certification Authority to perform the functions designated on the Confirmation, and to verify the accuracy of any fact, statement, charge or computation made pursuant hereto if requested by the other Party. If any fact, statement, charge or computation contained any inaccuracy, the necessary adjustments and any resulting payments will be made promptly and the payments will bear interest at the Prime Rate from the date the overpayment or underpayment was made until the resulting adjustment payment is paid. If Seller is not the owner or operator of the Renewable Energy Facility that generated all of the Product in a Transaction, Seller will cooperate with Buyer in any efforts to review the records of the original seller of such Product. If Seller is the owner or operator of the Renewable Energy Facility that generated any portion of the Product in a Transaction, it consents to Buyer's assignment of rights under this Section to any subsequent purchaser of such Product. The obligations set forth in this Section terminate with respect to any particular Transaction on the later of thirty (30) days following the last date for any banking of the RECs under the Applicable Program for the Vintage of the Product Delivered, or the third anniversary of the Delivery Date.

The Parties further reserve the right to review during normal business hours and at its own expense, for up to two (2) years following the Delivery Date of the WREGIS Certificates, and with reasonable advance notice to the other Party and to the extent that such other Party is in possession of such information:

- (a) The actual hourly MWh generated by the Renewable Energy Facility, and
 - (b) Information required to verify that the RECs sold under the Confirmation were not otherwise sold by Seller to a third party.
- k. Section 4.1 is deleted and replaced in its entirety with the following: **Financial Information.** If requested in writing by a Party before or during the Term, the other Party will deliver:
 - (a) within 200 days following the end of each fiscal year, a copy of the annual report containing audited consolidated financial statements (or tax returns without the Schedule K-1 or unaudited if audited statements are not available) for such fiscal year of such Party, or if applicable, of the entity specified in Exhibit C,

(b) within 60 days after the end of each of its first three fiscal quarters of each fiscal year, a copy of the quarterly report containing unaudited consolidated financial statements for such fiscal quarter of such Party, or if applicable, of the entity specified in Exhibit C, and

(c) such other information as specified in the Confirmation.

In all cases the statements will be for the most recent accounting period and prepared in accordance with generally accepted accounting principles in the jurisdiction in which the reporting entity is organized; provided, however, that should any such statements not be available on a timely basis due to a delay in preparation or certification, such delay will not be an Event of Default so long as the relevant entity diligently pursues the preparation, certification and delivery of the statements. If applicable, timely filing of Form 10-K, Form 10-Q or Form 8-K with the Securities and Exchange Commission satisfies the requirements of this Section.

I. Section 4.2 is deleted and replaced in its entirety with the following: **Credit Assurances.**

(a) During the Term, if there is any Downgrade Event affecting Buyer or Seller (or Seller's Affiliate), the other Party, in its discretion, may require the Party experiencing the Downgrade Event to provide Credit Support sufficient to assure that the Party experiencing or affected by the Downgrade Event will continue to meet its current contractual obligations under this Master Agreement for the next twelve (12) months from the date of the demand for Credit Support (or if the remaining Term is less than twelve (12) months, for the remaining Term) as set forth in Section 4.2(c) or 4.2(d), as applicable.

(b) Following a demand for Credit Support and until such time as the Party is no longer experiencing or affected by a Downgrade Event, the Party experiencing or affected by the Downgrade Event shall maintain satisfactory Credit Support on an ongoing, rolling basis sufficient to assure its current contractual obligations and its contractual obligations for the next twelve (12) months as set forth in Section 4.2(c) or 4.2(d), as applicable. At the request of either Party, Credit Support shall be increased or decreased as appropriate once per calendar month such that the party providing Credit Support will be able to meet the affected Party's then-current contractual obligations and its contractual obligations under this Master Agreement for the next twelve (12) month period (or if the remaining Term is less than twelve (12) months, for the remaining Term) as set forth in Section 4.2(c) or 4.2(d), as applicable.

(c) In the case of a Downgrade Event being experienced by Seller, such Credit Support may be provided by Seller's Affiliate on behalf of Seller provided that Seller's Affiliate holds a Credit Rating equal to or greater than BBB- from S&P or Baa3 from Moody's. Seller's Credit Support for the above period shall be in an amount sufficient to provide Replacement RECs equal to 5 percent multiplied by 8760 multiplied by the Renewable Energy Facility's Nameplate Capacity (MW) multiplied by the Market REC Price or the applicable penalty pursuant to the Washington RPS as in effect on the Trade Date, whichever is less. For purposes of this Section 4.2(c), Market REC Price shall be determined by using, in the absence of a liquid, transparent REC market, the average of three broker estimates (or as few as one broker estimate, if two or three are not reasonably available) for the above referenced twelve (12) month period. The

brokers are to be chosen by Buyer. In the event a liquid, transparent REC market exists, then the Market REC Price shall be used from the REC market.

