Honorable Jan Drago
President
Seattle City Council
City Hall, 2nd Floor

Dear Council President Drago:

I am transmitting the attached proposed Council Bill, which will remove a Council budget proviso restricting an appropriation for the Community Notification System (CNS) in the Department of Information Technology's (DoIT's) 2005 budget. On June 27, 2005, DoIT provided a written response to the Council's Statement of Legislative Intent (SLI) number 47, and subsequently briefed the Utilities and Technology Committee on July 12, 2005.

The CNS is a system designed to enable public safety officials to communicate directly with Seattle's residents and visitors in the event a natural or man-made disaster necessitates an emergency management response. Criteria have been established that will also allow City departments to use the system to communicate information about other types of events, ranging from public safety announcements to enhanced customer services. Funds for the CNS system were provided by the federal Urban Area Security Initiative (UASI) grant program.

Lifting the CNS budget proviso will permit the implementation of the CNS system and improve the City's ability to reach people with important information, especially in emergency situations.

Thank you for your consideration of this legislation. Should you have questions, please contact Bill Schrier, Chief Technology Officer, at 4-0633.

Sincerely,

GREG NICKELS
Mayor of Seattle

Legislation Title:

AN ORDINANCE removing a budget proviso that restricted an appropriation for the Community Notification System in the Department of Information Technology's 2005 Budget.

• **Summary of the Legislation:**

This legislation satisfies and lifts the restrictions set forth in Budget Proviso 052-2-A-1 enacted with the 2005 Adopted Budget.

• **Background:** *(Include brief description of the purpose and context of legislation and include record of previous legislation and funding history, if applicable):*

As part of the 2005 Budget adoption process, the City Council enacted a budget proviso relating to the Community Notification System (CNS) specifying that "none of the \$356K can be spent for any purpose other than (i) obtaining, installing, and operating the system, and (ii) emergency use of the system, until authorized by future ordinance." The Council further specified that it would consider lifting the restriction cited in the budget proviso "when the Executive submits to Council for review and approval proposed policies that explain what types of emergencies would warrant use of the community notification system, how 'emergency' will be defined, whether there are any non-emergency circumstances that might warrant use of the system, and who may use the system." On June 27, 2005, the Department of Information Technology provided Council with a written response to a Statement of Legislative Intent (SLI) on this topic, and subsequently briefed the Utilities and Technology Committee on July 12, 2005. The Council approved DoIT's recommendations, which constitutes substantial compliance with the conditions specified in the budget proviso.
