

# City of Seattle

Jenny A. Durkan, Mayor

---

Human Services Department

Jason Johnson, Acting Director

**Date:** January 31, 2020

**To:** City Clerk and Seattle City Council

**From:** Jason Johnson, Human Services Department

**Subject:** Council Clerk File: Human Services Department (HSD) Navigation Team Q1 2020 Proviso Report

---

This report marks the first installment of 2020 proviso reporting on the Navigation Team. This report reflects Quarter 4 (Q4) data, which spans October 1- December 31, 2019.

The Navigation Team (Team) is responsible for addressing impacts of encampments on City property while offering shelter and services to individuals encountered in the course of its work.

In June 2019 the team added two outreach specialists called System Navigators. A third System Navigator will be added in early 2020 from CBA HOM-6-B-1, to focus on work in the north-end. The addition of System Navigators has improved the Team's ability to connect with people on their individual needs and encourage their willingness to explore safer living alternatives.

Navigation Team System Navigators, however, are a small part of the Human Service Department's (HSD) investments in outreach services. HSD funds ten agencies to connect individuals living outdoors to shelter and other supports. While these reports are Navigation Team-specific, all City-funded outreach providers work towards the common goal of reducing peoples' barriers to coming inside.

In Q4 2019 the Navigation Team continued to help Seattle be a cleaner, safer, more accessible City for all its residents (housed and unhoused), visitors, and businesses. The Team addressed 283 Obstructions to maintain accessibility and cleanliness of sidewalks, public right-of-ways, and parks. The Team addressed fourteen Hazards to reduce risk of harm to individuals and/or critical City infrastructure. And the Team addressed eleven 72-hour sites to reduce public health risks, remove debris, and reduce environmental damage to larger sites not located in the public right-of-way.

In late Q4 System Navigators acquired the ability to provide individuals transportation to shelter. This service enhancement compliments the Team's Field Coordinators' ability to transport individuals' storable belongings. The Navigation Team continues to enhance the services and supports offered to individuals, while honoring the City's responsibility to maintain cleanliness, accessibility and safety of its property and infrastructure.

Sincerely,

**Jason Johnson**

Acting Director, Human Services Department

## Report Summary

This report satisfies 2020 Seattle City Council Budget Action HOM-15-C-1 “Impose a Proviso on Navigation Team Appropriations in HSD.” This report contains the following items:

### 1. Reporting Requirements for Every Quarter:

- Performance measures reflected in the updated *Theory of Change*. These metrics include: 1) connecting individuals living unsheltered to services, 2) connecting people to safer spaces, and 3) addressing hazardous and unsafe conditions stemming from, and found within, unmanaged encampments.
- Analysis of Emerging Trends
- Progress in Developing and Implementing a Racial Equity Toolkit
- Trainings and Workshops Attended by Navigation Team Members
- Upcoming Opportunities for Staff Development and Continual Improvement
- Qualitative Updates on New Shelter Resources and/or Notable Trends
- Navigation Team Meeting Summaries

### 2. Additional Requirements for the Quarter 1 Report:

- Clarify the definition in FAS Rule 17-01 of “obstruction” and its meaning in associated rules and policies as shown: “people, tents, personal property, garbage, debris or other objects related to an encampment that: are in a City park or on a public sidewalk; interfere with the pedestrian or transportation purposes of public rights-of way; or interfere with areas that are necessary for or essential to the intended use of a public property or facility.” Please clarify whether encampments in parks must be an interference in order to warrant an exemption to the requirement for prior notice.
- Identify any differences in how the Outreach Standards of Care are implemented or incorporated into the work of the Navigation Team compared to implementation or incorporation by other homeless outreach agencies.
- Provide a list of recommendations to increase the rate that individuals referred to a shelter arrive at that shelter within 48 hours.
- Transmit a table that describes the obstruction that warranted an exemption to the requirement for prior notice for all obstruction removals that were carried out in the previous quarter, including the name of the location, date of the removal, date that notice of removal was posted, and date(s) less than two weeks prior to the removal when outreach services visited that location and spoke to all individuals dwelling in that encampment.

### 1. Reporting Requirements for Every Quarter

Note that all figures reflect the most accurate accounting of outreach and operations at the time of reporting.

