1. BILL SUMMARY

Legislation Title: AN ORDINANCE amending Ordinance 124927, which adopted the 2016 Budget, including the 2016-2021 Capital Improvement Program (CIP); changing appropriations to various departments and from various funds in the Budget; and ratifying and confirming certain prior acts; all by a 3/4 vote of the City Council.

Summary and background of the Legislation: This legislation appropriates unexpended non-capital appropriations from the 2015 Budget to the 2016 Budget.

RCW 35.32A.080 states: “the whole or any part of any appropriation provided in the budget for operating and maintenance expenses remaining unexpended or unencumbered at the close of the fiscal year shall automatically lapse, except any such appropriation as the city council shall continue by ordinance.” This legislation requests continuances for unexpended 2015 appropriations for non-capital purposes in the amount of \$16.5 million. Appropriations were made in the 2015 Budget for these expenditures but for various reasons, spending was not initiated or completed during the 2015 fiscal year. This ordinance re-appropriates these funds, which lapsed at the end of 2015, in most cases for the same purposes that the funds were dedicated to in 2015.

2. CAPITAL IMPROVEMENT PROGRAM

☐ This legislation creates, funds, or amends a CIP Project.

Attachment A – 2015 Year End Carry Forward Ordinance Summary Detail Table

2015 Year End Carry Forward Ordinance Summary Detail Table

Item	Title/Description	Amount/FTE
	Section 1 – Appropriation Increases	
1.1	Office of Arts & Culture Grants Management Program Replacement Project (Executive, Arts Account (00140))	\$25,000
	This item increases appropriation authority by \$25,000 in the Arts Account BCL and provides resources to the Office of Arts & Culture (ARTS) for replacement of its online application and grants management program. In 2015 ARTS budgeted for replacement of the outdated grants management system, called Culture Grants Online (CGO). During 2015, ARTS reviewed multiple products, identified an appropriate replacement, and submitted a proposal to the Department of Information Technology (DoIT) for review. DoIT's review is taking longer than expected and they have requested that ARTS consider additional options. DoIT supports ARTS request for these funds to be carried forward for this purpose, and anticipates that both departments will be able to find a product that will meet ARTS needs and comply with DoIT's requirements. Carry forward resources from 2015 would allow ARTS to move forward with replacement of its online product in 2016.	
1.2	Office reconfiguration and space improvements. (Executive, General Subfund (00100))	\$150,000
	This item increases appropriation authority by \$150,000 to the City Budget Office BCL and provides resources to the City Budget Office for office space improvements. This carry forward request will allow the City Budget Office to complete office space improvements and reconfiguration work started in 2015.	
1.3	Ethnic Media Institute Funding (Seattle Information Technology Department, Information Technology Fund (50410))	\$41,946
	This item increases appropriation authority by \$41,946 to the Digital Engagement BCL and provides resources to the Seattle Information Technology Department in support of the Department of Neighborhoods (DON) for the purpose of building the Ethnic Media Institute. This work began in 2015 but was not completed and the resources carried forward are necessary for DoIT to meet its obligations in the Memorandum of Understanding with DON. The 2016 Adopted Budget provides an additional \$81,549 towards this effort. Funding considered one-time but spread out over two years, 2015 and 2016.	
1.4	Governance Risk Compliance Tool (Seattle Information Technology Department, Information Technology Fund (50410))	\$400,000
	This item increases appropriation authority by \$400,000 to the Leadership, Planning and Security BCL and provides resources to the Seattle Information Technology Department in support of the acquisition of a tool to support the IT Risk and Compliance program. This system will be used to store, track, analyze, and report on people, processes, and standards to ensure the City's compliance with governing law and regulations including HIPAA, FERPA, PCI, NERC-CIP, and CJIS. Failure to comply with these laws and standards could lead to severe fines and/or other penalties. DoIT originally planned to purchase and set up the system in 2015 using a combination of CIP and O&M funds; both funding sources were in the 2015 Adopted budget. However, due to delay, the acquisition will occur in 2016 and both the CIP and O&M funds are necessary. The CIP funds carry forward into 2016 automatically but the O&M funds necessary to purchase and stand up the tool would lapse without being carried forward.	