(d) If Buyer is experiencing a Downgrade Event, Buyer's Credit Support for the above period shall be in an amount equal to the greater of (a) two month's of anticipated payments to Seller, or (b) the negative difference between the Market REC Price and the Purchase Price herein multiplied by the RECs that would be delivered for the above referenced twelve (12) month period under this Master Agreement (assuming deliveries of 125 percent of the Guaranteed Minimum Volume applicable to such period). For purposes of this Section 4.2(d), Market REC Price shall be as determined by using, in the absence of a liquid, transparent REC market, the average of three broker estimates (or as few as one broker estimate, if two or three are not reasonably available) for the above referenced twelve (12) month period. The brokers are to be chosen by Seller. In the event a liquid, transparent REC market exists, then the Market REC Price shall be used from the REC market.

(e) If the Party experiencing a Downgrade Event fails to provide such Credit Support within ten (10) days of a request for Credit Support or fails to maintain Credit Support as set forth above, the requesting Party may suspend its performance under this Master Agreement until such Credit Support is posted or may treat the failure to provide Credit Support as a default and exercise its rights under Article 5 of this Master Agreement.

(f) At a Party's written request, the other Party shall furnish the requesting Party financial information as may be reasonably required to confirm that a Downgrade Event has not occurred.

(g) Either Party may assign its Credit Support obligation to a "Guarantor" acceptable to the other Party that will be able to meet the minimum credit standards set forth in the definition of Downgrade Event.

- m. Section 5.1 (h) is deleted and replaced in its entirety with the following: failure by Seller to provide Replacement RECs or make the Replacement REC Reimbursement payment, if applicable, as may be required in the Confirmation.
- n. Section 5.3 is deleted and replaced in its entirety with the following: **Net Out of Settlement Amounts.** The Non-Defaulting Party will aggregate all Settlement Amounts under this Master Agreement into a single amount by netting out (a) all amounts that are due to the Defaulting Party, plus, at the option of the Non-Defaulting Party, any cash, security or other Credit Support then available to the Non-Defaulting Party, plus any or all other amounts due to the Defaulting Party under this Master Agreement against (b) all Settlement Amounts that are due to the Non-Defaulting Party, plus any or all other amounts due to the Non-Defaulting Party under this Master Agreement, so that all such amounts will be netted out to a single liquidated amount (the "**Termination Payment**") payable by the Defaulting Party. If the Non-Defaulting Party uses the market price for a comparable transaction to determine the Gains or Losses, such price should be determined by using the average of market quotations provided by three (3) or more bona fide unaffiliated market participants (or as few as one bona fide unaffiliated market participant, if two or three are not reasonably available). If the number of available quotes is three (or two, if three are not reasonably available), then the average of the three (or two, if three are not reasonably available) quotes shall be deemed to be the market price. Where a quote is in the form of bid and ask prices, the price that is to be

used in the averaging is the midpoint between the bid and ask price. The quote(s) obtained shall be: (a) for a like amount, (b) of the same Product, and (c) for the remainder of the Term. The Termination Payment, if any, is due from the Defaulting Party to the Non-Defaulting Party within ten (10) Business Days following notice.

- o. Section 5.4 is hereby modified by replacing the term "Performance Assurance" with the term "Credit Support".
- p. Article 6 is deleted and replaced in its entirety with the following:

If either Party is rendered unable, wholly or in part, by Force Majeure to carry out its obligations with respect to this Master Agreement, then upon such Party's (the "**Claiming Party**") giving notice and full particulars of such Force Majeure as soon as reasonably possible after the cause relied upon first delays or prevents performance hereunder, confirmed in writing, the obligations of the Claiming Party will, to the extent they are affected by such Force Majeure, be suspended during the continuance of said inability, but for no longer period, and the Claiming Party will not be in breach hereof or liable to the other Party for, or on account of, any loss, damage, injury or expense resulting from, or arising out of such event of Force Majeure. The Party receiving such notice of Force Majeure will have five (5) Business Days following such receipt to notify the Claiming Party that it objects to or disputes the existence of Force Majeure. "**Force Majeure**" means an event or circumstance which materially adversely affects the ability of a Party to perform its obligations under one or more Transactions, which event or circumstance was not reasonably anticipated as of the date such Transaction was entered into and which is not within the reasonable control of, or the result of the negligence of, the Claiming Party, and which the Claiming Party is unable to overcome or avoid or cause to be avoided, by the exercise of due diligence. Force Majeure includes events or circumstances described in the previous sentence that disrupt the operation of the specified Renewable Energy Facility. Force Majeure may not be based on (i) the loss or failure of Buyer's markets; (ii) Buyer's inability economically to use or resell the Product purchased hereunder; or (iii) Seller's ability to sell the Product to another at a price greater than the Purchase Price. Subject to and without limiting Article 7, Force Majeure may include a change in Applicable Law, or the failure or disruption in Deliveries of any Certification Authority that is not the Claiming Party. In the case of a Party's obligation to make payments hereunder, Force Majeure will be only an event or act of a Governmental Authority that on any day disables the banking system through which a Party makes such payments.

