WHEREAS, in 2013, the City Council requested that the Seattle Department of Construction and Inspections (SDCI), previously known as the Department of Planning and Development, and the Office of Economic Development, work with the Seattle Metropolitan Chamber of Commerce (Chamber) and members of the planning and development community to identify options to improve the permit review process; and

WHEREAS, in 2014, the Seattle Metropolitan Chamber of Commerce submitted recommendations to SDCI on improving the design review process; and

WHEREAS, in September 2014, the City Council adopted Resolution 31546, in which the Council and Mayor proposed that a Seattle Housing Affordability and Livability Agenda (HALA) Advisory Committee be jointly convened by the Council and the Mayor to evaluate potential housing strategies; and

WHEREAS, in 2015, following recommendations identified by the Chamber's work, the City Council provided consultant resources for SDCI to conduct additional outreach with

1 community stakeholders and to develop recommendations to improve the design review
2 process and present a proposal for implementing those changes; and

3 WHEREAS, in 2015, SDCI convened a 16-member stakeholder advisory group comprised of
4 project applicants, design professionals and community members to recommend changes
5 to the design review process and conducted additional community outreach about design
6 review; and

7 WHEREAS, the design review stakeholder advisory group prepared recommendations to
8 cultivate the program's purpose of encouraging better design, improve the level of
9 consistency, efficiency, and predictability in how the City administers the program, set
10 clear expectations for the program, and support communication and dialogue in design
11 review; and

12 WHEREAS, the HALA Advisory Committee provided final recommendations to the Mayor and
13 City Council on July 13, 2015, including strategies to create efficiencies in housing
14 production; and

15 WHEREAS, the HALA Advisory Committee found that while the design review process may
16 provide benefits such as better collaboration between developers and community
17 members and improved design outcomes, it may also increase the timeline, cost, and
18 unpredictability of obtaining land use permits, which may then raise the cost of building
19 housing; and

20 WHEREAS, the HALA Advisory Committee recommended reforms to the design review
21 process to improve predictability and consistency, including procedural changes to
22 improve two-way dialogue at meetings, training to board members and staff to allow

1 them to consider the impacts of their decisions on housing costs, and limitations on the
2 extent of packet materials and number of meetings; and

3 WHEREAS, in March 2016, SDCI released a recommendation report to update the design
4 review program that was informed by the Design Review Advisory Group's
5 recommendations and the HALA Advisory Committee's recommendations and other
6 outreach efforts; NOW, THEREFORE,

7 **BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

8 Section 1. Section 3.51.030 of the Seattle Municipal Code, last amended by Ordinance
9 121568, is amended as follows:

10 **3.51.030 Selection process and program assessment ((:))**

11 In addition to the regular members, one designated young adult position may, by
12 ordinance, be added to City boards and commissions, except that the Design Review Board may
13 have more than one young adult position. To fill the designated young adult positions, young
14 adults shall be nominated by the Mayor and shall be subject to confirmation by the City Council
15 by majority vote. The young adults selected as part of this program are full voting members of
16 the boards and commissions on which they serve, unless specified otherwise for a particular
17 board or commission. Nothing in this program precludes appointment of a young adult to other
18 regular positions on any board or commission.

19 Each young adult selected shall be matched with a mentor who serves on the same board
20 or commission, and shall attend support groups and training tailored toward their duties as a
21 board or commission member. Program participants shall periodically help assess the
22 effectiveness of the program, and adjustments will be made based on this feedback. Written
23 materials shall be developed for use by the program participants and by other jurisdictions who

may want to establish or participate in a similar program. Participants in the Get Engaged program shall provide feedback to assist the Get Engaged partners (Mayor's Office Boards and Commissions, City Council, and YMCA Metrocenter Branch) in developing a plan to sustain effective young adult involvement within City government.

According to the applicable process described in Section 23.41.016, administrative design review is optional for a development proposal that is not otherwise subject to this Chapter 23.41 and is on a site that contains an exceptional tree, as defined in Section 25.11.020, when the ability to depart from development standards may result in protection of the tree as provided in Sections 25.11.070 and 25.11.080.