Item	Title/Description	Amount/FTE
1.5	Cloud Enablement (Seattle Information Technology Department, Information Technology Fund (50410))	\$250,000
	This item increases appropriation authority by \$250,000 to the Engineering and Operations BCL and provides resources to the Seattle Information Technology Department for a Cloud Enablement project. The Cloud Enablement project will enable the City to make consistent decisions on when and how to use cloud computing services, leading to lower costs and more powerful, secure solutions. The project will develop a buying framework to facilitate decisions on when to use cloud services and when to use open-premise solutions in the City's new data center, create the policies and processes to ensure cloud use complies with the City's regulatory commitments, and prepare the City for a preferred cloud vendor selection process. Currently, DoIT and the City at large do not have a well-developed policy or evaluation process when considering the implications and technical questions related to the use of cloud technology and storage. DoIT originally budgeted this work for 2015 at \$125,000. It released the RFP in November 2015 but did not receive adequate responses. Vendors indicated the cost to meet the project scope would be significantly higher and thus, DoIT will increase its available funds to \$250,000 and release a new RFP in early 2016.	
1.6	Department-wide Training (Department of Neighborhoods, General Subfund (00100))	\$15,000
	This item increases appropriation authority by \$15,000 in the Internal Operations BCL (I3200) and provides resources to the Department of Neighborhoods (DON) for training. DON currently has a training budget of approximately \$5,000 for a staff of 55 FTEs, limiting the availability of training opportunities to a few individuals each year. To reflect leadership and management changes made over 2015, a number of training opportunities have been identified to address critical skills gap and professional development needs. Carryforward resources from 2015 would allow DON to address these needs in 2016.	
1.7	Invoicing System (Department of Neighborhoods, General Subfund (00100))	\$20,000
	This item increases appropriation authority by \$20,000 in Community Building BCL (I3300) and provides resources to the Department of Neighborhoods (DON) for an invoicing system. Due to several timing and negotiation issues, the contract to build an invoicing system could not be executed at the end of 2015 and it is necessary to carryforward funds into 2016. The new directive that engagement be centralized at DON has impacts in the ability of the historically underserved community and contracting with both new WMBEs and new independent contractors. In addition, an assessment conducted late last year revealed that many of the new independent contractors were unable to complete an invoice because of the lack of technical skills. DON is willing to internalize the costs of extensive training for these independent contractors this year, but needs to create a system that will help the contractors generate invoices in a simple and efficient way. In addition, DON will contribute \$5,000 of the 2016 Public Outreach and Engagement Liaisons (POEL) budget to this project. Carryforward resources from 2015 would allow DON to smoothly transition the increased load of department projects with the historically underserved community, and balance the needs of the new community members that are being trained to do this work.	

Item	Title/Description	Amount/FTE
1.8	Housing Affordability and Livability Agenda (HALA) Outreach (Department of Neighborhoods, General Subfund (00100))	\$42,000
	This item increases appropriation authority by \$42,000 to the Director's Office and provides resources to the Department of Neighborhoods (DON) for Housing Affordability and Livability Agenda (HALA) outreach. This carry forward request will allow the Department of Neighborhoods to fund outreach they were not able to complete in 2015, including community events and other outreach efforts.	
1.9	PREP Project Phase 2 carry forward appropriation (Seattle Department of Construction and Inspections, Planning and Development Fund (15700))	\$1,350,000
	This item increases appropriation by \$1,350,000 in the Process Improvements and Technology (PI&T) BCL and provides resources to the Seattle Department of Construction and Inspections (SDCI) for Phase 2 of the Permitting, Regulation, Enforcement and Property (PREP) project for SDCI. The original go-live for the project when the 2015-16 biennial budget was prepared was December 2015. However, during PREP Phase 1, the Rental Registration and Inspection Ordinance (RRIO) project completion was delayed by 6 months, which delayed the start of Phase 2 later into 2014 than originally planned, thereby extending the overall project timeline. In addition, now that the project has been underway for more than a year, some decisions have been made to increase functionality, incorporate some minor requests made by other departments and upgrade to the latest version of the product. These scope changes will increase the capability and usability of the system by SDCI staff, the public, and other City departments performing inspections and conducting electronic plan review. Therefore the overall timeline has been extended to be complete in November 2016. Carry forward authority from 2015 will allow SDCI to complete this project. The PI&T program is directly supported by SDCI operations fees and permit revenues.	
1.10	URM Validation and Analysis carry forward appropriation (Seattle Department of Construction and Inspections, Planning and Development Fund (15700))	\$51,550
	This item increases appropriation authority by \$51,550 in the Construction Permit Services (U2300) BCL and provides resources to the Seattle Department of Construction and Inspections (SDCI) for the Structural Plans Engineer Senior position that was added in the 2015 Adopted/2016 Endorsed Budget. This position validates and analyzes the list of Unreinforced Masonry (URM) buildings, and will add newly discovered URM or remove non-URM buildings that have been demolished. The estimated time to complete the work was estimated at 18 months from the start date of the position. However, the hiring of the Structural Plans Engineer position was delayed until May 2015, and this pushed the project start date out to May 2015. As a result, the revised project completion date is December 2016. Carry forward resources from 2015 will allow SDCI to continue funding of this position and the URM validation and analysis work, as well as publication of a final report.	

Item	Title/Description	Amount/FTE
1.11	Code Compliance Division Vehicles carry forward appropriation (Seattle Department of Construction and Inspections, Planning and Development Fund (15700))	\$120,000
	This item increases appropriation authority by \$120,000 (\$60,000 of which will come from existing General Fund resources) in the Code Compliance BCL (U2400) and provides resources for Seattle Department of Construction and Inspections (SDCI) to fund four vehicles that were ordered by the Finance Administrative Services Department/Fleet Management Division in 2015 but will not be delivered and billed for until 2016.
