Budget Action description:

This green sheet would add the following proviso on the SDOT budget:

"No more than \$90,000 of the money appropriated in the 2018 budget for the Seattle Department of Transportation may be spent on the Downtown Circulator transit service until the Chair of the Sustainability & Transportation Committee files a certification with the City Clerk that the Seattle Department of Transportation has provided a report on the results of a community survey conducted by the transit service provider."

The 2018 budget includes \$350,000 from Seattle Transportation Benefit District Proposition 1 revenues to fund Downtown Circulator shuttle service. The current provider of service is Solid Ground, who reported 74,978 total ridership for 2016. Solid Ground intends to conduct a community survey during the first quarter of 2018 to explore ways to improve their customers' access to transit.
