The position will also help to reduce the increasing back log of requests from the Courts which have resulted in video evidence not being submitted in a timely manner and the possibility of misdemeanor and criminal cases being dismissed. The problem with these issues is not just the 30% increase in demand, but the depth and complexity of requests that require significant staff time. This position is being created during the 3rd Quarter to enable SPD to respond to deficiencies highlighted in the City Auditor report on this function.
