CITY OF SEATTLE

ORDINANCE 125149

COUNCIL BILL 118813

AN ORDINANCE relating to utility permits and regulations; amending Sections 15.32.050 and 15.32.160 of the Seattle Municipal Code.

WHEREAS, The City of Seattle (the “City”) possesses a transportation system that is vital to the City’s economic vitality and the City’s quality of life, and is an important public function; and

WHEREAS, a substantial portion of the City’s transportation funds goes to repairing and rehabilitating City streets; and

WHEREAS, the City wishes to preserve the investment in its transportation system; and

WHEREAS, the Right-of-Way Opening and Restoration Rules, formerly known as the Pavement Opening and Restoration Rules, define in technical detail the restoration requirements for any intrusion into the pavement or other right-of-way element; and

WHEREAS, utilities, including telecommunication carriers, provide essential services to City residents and businesses, and the rights-of-way are critical to the utilities’ ability to provide the services; and

WHEREAS, the City authorizes public and private utilities to work in City public places to operate and maintain utility services within the limitations established by state and federal law; and

WHEREAS, the utilities’ work can seriously impact the condition and useful life of the City’s streets; and

1 WHEREAS, construction in the rights-of-way can represent an inconvenience and disruption to
2 commerce, and the public becomes frustrated with City streets being repeatedly torn up;

3 NOW, THEREFORE,

4 **BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

5 Section 1. Section 15.32.050 of the Seattle Municipal Code, last amended by Ordinance
6 118751, is amended as follows:

7 **15.32.050 ~~((Coordination of))~~ Coordinating projects and ~~((deferral of))~~ deferring
8 construction ~~((;))~~**

9 A. The authorizing official may ~~((, in such official's reasonable discretion,))~~ defer
10 construction or other activity under any permit ~~((provided for in this chapter))~~ applied for under
11 this Chapter 15.32. ~~((, until such time as such official deems proper in all cases where))~~ Where,
12 in the judgment of the authorizing official, ~~((the public place on which the work is desired to be~~
13 ~~done is occupied or about to be occupied in any work by the City, or by some other person~~
14 ~~having a right to use the same in such manner as to render it seriously))~~ work to be done in the
15 public place renders use of the public place inconvenient to the ~~((public to permit))~~ public's use,
16 the authorizing official may prohibit any further obstruction ~~((thereof))~~ of the public place at
17 ~~((such))~~ that time, and ~~((in granting such permit,))~~ may ~~((so))~~ further regulate the ~~((manner of~~
18 ~~doing such work))~~ use of the public place in order to ~~((cause the least))~~ minimize inconvenience
19 to the public. When the authorizing official determines that the inconvenience has ceased to
20 exist, the authorizing official may allow work to proceed in the public place. Except when
21 emergency repairs are necessary to protect the public's health and safety, the authorizing official
22 may defer construction in a public place during a civil emergency as provided for in Chapter
23 10.02. ~~((in the use of such public place; and in))~~ In all cases, ~~((any))~~ work ~~((of))~~ by the City,

1 ~~((or))~~ its contractors, or employees for municipal maintenance, capital improvement, or other
2 purposes shall have precedence over all work of every other kind.

3 B. ~~((Beginning by November 1, 1997, and by October 1st of each succeeding year,~~
4 ~~the Director of Transportation shall provide to all utilities a list of street and other improvements~~
5 ~~planned for the following three (3) years.))~~ All agencies, utilities, franchisees, and City
6 departments planning work ~~((in a street, alley, or other public place))~~ that will require a permit
7 under ~~((this chapter))~~ Chapter 15.32 shall ~~((submit a list of proposed projects and locations to the~~
8 ~~Director of Transportation by December 31st of each year.))~~ enter their planned project
9 information into the Department of Transportation's right-of-way management system to be
10 integrated with other information on street condition and use. Planned projects are work that is
11 expected to commence six months or later from the date of project conception. ~~((This list shall~~
12 ~~cover))~~ These project entries shall include planned projects for the following ~~((three (3)))~~ five
13 years. ~~((These lists of planned projects shall be entered into the City's Geographic Information~~
14 ~~System and integrated with other information on street condition and use. The Director of~~
15 ~~Transportation and the Superintendent of Parks and Recreation shall))~~ Subject to the provisions
16 of this Section 15.32.050, the authorizing official may deny agencies, utilities, or franchisees that
17 fail to provide ~~((this))~~ planned project information permits for construction or other activity
18 ~~((under this chapter unless that agency was not timely provided a list of planned street~~
19 ~~improvements for that year))~~ that should have been entered into the right-of-way management
20 system.

21 C. The Director of Transportation shall establish a Utility Coordinating Committee
22 for the purpose of coordinating street and utility projects to minimize the frequency of street
23 openings and disruption to neighborhoods and businesses. This committee shall consist of: one

1 ~~((1))~~ executive representative each from the Seattle Department of Transportation, Seattle
2 Public Utilities, Seattle Parks and Recreation, the Seattle Department of Construction and
3 Inspections, the Seattle Information Technology Department, and Seattle City Light. The
4 Director of Transportation shall invite one ~~((1))~~ representative ~~((each from companies that~~
5 ~~applied in the previous calendar year for a permit under this chapter))~~ from each utility that
6 constructs, maintains, or operates on, under, or over the streets, alleys, or other public places to
7 serve in an advisory capacity to this committee. The committee shall meet at least twice a year to
8 review and coordinate street and utility projects planned for the next ~~((three-3))~~ five years. The
9 committee shall decide which of the submitted projects will be scheduled for the next ~~((twelve~~
10 ~~(12))~~) 12 months, taking into consideration maximizing ~~((efficiencies, reducing inconvenience~~
11 ~~to))~~ convenience and safety for the traveling public, improving access for the public, and
12 avoiding work conflicts in the ~~((street rights-of-way))~~ public place; and shall not allow planned
13 pavement cuts within ~~((three-3))~~ five years after resurfacing or reconstruction. By ~~((March 1,~~
14 ~~1998, and by February 1st of each succeeding year))~~ the end of the calendar year, the committee
15 shall develop and publish a Street and Utility Improvement Plan that lists projects ~~((it has))~~
16 scheduled for the next ~~((twelve-12))~~ 12 months and shall make information about these projects
17 available to affected residents, property owners, neighborhood organizations, and businesses
18 ~~((about these projects)).~~ The committee shall also annually review and comment on the City's

1 D. Except for activities included in the current Street and Utility Improvement Plan,
2 no permit shall be issued under this ~~((chapter))~~ Chapter 15.32 for construction or other activity
3 that will ~~((commence))~~ occur in the street, alley, or other public place; except, that this
4 prohibition shall not apply to:

15 ~~((4.))~~ 5. Work for which the City's denial of a permit would violate local,
16 state, or federal law.

17 E. No permit shall be issued under this ~~((chapter))~~ Chapter 15.32 for work that
18 requires cutting or disturbing the paved surface of any street, alley, or other public place for a

20 public place; except that this prohibition shall not apply to:

9 resurfacing or reconstruction of that public place requires a waiver from the authorizing official;
10 and the permittee must restore the pavement according to the Right-of-Way Opening and

23 ~~determined by the Director of Transportation, entire replacement of any concrete panel affected~~