Section 6. Section 23.41.008 of the Seattle Municipal Code, last amended by Ordinance 124843, is amended as follows:

23.41.008 Design Review ((Board)) general provisions

A. Role of the Design Review Board. The Design Review Board shall be convened ~~((for the purpose of reviewing all development subject to design review, except development subject to administrative or streamlined design review))~~ to review development proposals that are subject to full design review, or Master Planned Community-highrise design review pursuant to this Chapter 23.41 ~~((Design Review))~~. To accomplish this purpose, the Design Review Board shall perform the following, as applicable:

1. For developments subject to full design review or Master Planned Community-highrise design review, ((Synthesize)) synthesize community input on design concerns, identify

1 guideline priorities, and provide early design guidance to the ~~((development team and~~
2 ~~community)) applicant~~;

3 2. Determine whether a proposed design submitted by an applicant does or does
4 not comply with the guideline priorities;

5 3. For development subject to full design review, recommend to the Director
6 whether to approve, condition, or deny any requested departures from development standards;

7 ~~((2:))~~ 4. Recommend to the Director specific conditions of approval ((which))
8 that are consistent with the ((design guidelines applicable to the development)) guideline
9 priorities; and

10 ~~((3:))~~ 5. Ensure fair and consistent application of Citywide or neighborhood-
11 specific design guidelines.

12 B. Design Review Board membership criteria

13 1. Members shall reside in Seattle; ~~((and))~~

14 2. Members should possess experience in neighborhood land use issues and
15 demonstrate, by their experience, sensitivity in understanding the effect of design decisions on
16 neighborhoods and the development process; ~~((and))~~

17 3. Members should possess a familiarity with land use processes and standards as
18 applied in Seattle; and

19 4. Consistent with ~~((the City's Code of Ethics,))~~ Section 4.16.070, no member of
20 the Design Review Board shall have a financial or other private interest, direct or indirect,
21 personally or through a ~~((member of his or her))~~ person in the member's immediate family, in a
22 project under review by the Design Review Board on which that member sits.

E. Meetings of the Design Review Board ((-))

1. ~~((Project-specific early design guidance public meetings shall be held as required in Section 23.41.014 B.))~~ Notice of ~~((meetings of the))~~ Design Review Board meetings shall be ~~((provided))~~ given as described in subsection 23.76.015.C ~~((Chapter 23.76, Procedures for Master Use Permits and Council Land Use Decisions))~~.

2. All meetings of the Design Review Board shall be held in the evening in a location which is accessible and conveniently located in the same design review district as the proposed project. Board meetings are open to the general public. The actions of the Board are not quasi-judicial in nature.

3. Design Review Board meetings are limited to the maximum number described in Table A for 23.41.008.

Table B for 23.41.008

¹ There is no limit to the number of Board meetings when: <u>The project lot is abutting or across the street from a lot in a single-family zone;</u> <u>The development proposal includes a Type IV or Type V Master Use Permit component as described in Chapter 23.76; or</u> <u>Departures are requested, unless the project applicant elects the MHA performance option according to Sections 23.58B.050 or 23.58C.050.</u>		
² <u>The Director may require additional Design Review Board meetings according to subsection 23.41.008.E.4.</u>		

4. The Director may require additional Design Review Board meetings above the maximum established in subsection 23.41.008.E.3 if the Director determines the Design Review Board needs additional time for deliberation and evaluation of a project due to the size and complexity of the site or proposed development, the amount and content of public comment, an

1 applicant's insufficient response to previous Board direction, or at the applicant's request. If the
2 Design Review Board cannot complete a recommendation, it shall identify reasons why another
3 recommendation meeting is necessary.

4 F. Design Review Board recommendation

5 1. The Design Review Board shall determine whether the proposed design
6 submitted by the applicant complies with the guideline priorities. The Board shall recommend to
7 the Director whether to approve or conditionally approve the proposed project based on
8 compliance with the guideline priorities, and whether to approve, condition, or deny any
9 requested departures from development standards.

10 2. The Director shall consider the recommendations of the Design Review Board
11 when deciding whether to approve an application for a Master Use Permit.

12 3. If four or more members of the Design Review Board agree in their
13 recommendation to the Director, and if the Director otherwise approves a Master Use Permit
14 application, the Director shall make compliance with the recommendation of the Design Review
15 Board a condition of permit approval, unless the Director concludes that the recommendation of
16 the Design Review Board:

17 a. Reflects inconsistent application of the design review guidelines;
18 b. Exceeds the authority of the Design Review Board;
19 c. Conflicts with SEPA conditions or other regulatory requirements
20 applicable to the project; or

21 d. Conflicts with requirements of local, state, or federal law.

22 G. Revisions to an issued and unexpired MUP

1. Minor revisions to an issued and unexpired MUP that was subject to design review may be approved by the Director as a Type I decision. A minor revision is defined as any proposed change to an issued and unexpired MUP that has little or no effect on the overall appearance of the design or environmental impact of the issued MUP.

2. Major revisions to an issued and unexpired MUP that was subject to design review may be approved by the Director as a Type II decision. A Major Revision is defined as any proposed change to an issued MUP that is not a Minor Revision that is consistent with the building massing, site plan, and guidance received at Early Design Guidance (EDG), where the current context of the project (e.g. adjacent structures or uses) is comparable to the context at the time of the EDG. In instances when citywide or neighborhood guidelines have been adopted, amended, or updated since the EDG, the Board or SDCI staff may identify additional guideline priorities as part of the major revision process.

3. The Director shall establish, by rule, what constitutes a major and minor revision
and the review process for major and minor revisions.

3 "Guidelines for Downtown Development, 1999" apply. Neighborhood design guidelines and
4 Master Planned Community design guidelines are intended to augment and make more specific
5 the "Seattle Design Guidelines, 2013" and the "Guidelines for Downtown Development, 1999."
6 To the extent there are conflicts between neighborhood design guidelines or Master Planned
7 Community design guidelines and the "Seattle Design Guidelines, 2013" or "Guidelines for
8 Downtown Development, 1999," the neighborhood design guidelines or Master Planned

5 achieve consistency with the design guidelines, and identifies any ((desired)) requested or
6 required development standard adjustments and/or departures.

7 3. If the criteria listed in subsection 23.41.018.F.3 are met, the Director may
8 consider adjustments to the following development standards to the extent listed for each standard:

9 a. Setbacks and separation requirements may be reduced by a maximum of
10 50 percent;

11 b. Amenity areas may be reduced by a maximum of ten percent;

12 c. Landscaping and screening may be reduced by a maximum of 25 percent;

13 and

14 d. Structure width, structure depth, and facade length may be increased by
15 a maximum of ten percent.

16 ((5))4. The Director shall ((distribute a copy of)) make the Guidance report
17 available to those who sent in comments or otherwise requested notification, and to the

10 the applicant may either revise the application to eliminate the need for ((the further))
11 departures~~((s))~~ and proceed under this Section 23.41.018, or else apply for a Type II Master Use
12 Permit for administrative design review pursuant to Section 23.41.016.

2 the proposed project.

3 ~~((2. The Director's decision pursuant to the SDR process shall not reduce the~~
4 ~~number of units allowed per square foot of lot area when such a density limit is set in Table A for~~

6 3. The Director may ((allow)) approve the adjustments listed in subsection
7 ~~((23.41.018.D.4))~~ 23.41.018.D.3, if the adjustments are consistent with the SDR ((design

- 9 a. Better meets the intent of the adopted design guidelines and/or
10 b. Provides a better response to environmental and/or site conditions,
11 including but not limited to topography, the location of trees, or adjacent uses and structures.

12 ~~((4. If the criteria listed in subsection 23.41.018.D.3 are met, the Director may~~

Section 13. Section 23.41.020 of the Seattle Municipal Code, enacted by Ordinance 123963, is amended as follows:

23.41.020 Master Planned Community design review process

A. Scope. This Section 23.41.020 applies only to development proposals in Master Planned Community zones that do not include a request for departures. If an application in a Master Planned Community zone includes a request for departures, then the applicable design review procedures are in Section 23.41.014. For purposes of this Section 23.41.020, “highrise structure” and “non-highrise structure” are as defined in Section 23.75.020.

B. A preapplication conference is required for any application subject to this Section 23.41.020 ~~((unless waived by the Director, pursuant to Section 23.76.008))~~.

C. Early design guidance ~~((:))~~

1. An early design guidance process is required only if a proposal includes a highrise structure.

2. Following a pre-application conference~~((, if required,))~~ and site visits by Design Review Board members assigned to review a proposed project, an early design guidance public meeting with the Design Review Board shall be held for each proposal that includes a highrise structure.

3. The purpose of the early design guidance public meeting is to identify concerns about the site and the proposed project, receive comments from the public, review the design guidelines applicable to the site, ~~((determine neighborhood priorities among the design~~

1 ~~guidelines))~~ identify guideline priorities, and explore conceptual design (~~concepts and/or~~
2 ~~options))~~ or siting alternatives.

