Subject: RE: Waterfront LID Levy Assessment Remand Prehearing Conference [KLG-USW_Active01.FID682720]

Galen,

Please forward this email to the hearing examiner:

Mr. Examiner,

Resolution 31979 establishes a tight timeline for your remand proceedings. The Council set a deadline of February 1, 2021 for your report. With that in mind, the Council also set a deadline of November 30, 2020 for submission of the new appraisal analysis from the city's appraiser. That schedule provides just 62 days for the affected parties to review the report, obtain expert reports (if necessary), and potentially conduct discovery; for the examiner and all parties to conduct the hearing; and for the examiner to generate the report to the Council. Given that short timeline (exacerbated by the intervening holidays), every day counts.

In the email chain below, the City attorney had ex parte communications with your office seeking to delay the date **set by the City Council** for submission of the city appraiser's new report. Without the benefit of any input from any of the affected parties, your office provided an open-ended extension. I request that your office revisit that decision on procedural and substantive grounds.

Procedurally, the City attorney should not have made that request to your office ex parte. The requested delay is highly consequential, prejudicing the ability of the affected parties to participate in these proceedings. For the City to make this request to your office with no notice to other parties is highly irregular, violates the examiner's rules that bars ex parte contact (changing a disclosure deadline is not the type of "procedural" matter exempt from the rule), and violates the Rules of Professional Responsibility. For these reasons alone, your office should rescind the permission your office granted to let the City's attorney ignore the deadline established by the City Council in its resolution.

Waiving or postponing the deadline for submitting the report also should be rescinded on substantive grounds. First, it is doubtful that the examiner has the authority to modify a deadline set by the City Council. Second, as noted above, the delay is causing significant prejudice to the other parties. Every day that goes by without disclosure of the report is another day that our ability to represent our clients' interests is compromised. Third, there is absolutely no need for the extension—other than to prejudice the other parties' ability to prepare. The City didn't say it needed more time to complete the report, though late yesterday Mr. Filipini advised me that some portions of the analysis are not yet complete—in violation of the deadline set by the City Council. Portions of the report may be complete. Mr. Filipini has not responded yet to my request for that information.

I hope you can act on this immediately and direct the city to submit the report today. Thank you.