#### Performance Measures

Reporting Requirement	Response: Q4 2019	
Total Number of Contacts Made Quarterly, Duplicated	1379	
Total Number of Contacts Made Quarterly, Unduplicated	810	
Number of Referrals to Services by Service Category that Were Entered into the Nav App or Homelessness Management Information System (One Individual Could Have Requested Multiple Services)^	<b>Service</b>

Total Number of Referrals to Shelter, Duplicated	224		
Total Number of Referrals to Shelter, Unduplicated	197		
Number of Arrivals to the Referred Shelter Within a 48-Hour Period Following Referral, Duplicated	46		
Number of Arrivals to the Referred Shelter Within a 48-Hour Period Following Referral, Unduplicated	45		
Number of Times in the Quarter a Field Coordinator Provided Assistance to or Responded to a Call for Support from a Community Police Team or Bike Patrol Officer	82		
Number of Times in the Quarter a System Navigator Provided Assistance to or Responded to a Call for Support from a Community Police Team or Bike Patrol Officer, Including Requests Relayed Through a Field Coordinator	33^		
Number of Times the Navigation Team Provided Assistance Using the Centralized Diversion Fund	N/A~		
Number of Individuals/Households that Moved into Permanent Housing Because of Diversion Fund Utilization	N/A~		
Breakdown of Referrals to Specific Shelter-Types* by Quarter, to-date		Q4 2019	YTD
	Basic Shelter	32	152
	Enhanced Shelter	174	751
	Tiny House Village	18	70
Average Daily Shelter Bed Availability, by Type	Overall	12	
	Basic Shelter	5	
	Enhanced Shelter	6	
	Tiny House Village	1	
Tonnage of Garbage, Waste, and Debris Removed from Unmanaged Encampments (Quarterly and YTD)	423.86 (Q4) 1578.11 (YTD)		
Total Number of Inspections Conducted	506		

Total Number of Unmanaged Encampments Removed, by 72-hr Cleanup, Obstruction, and Hazard	72-Hr Cleanup	11
	Obstruction	278
	Hazard	14

\*Navigation Team System Navigators ask 100% of the individuals they engage about their self-identified needs

^This number reflects the number of engagements that System Navigators had with individuals in response to calls from Field Coordinators or SPD

~No Centralized Diversion Funds have been available since June 2019.

**Q4 Trends**

- In 2019 engagements with people of color remained consistent, with no marked increase or decrease in percentage of specific communities engaged.
- The number of contacts with unique individuals (unduplicated) increased by 10% over the course of the year; from 737 in Q1 to 810 in Q4.
- More waste and debris was removed as the year progressed – a 19% increase from Q1 to Q4.
- The average daily reported availability of basic shelter beds increased by 55% since the beginning of 2019.
- The average daily reported availability of enhanced shelter beds fluctuated over the course of the year with the highest availability reported in Q3 (10 daily) and the lowest in Q1 (5 daily), with an overall increase of 20% in 2019.
- The average daily availability of tiny house villages remained static in 2019 at an average of 1 available tiny house opening per day.

**Progress in Developing a Racial Equity Toolkit**

HSD filled the Navigation Team Director position at the end of Q4. After reviewing the progress on the toolkit, which was begun in 2018 using 2017 data, the Director decided to do a full reboot of the Racial Equity Toolkit (RET) process beginning with a review of 2019 equity data. Given the Navigation Team’s 2019 improvements in data collection, utilizing this dataset as the starting point for the toolkit analysis allows equity evaluation of the team’s current state. In Q1 2019 the RET team will extract and review service data by race and ethnicity and 2019 data will inform the framing and the scope of the toolkit. Resources for the consumer engagement component of toolkit process have been identified.

**Trainings and Workshops Attended by Navigation Team Members in Q4 2019**

Name of Training	Training Hours	Attendees
Undoing Institutional Racism	16	1 Field Coordinator 1 System Navigator
DV Training	4	1 System Navigator
Co-Occurring Disorders and Treatment Conference	16	1 Resource Coordinator
Mental Health First Aid	8	1 System Navigator
Narcan Administration	1	2 System Navigators
Safety While Driving City Vehicles	.5	2 System Navigators
Preventing Accidents While Driving City Vehicles	.5	2 System Navigators
King County Human Services Bus Ticket Program Workshop	1.5	1 Administrative Specialist

Acknowledging Hidden Bias	8	1 Lieutenant 3 Sergeants 10 Officers
Crisis Intervention Training	1.5	1 Lieutenant 2 Sergeants 2 Officers
Crisis Intervention Scenarios	4	1 Lieutenant
Legal Updates Training	.5	1 Lieutenant 3 Sergeants 9 Officers

### Upcoming Opportunities for Staff Development and Continual Improvement

Members of the Navigation Team were scheduled to attend an opioid use awareness training provided by King County Public Health on January 15 which was cancelled due to weather. Navigation Team outreach staff will cross-train the operations and SPD members of the team in *Outreach 101*, to occur in Q1 2020.

