THE CITY OF SEATTLE
DEPARTMENT OF ENGINEERING

W. E. PARKER, CITY ENGINEER
MEMBER, BOARD OF PUBLIC WORKS

IN RE:

July 18, 1956

Honorable City Council
Seattle, Washington

Gentlemen:

We transmit herewith for your approval a council bill amending Ordinance No. 84381 by increasing the appropriation from the City Street Fund therein from \$177,000 to \$202,000.

Ordinance No. 84381 authorizes the widening of the East 45th Street Viaduct from 21st Avenue Northeast to Montlake Boulevard.

The low bid received for this project was 11.2% above the City Engineer's estimate. Examination of the bids leads us to the conclusion that we could not expect to better the bid by readvertising.

The Board of Public Works wishes to award the contract as soon as possible in order to have the work completed before the buildup of student traffic when the University reopens in the fall.

In order to award the contract, the appropriation must be increased by \$25,000 to \$202,000.

We respectfully recommend that this council bill be approved.

Yours very truly,

W. E. PARKER
City Engineer
