Legislation Title: AN ORDINANCE relating to Seattle Public Utilities; accepting easements granted to the City of Seattle for installation, operation, and maintenance of storm drainage facilities, sewer facilities, sanitary sewers, combined sanitary sewer facilities, drainage pipes, drain facilities, utilities, collection structures, culverts, outfall structures, fishways and streams, access and appurtenances necessary for drainage and wastewater utility purposes at various locations in Seattle and unincorporated King County, Washington; placing the easements under the jurisdiction of Seattle Public Utilities; and ratifying and confirming certain prior acts.

Summary of the Legislation: This ordinance would authorize the City of Seattle to accept 35 utility easements for property acquisitions necessary to meet the requirements of the grantors' property developments.

Background:

The Seattle Department of Planning & Development has requirements for property developments that may include storm drainage facilities, sewer facilities, sanitary sewers, combined sanitary sewer facilities, drainage pipes, drain facilities, utilities, collection structures, culverts, outfall structures, fishways and streams, access and appurtenances necessary for drainage and wastewater utility purposes. The property rights accepted by the City pursuant to this ordinance are all for utility installations on private properties required for DPD project approval.

Honorable Tim Burgess
President
Seattle City Council
City Hall, 2nd Floor

Dear Council President Burgess:

I am pleased to transmit the attached proposed Council Bill that would accept easements for drainage and wastewater utilities. The easement transfers result from the Department of Planning and Development's (DPD's) approval of numerous land use permitting actions.

As part of the approval process for certain real estate developments, DPD requires installation of utilities such as sewer mains, storm drainage facilities and other facilities necessary for drainage and wastewater utility purposes. Sometimes these City utilities must be located within the private property being developed. To insure access to these facilities for maintenance or repairs, private property owners are required to grant the City easements. Since this is a condition of the property development, the City does not compensate the owners for the easements.

This legislation is necessary to comply with Article IV of the Seattle City Charter, which requires legislative approval of any property acquisition by the City. Thank you for your consideration of this legislation. Should you have questions, please contact Pree Carpenter at (206) 386-9754.

Sincerely,

Edward B. Murray
Mayor of Seattle