### Qualitative Updates on New Shelter Resources

King County’s SODO Bridge Housing, consisting of 30 beds in modular units, opened on November 12, 2019. As of mid-December all 30 beds were full. No new City of Seattle beds came online in Q4 2019.

### Meeting Agendas, Attendees, and Minutes

The meetings in the table below meet the reporting requirement outlined in the Proviso. Minutes for agendas and minutes captured for these meetings in Q4 2019 will be shared via SharePoint link<sup>1</sup>.

Navigation Team Coordination Meetings	Purpose
Daily Dispatch	Review Operations Plan for the Day Prior to Arriving on Location
Weekly Outreach-Specific Dispatch	Create Operational Awareness for Outreach Providers in Advance of Operations and Case Consultation/Collaboration
Weekly Operations Planning	Operations Scheduling, and Resource Planning

### Additional Requirements for the Quarter 1, 2020 Report

**Reporting Requirement:** Clarify the definition of “obstruction” in FAS Rule 17-01. Specifically, please clarify whether encampments in parks must be an interference in order to warrant an exemption to the requirement for prior notice.

**Response:** FAS Rule 17-01 Section 3.4 defines the term “obstruction” using the following language:

*“Obstruction” means people, tents, personal property, garbage, debris or other objects related to an encampment that:*

- *are in a City park or on a public sidewalk;*
- *interfere with the pedestrian or transportation purposes of public rights-of way;*
- *or interfere with areas that are necessary for or essential to the intended use of a public property or facility.*

<sup>1</sup> Note: The Daily Dispatch meeting minutes form was inadvertently created to auto-update to the date when the documents are opened. Please reference the document title for the meeting date on those documents. This has been corrected for 2020 reporting.

Each of the items in the list above stand independently from one another, meaning only one statement needs to be true for an encampment to qualify as an obstruction.

An obstruction in a park can be immediately removed without prior notice. FAS Rule 17-01 Section 4.0 outlines the process for removing encampments identified as obstructions and immediate hazards. Rule 4.1 states:

*Obstructions and immediate hazard encampments may be removed immediately according to applicable laws and rules. The provisions of Sections 5, 6 [Notice Requirements], 7, 8, 9, and 10 of this rule do not apply to removing obstructions and immediate hazard encampments.*

When an obstruction or hazard is identified but cannot be removed immediately due to time constraints or equipment needs, the Navigation Team provides outreach and advanced posting prior to removal as outlined in Section 4.2. As noted in *Attachment B*, outreach is occurring outside of Navigation Team removal operations.

**Reporting Requirement:** *Identify any differences in how the Outreach Standards of Care are implemented or incorporated into the work of the Navigation Team compared to implementation or incorporation by other homeless outreach agencies.*

**Response:** The Outreach Standards of Care are a set of recommendations that came out of a 2016 Outreach Continuum Workgroup facilitated by HSD, All Home, and REACH. While never contractually mandated, the recommendations heavily informed the Outreach & Engagement Project Model in the Human Service Department's 2017 *Homeless Investments Request for Proposal (RFP)*. The RFP application process required agencies to address how their program would demonstrate fidelity to the outreach model, and this information informed application scoring and subsequent funding decisions. The Outreach & Engagement Project Model (**Attachment A**) is included in all HSD Outreach Contracts.

Because the Standards of Care are not contractually mandated, HSD contract monitors do not monitor for compliance to this document. As such, City-funded outreach providers, including the outreach component of the Navigation Team, are each responsible for how they chose to incorporate the components of the Outreach Standards of Care into their program.

The Navigation Team's System Navigators review outreach best practices and the Outreach Standards of Care document with their manager as part of the onboarding process.

**Reporting Requirement:** *Provide a list of recommendations to increase the rate that individuals referred to a shelter arrive at that shelter within 48 hours.*

**Response:** One strategy to improve Navigation Team shelter referrals and enrollments is increasing the number of System Navigators on the team. The team currently has two System Navigators with a third position coming online in early 2020 to support the north-end. The addition of System Navigator positions in June 2019 has allowed HSD greater ability to capture, analyze, and report on outreach data- including shelter referrals and enrollments. From Q3 to Q4 we saw a slight increase in System Navigator enrollment rates. We hope to see the trend continue.

Additional System Navigators will improve the ability to consistently and efficiently cover all geographic areas of the City as well as reduce the response time to requests from SPD CPT/Bikes units when they encounter an individual wanting shelter during the course of addressing right-of-way obstructions. Timeliness of shelter referral conversations is essential, as individuals' motivations to accept shelter can wane the longer the response time.

Another strategy to increase referral and enrollment rates is providing transportation directly from encampments to shelter. System Navigators were cleared to provide transportation in December 2019, after the transportation protocols were developed and approved. System Navigators report the ability to provide transportation has been especially helpful, particularly for individuals at encampments that are not in close proximity to supportive services or the downtown core.

Streamlining the shelter referral process for the Navigation Team's set-aside shelter beds could also have a positive impact by:

- Reducing the time it takes for an outreach provider to connect an individual to an available bed;
- Increasing equity in the referral process for all City-funded outreach providers, including those that focus on underserved populations;
- Improving data quality and completeness for shelter referral and acceptance data.

Navigation Team leadership is reviewing the current shelter referral process and will recommend efficiencies.

Finally, increasing investments in enhanced shelter beds could lead to a significant improvement in referral and acceptance rates. Navigation Team data consistently shows individuals prefer enhanced shelters and tiny villages over basic shelter beds. In Q4 2019 there was an average of six enhanced shelter beds and one tiny village spot available to the Navigation Team each day.

**Reporting Requirement:** *Transmit a table that describes the obstruction that warranted an exemption to the requirement for prior notice for all obstruction removals that were carried out in the previous quarter, including the name of the location, date of the removal, date that notice of removal was posted, and date(s) less than two weeks prior to the removal when outreach services visited that location and spoke to all individuals dwelling in that encampment.*

**Response:** FAS Rule 17.01 Section 4.1 allows for the immediate removal of inspected encampments identified as immediate hazards (Section 3.3) and obstructions (Section 3.4). Due to the safety and accessibility concerns inherent in these categories of encampments they are exempt from the prior notice requirements outlined in 17-01 Section 6.0, provided they are immediately removed at the time of inspection. When an obstruction or hazard is inspected but cannot be removed immediately due to time constraints, equipment needs, or site conditions that warrant advanced planning, the Navigation Team provides outreach and posting prior to removal as required by 17-01.

In Q4 2019 the Navigation Team removed 292 total obstructions/hazards. 200 of these sites were exempt from advanced posting. Of the 200 exempt sites, which do not require advance outreach and posting, 75 had outreach within two weeks prior to removal (37.5%). **Attachment B** contains the requested table.

**Attachment A: Outreach & Engagement Project Model, 2017 Homeless Investments RFP**

Outreach & Engagement services are coordinated, person centered, and persistent, bringing services directly to the people experiencing homelessness who might not seek out services and connecting them to permanent housing and necessary supports.