- q. Section 9.5(c) is hereby modified by replacing the word "parties" with "Parties" in the first line thereof.
- r. Section 9.7(a) is deleted and replaced in its entirety with the following: **Negotiations.** The Parties must attempt in good faith to resolve all disputes arising out of, related to or in connection with this Master Agreement promptly by negotiation, as follows. Any Party may give the other Party written notice of any dispute ("**Dispute Notice**") not resolved in the normal course of business. Executives of both Parties at levels one level above the personnel who have previously been involved in the dispute must meet at a mutually acceptable time and place within ten days after delivery of such notice, and thereafter as often as they reasonably deem necessary, to exchange relevant information and to attempt to resolve the dispute. If the matter has not been resolved within thirty (30) days

after the referral of the dispute to such senior executives, or if no meeting of such senior executives has taken place within fifteen (15) days after such referral, either Party may initiate mediation in accordance with Section (b) below. **All negotiations pursuant to this clause are confidential unless disclosure is required by law.**

- s. Section 9.8 is deleted and replaced in its entirety with the following: **Jurisdiction and Venue.** Any disputes arising out of, in connection with or with respect to this Master Agreement, the subject matter of this Master Agreement, the performance or non-performance of any obligation under this Master Agreement that cannot be resolved in accordance with Section 9.7 shall be adjudicated in King County Superior Court, King County, Washington or the U.S. District Court for the Western District of Washington and nowhere else. Each of the Parties irrevocably consents to the jurisdiction of such courts.

The Parties agree to the Transaction set forth herein.

Legislation Title:

AN ORDINANCE relating to the City Light Department; authorizing the execution of a confirmation agreement with Golden Valley Wind Park, LLC for the purchase of environmental attributes, which include renewable energy certificates that are necessary or convenient for meeting the requirements of the Washington State Energy Independence Act; and further authorizing the execution of other necessary and convenient agreements for the receipt, tracking, transferring, management, and sale of the environmental attributes.

Summary of the Legislation:

This legislation approves the confirmation agreement for the 12-year purchase of environmental attributes, which include renewable energy certificates ("RECs") to allow the City Light Department ("City Light") to comply with the Washington State Energy Independence Act also known as Initiative 937 or I-937. Under these agreements, City Light would pay \$13 per REC from 2019 through 2031 for approximately 30,000 RECs per year.

Background:

This legislation approves the confirmation agreement for the purchase of RECs from Golden Valley Wind Park, LLC located in southern Idaho. This resource is expected to produce about 30,000 RECs annually. City Light will receive 100 percent of the RECs associated with the renewable resource starting in 2019 for a 12-year term. The RECs will be delivered to City Light through the Western Renewable Energy Generation Information System. City Light intends to use the RECs to partially meet its regulatory requirement under the Energy Independence Act.

This legislation has financial implications.
(If the legislation has direct fiscal impacts (e.g., appropriations, revenue, positions), fill out the relevant sections below. If the financial implications are indirect or longer-term, describe them in narrative in the "Other Implications" Section. * See budget book to obtain the appropriate Budget Control Level for your department.

Spending/Cash Flow Notes: Spending begins in 2019.

Other Implications:

- a) **Does the legislation have indirect financial implications, or long-term implications?**
Yes. Starting in 2019, the expected annual cost is approximately \$390,000.
- b) **What is the financial cost of not implementing the legislation?** The financial cost of not implementing this legislation would be to purchase RECs or resources that are more expensive or pay the costs related to the penalty in I-937 for not having sufficient RECs. The penalty cost (for not having obtained sufficient RECs and/or eligible renewable resources to meet the requirements of I-937) is approximately five times greater than the price of the RECs proposed in this legislation.
- c) **Does this legislation affect any departments besides the originating department?**
No.
- d) **What are the possible alternatives to the legislation that could achieve the same or similar objectives?** Alternatives include purchasing RECs from other renewable resources and/or energy plus RECs from new renewable resources. City Light is acquiring and will continue to acquire both to meet its regulatory obligation and its retail customer load requirements. Renewable resources that include energy, RECs, and delivery cost approximately three to six times more than this REC purchase.
- e) **Is a public hearing required for this legislation?**
No.
- f) **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?** Not applicable.
- g) **Does this legislation affect a piece of property?** No.
- h) **Other Issues:** None

City of Seattle
Office of the Mayor

May 19, 2012

Honorable Sally J. Clark
President
Seattle City Council
City Hall, 2nd Floor

Dear Council President Clark:

I am pleased to transmit the attached proposed Council Bill that authorizes the City Light Department to execute a twelve year confirmation agreement with Golden Valley Wind Park, LLC for the purchase of environmental attributes in the form of renewable energy certificates from a new wind development in southern Idaho. City Light is required to purchase renewable resources and/or environmental attributes under Chapter 19.285.030 (18) of the Revised Code of Washington. This agreement will facilitate meeting this requirement.

By acquiring the "renewable energy certificates" from the Golden Valley Wind Park, we are not only taking a meaningful step to assure City Light's compliance with "I-937" for a number of years in the future, we are helping to support and promote the development of new, renewable electric generating resources in the Northwest. This agreement is fully consistent with our shared goal of promoting a sustainable community, doing so in a very cost-effective manner.

Thank you for your consideration of this legislation. Should you have questions, please contact Robert W. Cromwell, Jr. at 684-3856.

Sincerely,

Michael McGinn
Mayor of Seattle
