## PROFESSIONAL EXPERIENCE

### UNIVERSITY OF WASHINGTON

(2002 – Present)

Dept. of Environmental Health & Safety - Seattle, WA

*Fire Protection Engineer/Code Compliance Analyst*

- Provide technical review of construction drawings for new construction and renovation projects for ICC and local code conformance, University standards, NFPA standards, serviceability and quality
- Provide technical consultation on fire and life safety matters to contract and in-house architects and engineers performing facility design
- Access buildings and systems for fire and life safety related improvements and develop scope of projects for related improvements
- Provide technical support and direction for commissioning new fire and life safety systems and approve installations for the owner
- Serve as the University of Washington's liaison to the Seattle Fire Department for fire/life safety system inspections
- Additional duties include conduct Floor Warden Training classes, perform fire and hazardous materials incident investigations, generate Hazardous Material Inventory Statements for laboratory permits, update and maintain building emergency procedures and update and maintain fire/safety system confidence testing programs.

### KEMPER INSURANCE COMPANIES – Seattle, WA

(1990 – 1999)

*Account Executive/Engineering Supervisor*

- Supervise the training, scheduling and activities of an engineering staff.
- Assist management with controlling expenses and preparing department budget.
- Evaluate and approve sprinkler systems, special protection systems and building plans.
- Initiate and attend meeting with clients, architects, contractors and municipal fire and water departments to resolve engineering items.
- Coordinate the engineering activity on large, complex accounts and provide loss prevention engineering on a consulting basis.
- Stay abreast of new technical standards, engineering developments and industry trends.

### INDUSTRIAL RISK INSURERS – Seattle, WA

(1986 – 1990)

*Chemical Loss Prevention Consultant*

- Specialized in the Oil and Chemical Industry and Wood/Forest Products.
- Perform loss prevention engineering surveys on highly protected (HPR) facilities.

- 
- Engineering surveys include evaluating the fire protection features, loss prevention management programs, special hazard protection and preparing loss prevention reports with associated recommendations for protection of the client's assets.
  - Additional responsibilities included training other Loss Prevention Engineers.
