WHEREAS, the owners of business, multi-family residential, and mixed-use properties that are subject to nearly 65 percent or more of the special assessments that would be assessed upon the establishment of a Business Improvement Area filed a petition with The City of Seattle pursuant to Chapter 35.87A RCW, and said petition is filed in C.F 313953; and

WHEREAS, upon reviewing the petition, the City Council determined it is in the best interests of the City to proceed, as permitted by Chapter 35.87A.030, under the Resolution method of creating a new and expanded University District Parking and Business Improvement Area (University District BIA) instead of the petition method; and

Legislation Title:

A RESOLUTION of intention to establish a University District Parking and Business Improvement Area, and fixing a date and place for a hearing thereon.

Summary of the Legislation:

This Resolution declares the intention to establish a new and expanded University District Parking and Business Improvement Area (University District BIA) and is the second of two similar pieces of legislation that must be prepared, per RCW 35.87A. The City must pass this resolution to declare a public hearing date and place for the initiative. After the public hearing, the Council may introduce a Council Bill to create the University District BIA with a special assessment to be levied upon the owners of business, multi-family residential (four or more units), and mixed-use properties (multi-family residential and commercial) within its boundaries.

Background:

The U District Partnership put together a proposal recommending the creation of a new and expanded University District BIA, and disestablishing the current BIA that has been operating since 1996. The U District Partnership believes its proposal is efficient, accountable, and responsive to the area's needs. The group collected signatures for a petition to form a Business Improvement Area that will allow for the implementation of the University District BIA business plan that would include the following program components:

- A. Events and marketing;
- B. Policy and advocacy;
- C. Cleaning and public safety;
- D. Economic development;
- E. Planning;
- F. Program management.

The petitioning effort resulted in a show of financial support by ratepayers who would pay nearly 65% of the total special assessment revenues. The special assessment will be levied upon owners of business, multi-family residential, and mixed use properties within its boundaries. The University of Washington, which owns several parcels within the proposed University District BIA, will pay a flat annual fee of \$350,000 (plus an inflationary factor in subsequent years), which is nearly 50% of the total annual assessments. Assessments will commence as of May 1, 2015, or the effective date of this ordinance, whichever is later. The new University

District BIA will be overseen by a Ratepayer Advisory Board, which would be broadly representative of the proposed ratepayers.

This legislation does not have any financial implications.

This legislation has financial implications.

Other Implications:

- a) **Does the legislation have indirect financial implications, or long-term implications?**
No.
- b) **What is the financial cost of not implementing the legislation?** None. The University District BIA is established as a revenue-neutral program.
- c) **Does this legislation affect any departments besides the originating department?**
No.
- d) **What are the possible alternatives to the legislation that could achieve the same or similar objectives?** None. Improvement area services are in addition to, and not a replacement of, basic City services, and are funded by assessments on the properties that benefit from the services. If the legislation is not passed, the services under the improvement area will not be provided.
- e) **Is a public hearing required for this legislation?** No.
- f) **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?** Yes. After adoption, this resolution must be published.
- g) **Does this legislation affect a piece of property?** Yes.
- h) **Other Issues:** None.

List attachments to the fiscal note below: None.

Honorable Tim Burgess
President
Seattle City Council
City Hall, 2nd Floor

Dear Council President Burgess:

I am pleased to present the attached Resolution which states the Council's intention to establish a University District Parking and Business Improvement Area (University District BIA) and sets a date and location for a public hearing. Over the past year, a proposal was developed by the U District Partnership and business owners to expand the current business improvement area, which was established in 1996.

A recent petitioning effort resulted in a nearly 65% show of financial support of the new and expanded University District BIA by proposed ratepayers within the BIA boundaries with the University of Washington, which will pay almost 50% of the total assessments, as a major supporter. The new University District BIA will continue the work currently done by bringing high-quality services to a larger area of the University District. The University District BIA will be funded by a special assessment levied upon the owners of business, multi-family residence, and mixed use properties within the new boundaries and will continue to be overseen by a Ratepayer Advisory Board, which will be broadly representative of the ratepayers in the improvement area.

The Resolution also sets a date and location where the City's Finance and Culture Committee will hold a public hearing in Council Chambers to receive all evidence for or against the proposed establishment of the University District BIA. Depending upon the outcome of the public hearing, the Executive may submit a bill to establish the University District BIA within its proposed boundaries.

Thank you for your consideration of this legislation. Should you have questions, please contact Teri Allen at 684-5226.

Sincerely,

Edward B. Murray
Mayor of Seattle

The initial assessment calculations will be based upon King County Assessor's Office records as of April 30, 2014. Ratepayers will be assessed by the City of Seattle for five annual installments beginning with the base year of authorization, by applying the following assessment rates to each Ratepayer:

A. U District Fund Area Base Formula = \$0.25 times the sum of:
