The Grantor hereby conveys and grants to the Grantee as the representative of the people of the State, the right to enforce the following duties: The Grantor shall take such reasonable and feasible measures as are necessary to protect the Real Property as described in Exhibit A: Legal Description, in perpetuity. The Grantor enters this Deed for and in consideration of monies coming in whole or in part from the Salmon Recovery Funding Board Account. Such grant is made pursuant to the Project Agreement entered into between the Grantor and the Grantee entitled Upper Skagit Watershed Habitat Protection, Project Number 13-1576A signed by the Grantor on the 12<sup>th</sup> day of December, 2013 and the Grantee the 31<sup>st</sup> day of December, 2013 and supporting materials

which are on file with the Grantor and the Grantee in connection with the Project Agreement.

The Grantor hereby conveys and grants to the Grantee as the representative of the people of the State, the right to enforce the following duties: The Grantor shall take such reasonable and feasible measures as are necessary to protect the Real Property as described in Exhibit A: Legal Description, in perpetuity. Such measures shall be consistent with the purposes in the Project Agreement, including protecting, preserving, restoring and/or enhancing the habitat functions on the Real Property, which includes riparian and floodplain habitat. 1. The Grantor shall allow public access to the Property as provided in the Project Agreement. Grantee's consent to an inconsistent use or property interest under this Deed shall be granted only to the extent permitted by law and upon the following three conditions, which ensure the substitution of other eligible land. The conditions are: (1) the substitute salmon recovery land must be of reasonably equivalent habitat qualities, characteristics and location for the salmon recovery purposes as the Real Property prior to any inconsistent use; (2) the substitute salmon recovery land must be of at least equal fair market value to the Real Property at the time of Grantee's consent to the inconsistent use; and (3) the fair market value of the Real Property at the time of the Grantee's consent to the inconsistent use shall not take into consideration any encumbrances imposed on or alterations made to that land as a result of the original state grant and other grants if such encumbrances or alterations reduce the value of

For purposes of this Deed, the Project Agreement includes any amendments thereto that occurred prior to or may occur subsequent to the execution of this Deed.

This Deed contains covenants running with the land and shall be binding upon the Grantor, its successors and assigns, and upon any person acquiring the Property, or any portion thereof, or any interest therein, including a leasehold interest, whether by operation of law or otherwise. If the Grantor sells all or any portion of its interest, the new owner of the Property or any portion thereof (including, without limitation, any owner who acquires its interest by foreclosure, trustee's sale or otherwise) shall be subject to applicable covenants and requirements under the Deed.

The Grantor enters this Deed for and in consideration of monies coming in whole or in part from the Salmon Recovery Funding Board Account. KC

2010 and the Grantee the 10<sup>th</sup> day of March, 2010 and supporting materials which are on file with the Grantor and the Grantee in connection with the Project Agreement.

The Grantor hereby conveys and grants to the Grantee as the representative of the people of the State, the right to enforce the following duties: The Grantor shall take such reasonable and feasible measures as are necessary to protect the Real Property as described in Exhibit A: Legal Description, in perpetuity. Such measures shall be consistent with the purposes in the Project Agreement, including protecting, preserving, restoring and/or enhancing the habitat functions on the Real Property, which includes riparian and floodplain habitat. This habitat supports or may support priority species or groups of species including but not limited to Chinook.

1. The Grantor shall allow public access to the Property as provided in the Project Agreement. Such access shall be subject to the restrictions allowed under the Project Agreement, by written agreement with the Grantee, or under state law. This provision is not intended to prevent reasonable access or use restrictions that are necessary for safe and effective management of the property consistent with salmon recovery purposes and the Project Agreement.
2. The Grantor shall allow access by the Grantee to inspect the Real Property for compliance with the terms of this Deed and the applicable Project Agreement to which the Grantor is a signatory. Such access shall be subject to the restrictions, if any, allowed under the Project Agreement, by written agreement with the Grantee, or under state law. The Grantor warrants it has and shall maintain the legal right and means to reach the property.
3. Without prior written consent by the Grantee or its successors, through an amendment to the Project Agreement or the process set forth below, the Grantor shall not use or allow any use of the Real Property (including any part of it) that is inconsistent with the salmon recovery purposes herein granted and as stated in the Project Agreement. The Grantor shall also not grant or suffer the creation of any property interest that is inconsistent with the salmon recovery purposes herein granted and as stated in the Project Agreement.

Grantee's consent to an inconsistent use or property interest under this Deed shall be granted only to the extent permitted by law and upon the following three conditions, which ensure the substitution of other eligible land. The conditions are: (1) the substitute salmon recovery land must be of reasonably equivalent habitat qualities, characteristics and location for the salmon recovery purposes as the Real Property prior to any inconsistent use; (2) the substitute salmon recovery land must be of at least equal fair market value to the Real Property at the time of Grantee's consent to the inconsistent use; and (3) the fair market value of the Real Property at the time of the Grantee's consent to the inconsistent use shall not take into consideration any encumbrances imposed on or alterations made to that land as a result of the original

state grant and other grants if such encumbrances or alterations reduce the value of the Real Property from what it would be without them.

For purposes of this Deed, the Project Agreement includes any amendments thereto that occurred prior to or may occur subsequent to the execution of this Deed.

This Deed contains covenants running with the land and shall be binding upon the Grantor, its successors and assigns, and upon any person acquiring the Property, or any portion thereof, or any interest therein, including a leasehold interest, whether by operation of law or otherwise. If the Grantor sells all or any portion of its interest, the new owner of the Property or any portion thereof (including, without limitation, any owner who acquires its interest by foreclosure, trustee's sale or otherwise) shall be subject to applicable covenants and requirements under the Deed.

This Deed may not be removed or altered from the Real Property unless specific approval has been granted by the Washington State Recreation and Conservation Office and/or the Washington State Salmon Recovery Funding Board or its successors.

The Washington State Recreation and Conservation Office and the Salmon Recovery Funding Board and/or its successors shall each have a separate and independent right to enforce the terms of this Deed.

**Legislation Title:** AN ORDINANCE relating to the City Light Department; accepting statutory warranty deeds to the Fullerton property in King County, Washington, and the Fontana, Learned's Little Houses, LLC., Morgan, Nihart, and Scheer properties in Skagit County, Washington, for salmonid habitat protection purposes; declaring certain real property rights surplus to utility needs; ratifying the grants of Deeds of Right to the State of Washington on the Fontana, Learned, and Scheer properties for salmon recovery and conservation purposes; placing said lands under the jurisdiction of the City Light Department; and ratifying and confirming certain prior acts.

**Summary and background of the Legislation:** This legislation authorizes the General Manager and Chief Executive Officer to accept statutory warranty deeds to the aforementioned properties, and grant Deeds of Right for three of those properties to the Washington State Salmon Funding Recovery Board ("SRF Board") for habitat protection purposes. All of the properties were purchased as part of Seattle City Light (SCL)'s Endangered Species Act (ESA) Early Action Program under the authority of Ordinance 121114. Both the Program and Ordinance stated criteria by which the City committed to assist in threatened species recovery and these properties meet the criteria by protecting salmonid habitat. Funding for the property acquisitions included \$153,000 in SCL funds and \$189,000 from the SRF Board. This legislation places the acquired properties under the jurisdiction of the City Light Department. The funding for these acquisitions was already budgeted and does not require a new appropriation.

This legislation creates, funds, or anticipates a new CIP Project.

This legislation does not have any financial implications.

This legislation has financial implications.

**Other Implications:**

- a) **Does the legislation have indirect financial implications, or long-term implications?**  
 The properties will require monitoring to protect current habitat conditions. A land management plan was developed for the ESA Lands and funding has been set aside for both management and monitoring of these properties. Grant funds are pursued as needed to maintain or improve habitat conditions.

