1. BILL SUMMARY

1. Legislation Title:

A RESOLUTION endorsing “Clean Air Clean Energy” Initiative 1631, a statewide initiative to the people that would charge pollution fees on the largest corporate polluters and use the revenue to invest in healthy communities, clean our air and water, promote clean energy, and slow down the impacts of climate change – all under oversight of a public board.

2. Summary and background of the Legislation:

Climate change is one of the paramount challenges of our time and will have near- and long-term consequences for the economy, the environment, and public health and safety in Seattle and King County. The Seattle City Council recognizes the need to pass on a safe, healthy environment and a stable climate to our children and future generations of Washingtonians. In 2013, the Seattle City Council adopted Resolution 31447, formally adopting Seattle’s Climate Action Plan and goal of becoming carbon-neutral by 2050. The City of Seattle supports policies that provide consumers with cleaner, more affordable, and more efficient fuel, energy, and transportation choices; and the largest corporate polluters, causing the most damage to our health, are currently not held accountable nor required to mitigate the damage they cause to our communities.

By hastening a transition from polluting fossil fuel energy to clean energy, I-1631 will create thousands of high-paying local jobs that contribute to local economies, in rural and urban communities alike, without hurting the health of their neighbors. I-1631 will also provide a source of funding that Seattle and other municipalities will be able to apply for, to help fund projects that reduce climate pollution and mitigate the effects of climate change. Shaped by tribal nations and communities most affected by pollution and climate change, I-1631 provides Washington State an opportunity to lead the nation and set an example in how to address pollution and climate change in an equitable and economically responsible manner.