3 4. ~~((At))~~ The Director may establish, by rule, the information that the applicant
4 shall present at the early design guidance public meeting. (~~the project proponents shall present~~
5 ~~the following information:~~

6 a. ~~An initial site analysis addressing site opportunities and constraints, the~~
7 ~~uses of all adjacent buildings, and the zoning of the site and adjacent properties;~~

8 b. ~~A drawing of existing site conditions, indicating topography of the site~~
9 ~~and the location of structures and prominent landscape elements on or abutting the site (including~~
10 ~~but not limited to all trees 6 inches or greater in diameter measured 4½ feet above the ground,~~
11 ~~with species indicated);~~

12 c. ~~Photos showing the facades of adjacent development, trees on the site,~~
13 ~~general streetscape character and territorial or other views from the site, if any;~~

14 d. ~~A zoning envelope study that includes a perspective drawing;~~

15 e. ~~A description of the proponent's objectives with regard to site~~
16 ~~development; and~~

17 f. ~~A development proposal, which may include possible design options if~~
18 ~~so elected by the applicant.))~~

19 5. Guideline priorities. (~~Based on the concerns expressed at the early design~~
20 ~~guidance public meeting or in writing to the Design Review Board, the))~~ The Board shall
21 identify (~~any guidelines that may not be applicable to the site and identify~~) those guidelines of
22 highest priority to the (~~neighborhood~~) Board, referred to as "guideline priorities". The Board
23 shall make preliminary design recommendations, (~~incorporating~~) summarizing and considering

any community consensus regarding design expressed at the meeting (~~(, to the extent the~~
~~consensus is consistent with the design guidelines and reasonable in light of the facts of the~~
~~proposed development))~~).

6. The Director shall (~~(distribute))~~ make available a summary of the public
comments and the Board's preliminary design recommendations from the early design guidance
meeting to the applicant and to all persons who provided an address for notice at the meeting,
submitted written comments, or made a written request for notice.

D. Application for Master Use Permit ((:))

1. Timing ((:))

a. If a proposal does not include a highrise structure, then following the
pre-application conference (~~((or the Director's waiver of a pre-application conference pursuant to~~
~~Section 23.76.008))~~), the applicant may apply for a Master Use Permit.

b. If a proposal includes a highrise structure, then following the early
design guidance public meeting, distribution of the meeting summary, and any additional
optional meetings that the applicant chooses to hold with the public and the Design Review
Board, the applicant may apply for a Master Use Permit.

2. (~~((The Master Use Permit application shall include a supporting site analysis~~
~~and an explanation of how the proposal addresses the applicable design guidelines, in))~~ In
addition to (~~((standard MUP submittal requirements as provided))~~ submitting information
required in a standard MUP application, as prescribed in Chapter 23.76, ((and in the case of a
~~highrise structure, the application shall also include a response to the Board's preliminary design~~
~~recommendations from the early design guidance meeting))~~ the applicant shall include in the

MUP application such additional information related to design review as the Director may require.

E. Design review process and decision ((:))

1. Director's decision for non-highrise proposals. For a development proposal that does not include a highrise structure, the Director shall make a Type I design review decision. The Director's decision shall be based on the extent to which the proposed project meets applicable design guidelines, with consideration of public comments on the proposed project. The Director may condition a proposed project to achieve greater consistency with design guidelines and to achieve the purpose and intent of this Chapter 23.41.

2. Design Review Board recommendation for highrise development proposals ((:))

a. If the proposal includes a highrise structure, then during a recommendation meeting, the Board shall review the ~~((record))~~ summary of public comments on the project's design, the project's ~~((conformance to))~~ consistency with the guideline priorities, ~~((applicable to the proposed project,))~~ and the ~~((staff's))~~ Director's review of the project's design and its ~~((application of))~~ consistency with the ~~((design guidelines))~~ guideline priorities.

b. At a recommendation meeting for a development proposal that includes a highrise structure, the Design Review Board shall determine whether the proposed design submitted by the applicant is consistent with ~~((applicable design guidelines))~~ the guideline priorities. The ~~((Design Review))~~ Board may recommend to the Director whether to approve or conditionally approve the proposed project based on the ~~((design guidelines))~~ guideline priorities. The Design Review Board shall hold no more than two recommendation meetings on the proposed project, following the required early design guidance meeting and any optional

meetings that the ~~((project proponent))~~ applicant may hold with the public or the Design Review Board. If the Design Review Board does not issue a recommendation that a proposed project be approved, conditionally approved, or denied by the end of the second recommendation meeting, the remaining design review process shall proceed through design review pursuant to subsection 23.41.020.E.1.

~~((3. Director's decision for development proposals including a highrise structure.~~

a)) c. For a development proposal including a highrise structure, the Director shall make a Type I design review decision. The Director may condition approval of a development proposal to achieve greater consistency with design guidelines and to achieve the purpose and intent of this Chapter 23.41.

