Alley Vacation Public Benefit - Summary Tables	25-26
Benefits to the City and local economy	27
Schedule and Next Steps	28

Existing Conditions

Denny Triangle - Blocks 14, 19 and 20

- The Applicant is requesting alley vacations prior to processing in the purchase and development of these parcels
- Doc 2 zoning allows for approximately 1M SF of office space on each full block
- In the 1920's, 12' of each side of 6th, 7th, and 8th were vacated to provide wider Avenues. The resulting 106' wide blocks do not accommodate efficient bay depths for contemporary office buildings.
- Blocks 14 and 20 are truncated by Westlake Avenue and therefore the existing alleys terminate at congested six-way intersections

Existing Conditions Alleys

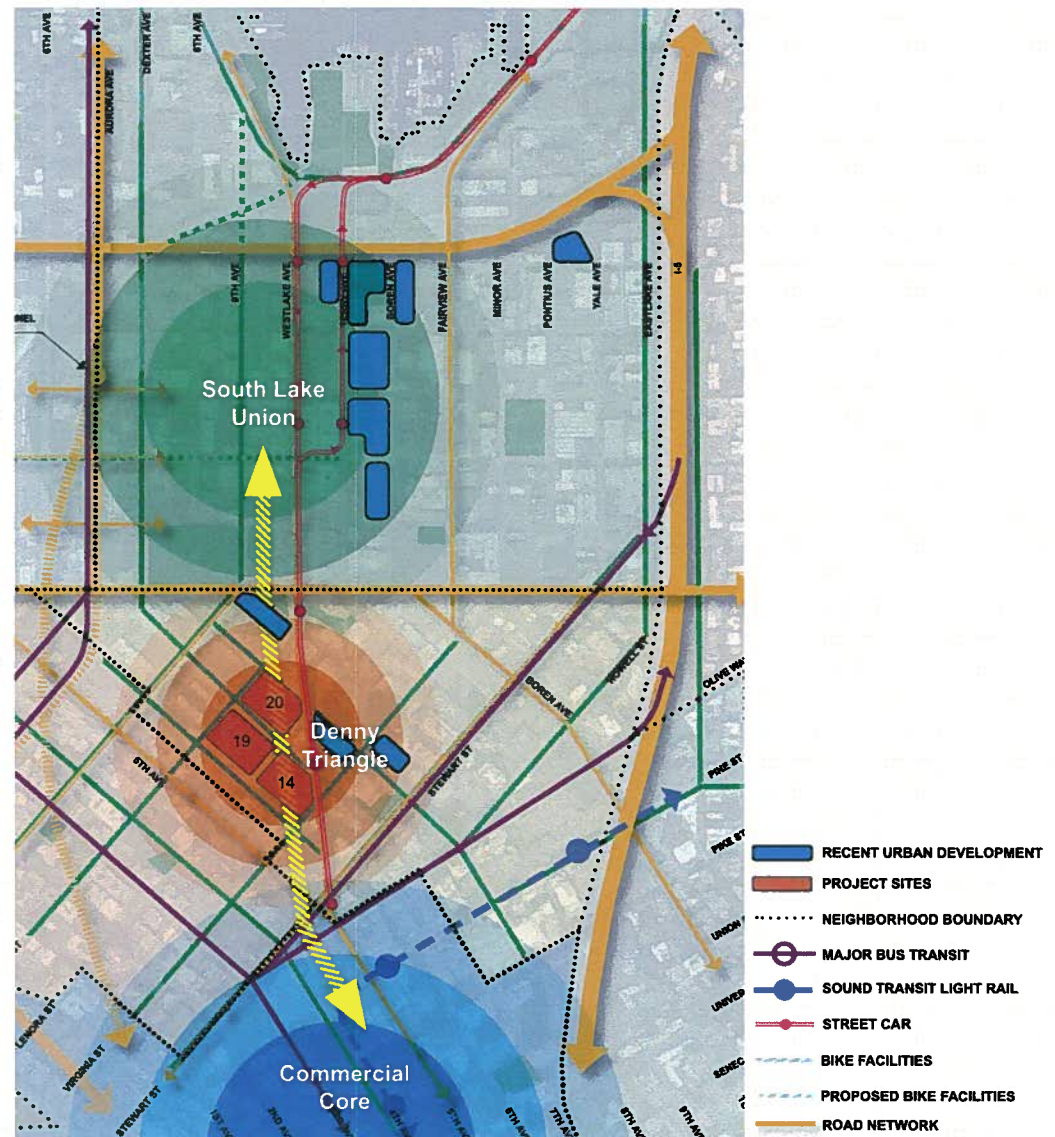

Neighborhood Context

Opportunity to link South Lake Union and the Commercial Core

Development on these parcels:

- Leverages decades of public investment and policy decisions
 - Brings to life the Denny Triangle Neighborhood Plan
 - Achieves Seattle Comp Plan's growth and density objectives
 - Enhances urban form by coordinating the design and development of these three blocks
- Benefits the environment by concentrating growth in the urban core
- Introduces new jobs and energy to Seattle by headquartering a Fortune 100 tech-oriented firm in downtown

Project Overview

Development Objectives

- Obtain a Master Use Permit (MUP) with a Planned Community Development (PCD) component to design and construct office buildings on 3 blocks in the Denny Triangle Urban Village
- Pursue PCD to ensure coordinated building design and to phase construction
- Alley vacations allow for:
 - Buildings to be reoriented east/west improving solar access at the street
 - Generous public open spaces
 - Office floor plates that are consistent with today's Class A office building standards
- Anticipated development schedule:
 - Block 14 to begin in 2013
 - Block 19 to begin 2 to 4 years later, followed by
 - Block 20 to begin 2 to 4 years later
- Request 15 years to complete the alley vacations 3 years beyond the duration of the PCD

Project Overview

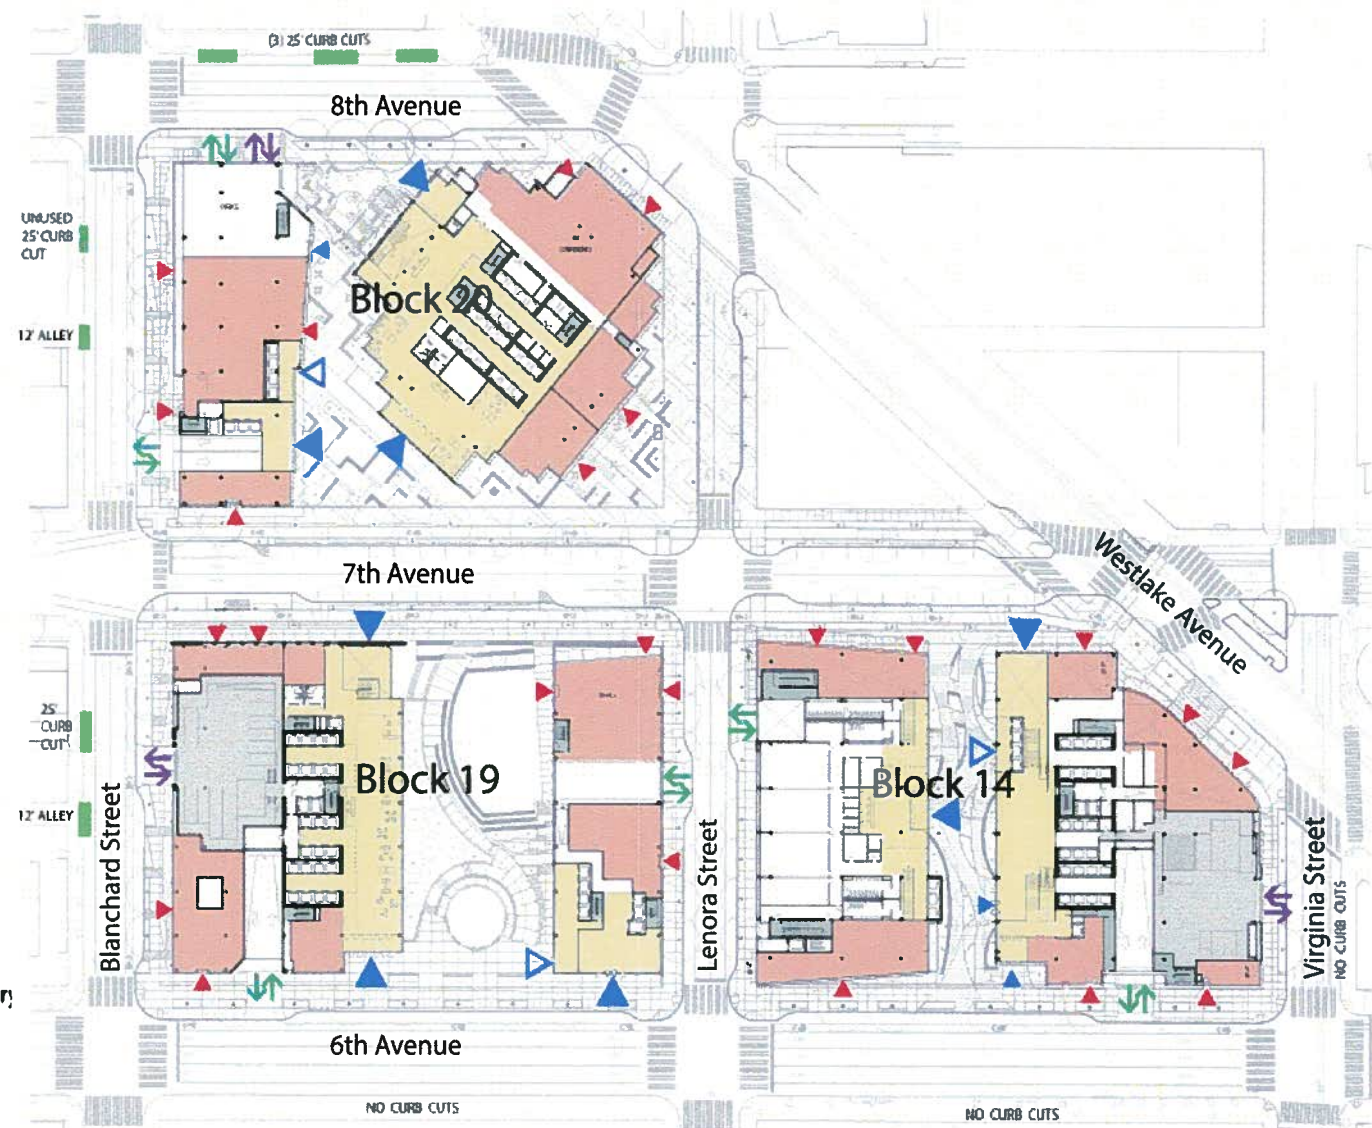

Site Access

Transportation Access

- Each block will have a loading dock internal to the block and two vehicular access points
- 29 existing curbcuts would be reduced to 9 curbcuts
- No vehicular access points off of 7th Avenue to minimize conflicts between pedestrians, cyclists and motorists

Utility Access

- Utilities located in old clay tile duct banks in the alleys will be relocated into new concrete duct banks primarily in 7th Avenue

Project Overview

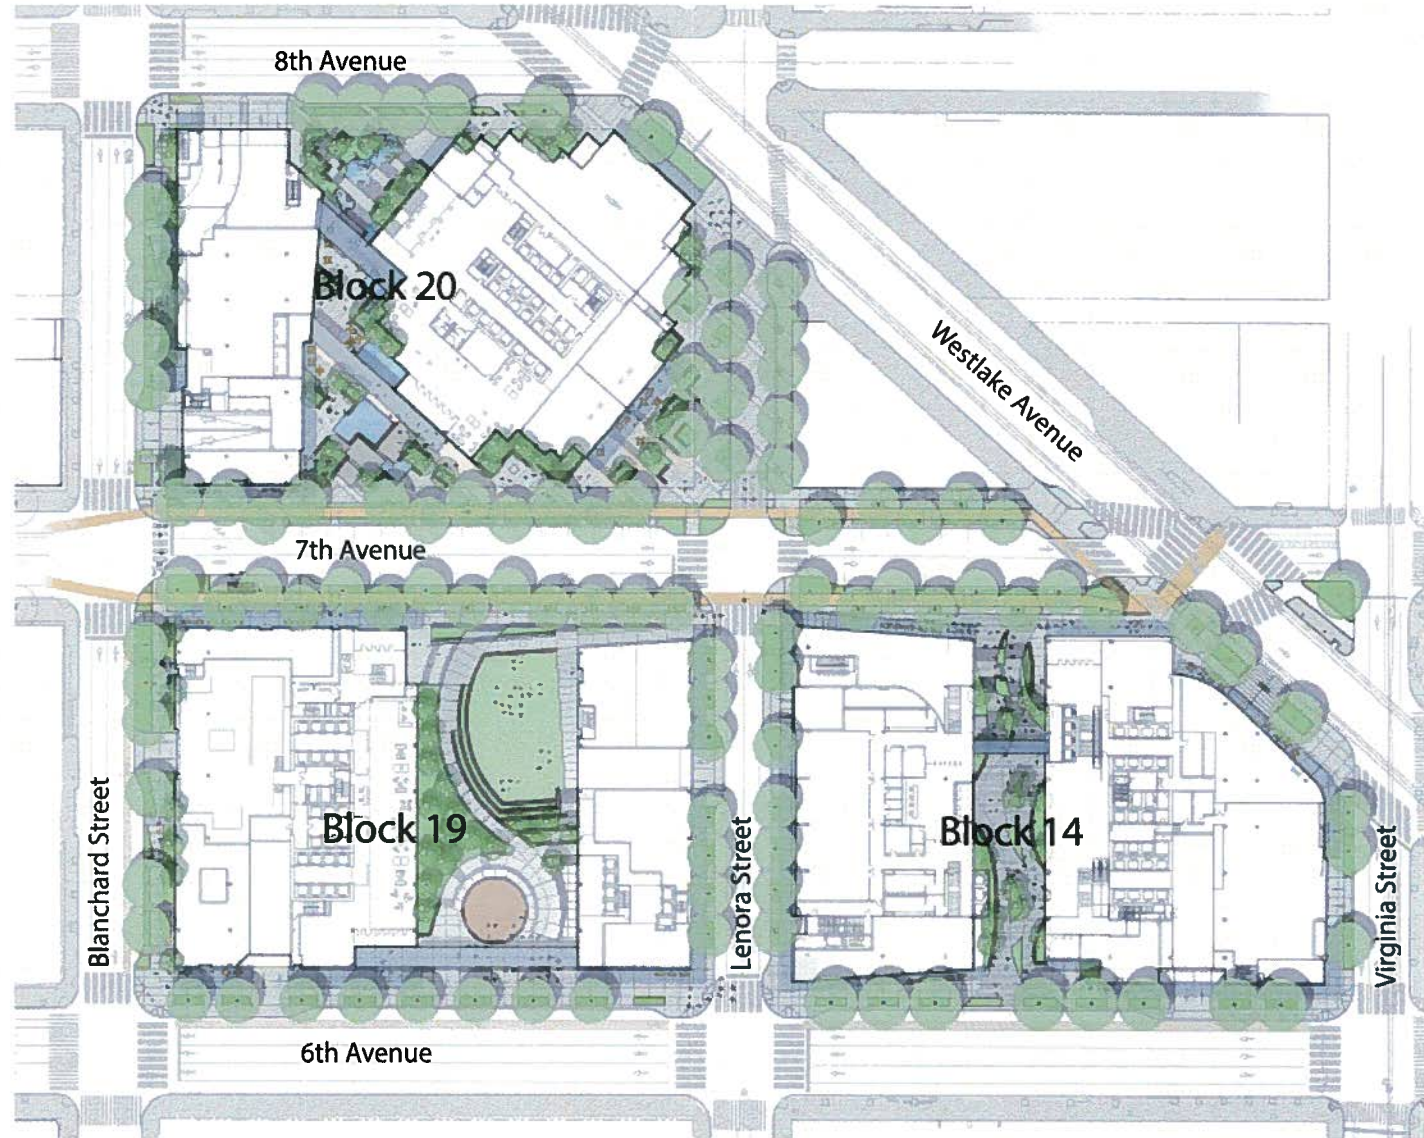

Landscape Plan

Open Space Goals:

- Differentiate character of open spaces on each block
- Maximize use of sunny locations
- Maximize public access
- Strengthen pedestrian and bike experience on 7th Avenue

Onsite Public Open Space:

- Today, 17,000 square feet of public alley exist across the three blocks without any other notable public open spaces
- Over 1.25 acres (56,000 square feet) of landscaped open space is proposed across the three blocks

Setback

5: Other Voluntary Setbacks

6: Enhanced Right Of Way
Improvements

7: Art Program

8: Additional Overhead
Protection

9: Fourth Streetcar

10: Contribution to Future
Neighborhood Park

1. 7th Avenue Cycle Track

- Physically separated and dedicated bike lane
- Double tree alley
- Enhanced pedestrian zone at the same elevation as the bike lane, separated by street trees, furnishings and a special pavement zone
- Enhanced bus stop with cycle track by-pass
- Bike-friendly furnishings and wayfinding signage
- Contribution to the City's analysis and implementation of off-site cycle track
- Bicycle signalization

North Planning Area
(Denny Way to Westlake Ave)

View of cycle track from intersection of 7th Ave and Blanchard

South Planning Area
(Westlake Ave to Pine St.)

Restriping

Implementation

Contribution to City's future technical analysis and implementation

2. Shared Use Street / Enhanced Pedestrian Facilities on Lenora St.

Over 9,000 sf of enhanced pedestrian experience and traffic calming at Lenora St. between 7th Ave and 8th Ave. The purpose of the shared use street is to:

- slow vehicles down
- narrow pedestrian crossings
- promote public use of the street
- provide a higher level of finish

Aerial view of Shared Used Street looking West

3. Westlake Ave Street Improvements

Principles and plan view for the Westlake Avenue Concept Design were developed in collaboration with SDOT and DPD

Principles:

Improve pedestrian comfort & safety

Enhance intersection functions

Integrate transit

Promote public/private coordination

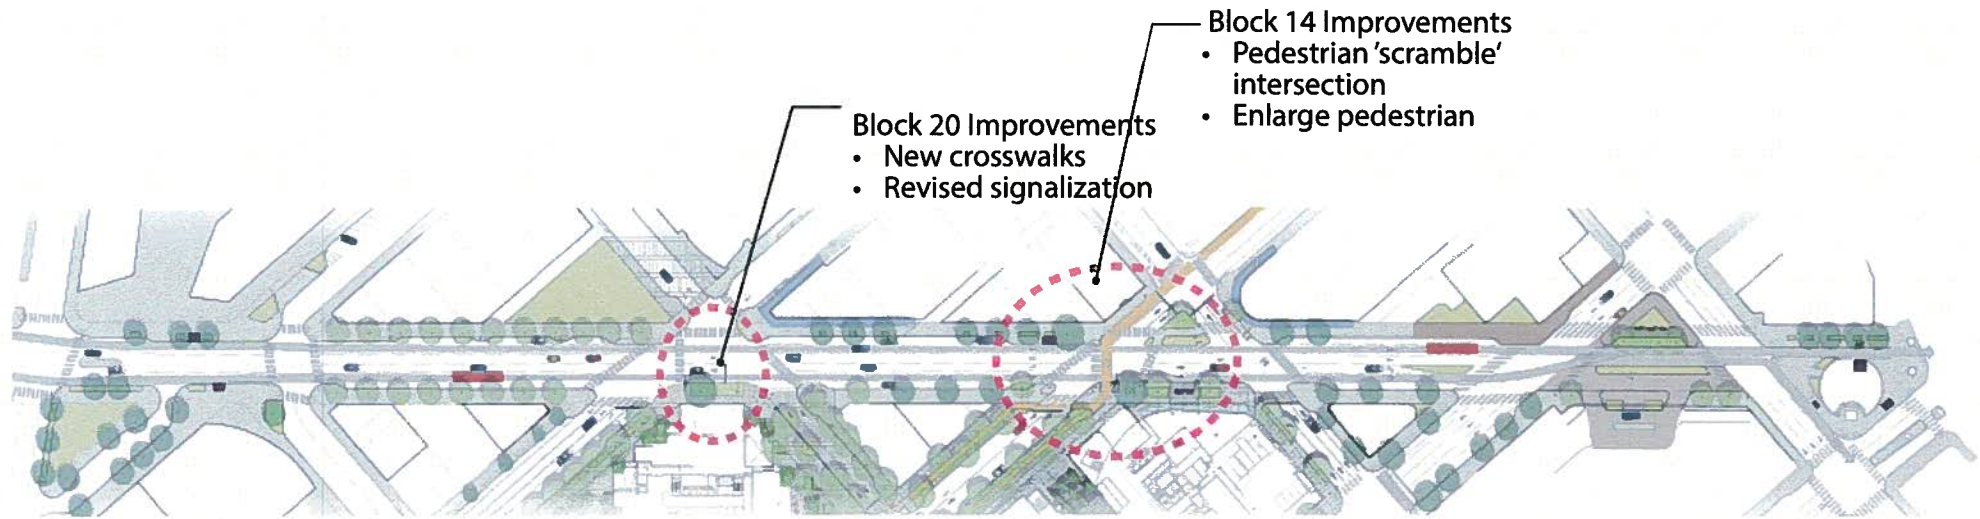

Transform Westlake into a "Boulevard"

Complete green streets

Celebrate water streets

Westlake Avenue Concept Design

4. Blanchard Street - Enhanced Green Street by 10' Voluntary Setback

A voluntary 10' green street setback and enhancements that enable wider sidewalks, landscaping, additional seating opportunities and outdoor spaces for proposed retail.

5. Other Voluntary Setbacks

Voluntary building setbacks are proposed on each block and allow for increased sidewalk widths, landscape opportunities and outdoor retail spaces.

- Block 14: Approx. 1,940 sf.
- Block 19: Approx. 2,500 sf.
- Block 20: Approx. 2,250 sf.

Approx. Total 6,690 sf.

Example of voluntary building setback at Westlake Avenue frontage on Block 14 looking North

6. Enhanced Right Of Way Improvements

Improvements outside of the existing curb line are proposed on each block and allow for widened sidewalks, curb bulbs to reduce pedestrian crossings, and increased landscape opportunities.

- Block 14: Approx. 6,300 sf.
- Block 19: Approx. 6,500 sf.
- Block 20: Approx. 8,500 sf.

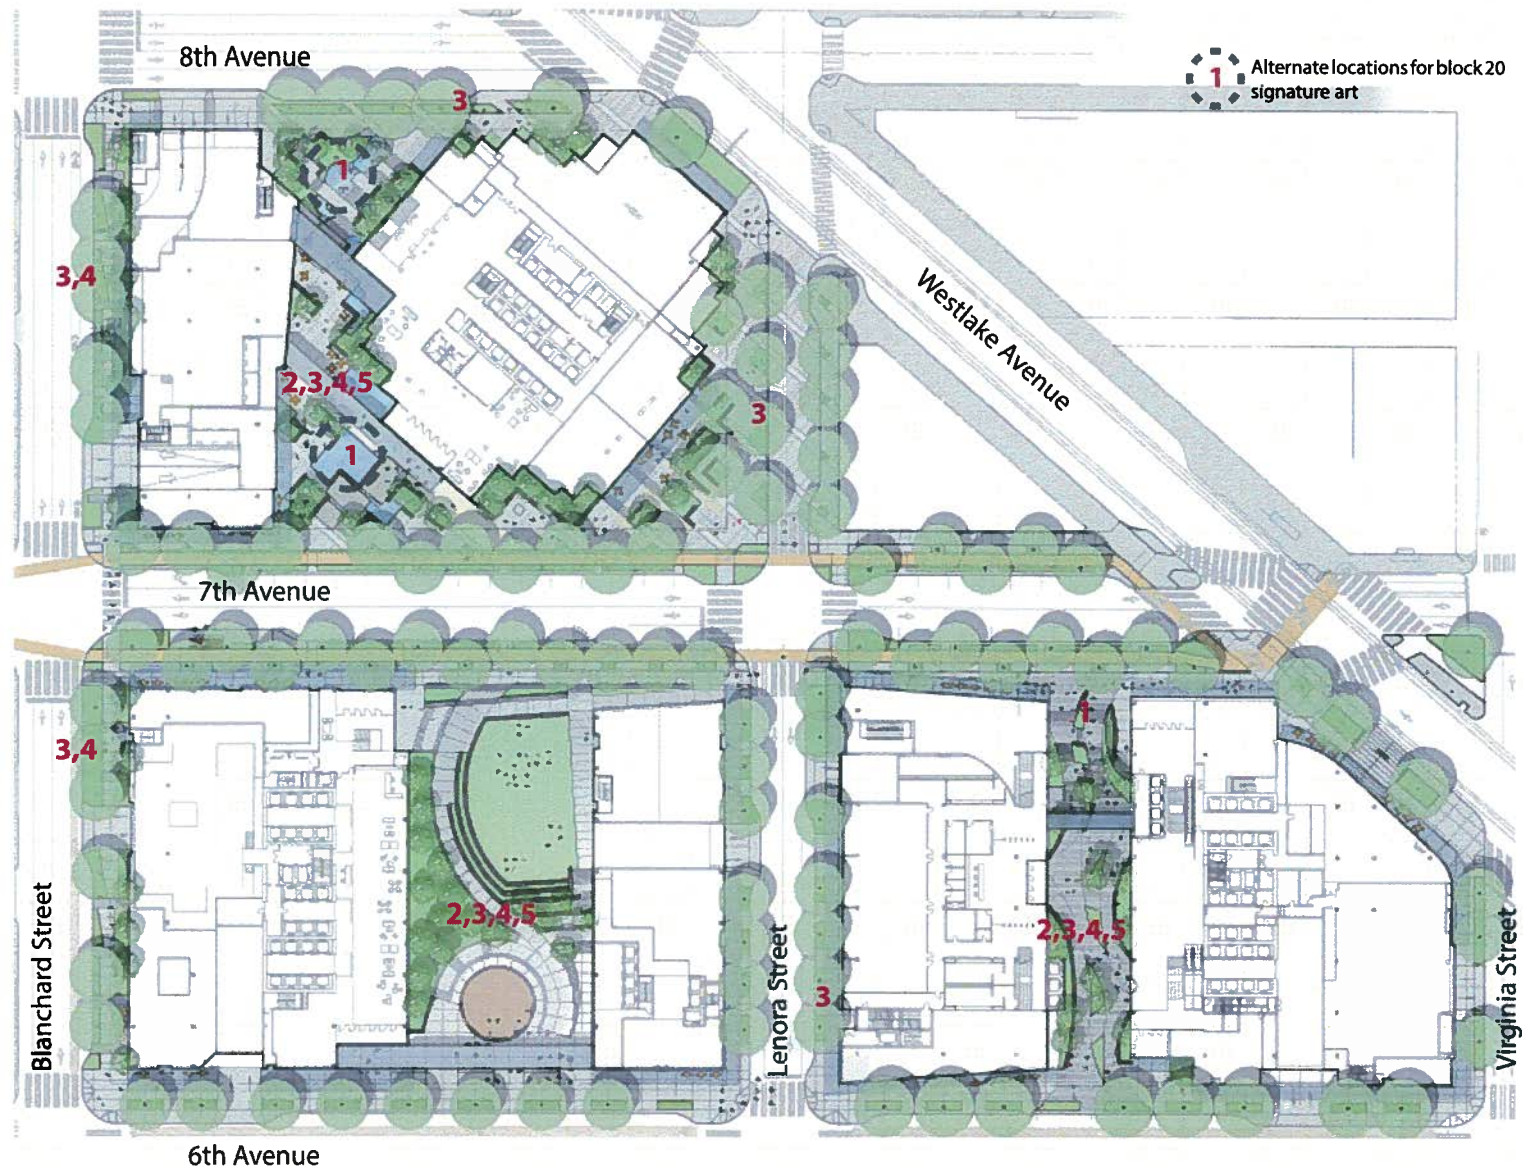

Approx. Total 21,300 sf.

Example of curb bulbs and other ROW improvements at the corner of 6th Avenue and Blanchard

7: Art Program

- 1 Signature Artwork
 - Commissioned artworks
 - Purchased artworks
- 2 Integrated Artwork
 - Permanent art installations
 - 'Easter Eggs' (unexpected or found art)
 - Collaborations with art educators (student projects)
 - Employee art projects
- 3 Artist-Made Building Parts
 - Outdoor furniture (i.e., benches, bollards, trash & recycle containers)
 - Walking surfaces (pavers, paving patterns & insets)
 - Manhole covers
 - Fences and gates
 - Canopies and screens
 - Lighting
- 4 Interpretive Art Program
 - Narratives about artworks and artists
 - Historical context
 - Horticultural references
- 5 Interactive Art

8. Additional Overhead Protection

Overhead protection along 6th Avenue between the lower building and office tower.

Overhead protection on Block 19 along 6th Avenue

9. Fourth Streetcar

Sponsorship and funding for the City to purchase a fourth streetcar

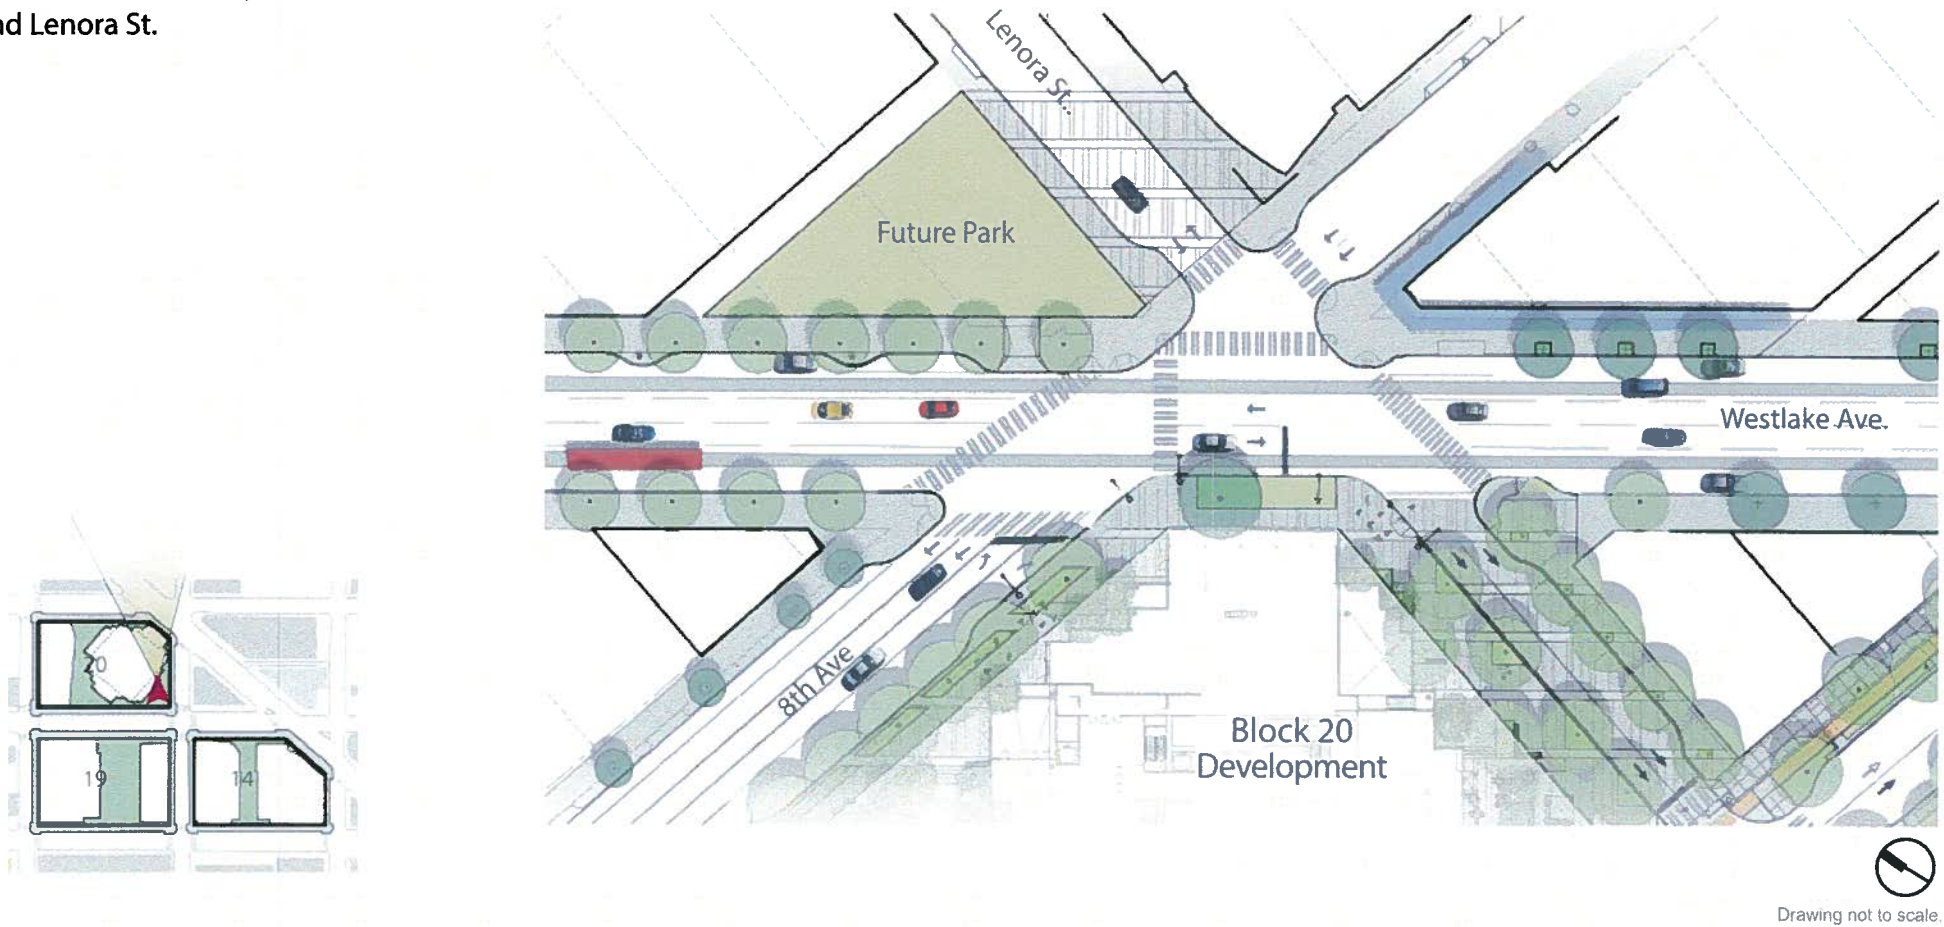

Intent to reduce the headway times from 15 minutes to 10 minutes

Note: As part of PCD public benefits, the Applicant will subsidize 7AM to 7PM weekday operations for the third streetcar for 10 years.

10. Contribution to Future Neighborhood Park

Contribution towards the development of a future neighborhood park at the corner of 8th Avenue, Westlake Avenue and Lenora St.

Economic Benefits

Potential Revenues to the City	Projected
Affordable Housing and Child Care Fund.....	32M
Purchase of TDRs.....	4M
WSST for Construction.....	\$123M
B&O Tax.....	\$8M
Permit Fees.....	\$3M
Alley Vacation Fees.....	<u>\$10M</u>
Projected Total:	\$180M

Other Potential Ongoing Economic Benefits

- Increase in real estate property tax revenues as values increase
- Replacement of old clay tile utility infrastructure | Cost over \$12M

Projected Design and Construction Jobs

- More than 5,000 jobs related to design and construction
- 10,000,000 labor hours
- \$650,000,000 labor dollars

Projected Long Term Employment Growth

- 12,000 potential new jobs in Denny Triangle
- Multiplier effect for new employment at all wage and skills levels

“...for each new high-tech job in a city, five additional jobs are ultimately created outside of the high-tech sector in that city.”

Enrico Moretti

Economist at UC Berkeley

Author of “The New Geography of Jobs”

Alley Vacation Public Benefits - Summary Tables

	Phase I	Phase II	Phase III
1. 7th Ave Cycle Track	Block 14	Block 19	Block 20
Physically separated cycle track, enhanced pedestrian zone/cycle track buffer with tree wells, contrasting paving surface, furnishings and stormwater planting areas	5,470 sf / 280 lf	7,390 sf / 380 lf	7,050 sf / 390 lf
Signalization improvements to accommodate cyclists, pedestrians and motorists.	7th Ave & Westlake	7th Ave & Lenora	7th Ave & Blanchard
Bicycle "daily/annual counter" northbound and southbound	-	-	1
Bicycle trash receptacles	2	2	2
Lean rails at intersection stops	2	2	2
Bicycle wayfinding signage as appropriate	1	1	1
Re-stripe existing bike lanes including transitions from proposed cycle track Lenora to Denny	2,740 lf	-	-
Permeable paving or pavers are being considered in collaboration with SDOT between the cycle track and sidewalk	280 lf	380 lf	390 lf
Contribution towards the City's technical analysis and its implementation of offsite cycle track improvements Note: Contribution to occur before issuance of the building permit for Block 14	\$250,000	-	-
2. Shared Use Street/Enhanced Pedestrian Facilities on Lenora Street	Block 14	Block 19	Block 20
Enhanced pedestrian zone with tree wells, contrasting paving surface, and street furnishings	-	-	7,480 sf
Widened or rolled curbs	-	-	290 lf
3. Westlake Ave Street Improvements	Block 14	Block 19	Block 20
Analysis and creation of a scramble at the intersection of 7th Ave and Westlake Ave. Improvements would include:			
• Re-configuration of traffic signal at Westlake/7th/Virginia to allow for pedestrian scramble and bicycle crossings	4 - 6	-	-
• Construct curb bulbs on NW corner of 7th Avenue & Westlake Avenue (unify existing islands)	1	-	-
• Enlarge and enhance pedestrian island between 7th/Westlake/Virginia	1,200 sf	-	-
• Re-striping of two existing crosswalks and addition of one new crosswalk	3	-	-
• Install bicycle crossings across Westlake Avenue	1	-	-
Paving and landscape improvements at existing streetcar stop on Block 14	1,740 sf	-	-
Improved pedestrian crossings at the intersection of 8th Ave, Lenora and Westlake Ave. Features would include:			
• Re-configuration of traffic signals at Westlake/8th/Lenora intersection	-	-	4 - 7
• Striping of crosswalk	-	-	1

Alley Vacation Public Benefits - Summary Tables

	Phase I	Phase II	Phase III
4. Blanchard Street – Enhanced Green Street by 10' Voluntary Setback	Block 14	Block 19	Block 20
Voluntary 10' building setback to allow for widened sidewalk, additional landscape and use by adjacent retail	-	2,230 sf	2,140 sf
5. Other Voluntary Building Setbacks	Block 14	Block 19	Block 20
Voluntary building setbacks within property line allowing for landscape and sidewalk improvements (Excludes Blanchard Street)	1,940 sf	2,510 sf	2,270 sf
6. Enhanced Right of Way Improvements	Block 14	Block 19	Block 20
Landscape and sidewalk improvements beyond existing curbline	6,320 sf	6,580 sf	8,530 sf
Double row of trees (Allee) on 7th Avenue	4-6	4-6	4-6
- Note: The Applicant is working with SDOT to determine the quantity of street trees to meet required clearances	add'l trees	add'l trees	add'l trees
Curb bulbs	At corners	At corners	At corners
Wayfinding & Signage per the Center City Wayfinding Plan (one on-site and one off-site)	2 signs	2 signs	2 signs
7. Art Program	Block 14	Block 19	Block 20
Signature art pieces	1	-	1
Integrated art within Right of Way (manhole covers, site furnishings, etc.).	all	all	all
8. Additional Overhead Protection	Block 14	Block 19	Block 20
100'-long overhead canopy connecting buildings between the mid-block	-	1,200 sf	-
9. Fourth Streetcar	Block 14	Block 19	Block 20
Sponsorship and contribution to the City's purchase of a fourth streetcar	\$3.7M	-	-
- Note: Phased contributions to occur before the completion of Block 14			
- Note: Sponsorship branding to be part of the package			
10. Contribution to Future Neighborhood Park	Block 14	Block 19	Block 20
Contribution towards the development of a future neighborhood park at the northwest corner of 8th Avenue, Westlake Avenue and Lenora St..	-	-	\$150,000
This property is commonly referred to as the Enterprise Car site.			
- Note: Contribution to occur before issuance of the building permit for Block 20