<p><b>Population</b></p>	<p>Outreach and Engagement services will support families, individuals, youth, and young adults who are experiencing homelessness. The focus is on those living unsheltered (street-based) and youth and young adults (housing navigators).</p>
<p><b>Eligibility Requirements</b></p>	<p>Eligibility for street-based outreach includes people living unsheltered in Seattle.</p> <p>Eligibility for Youth/Young Adult Housing Navigators includes homeless young adults, including young parents, who request a CEA housing assessment; ages 17.5 to 24; literally homeless (non-housing), in shelter, or within 14 days to eviction.</p>
<p><b>Eligible Use of Funds</b></p>	<p>Eligible costs vary, but primarily include meeting immediate needs (ex. transportation, food assistance), connections with supportive services (ex. documentation replacement), and placement into housing (ex. diversion, move-in costs).</p>
<p><b>Recommended Staff Roles and Staffing Levels</b></p>	<p>Staffing ratio needs to support relationship development and housing-focused services.</p> <p>Case management services should be tailored to meet the needs of people where they are, both their level of need and geographically. The role of the outreach staff is to develop relationships, engage in creative solutions to identify housing opportunities, and support movement to stable housing.</p>
<p><b>Core Components/Best Practices</b></p>	<p><u>Assessment and Service Provision Competency:</u></p> <ul style="list-style-type: none"> <li>• Able to establish a trusting relationship with the individual experiencing homelessness</li> <li>• Qualified to conduct and document a reliable needs assessment which includes behavioral health; substance use, treatment status, and harm reduction measures; physical health; disability; housing; employment; household composition; and geographic considerations</li> <li>• Establish connections to community services that meet their needs, including providing intensive and ongoing support to navigate processes and systems that are often complex</li> <li>• Dedicate adequate resources to ensure staff can walk with participants through the referral process, as needed, including following up on referrals to confirm a successful connection and ensure the participant is receiving appropriate services.</li> <li>• Secure shelter/housing services based on what the participant wants, without prerequisites such as sobriety, project completion, or medication compliance</li> </ul> <p><u>Housing System Competency:</u></p> <ul style="list-style-type: none"> <li>• Ability to access the housing system in order to support participants to exit homelessness</li> <li>• Housing First: Coordinated Entry for All (CEA); By Name List coordination efforts; low barrier shelters; sanctioned encampments; motels; diversion funds</li> </ul>

	<ul style="list-style-type: none"> <li>• Housing navigation/Case management services</li> <li>• Flexible funds</li> </ul> <p><u>Behavioral and Physical Health Competency:</u></p> <ul style="list-style-type: none"> <li>• Directly refer participants to licensed behavioral health and/or physical health care services, verify services are provided either where the individual resides or at the behavioral health provider’s location, and coordinate care with any existing provider working with the individual.</li> <li>• Trained in harm reduction practices including providing information on rights related to drug overdose (e.g. Good Samaritan Law); drug treatment options, including Medication Assisted Treatment (Buprenorphine and Methadone); and focusing on minimizing physical, social, and legal harms. Street based outreach project staff should have additional training on safe needle exchange &amp; disposal and carrying, using, and training others to use Narcan.</li> <li>• Execute harm reduction practices where needed and in accordance with the standards set forth by the National Health Care for the Homeless Council</li> </ul> <p><u>Training, Supervision and Safety Competency:</u></p> <ul style="list-style-type: none"> <li>• Trained in best practices, including: Engaging in person centered approach, trauma informed care, motivational interviewing, skill based assessments, stages of change/engagement; Clarity general training, Coordinated Entry for All (CEA) housing assessor training, and Diversion.</li> <li>• Perform duties in pairs to practice adequate safety and backup for outreach workers when providing street-based services, DMHPs, and WSDOT.</li> <li>• Trained in self-care practices related to secondary trauma and burn out.</li> </ul> <p><u>Cultural Competency:</u> A provider must have a policy for how they will work with the following groups in compliance with City non-discrimination laws and racial equity principles: Those affected by domestic violence; physical disabilities; intellectual disabilities; LGBTQIA community and resources; immigrants/refugees.</p>
<p><b>HSD Performance Indicators (Performance targets and minimum standards)</b></p>	<p>Service Level Targets/Minimum Standards:</p> <p>System performance measures are currently under development. It is anticipated that applicants funded through this process may measure the following items, depending on project model:</p> <ul style="list-style-type: none"> <li>• Moving people into shelter, transitional, or permanent housing</li> <li>• Completing, or confirming the completion of, a Coordinated Entry for All assessment</li> <li>• Linking people to outpatient mental health, and physical health treatment, (e.g., confirmed attendance at a clinical visit).</li> <li>• Supporting participants, once in housing, with six months of aftercare support.</li> <li>• Providers may also be required, depending on project objectives, to measure: <ul style="list-style-type: none"> <li>• Syringe distribution</li> <li>• Narcan training and distribution</li> <li>• Referrals to medically assisted treatment (MAT) and other substance use treatment</li> <li>• Placement in employment</li> <li>• Obtaining IDs</li> <li>• Securing financial assistance, such as public benefits</li> <li>• Participant-centered goal setting related to physical or behavioral health.</li> </ul> </li> </ul>