~~((b))~~ d. The Director shall consider public comments on the proposed project and the recommendations of the Design Review Board, pursuant to subsection 23.41.008.F. ~~((If four or more members of the Design Review Board agree in their recommendation to the Director, the Director shall issue a decision consistent with the recommendation of the Design Review Board, unless the Director concludes that the recommendation of the Design Review Board:~~

1) Reflects inconsistent application of the design review guidelines; or

2) Exceeds the authority of the Design Review Board; or

3) Conflicts with SEPA conditions or other regulatory requirements applicable to the site; or

4) Conflicts with the requirements of state or federal law.))

Section 14. Section 23.57.013 of the Seattle Municipal Code, last amended by Ordinance 123668, is amended as follows:

23.57.013 Downtown zones

A. Permitted (~~(Uses)~~) uses. Minor communication utilities and accessory communication devices are permitted outright when meeting development standards of the zone in which the site is located, except for height limits, and subsection 23.57.013.B.

B. Development (~~(Standards;)~~) standards

1. Access to transmitting minor communication utilities and accessory communication devices shall be restricted to authorized personnel when located on rooftops or other common areas. Warning signs at every point of access to the rooftop or common area shall be posted with information on the existence of radiofrequency radiation.

2. Height (~~(-)~~)

a. Except for special review, historic, and landmark districts (see Section 23.57.014), minor communication utilities and accessory communication devices may be located on rooftops of buildings, including sides of parapets and equipment penthouses above the roofline, as follows:

1) Those utilities and devices located on a rooftop of a building nonconforming as to height may extend up to 15 feet above the height of the building existing as of November 1, 2002;

2) Those utilities and devices located on a rooftop may extend up to 15 feet above the applicable height limit or above the highest portion of the building, whichever is less.

1 The additional height permitted in ~~((23.57.013.B.2.a.(1) and (2)))~~
2 subsections 23.57.013.B.2.a.1 and 23.57.013.B.2.a.2 is permitted if the combined total of
3 communication utilities and accessory communication devices in addition to the roof area
4 occupied by rooftop features listed in ~~((Section))~~ subsection 23.49.008.D.2, does not exceed 35
5 percent of the total rooftop area.

6 b. The height of minor communications utilities and accompanying
7 screening may be further increased ~~((through the design review process))~~ as a Type I decision,
8 not to exceed 10 percent of the applicable height limit for the structure. ~~((For new buildings this~~
9 ~~increase in height may be granted through the design review process provided for in Section~~
10 ~~23.41.014. For minor communication utilities on existing buildings this increase in height may~~
11 ~~be granted through administrative design review provided for in Section 23.41.016.))~~

13 Section 15. Section 23.66.020 of the Seattle Municipal Code, last amended by Ordinance
14 124843, is amended as follows:

15 **23.66.020 Special review boards**

16 * * *

17 D. The special review board shall review applications for certificates of approval,
18 including departures from land use code requirements, and all petitions or applications for
19 amendments to the Official Land Use Map, conditional uses, special exceptions, variances, and
20 planned unit developments or planned community developments and shall make a
21 recommendation on any such application or petition to the Department of Neighborhoods
22 Director.

1 E. The special review board may, in its discretion, make recommendations to the Mayor,
2 the Council, and any public or private agency concerning land use and development in the
3 district.

4 * * *

5 Section 16. A new Section 23.66.050 is added to the Seattle Municipal Code as follows:

6 **23.66.050 Departure from Land Use Code requirements**

7 A. An applicant seeking a certificate of approval for new multifamily, commercial or
8 major institution development, that is not otherwise subject to design review pursuant to Section
9 23.41.004, may also seek land use code departures from the Special Review Board. A Special
10 Review Board may recommend granting a departure where an applicant demonstrates that
11 departure would result in a development that better meets the requirements of this Chapter 23.66,
12 the district use and development standards, and the purpose for creating the district.

13 B. Departures may be requested from any Land Use Code standard or requirement,
14 except for the standards or requirements set forth in subsection 23.41.012.B and provisions in
15 this Chapter 23.66.

16 C. A Special Review Board shall recommend, in writing, to the Director of the Seattle
17 Department of Construction and Inspections whether to approve, or deny, any departure.

18 D. Departures authorized by this Section 23.66.050 do not limit the approval of waivers
19 or modifications of development standards permitted by other provisions of the Seattle
20 Municipal Code.

21 E. The Director of the Department of Neighborhoods, in coordination with the Director
22 of the Seattle Department of Construction and Inspections, may establish, by rule, procedures for

1 a Special Review Board to review and prepare a recommendation whether to approve or deny
2 any requested departure.

