3. Multiunit residential consolidated curbside/alley garbage collection service.

Multiunit residences with a single combined utility account may consolidate garbage into fewer service units than the number of dwelling units on the premises. Upon request, multiunit residences with multiple combined utility accounts, such as townhouse complexes, may consolidate garbage service if such premises share a single water irrigation meter for which a homeowners association is financially responsible and agrees to be financially responsible for the combined utility account, or as determined by the ((Director)) General Manager/CEO. In the event of consolidation, the total consolidated service volume divided by the number of dwelling units must be at least equal to the minimum equivalent service volume per unit, as determined by the ((Director)) General Manager/CEO.

1                   4. Minimum charge, no pickup service. A charge per month or portion thereof of  
2 \$6.85 shall be billed directly to the owner, homeowners association, or occupant of any residence  
3 not subscribing to pickup service to cover landfill closure costs, billing, collection, Low Income  
4 Rate Assistance, and hazardous waste costs. To be eligible for the minimum charge (zero  
5 container rate), a customer may not generate any garbage or rubbish for collection or disposal.  
6 With occupied premises, the customer must demonstrate a consistent and effective practice of  
7 selective purchasing to minimize refuse, of recycling materials whenever practical, and of  
8 composting any yardwaste generated on the premises, and the customer must have qualified for  
9 the rate on or before December 31, 1988. A customer is not eligible for the zero container rate by  
10 hauling (~~his or her~~) the customer's garbage and rubbish to a transfer station, disposal site, or by  
11 disposal in another customer's containers or by the use of prepaid stickers. Vacant dwelling units  
12 in multiunit residences where each dwelling unit receives a separate combined utility bill qualify  
13 for the minimum charge where the conditions of this subsection 21.40.050.A.4 are met. Vacant  
14 dwelling units in multiunit residences with a single combined utility account do not qualify for  
15 the minimum charge.

16                   5. Extra bundles. A customer may place an extra bundle with its container for  
17 regular pickup. The charge will be billed directly to the owner or occupant, unless a prepaid  
18 sticker is used. A prepaid sticker authorizes pickup of the bundle when placed with the  
19 customer's container. The sticker must be affixed to the bundle in order for the bundle to be  
20 picked up by the collector, and the customer not to be billed. The following charges will apply to  
21 each extra bundle:

22                   (~~Effective through March 31, 2017: \$10.60 per bundle~~

23                   Effective April 1, 2017: \$11.35 per bundle

Effective April 1, 2021: \$12.70 per bundle

Effective April 1, 2022: \$13.05 per bundle

Bulky/White Goods Pickup (per item)	\$30.00

7. Curbside electronics recycling pickup. Curbside electronics pickup service will be available by customer request to all residential can accounts. Each pickup of up to three electronic products set out at the curb shall be billed at \$20. Each pickup of compact fluorescent lightbulbs (CFLs) or household batteries shall be billed at \$5. The ~~((Director))~~ General Manager/CEO may establish additional conditions for electronic products eligible for pickup.

8. Curbside/alley compostable waste. A collection charge for weekly service will be billed monthly directly to the owner, homeowners association, or occupant, according to the following schedule:

To qualify for the home composting exemption, customers must actively compost all vegetative foodwaste on-site and agree to comply with public and environmental health guidelines and allow Seattle Public Utilities representatives to evaluate their composting methods.

The new/changed account charge is not applicable to customers qualified for Low Income Rate Assistance.

11. Physical disability exemption. An exemption will be provided to qualified residents to allow for backyard collection at curbside rates when the resident is physically unable to take ((his or her)) garbage and rubbish containers to the curb. Qualifying criteria shall include,

but are not limited to, the resident's physical condition, qualification for backyard service in other City programs, a physician's recommendation, the presence of other physically capable persons in the household, special topography, and other unique property conditions, taking into account the contractors' ability to provide different combinations of container sizes to make curbside pickup feasible.

The following charges shall apply to special collections of all nondetachable containers (cans), bundles, or bundles-of-yardwaste:
