

FRB # 11-01

July 21, 2011

By Suzanne Adams, Citizen Observer

The facts and reports were well presented. As usual, CSI was very thorough and Det. Southworth presented an excellent, well prepared presentation. Asst. Chief Pugel conducted a fair and well organized Board.

I found that the visit to the scene was a tremendous help in understanding how this incident went down, and Sgt. Hall was very responsible as the supervisor on this scene.

I find that the use of force, (firing one shot at suspect #1 and suspect #2) on the part of Officer Floyd in order to stop the suspects from shooting multiple times and endangering many citizens as well as the officer herself was necessary and effective. Officer Floyd was careful to note the backdrop before she fired both shots, and I believe that her use of her weapon was justified.

Additionally, it appears that Officer Floyd's courageous actions in pursuing and apprehending suspect #2 put a stop to potentially deadly shootings both suspects presented to the citizens on the scene.

Synopsis - 2011 Citizen Observer Report

There appears to be a continued improvement with homicide & CSI investigations & presentations. The Asst. Chief, Pugel was organized, professional and conducted a fair board. My questions were answered and I was given the opportunity to express my opinion. I would still like the opportunity to vote my ~~own~~ opinion however.

Suzanne K. Adams