3 Section 17. Subsections 23.73.009.B and 23.73.009.C of the Seattle Municipal Code,
4 which section was last amended by Ordinance 125272, are amended as follows:

5 **23.73.009 Floor Area Ratio**

6 * * *

7 B. Non-residential uses are limited to a maximum of 2 FAR, except that for development
8 on a lot that meets one of the following conditions, the FAR limits for non-residential uses in
9 Section 23.47A.013 for the underlying zone applies:

- 10 1. A character structure has not existed on the lot since January 18, 2012; or
11 2. For lots that include a character structure, all character structures on the lot are
12 retained according to Section 23.73.015, unless a departure is approved through the design
13 review process to allow the removal of a character structure based on the provisions of
14 subsection ((23.41.012.B.33)) 23.41.012.B. If the lot includes a character structure that has been
15 occupied by residential uses since January 18, 2012, the same amount of floor area in residential
16 uses shall be retained in that structure, unless a departure is approved through the design review
17 process to allow the removal of the character structure based on the provisions of subsection
18 ((23.41.012.B.33)) 23.41.012.B. The owner of the lot shall execute and record in the King
19 County real property records an agreement to provide for the maintenance of the required
20 residential uses for the life of the project.

21 C. In addition to the floor area exempt under the provisions of the underlying zone, the
22 following floor area is exempt from the calculation of gross floor area subject to an FAR limit:

1 1. The following street-level uses complying with the standards of Section
2 23.47A.008 and subsection 23.73.008.B:

3 a. General sales and services;
4 b. Major durables retail sales;
5 c. Eating and drinking establishments;
6 d. Museums;
7 e. Religious facilities;
8 f. Libraries; and
9 g. Automotive retail sales and service uses located within an existing
10 structure or within a structure that retains a character structure as provided in Section 23.73.015.

11 2. Floor area used for theaters or arts facilities, which for the purposes of this
12 Section 23.73.009 only, may be operated either by for-profit or not-for-profit organizations.

13 3. All floor area in residential use in a development that retains all character
14 structures on the lot as provided in Section 23.73.015, or that uses the transfer of development
15 potential (TDP) on a lot that is a TDP receiving site according to Section 23.73.024, unless a
16 departure is approved through the design review process to allow the removal of a character
17 structure based on the provisions of subsection ((~~23.41.012.B.33~~)) 23.41.012.B.

18 4. In areas where the underlying zoning is NC3P-65, all floor area in any use if
19 the lot that is to be developed is 8,000 square feet or less in area and has been either vacant or in
20 parking use since February 27, 1995.

21 5. Floor area in non-residential use within a character structure that meets the
22 minimum requirements for retaining a character structure in 23.73.024.C.4, provided that the

non-residential use does not displace a residential use existing in the structure since January 18, 2012.

Section 18. Subsection 23.73.010.B of the Seattle Municipal Code, which section was last amended by Ordinance 124503, is amended as follows:

23.73.010 Floor area limits outside the Conservation Core

* * *

B. Exceptions to floor area limit

1. A 15 percent increase in the floor area limit is permitted for projects that meet the following conditions:

a. The project retains all the character structures existing on the lot, unless a departure is approved through the design review process to allow the removal of a character structure based on the provisions of subsection ((~~23.41.012.B.32~~)) 23.41.012.B; and

b. The project includes uses that contribute to the area's recognized character as an arts district, including performing arts space or artist-studio dwellings that typically have design requirements such as nonstandard floor-to-ceiling heights that reduce the total amount of usable floor area in a structure; or

c. A minimum of 50 percent of the total gross floor area of the project is housing that is affordable to and occupied by "income-eligible households," as defined in Section 23.58A.004, and is subject to recorded covenants approved by the Director that ensure that the housing remains available to these households for a minimum of 50 years; or

d. Through the design review process a determination is made that including one or more of the following features offsets the increase in the bulk of the project and

allows for a design treatment that achieves the intent of the neighborhood design guidelines better than adhering to the floor area limit that would apply without the exception:

- 1) A landscaped courtyard that is visible from the sidewalk and located primarily at street level on a street that is not a principal pedestrian street;
- 2) A through-block pedestrian corridor that connects parallel streets bounding the project, consistent with the neighborhood design guidelines; or
- 3) Open space at locations that support the gateway and open space concepts promoted in the neighborhood design guidelines.

2. Retaining character structures on a lot. A 25 percent increase in the floor area limit established in subsection 23.73.010.A is permitted for a project that retains all the character structures on the same lot according to the provisions in Section 23.73.015, unless a departure is approved through the design review process to allow the removal of a character structure based on the provisions of subsection ((23.41.012.B.32)) 23.41.012.B. Any increase in floor area permitted according to this subsection 23.73.010.B.2 shall not be combined with any other increase in floor area permitted according to subsection 23.73.010.B.1 or 23.73.010.B.3.

