CITY OF SEATTLE
ORDINANCE 124731
COUNCIL BILL 118341

AN ORDINANCE relating to colocation of the City's data centers; adding a new Section 3.22.050 to the Seattle Municipal Code to authorize the Chief Technology Officer to enter into agreements with public and private entities for data center colocation space and services; including lease agreements for the City's use and occupancy of data center colocation facilities, and agreements for related colocation services; and ratifying and confirming certain prior acts.

WHEREAS, in 2012 the City identified a power transmission problem that directly impacted the City's primary data center at Seattle Municipal Tower, affecting the business operations of all City departments. The problem was repaired but underscored the need to upgrade and consolidate the City's data centers. The City implemented the Next Generation Data Center Project to achieve such an upgrade and consolidation; and

WHEREAS, consolidating and co-locating the City's data centers creates financial and operational efficiencies for the City and its residents; and

WHEREAS, the City is consolidating separate data centers into a single data center environment with a primary location in the Puget Sound region and secondary recovery sites outside the region to maximize options for data recovery in the event of a disaster; and

WHEREAS, as the providers of enterprise-grade, scalable, sustainable technology services in the City, the Department of Information Technology will manage migration of IT infrastructure and applications to new locations, and will manage the City's use of the colocated data centers; and

1 WHEREAS, colocation data center facility agreements negotiated by the Department of
2 Information Technology and other departments for the Next Generation Data Center
3 Project do not easily fit within existing leasing and procurement authority because the
4 agreements typically include both the lease or license of space with specialized technical
5 and security requirements and on-site services such as network services and remote hands
6 repair services;

7 WHEREAS, it is the Department of Information Technology's responsibility to manage the
8 finances of technology services and appropriately charge city departments for those
9 services, as dictated in the annual City budget; NOW THEREFORE;

10 **BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

11 Section 1. A new Section 3.22.050 is added to the Seattle Municipal Code as follows:

12 **3.22.050 – Agreements for data center colocation space and services.**

13 A. The Chief Technology Officer is authorized to execute, for and on behalf of the City
14 and its departments, agreements providing for the City's use and occupancy of data center
15 colocation facilities and services, including lease and license agreements for technical space,
16 warehouse and office space; and agreements for related on-site support services. No city officer
17 other than the Chief Technology Officer shall enter into agreements for City use of data center
18 colocation facilities unless those agreements are made through and in accordance with policies
19 and procedures established by the Chief Technology Officer.

20 B. The Chief Technology Officer's authority to enter into agreements under this Section
21 is limited to agreements with an initial term of no more than ten years. The Chief Technology
22 Officer may extend the term of an agreement for up to an additional five years, provided that the
23 extension must be at the option of the Chief Technology Officer. The Chief Technology Officer

1 shall give written notice to the chair and members of the City Council committee with
2 technology oversight at least 30 days in advance of any agreement with a term of more than five
3 years.

4 Section 2. Any act consistent with the authority of this ordinance taken prior to its
5 effective date is ratified and confirmed.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the 9th day of March, 2015, and signed by me in open session in authentication of its passage this 9th day of March, 2015.

President _____ of the City Council

Approved by me this 19 day of March, 2015.

Edward B. Murray, Mayor

Filed by me this 19th day of MARCH, 2015.

Monica Martinez Simmons, City Clerk

1. BILL SUMMARY

Legislation Title:

AN ORDINANCE relating to colocation of the City's data centers; adding a new Section 3.22.050 to the Seattle Municipal Code to authorize the Chief Technology Officer to enter into agreements with public and private entities for data center colocation space and services; including lease agreements for the City's use and occupancy of data center colocation facilities, and agreements for related colocation services; and ratifying and confirming certain prior acts.

Summary and background of the Legislation:

In 2012 the City identified a power transmission problem that directly impacted the City's primary data center at Seattle Municipal Tower, affecting the business operations of all City departments. The problem was repaired but underscored the need to upgrade and consolidate the City's data centers. The City implemented the Next Generation Data Center Project to achieve such an upgrade and consolidation.

This legislation authorizes the Chief Technology Officer to execute agreements providing for the City's use and occupancy of data center colocation facilities on behalf of the City. Colocation data center facility agreements do not easily fit within existing leasing and procurement authority held with FAS because the agreements require both the long-term lease of space with specialized technical and security requirements and the need for on-site services such as network services and remote hands repair services.

Consolidation and colocation of the City's data centers creates financial and operational efficiencies for the City and its residents, with a primary location in the Puget Sound region and secondary recovery sites outside the region to maximize options for data recovery in the event of a disaster.

2. CAPITAL IMPROVEMENT PROGRAM

_____ This legislation creates, funds, or amends a CIP Project.

Project Name:	Project I.D.:	Project Location:	Start Date:	End Date:	Total Cost:

3. SUMMARY OF FINANCIAL IMPLICATIONS

 X This legislation does not have direct financial implications.

4. OTHER IMPLICATIONS

- a) Does the legislation have indirect or long-term financial impacts to the City of Seattle that are not reflected in the above?
No. The costs for the facilities are already included in the adopted city budget.
- b) Is there financial cost or other impacts of not implementing the legislation?
Yes. If this legislation is not passed, there will be delays. Both delays and cancellation of the project would result in significant financial implications.
- c) Does this legislation affect any departments besides the originating department?
Consolidation and colocation of the City's data centers creates financial and operational efficiencies for the City and its residents, and affects all departments in the city. The Next Generation Data Center project consolidates 17 data centers to a primary location in the Puget Sound region and secondary recovery sites outside the region to maximize options for data recovery in the event of a disaster.
- d) Is a public hearing required for this legislation?
No.
- e) Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?
No.
- f) Does this legislation affect a piece of property?
No.
- g) Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities?
No.
- h) If this legislation includes a new initiative or a major programmatic expansion: What are the long-term and measurable goals of the program? Please describe how this legislation would help achieve the program's desired goals.
No.
- i) Other Issues:
