Legislation Title: AN ORDINANCE relating to the City Light Department; accepting statutory warranty deeds to the Dow, Faucett et al., Miller, and Schmitt properties in Snohomish County, Washington, and the Errol Hanson Funding Inc., Fischer, Heaphy, Raab Family Trust, TPB Properties Inc., Turner and Wall properties in Skagit County, Washington, for salmonid habitat protection purposes; ratifying the grants of Deeds of Right to the State of Washington on the Dow, Errol Hanson Funding, Inc., Faucett et al., Fischer, Miller, Schmitt, and TPB Properties Inc. properties for salmon recovery and conservation purposes; placing said lands under the jurisdiction of the City Light Department; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: This legislation authorizes the Superintendent to accept statutory warranty deeds to the aforementioned properties, and grant Deeds of Right for five of those properties to the Washington State Salmon Funding Recovery Board (SRF Board). All of the properties were purchased as part of SCL's Endangered Species Act (ESA) Early Action Program under the authority of Ordinance 121114. Both the Program and Ordinance stated criteria by which the City committed to assist in threatened species recovery and these properties meet the criteria by protecting salmonid habitat. Funding for the property acquisitions included \$763,000 in SCL funds and \$313,000 from the SRF Board. This legislation places the acquired properties under the jurisdiction of the City Light Department. The funding for these acquisitions was already budgeted and does not require a new appropriation.

This legislation creates, funds, or anticipates a new CIP Project.

This legislation does not have any financial implications.

This legislation has financial implications.

Other Implications:

- a) **Does the legislation have indirect financial implications, or long-term implications?**
 The properties will require monitoring to protect current habitat conditions. A land management plan was developed for the ESA Lands and funding has been set aside for

said management. Grant funds are pursued as needed to maintain or improve habitat conditions.

b) What is the financial cost of not implementing the legislation?

SCL would be out of compliance with the terms of the signed grant with the Salmon Recovery Funding Board. This may ultimately result in a loss of the award for the properties and subject SCL to funding the purchase of the properties with other resources.

c) Does this legislation affect any departments besides the originating department?

NA

d) What are the possible alternatives to the legislation that could achieve the same or similar objectives?

No other alternatives are known at this time.

e) Is a public hearing required for this legislation?

NA

f) Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

g) Does this legislation affect a piece of property?

It accepts deeds to the properties and authorizes the granting of Deeds of Right to five of those properties. The maps are attached to this fiscal note, see below.

City of Seattle
Office of the Mayor

April 10, 2012

Honorable Sally J. Clark
President
Seattle City Council
City Hall, 2nd Floor

Dear Council President Clark:

I am pleased to transmit the attached proposed Council Bill which would authorize Seattle City Light to accept Statutory Warranty Deeds to four properties in Snohomish County and seven properties in Skagit County, Washington, for salmonid habitat protection purposes. These properties were purchased in 2011 pursuant to the authority of Ordinance 121114. The Bill also authorizes grant of Deeds of Right to the State of Washington for seven properties to fulfill Salmon Recovery Funding Board grant requirements. Passage of this legislation will further demonstrate the City of Seattle's commitment through the ESA Program to salmon recovery and habitat preservation for the benefit of its citizens and future generations.

In total, SCL purchased 271 acres in the Skagit watershed with \$763,000 in SCL funds and \$313,000 in grant funds from the Salmon Recovery Funding Board. Each of these purchases has allowed the City of Seattle to protect important areas for Chinook and steelhead spawning in the Skagit watershed. The TPB Inc., purchase will protect 120 acres of well forested habitat along Finney Creek, the largest tributary in the Middle Skagit and a spawning and rearing area for multiple salmonid species. The Raab Family Trust purchase will protect 65 acres of forested land along a productive steelhead spawning stream in addition to protecting a wildlife corridor for animals moving between the Skagit and Nooksack Watersheds. The remaining nine properties support the Puget Sound Chinook Recovery Plan's goal of protecting Chinook spawning areas through key acquisitions.

Thank you for your consideration of this legislation. Should you have questions, please contact Lynn Best at 386-4586 or Denise Krownbell at 615-1127.

Sincerely,

Michael McGinn
Mayor of Seattle