3. A 25 percent increase in the floor area limit is permitted on a lot that qualifies as a receiving site for a project that adds floor area through the use of TDP as permitted by Section 23.73.024, provided that the amount of floor area added through the use of TDP is equivalent to at least 0.25 FAR, as calculated for the receiving site. Any increase in floor area permitted according to this subsection 23.73.010.B.3 shall not be combined with any other increase in floor area permitted according to subsection 23.73.010.B.1 or 23.73.010.B.2.

* * *

Section 19. Subsection 23.73.012.B of the Seattle Municipal Code, which section was last amended by Ordinance 124503, is amended as follows:

23.73.012 Structure width and depth limits

* * *

B. Structure width and depth limits inside the Conservation Core. The structure width and depth limits in this subsection 23.73.012.B apply to lots that are located inside the Conservation Core identified on Map A for 23.73.010, except that there are no limits on width and depth for lots that did not contain a character structure on January 18, 2012.

1. 128 feet shall be the width and the depth limit for portions of new structures on lots that contained a character structure on January 18, 2012. The width limit is measured as the combined width of all portions of new structures located on the lot and the depth limit is measured as the combined depth of all portions of new structures located on the lot, except as provided in subsection 23.73.012.B.2 and subsection 23.73.012.B.3.

2. Portions of a new structure that are separated from the street lot line by a character structure that is retained according to Section 23.73.015 are excluded from structure width and depth measurements, provided that:

a. All character structures on the lot are retained according to the provisions of Section 23.73.015, unless a departure is approved through the design review process to allow the removal of a character structure based on the provisions of subsection ((23.41.012.B.32)) 23.41.012.B; and

b. This exclusion from width and depth measurement in subsection 23.73.012.B.2 is only allowed for one retained character structure on the lot.

3. For the narrow block bounded by Broadway, East Union Street, Broadway Court, and East Madison Street, the depth limit does not apply to structures on through lots extending from Broadway to Broadway Court, and the width limit only applies to frontages on Broadway and Broadway Court.

Section 20. Subsection 23.73.014.B of the Seattle Municipal Code, which section was last amended by Ordinance 125272, is amended as follows:

23.73.014 Height exceptions

* * *

B. Height exception for lots that include a character structure. In zones with a 65-foot mapped height limit, or with a 40-foot mapped height limit with provisions allowing for additional height up to 65 feet according to subsection 23.47A.012.A, 10 feet of additional height is allowed above the 65-foot height limit if the following requirements are met:

1. The lot includes a character structure and all character structures on the lot are retained according to the provisions of Section 23.73.015, unless a departure is approved through the design review process to allow removal of a character structure based on the provisions of subsection ((23.41.012.B.32)) 23.41.012.B ((-)) ;

2. The additional floor area above the 65-foot height limit is occupied solely by residential use, except as otherwise permitted by subsection 23.73.014.B.3;

3. A project that is permitted the FAR of the underlying zone for non-residential uses under subsection 23.73.009.B may be allowed to occupy the floor area permitted above the 65-foot height limit under this subsection 23.73.014.B if a departure is approved through the design review process, provided that there is no additional increase in the FAR for non-residential uses beyond what is otherwise allowed by Section 23.73.009. The decision to allow a

departure shall be based on a determination that the additional height will result in a better design treatment and accommodate features that promote the development objectives of the Pike/Pine Conservation Overlay District by:

a. Maintaining greater portions of existing character structures on the lot through design treatments that exceed the minimum standards of subsection 23.73.015.A, retaining an entire character structure, or retaining a large number of character structures if the number and siting of the structures pose severe limitations on the amount of floor area that can be achieved in the new project within the applicable height limit; or

b. Providing space for features that enhance pedestrian circulation and walkability in the area, such as through-block pedestrian corridors, or open spaces at locations that support the gateway and open space concepts promoted in the neighborhood design guidelines; or

c. Accommodating uses, such as theater space or arts facilities that support the area's arts and culture function but that may have special spatial needs that require additional design flexibility to incorporate them into the project, provided the uses are maintained for the life of the project as provided for in a recorded covenant approved by the Director.

* * *

Section 21. Subsection 23.73.015.G of the Seattle Municipal Code, which section was last amended by Ordinance 125272, is amended as follows:

23.73.015 Retention and demolition of character structures

* * *

G. Demolition of character structures. If a project is required to retain all the character structures on a lot under the provisions of this Chapter 23.73, a character structure may

nevertheless be demolished through a departure approved by the design review process according to the provisions of subsection ((23.41.012.B.32)) 23.41.012.B.

