Table D-2 for 22.900D.010 — Calculation of Development Fees Determined by Value

Footnotes to Table D-2 for 22.900D.010:

1. The minimum permit fee or plan review fee for value-based fees is \$150.
2. The minimum plan review fee for Subject To Field Inspection (STFI) value-based plan review is \$60.
3. This fee is applicable only to those initial tenants that reflect the use and occupancy established in the shell and core permit. The value used shall be the new construction value used in calculating value for the shell and core permit.
4. If a swimming pool is located within an enclosed building and is included in the building plans for that building, a separate fee shall not be charged for the swimming pool. The swimming pool area will be considered as floor area of the principal occupancy of the building.
5. This fee shall not apply to any on-site, temporary construction office where a valid building permit is in force.
6. Master use permit fees for such temporary uses shall be charged according to Table C-1 for 22.900C.010.

F. Blanket Permits

1. The application fee for a blanket permit to cover initial nonstructural tenant alterations within the first three years of the first tenant alteration permit shall be charged at the rate of ~~(((\$4.85))~~\$5.10 per 100 square feet of space to be improved within the life of the permit.

A deposit based on the estimated value of the work to be completed during the life of the permit shall be collected at the time of application. As individual tenant spaces are reviewed, the amount of the fee equivalent to the floor space examined shall be deducted from the deposit per Table D-2 for 22.900D.010.

H. Certificate of Occupancy. The issuance of a Certificate of Occupancy for existing buildings, either if no Certificate of Occupancy has previously been issued or if a change of occupancy is requested, requires a building permit. If there is no construction valuation (there is no work which would require a building permit), the minimum building permit fee shall be assessed. In addition to the minimum building permit fee, if records research, plan examination

1 or inspection is required, charges shall be assessed at the DPD hourly rate. If work is being done
2 as authorized by a permit, the permanent Certificate of Occupancy fee is not assessed in addition
3 to the building permit fee. The fee for a temporary Certificate of Occupancy shall be charged at
4 the rate of 1/2 the base fee. The fee for the duplication of a Certificate of Occupancy is
5 ~~((\\$30.20))~~\$31.80 unless records research, plan examination or inspection is required, in which
6 case charges shall be assessed at the DPD hourly rate.

2015 BUDGET LEGISLATION FISCAL NOTE

Department:	Contact Person/Phone:	CBO Analyst/Phone:
Planning & Development	Kris Castleman / 684-5243	Melissa Lawrie / 684-5805

Legislation Title: AN ORDINANCE related to fees and charges for permits and activities of the Department of Planning and Development and related fees by other departments; amending Seattle Municipal Code Chapter 22.900A, Administration and Enforcement, Chapter 22.900B, General Provisions; Chapter 22.900C, Fees for Land Use Review; Chapter 22.900D, Fees for New and Altered Buildings and Equipment; Chapter 22.900E, Fees for Certificates and Registrations; and Chapter 22.900F, Compliance and Other Inspections.

Summary of the Legislation: This legislation revises a number of DPD’s permitting fees and charges, which were last substantially revised and adopted as part of the 2013-2014 budget process. The proposed fee revisions include inflationary adjustments to fees, corrections and adjustments to certain permit fees and other charges, creation of new fees and charges, and the restructuring of certain fees.

Background: DPD is primarily fee-supported and its fees and charges are necessary to provide financial support for the operation of DPD’s permitting operations. All fees collected by DPD for processing DPD’s permits are used for that purpose, and the fee structure is reflective of the Seattle Municipal Code requirements to recoup the cost of providing the permitting service.

Attachment A to this Fiscal Note, “DPD Permit Fee and Charges Changes from 2014 Adopted Budget to 2015-2016 Proposed” provides a summary of 2014 DPD fees affected by this proposed ordinance, and proposed changes for 2015-2016. Prior to proposing this legislation, these fees were reviewed to determine whether the cost of providing the service warrants a fee change, if improvements to the fee structure are necessary, or if new fees are required. The majority of fee increases in this proposed ordinance are adjustments based on CPI that are retroactive from 2012, and are calculated on Cost of Living Adjustments (COLA) increases in 2013 and 2014.

The proposed ordinance revises two sections (review for Wetlands, Fish and Wildlife Habitat Conservation Areas; and review to determine exemptions for Wetlands and Riparian Corridor and Shoreline ECAs) of the Environmentally Critical Area (ECA) Review. DPD will no longer charge a minimum fee of ten hours on a review that gets triggered on a Type II Master Use Permit, but rather charge on an hourly basis to more closely reflect the cost of service. Shoreline Extensions was uncoupled from the Master Use Permit Renewals to clarify existing practice and correct the labeling to “extension” from “renewal”. The proposed ordinance also includes a new fee for new permits for Commercial Re-Roofing. The Commercial Re-Roofing Permit is a new building code provision that requires permits for reroofs as this provides opportunity for installation of insulation as required by the energy code. The fee will cover the cost of

administering the new program.

(For budget legislation that changes revenue (e.g., fees, taxes, etc.), please provide detail on each revenue-producing item that is being changed, when it was last changed, and how the item's new overall cost compares with similar costs charged elsewhere in the region. In addition, state the effect on the average customer, user, or payer.)

TOTAL		\$53,072,000	\$53,072,000

Total Revenue Notes: None

Other Implications:

a) **Does the legislation have indirect financial implications, or long-term implications?**
 No.

b) **What is the financial cost of not implementing the legislation?**
 Not implementing this legislation as proposed would create a situation where the revenues DPD collects through fees would not align with the cost of providing permitting services. Without the proposed fee increases DPD would be required to reduce services or programs within the 2015-2016 proposed budgets. Such reductions would impact the Department's ability to perform its permitting and enforcement responsibilities and delay service to customers.

c) **Does this legislation affect any departments besides the originating department?**
 No significant impacts on other departments are anticipated.

d) What are the possible alternatives to the legislation that could achieve the same or similar objectives?

As an alternative to increasing certain fees, the City could reduce the level of service provided to its customers, or supplement DPD's budget with General Subfund resources to offset its increased costs. These alternatives are not recommended.

e) Is a public hearing required for this legislation?

No.

f) Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

g) Does this legislation affect a piece of property?

No.

h) Other Issues:

None.

Honorable Tim Burgess, President
Seattle City Council
City Hall, 2nd Floor

Dear Council President Burgess:

I am transmitting the attached proposed Council Bill for consideration with the 2015-2016 Proposed Budget. This legislation revises a number of Department of Planning and Development's (DPD) permitting fees and charges, which were last revised and adopted as part of the 2013-2014 budget process. The proposed fee revisions include inflationary adjustments to fees, corrections and adjustments to certain permit fees and other charges, creation of new fees and charges, and the restructuring of certain fees.

DPD is primarily fee-supported and its fees and charges are necessary to provide financial support for the operation of DPD's permitting operations. The proposed adjustments comply with Seattle Municipal Code 22.900A.020, which requires that DPD fees and charges be commensurate with the cost related to its permitting activities. Most of the proposed fee adjustments contained in this legislation are necessary to keep pace with inflationary pressures and are based on increases over a two year period in Consumer Price Index (CPI), All Urban Consumers, for Seattle, which effectively approximates DPD's increased costs of providing services. The cumulative impact of the CPI increase on DPD's 2013 and 2014 COLA adjustments was 5.1%. The fee adjustments proposed by this legislation will result in an estimated net increase in DPD's 2015 revenue of \$675,105 with total revenues estimated at \$77.3 million.

The proposed ordinance includes fees for new permits for Commercial Re-Roofing. Additionally, revisions were made to the Environmentally Critical Area (ECA) review so that DPD will no longer charge a minimum fee of 10 hours on a review that gets triggered on a Type II Master Use Permit, but rather charge on an hourly basis to more closely reflect the cost of service. Finally, Shoreline Extensions were uncoupled from the Master Use Permit Renewals. Thank you for your consideration of this legislation. Should you have questions, please contact Kris Castleman at 684-5243.

Sincerely,

Edward B. Murray
Mayor of Seattle
