Legislation Title:

AN ORDINANCE relating to the Department of Parks and Recreation; accepting a deed for the donation of real property along the Burke-Gilman Trail in northeast Seattle, for open space, park, and recreation purposes; and ratifying and confirming certain prior acts.

Summary and background of the Legislation:

This proposed legislation accepts one deed for property donated to the City for open space, park, and recreation purposes, and places the property under the jurisdiction of the Seattle Department of Parks and Recreation (DPR). The donation of this property will lead to increased operating costs for the Department beginning next year.

DPR is continually acquiring property to expand existing parks and green spaces or to add new land to the park system. The deed accepted in the proposed legislation conveys .17 acres of property along the Burke-Gilman Trail to the City's park inventory. The property provides a green buffer along the trail that will enhance the experience of anyone that rides or walks by.

The purpose of this legislation is to formally accept the deed to the donated property, as required by City Charter. Ordinance 122959 provided authority for planning and due diligence of green space properties and the authority to acquire property within designated green spaces at current fair market value. However, the legislation did not authorize the acquisition of property by donation. Section 2 of the Ordinance included with this legislation rectifies this lack of previous authorization by allowing for acquisition by donation through a ratify and confirm clause.

Operation and Maintenance Notes:

The new facility O&M estimates listed above reflect the costs to care for the parcel in its current undeveloped condition. Maintenance work will include litter pickup, tree maintenance, application of legally-required herbicide to and removal of Giant Hogweed and Garlic Mustard several times per year. Also, installation and repair of regulatory signs, and graffiti removal will be done. Costs are lower in the first year because some maintenance costs are not anticipated for the first year. The O&M listed above assumes a 2% inflation rate in each successive year.

City of Seattle
Office of the Mayor

November 13, 2012

Honorable Sally Clark
President
Seattle City Council
City Hall, 2nd Floor

Dear Council President Clark:

I am pleased to transmit the attached proposed Council Bill that accepts the deed for a property acquired by donation in connection with the 2008 Parks and Green Spaces Levy. The purpose of this bill is to formally accept the deed to this property, as required by City Charter.

This acquisition adds .17 acres along the Burke-Gilman Trail in Northeast Seattle to the City's park inventory. The property provides a green buffer along the trail that will enhance the experience of anyone that rides or walks by. Voluntary conservation, such as donation of property, is an integral part of the City's Levy acquisition strategy, allowing for the preservation of more land than could be preserved with Levy funds.

Approval of this legislation contributes to the preservation of valued open space in Seattle. Thank you for your consideration of this legislation. Should you have questions, please contact Donald Harris at 684-8018.

Sincerely,

Michael McGinn
Mayor of Seattle
