Budget Action description:

Council anticipates the need for retaining technical consulting expertise related to the SR- 520 Project in 2011. Consultant support would assist Council and the Seattle Department of Transportation with ongoing review of the project with respect to environmental review, design, traffic and transit analysis and modeling, mitigation planning and other project elements.

This green sheet would impose the following provisos:

“Of the appropriations in the 2011 budget for the Seattle Department of Transportation, \$50,000 is appropriated solely for a consultant contract to provide advice to the City Council related to the SR 520 Project and may be spent for no other purpose.”

“None of the money appropriated in the 2011 budget for the Seattle Department of Transportation may be spent for a consultant contract to provide advice to the City Council related to the SR 520 Project until the SDOT Director receives a letter from the City Council President authorizing such spending.”

*** Has Proviso**
