A RESOLUTION granting conceptual approval to King County Department of Natural Resources and Parks, Wastewater Treatment Division to construct, maintain, and operate a combined sewer overflow control system within Triton Drive Northwest as part of the existing North Beach Pump Station.

WHEREAS, King County Department of Natural Resources and Parks, Wastewater Treatment Division ("KCWTD") has applied for permission to construct a below-grade combined sewer overflow ("CSO") control facility that includes a storage tank, flushing vault, and drain vault (the "North Beach CSO project" or "project"). The purpose of the project is to reduce and control stormwater flows to the combined sewer system and the frequency of CSO events at KCWTD's North Beach Basin outfalls to Puget Sound; and

WHEREAS, KCWTD has determined that installing and implementing the North Beach CSO is KCWTD's preferred option for complying with KCWTD's National Pollution Discharge Elimination System Waste Discharge Permit No. WA-002918-1 for the West Point Wastewater Treatment Plant that requires KCWTD to limit CSO events to Puget Sound at the North Beach Pump Station to no more than one overflow per year; and

WHEREAS, to complete facility upgrades, the City Council must also approve a separate Council Land Use Action under Clerk's File 312299 that allows: an adjacent parcel located to the west of the project site to be used, and other improvements within the City's Shoreline Overlay zone; and

WHEREAS, in making a recommendation, the Director of the Seattle Department of Transportation ("Director") considered the submitted plans and application materials for constructing the North Beach CSO project and recommends that conceptual approval be granted; NOW, THEREFORE,

**BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE
MAYOR CONCURRING, THAT:**

Section 1. The City Council finds that the North Beach CSO project is in the public interest.

1 Section 2. As conditions for obtaining permission to construct the North Beach CSO
2 project, KCWTD shall:

3 (1) Provide structural engineering and utility plans to the Seattle Department of
4 Transportation for reviewing and permitting;

5 (2) Provide public liability insurance naming the City as an additional insured or in the
6 form of self-insurance, either as approved by the City's Risk Manager;

7 (3) Pay all City permit fees;

8 (4) Obtain all necessary land use or building permits; and

9 (5) Remove the North Beach CSO project and restore the right-of-way to its original
10 condition if KCWTD fails to perform any obligation under the term permit within a reasonable
11 time after receiving notice by the City specifying the failure to perform.
12

13 Section 3. The City Council is also reviewing a separate Council Land Use Action,
14 Clerk's File 312299 that would allow: upgrades to a portion of the facility, site enhancements,
15 and related landscaping. These improvements are located at 9921 Triton Ave NW and are within
16 the City's Shoreline Overlay zone. Council is acting concurrently on this Resolution and the
17 Council Land Use Action that must be approved to implement the proposed upgrades to the
18 North Beach CSO.
19

20 Section 4. After this resolution is adopted, SDOT will present to the Council for its
21 modification or approval a draft term permit ordinance that prescribes the conditions under
22 which permission to use the right-of-way will be granted.
23
24
25

Legislation Title:

A RESOLUTION granting conceptual approval to King County Department of Natural Resources and Parks, Wastewater Treatment Division to construct, maintain, and operate a combined sewer overflow control system within Triton Drive Northwest as part of the existing North Beach Pump Station.

Summary of the Legislation:

This proposed resolution grants the conceptual approval for King County Department of Natural Resources and Parks, Wastewater Treatment Division ("KCWTD") to construct, operate, and maintain a combined sewer overflow control system ("North Beach CSO project") within Triton Drive Northwest. An area map is attached for reference.

The purpose of the North Beach CSO project is to reduce and control stormwater flows to the combined sewer system and the frequency of CSO events at KCWTD's North Beach Basin outfalls to Puget Sound.

Background:

KCWTD has determined that installing and implementing the North Beach CSO is KCWTD's preferred option for complying with KCWTD's National Pollution Discharge Elimination System Waste Discharge Permit No. WA-002918-1 for the West Point Wastewater Treatment Plant that requires KCWTD to limit CSO events to Puget Sound at the North Beach Pump Station to no more than one overflow per year.

Please check one of the following:

This legislation does not have any financial implications.

Although this resolution does not accept or appropriate funds, SDOT will receive a permit fee from KCWTD after the effective date of the term permit ordinance.

List attachments to the fiscal note below:

Attachment A – King County North Beach CSO Area Map

City of Seattle
Office of the Mayor

November 27, 2012

Honorable Sally J. Clark
President
Seattle City Council
City Hall, 2nd Floor

Dear Council President Clark:

I am pleased to transmit the attached proposed Resolution that grants conceptual approval to King County Department of Natural Resources and Parks, Wastewater Treatment Division to construct, maintain, and operate a combined sewer overflow control system ("North Beach CSO project") within Triton Drive Northwest as part of the existing North Beach Pump Station.

The purpose of the North Beach CSO project is to reduce and control stormwater flows to the combined sewer system and the frequency of CSO events at KCWTD's North Beach Basin outfalls to Puget Sound. King County's National Pollution Discharge Elimination System Waste Discharge Permit for the West Point Wastewater Treatment Plant requires that King County limit CSO events to Puget Sound at the North Beach Pump Station to no more than one overflow per year.

Thank you for your consideration of this legislation. Should you have questions, please contact Angela Steel at 684-5967.

Sincerely,

Michael McGinn
Mayor of Seattle

cc: Honorable Members of the Seattle City Council
