DEPARTMENT OF PUBLIC WORKS OF
THE CITY OF SEATTLE

OFFICE OF CITY ENGINEER

C. L. WARTELLE, CITY ENGINEER

IN RE: E. 45th Street
Viaduct.

May 29, 1939

Honorable City Council
Seattle, Washington

Gentlemen:

I am submitting herewith for your approval Council Bill increasing the appropriation providing for the East 45th Street Viaduct by Ordinance No. 85629 from \$200,000.00 to \$208,000.00.

Approximately half of this increase is due to change in design demanded by the state highway department after the project had been advertised for bids. Ordinarily this additional money would not be required until the project was practically completed. This being a P.W.A. project, it becomes necessary to show that the City has sufficient funds to complete the project before the P.W.A. will honor our next requisition for funds, which we expect to make shortly.

This increase in cost does not increase the total expenditures anticipated from the City Street Fund because we expect to save approximately \$14,000.00 in the construction of the 24th Avenue Southwest paving project.

Very respectfully,

C. L. WARTELLE
City Engineer