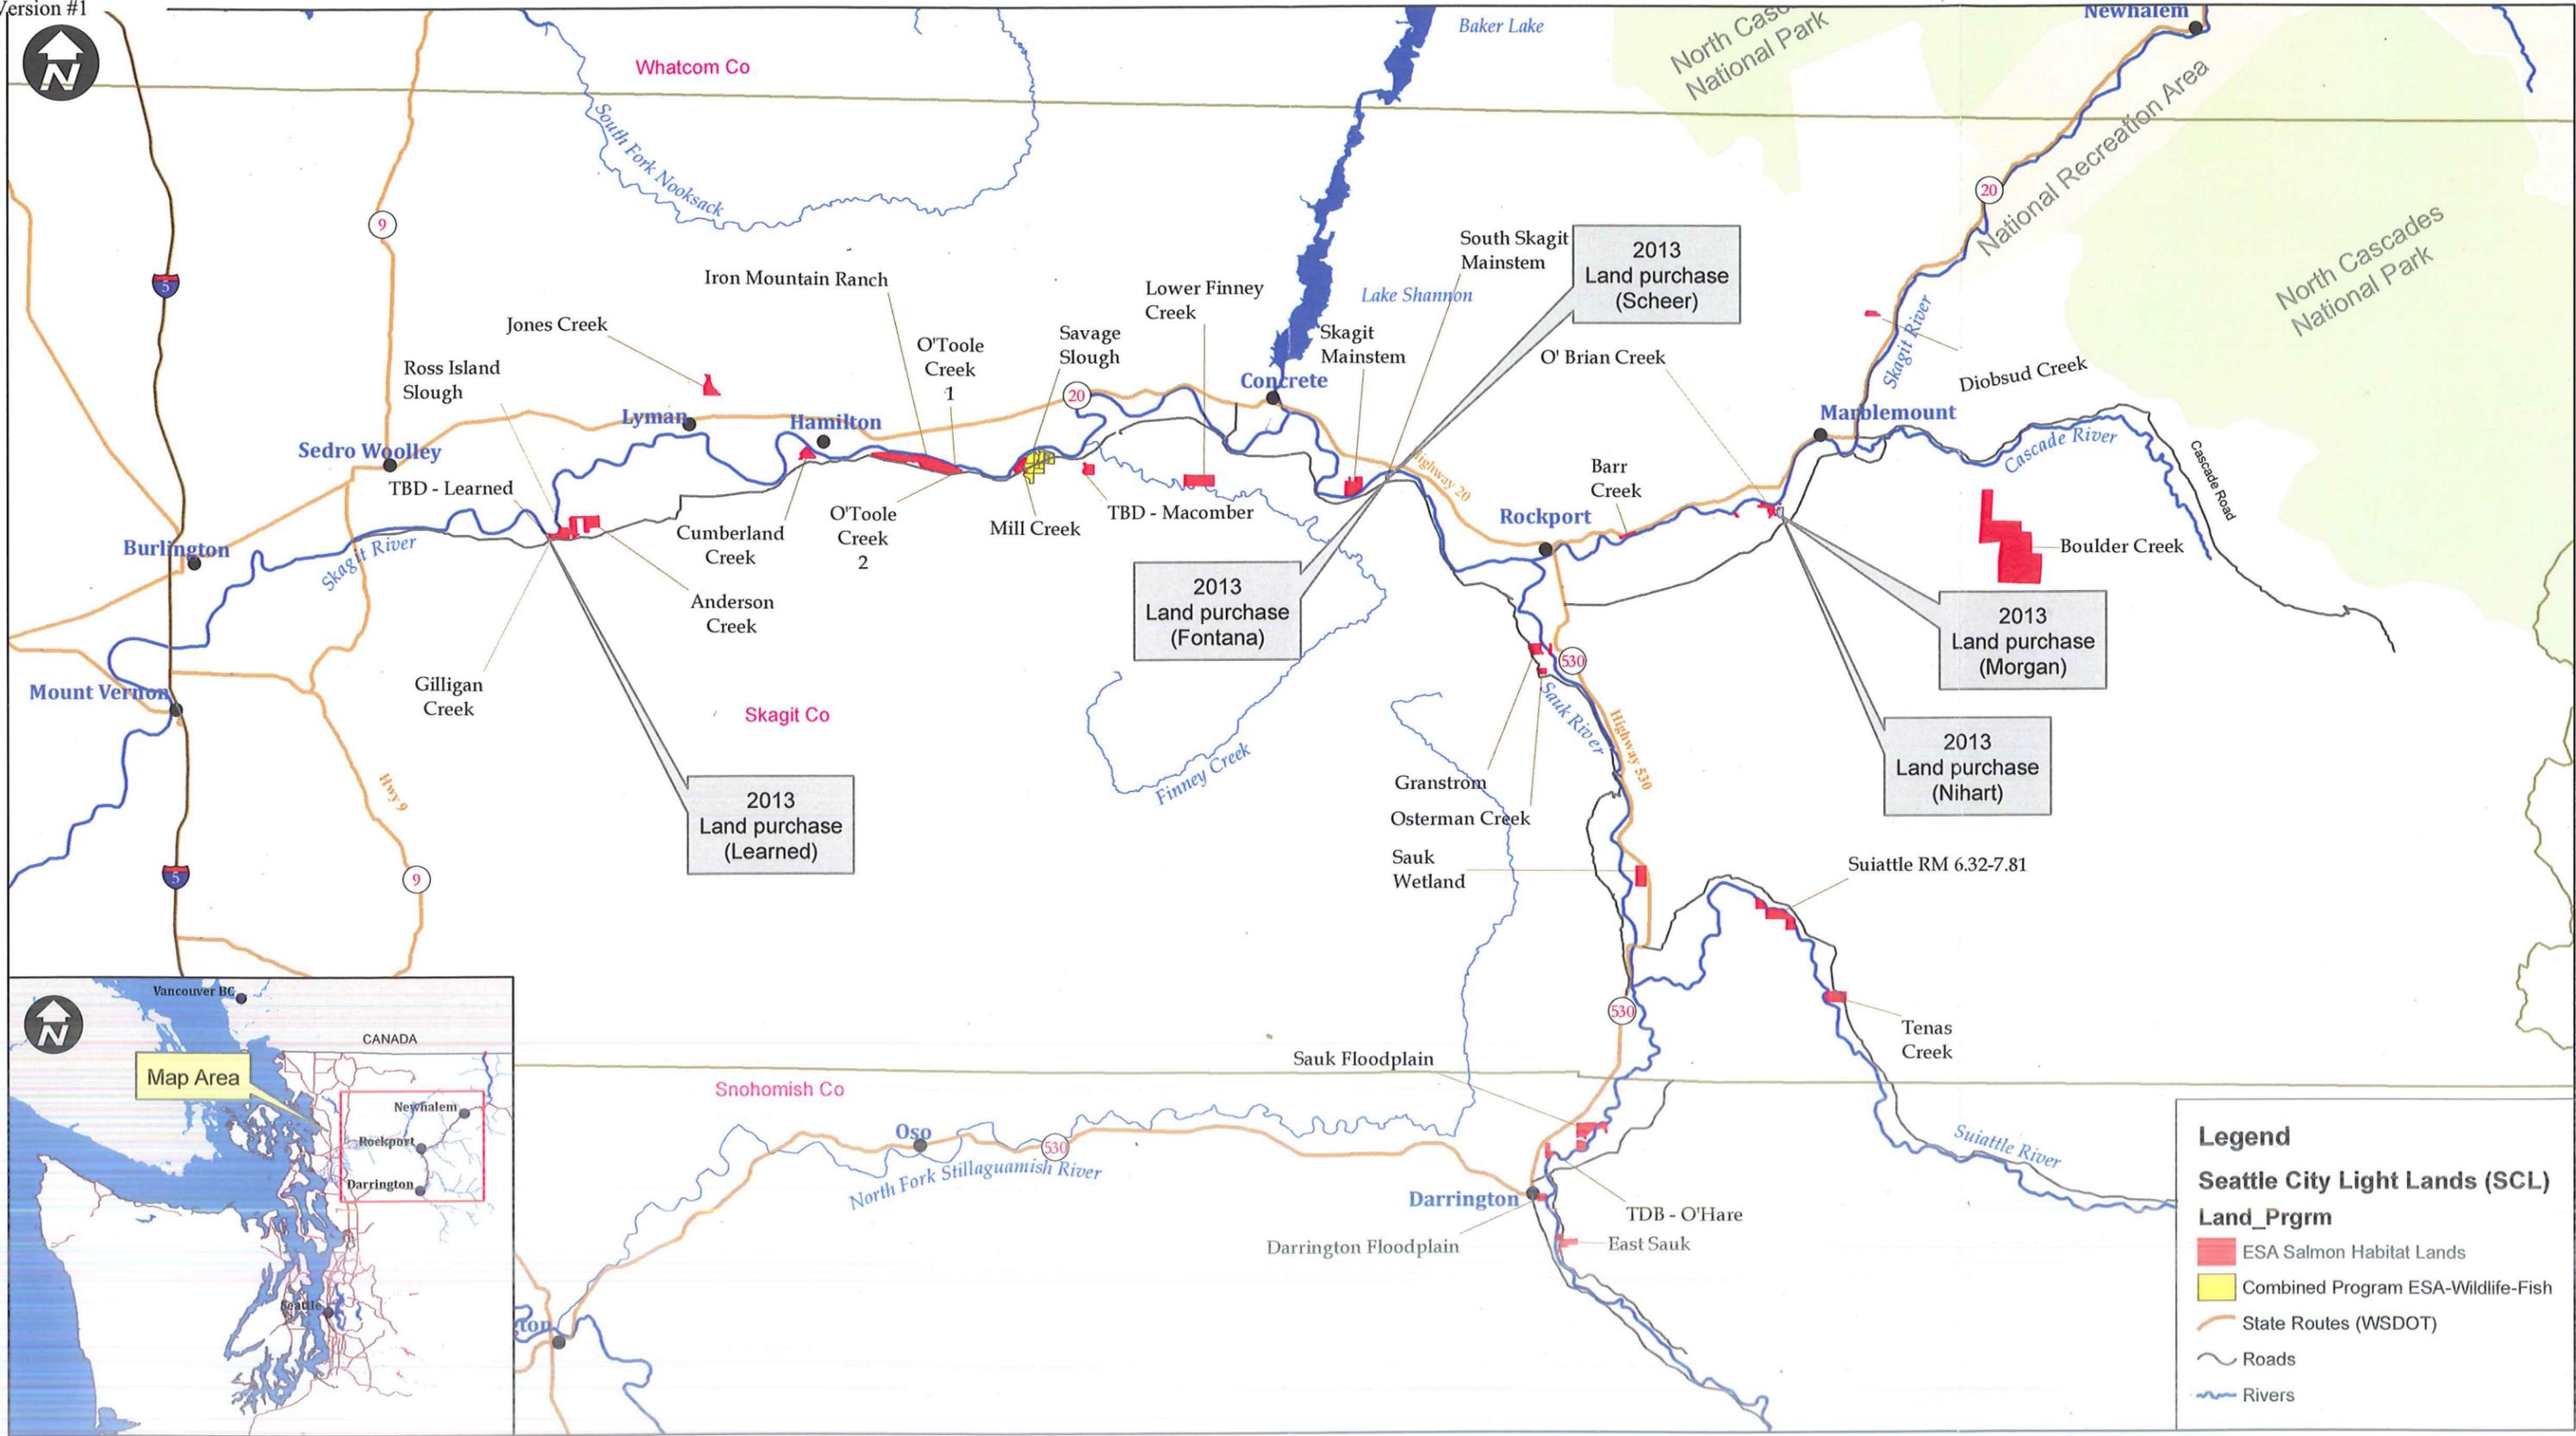

- b) What is the financial cost of not implementing the legislation?**  
SCL would be out of compliance with the terms of the signed grant with the Salmon Recovery Funding Board. This may ultimately result in a loss of the award for the properties and subject SCL to funding the purchase of the properties with other resources, including but not limited to ratepayer funds.
- c) Does this legislation affect any departments besides the originating department?**  
N/A
- d) What are the possible alternatives to the legislation that could achieve the same or similar objectives?**  
No other alternatives are known at this time.
- e) Is a public hearing required for this legislation?**  
Yes, a public hearing is held concurrent with Council hearing on the Ordinance.
- f) Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**  
N/A
- g) Does this legislation affect a piece of property?**  
It accepts deeds to the properties and authorizes the granting of Deeds of Right to the State of Washington for five of those properties. The maps are attached to this fiscal note, see below.

Honorable Tim Burgess  
President  
Seattle City Council  
City Hall, 2<sup>nd</sup> Floor

Dear Council President Burgess:

I am pleased to transmit the attached proposed Council Bill which would authorize Seattle City Light (SCL) to accept statutory warranty deeds to one property in King County and five properties in Skagit County, Washington, for salmonid habitat protection purposes. These properties were purchased in 2013 pursuant to the authority of Ordinance 121114. The Bill also authorizes the granting of Deeds of Right to the State of Washington for three properties to fulfill Salmon Recovery Funding Board grant requirements. Passage of this legislation will further demonstrate the City of Seattle's commitment through the Endangered Species Act program to salmon recovery and habitat preservation for the benefit of its citizens and future generations.

In total, SCL purchased one half acre in the Tolt watershed and 32 acres in the Skagit watershed with \$153,000 in SCL funds and \$189,000 in grant funds from the Salmon Recovery Funding Board. Each of these purchases has allowed the City of Seattle to protect important areas for chinook and steelhead spawning in the Skagit and Tolt watersheds. The Scheer and Fontana purchases will protect nearly 800 feet of Skagit River frontage and these purchases are adjacent to a U.S. Forest Service property that together protect over a mile of Skagit River frontage, providing spawning habitat for multiple salmonid species. The Fullerton purchase will protect one half acre of forested land along the Tolt River in a corridor of active acquisitions by SCL and King County to protect a productive chinook spawning area. The remaining three properties support the Puget Sound Chinook Recovery Plan's goal of protecting chinook spawning areas through key acquisitions.

Thank you for your consideration of this legislation. Should you have questions, please contact Michael Jones at 684-3242.

Sincerely,

Edward B. Murray  
Mayor of Seattle
