Budget Action description:

This green sheet would cut \$9,883,000 in 2011 and \$10,242,000 in 2012 in Commercial Parking Tax (CPT) and add \$1,107,000 in Vehicle License Fees (VLF) in 2011 in the Transportation Operating Fund in the Seattle Department of Transportation (SDOT). This is based on imposition of a 12.5 percent CPT and earlier implementation of the VLF.

This green sheet would cut SDOT's 2011 and 2012 appropriations from a variety of budget control levels (BCLs) in 2011 and 2012 to reflect lower CPT revenues than assumed in the proposed budget. SDOT's proposed budget and Capital Improvement Plan (CIP) assumed that Council would increase

* CIP Amendment

<i>Tab</i>	<i>Action</i>	<i>Option</i>	<i>Version</i>
126	1	A	1

the CPT from 12.5 percent to 17.5 percent effective January 1, 2011. This green sheet assumes a 12.5 percent tax and makes cuts corresponding to the Mayor’s proposed use of added CPT revenues.

The Mayor’s proposed budget included a somewhat higher projection of added CPT revenue than proposed CPT spending in both 2011 and 2012. The effect in the proposed budget is to increase SDOT’s unrestricted fund balance in 2011 and 2012. This green sheet backs out the projected revenue, backs out the proposed spending, and – as a result – has the effect of reducing SDOT’s unrestricted fund balance in both 2011 and 2012.

This green sheet would also increase SDOT’s appropriations in a few BCLs. SDOT’s proposed budget and CIP reflected an assumption that the Transportation Benefit District would not begin collecting a VLF until July 1, 2011. It is anticipated that the VLF will actually be collected starting on May 1, 2011; and therefore there will be an additional two months of 2011 VLF revenue. Based on this analysis, there will be an additional \$1,107,000 available for transportation purposes in 2011.

This green sheet also would revise SDOT’s 2011-2016 CIP for seven projects as shown in Attachment A. It is worth noting that the CPT changes affect not only the proposed 2011 and 2012 appropriations but also future allocations in the CIP through 2016.

Background:

Attachment B includes a summary of the CPT changes and VLF changes by operating BCL within SDOT. Council action to reduce operations and maintenance appropriations at the BCL level has no specific effects on staffing or program spending. SDOT will need to prioritize how to use remaining appropriations to achieve the most important transportation policy objectives within each BCL. This green sheet does not abrogate specific positions because it leaves to SDOT’s discretion how to reprioritize spending and staffing among the various programs and projects within SDOT.

Attachment B also includes a summary of the CPT changes and VLF changes by capital BCL. Council action to reduce capital appropriations at the BCL level must be balanced with corresponding reductions in projects within each BCL in the Capital Improvement Program.

Details and rationale for VLF changes:

- South Park Bridge internal coordination is funded at \$188,000 in 2011 to support ongoing staffing during the period South Park Bridge will remain closed.
- In 2011, the Mobility-Capital BCL appropriation is increased by \$100,000 in VLF revenues for the NSF/CRS project. This added funding will enable SDOT to award approximately three additional projects (based on an average project award of \$35,000). The added 2011 VLF revenues would partially offset the cut in 2011 CPT revenues for this BCL and capital project.
- In 2011, the Mobility-Operations BCL appropriation is increased by \$819,000 in VLF revenues. Although the Mayor may choose how to prioritize programming and use of this additional resource, Council urges the Mayor to support completion of the Transit Master Plan (\$500,000 per Budget Issue Paper #400) and to fund Encampments Cleanups (\$200,000 per Budget Issue Paper #154). The added 2011 VLF revenues would partially offset the cut in 2011 CPT revenues for this BCL.

Attachment A: Changes to 2001-2016 CIP

Seattle Department of Transportation

Bike Master Plan Implementation

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Improved Facility	Start Date:	ONGOING
Project ID:	TC366760	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Neighborhood Plan Matrix:	N/A
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program implements the Seattle Bicycle Master Plan. Typical improvements may include installing bike lanes and sharrows, bicycle route signing, completing key links in the urban trails network, adding bicycle/pedestrian signals to complete the network, and reconstructing key sections of the trails. The goals of the program are to increase bicycle safety and access, while reducing bicycle crashes. This program includes funding for street improvement and trail construction and is consistent with the focus in the City's Transportation Strategic Plan (TSP) on encouraging walking and biking. In 2010, this project has been restructured to include, as sub-projects, the funding and scope from two former projects: the Bike Spot Safety Improvements and the Urban Trail and Bikeways Spot Improvements. This program supports Walk Bike Ride by implementing the Bicycle Master Plan; additional funding available through Walk Bike Ride would allow for accelerated Bicycle Master Plan implementation. The potential funding from the Walk Bike Ride initiative is shown as "To Be Determined".

