

Amendment #3 to Council Bill (CB) 117430

BLUE

Sponsor: Licata

Planning, Land Use and Sustainability (PLUS) Committee – June 13, 2012

(Note: This amendment was previously presented and acted on (3-3 vote) at the May 23, 2012, PLUS Committee Meeting as Amendment #4.)

Remove proposed changes to State Environmental Policy Act (SEPA) environmental review thresholds and associated amendments related to the Department of Planning and Development's (DPD) authority to require transportation studies and mitigation for projects that would become exempt from SEPA

CB 117430 would raise SEPA environmental review thresholds for proposed development projects in Urban Centers and Station Area Overlay Districts. It would also codify DPD's authority to require transportation studies and mitigation for projects that would become exempt from SEPA under CB 117430.

This amendment would remove the sections of CB 117430 that would implement those proposed changes, thereby retaining the City's existing environmental review policies and procedures.

The specific revisions this amendment would make to CB 117430 are as follows:

1. Remove Sections 13 and 21 from the legislation.
2. Renumber the remaining sections of the legislation accordingly.
