

**2014 BUDGET LEGISLATION FISCAL NOTE**

<b>Department:</b>	<b>Contact Person/Phone:</b>	<b>CBO Analyst/Phone:</b>
Finance and Administrative Services (FAS)	Michael Van Dyck/4-8347	Jennifer Devore/5-1328

**Legislation Title:**

AN ORDINANCE relating to the drainage and wastewater system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing drainage and wastewater system; authorizing the issuance and sale of drainage and wastewater revenue bonds, in one or more series, for the purposes of paying part of the cost of carrying out that system or plan, providing for the reserve requirement, and paying the costs of issuance of the bonds; providing for certain terms, conditions, covenants and the manner of sale of the bonds; describing the lien of the bonds; creating certain accounts of the City relating to the bonds; and ratifying and confirming certain prior acts.

**Summary and background of the Legislation:**

Although the Budget, CIP, and adopted rates make specific assumptions about the use of debt financing for a certain share of the CIP, separate authorization for the issuance of bonds is technically required.

The Drainage and Wastewater bond sale is anticipated to occur in early to mid-2014. The bond proceeds, combined with internally generated funds, will support the Drainage and Wastewater capital program for about 18 months.

The bond sizing is based on the adopted budget and rates, planned cash flow, and cash contribution targets. The bond proceeds will be used to make a deposit to the construction fund, to meet a debt service reserve requirement, and to pay costs of issuance.

The proposed issue is for \$113 million of 30-year, fixed-rate bonds. Total annual debt service is expected to be about \$7.8 million starting in 2015. SPU's adopted rates incorporate the debt service costs resulting from this bond issue.

These bonds will finance improvements to the City's drainage and wastewater system, including projects designed to meet federal and state regulatory requirements. For further information about SPU's capital projects, please see the Proposed 2014-2019 CIP.

**X This legislation has financial implications.**

**Other Implications:**

**a) Does the legislation have indirect financial implications, or long-term implications?**

The Drainage and Wastewater Fund will be obligated to pay annual debt service on these bonds through their term.

**b) What is the financial cost of not implementing the legislation?**

Financing the utility's CIP completely from cash would require massive cuts in capital and/or operating programs or massive rate increases. Since the capital improvements financed with this debt have a long useful life and interest rates are currently low, it is more practical to spread the costs of these improvements over current and future beneficiaries by issuing bonds.

**c) Does this legislation affect any departments besides the originating department?**

This legislation affects FAS, which will coordinate the issuance of bonds.

**d) What are the possible alternatives to the legislation that could achieve the same or similar objectives?**

There are no viable alternatives aside from funding the Drainage and Wastewater CIP completely from cash. As noted above, this would require massive cuts in capital and/or operating programs or massive rate increases or some combination of both.

**e) Is a public hearing required for this legislation?**

No.

**f) Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**

No.

**g) Does this legislation affect a piece of property?**

No.

**h) Other Issues:**

None.

**List attachments to the fiscal note below:**

None.