Section 22. Subsection 23.73.024.B of the Seattle Municipal Code, which section was last amended by Ordinance 124503, is amended as follows:

23.73.024 Transfer of development potential

* * *

B. Standards for character structure TDP receiving sites. A lot must meet the following conditions in order to be eligible to achieve extra residential floor area through TDP:

1. TDP receiving sites shall be located in an NC3P-65 zone within the Pike/Pine Conservation Overlay District, provided that:

a. Development of the receiving site shall not result in the demolition of a structure designated as a landmark according to Chapter 25.12 or its alteration in a manner that is inconsistent with Chapter 25.12 or an ordinance imposing controls on the landmark structure.

b. Development on the lot that is the receiving site shall not result in the demolition or significant alteration of a character structure that is not a designated landmark and that has existed on the site since January 18, 2012, unless a departure is approved through the design review process to allow the removal of a character structure based on the provisions of subsection ((23.41.012.B.32)) 23.41.012.B. For the purposes of this subsection 23.73.024.B.1.b, significant alterations to a character structure would result in conditions that would preclude compliance with the minimum requirements of subsection 23.73.024.C.4.

2. An additional 10 feet in height above the height limit of the zone is permitted on a lot that is an eligible TDP receiving site.

3. Any residential and live-work floor area that is exempt from the FAR limit as allowed by subsection 23.73.009.C.3, or any floor area that exceeds the maximum floor area limit as allowed under subsection 23.73.010.B.3, or that is located above 65 feet in height shall be achieved through the use of TDP.

4. Floor area gained through the use of TDP shall be for residential and live-work unit use only.

5. For a structure that achieves an increase in height through the use of TDP, the minimum street level floor-to-ceiling height is 13 feet.

6. TDP required before construction. No permit after the first building permit, and in any event no permit for construction activity other than excavating or shoring, and no permit for occupying existing floor area by any use based on TDP; will be issued for development that includes TDP until the applicant has demonstrated possession of TDP to the Director's satisfaction.

25.11.070 Tree protection on sites undergoing development in Lowrise zones

The provisions in this Section 25.11.070 apply in Lowrise zones.

A. Exceptional trees

1. If the Director determines that ~~((there is))~~ an exceptional tree is located on the lot of a proposed development, which is not a major institution use within a Major Institution Overlay zone, and the tree is not proposed to be preserved, the ~~((development shall go through~~

streamlined design review as provided in Section 23.41.018 if the project falls below the thresholds for design review established in Section 23.41.004.

2. The)) Director may permit the exceptional tree to be removed only if the total floor area that could be achieved within the maximum permitted FAR and height limits of the applicable Lowrise zone according to Title 23 cannot be achieved while avoiding the tree protection area through the following:

a. Development standard ((adjustments permitted in Section 23.41.018 or the)) departures permitted in Section 23.41.012.

b. An increase in the permitted height or reduction in required parking as follows under subsection ((25.11.070.A.3)) 25.11.070.A.2.

((3)) 2. In order to preserve an exceptional tree, the following code modifications ((exceptions)) are allowed:

a. Permitted height. For a principal structure with a base height limit of 40 feet that is subject to the pitched roof provisions of subsection 23.45.514.D, the Director may permit the ridge of a pitched roof with a minimum slope of 6:12 to extend up to a height of 50 feet if the increase is needed to accommodate, on an additional story, the amount of floor area lost by avoiding development within the tree protection area and the amount of floor area on the additional story is limited to the amount of floor area lost by avoiding development within the tree protection area.

b. Parking reduction. A reduction in the parking quantity required by Section 23.54.015 and the standards of Section 23.54.030 may be permitted in order to protect an exceptional tree if the reduction would result in a project that would avoid the tree protection area.

1 3. If the Director determines that an exceptional tree is located within a Major
2 Institution Overlay zone, and the tree is not proposed to be preserved, the Director may allow
3 removal of an exceptional tree only if:

4 a. The proposed development is for a major institution use identified in an
5 adopted Major Institution Master Plan; and

6 b. The location of an exceptional tree is such that planned future physical
7 development identified in an adopted Major Institution Master Plan cannot be sited while
8 avoiding the tree protection area; and

9 c. Mitigation for exceptional trees and trees over 2 feet in diameter,
10 measured 4.5 feet above the ground, is provided pursuant to Section 25.11.090 for trees that are
11 removed in association with development.

12 B. Trees over 2 feet in diameter ((-))

13 1. Trees over 2 feet in diameter, measured 4.5 feet above the ground, shall be
14 identified on site plans.
