**EXPERIENCE**

Debbie Wick-Harris has more than 20 years of roadway, traffic, site development and construction engineering experience. She has a unique combination of experience that she brings to all her projects. Wick-Harris has led projects with budgets ranging from \$5,000 to over \$15 million for roadway, roundabouts, traffic calming, traffic studies, site development, intersection improvements, street illumination, and traffic signal projects. Her primary professional experience is in roadway design and traffic studies for municipal streets and highway systems. As a project manager and project engineer Wick-Harris has been responsible for coordinating the work effort to develop Plans, Specifications & Estimates (PSE), Traffic Impact Studies (TIS or TIA) Construction Documents (CD), Drainage Reports (TIRs) and other studies for various clients. She has worked with our clients and regulating agencies to assure that the plans packages, traffic studies and technical reports are per standards, constructible, and safe to use.

Wick-Harris has worked for local agencies for four years and for private consultants for the last thirteen years. During the course of her career she has worked in six states and three countries serving developers, local municipalities, county and state departments of transportation.
