Statement of Legislative Intent:

Council requests that the Seattle Department of Transportation, in collaboration with the Office of Planning and Community Development, Seattle Department of Construction and Inspections, Seattle Public Utilities and Seattle Police Department, identify and report on tools to reduce alley congestion in the Downtown core.

Alley congestion refers to site conditions and vehicle use that limit the ability of alleys to function for circulation and access to adjoining properties. Strategies to consider should include, but are not limited to, education, enforcement and design of the built environment.

Responsible Council Committee(s): Sustainability and Transportation Committee

Date Due to Council: July 1, 2018