Bridge Painting Program

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC324900	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	In more than one Plan	Neighborhood Plan Matrix:	N/A
Neighborhood District:	In more than one District	Urban Village:	Not in an Urban Village

This ongoing asset preservation project provides for the periodic painting of each of the City's 20 structural steel bridges. The painting cycle is initially determined by applying Federal Highway Administration standards for coating life, and is supplemented by annual physical inspections to assess the actual rate of deterioration.

2011 - 2016 Proposed Capital Improvement Program

Seattle Department of Transportation

Duwamish Truck Mobility Improvement Program

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Improved Facility	Start Date:	Q1/2004
Project ID:	TC365850	End Date:	ONGOING
Location:	Duwamish		
Neighborhood Plan:	Duwamish	Neighborhood Plan Matrix:	Multiple
Neighborhood District:	Greater Duwamish	Urban Village:	Not in an Urban Village

This project includes small scale mobility improvements to the City's street system to improve connections between the port, railroad intermodal yards, industrial businesses, the regional highway system, and the first and last miles in the supply chain. High-priority locations and two types of problems have been identified: inadequate turning radii at specific corners, forcing trucks to take circuitous routes or crawl through intersections; and busy intersections lacking signals or left-turn signal and queuing lanes, resulting in long waits for adequate gaps in traffic. The majority of the candidate truck mobility improvements are located in the Duwamish Industrial area, which is characterized by a high proportion of trucks in the traffic mix. Potential circulation improvements are also found in the street system crescent surrounding Port of Seattle facilities extending to Magnolia and the Ballard industrial area.

NSF/CRS Neighborhood Program

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC365770	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	In more than one Plan	Neighborhood Plan Matrix:	Multiple
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program has two elements: an annual program that identifies projects estimated less than \$100,000 that are prioritized by each of the 13 district councils; and a triennial program that identifies projects estimated between \$100,000 and \$500,000 that are prioritized by the community at large and a project review team. Typical improvements may include, but are not limited to, sidewalk construction, repairs and replacement, installation of curb bulbs or other traffic calming devices, and improvements to crosswalks. The program enhances the safety, quality and condition of the pedestrian and neighborhood environments.

Pedestrian Master Plan Implementation

BCL/Program Name:	Mobility-Capital	BCL/Program Code:	19003
Project Type:	Improved Facility	Start Date:	Q1/2010
Project ID:	TC367150	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	In more than one Plan	Neighborhood Plan Matrix:	N/A
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing program implements the Pedestrian Master Plan. Typical improvements may include the construction of new sidewalks, the installation of curb ramps at high priority pedestrian locations, the installation of pedestrian lighting, and the rehabilitation or replacement of stairways. The goals of the program are to reduce the number and severity of crashes involving pedestrians; make Seattle a more walkable city for all through equity in public engagement, service delivery, accessibility, and capital investments; develop a pedestrian environment that sustains healthy communities and supports a vibrant economy; and raise awareness of the important role of walking in promoting health and preventing disease. This project includes, as sub-projects, the funding and scope from the following former projects: ADA Spot Improvements, Pedestrian Lighting - Capital Costs, Sidewalk Development Program, and Stairway Rehabilitation Program. In 2011, funding for Crosswalk Improvements was moved from the Operations and Maintenance program to the capital program. This program supports Walk Bike Ride by implementing the Pedestrian Master Plan.

Retaining Wall Repair and Restoration

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	ONGOING
Project ID:	TC365890	End Date:	ONGOING
Location:	Citywide		
Neighborhood Plan:	Not in a Neighborhood Plan	Neighborhood Plan Matrix:	N/A
Neighborhood District:	In more than one District	Urban Village:	In more than one Urban Village

This ongoing project covers the in-house crew work involved in repairing or reconstructing retaining walls. The repairs are needed to reduce interference with adjoining sidewalks and roadways.

South Park Bridge

BCL/Program Name:	Major Maintenance/Replacement	BCL/Program Code:	19001
Project Type:	Rehabilitation or Restoration	Start Date:	Q1/2001
Project ID:	TC365780	End Date:	Q4/2016
Location:	16th Ave S/E Marginal Wy S/S Cloverdale St		
Neighborhood Plan:	South Park	Neighborhood Plan Matrix:	Multiple
Neighborhood District:	Greater Duwamish	Urban Village:	In more than one Urban Village

This project funds the City's involvement in the preparation of an Environmental Impact Statement (EIS), design plans, and construction process for the replacement of the South Park Bridge, which is an opening bridge located in unincorporated King County and the City of Tukwila. Due to the deteriorating condition of the existing bridge, it will be permanently closed June 30, 2010. Construction and opening of a new bridge by King County is expected to take 3-7 years.
