**CITY OF SEATTLE**  
**ORDINANCE** 124905  
**COUNCIL BILL** 118546

AN ORDINANCE relating to street and sidewalk use; amending the Street Use Permit Fee Schedule authorized by Section 15.04.074 of the Seattle Municipal Code.

WHEREAS, Section 15.04.074 of the Seattle Municipal Code authorizes and directs the Director of Transportation to prepare and recommend to the City Council, for passage by ordinance, a schedule of fees applicable to all street and sidewalk use permits ("the Street Use Permit Fee Schedule") commensurate with the cost of administering, reviewing, inspecting, and policing involved in issuing and continuing the permits and the uses granted by the permits; and

WHEREAS, Use and Occupation fees currently do not cover the full cost of permit issuance, inspection, and plan review, and Street Use permits must fully recover their cost to comply with the Seattle Municipal Code; and

WHEREAS, it is appropriate that those wishing to use public rights-of-way should bear the costs associated with obtaining appropriate street and sidewalk use permits; and

WHEREAS, Street Use rates were last substantially adjusted on January 1, 2011, with periodic changes since then to address new costs; and

WHEREAS, the Seattle Department of Transportation (SDOT) seeks to maintain adequate staffing as permit volumes fluctuate with the demand for use of the right-of-way; and

WHEREAS, by moving to an hourly basis for recovering plan review and inspection fees, SDOT seeks to incentivize permittees who submit plans largely in conformance with SDOT's Standard Specifications and manage construction impacts by using the best suited workforce, materials, and methods; NOW, THEREFORE,

**BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

1           Section 1. The SDOT Street Use Permit Fee Schedule, last substantially amended by  
2 Ordinance 123477, and as further amended by Ordinances 123600, 123611, 123659, 123907,  
3 124159, 124532, 124770, and 123485 as amended by Ordinance 123585, is replaced by the  
4 SDOT Street Use Permit Fee Schedule attached as Attachment A.

Section 2. This ordinance and attachment shall take effect on March 31, 2016.

Passed by the City Council the 23<sup>rd</sup> day of Nov., 2015, and  
signed by me in open session in authentication of its passage this  
23<sup>rd</sup> day of Nov., 2015.

  
\_\_\_\_\_  
President \_\_\_\_\_ of the City Council

Approved by me this 1<sup>st</sup> day of December, 2015.

  
\_\_\_\_\_  
Edward B. Murray, Mayor

Filed by me this 1<sup>st</sup> day of December, 2015.

  
\_\_\_\_\_  
Monica Martinez Simmons, City Clerk

The time to review and inspect, as needed, is not included in the base permit fee. |

The Department of Transportation is directed to use the vending Street Use permit fees credited to the Transportation Operating Fund for the following purposes: administering the vending program, including notifying property owners abutting a proposed vending site designated by the Department of Transportation; verifying property boundaries and square footage of usage; designating pre-approved vending sites by the Department of Transportation; signing and demarcating designated vending sites and food-vehicle zones; attending meetings or hearings; preparing documents, legislation, forms, and notices; inspecting and enforcing permitted or illegal vending activity; or engaging in any other vending-related activity as directed by the Director of Transportation.

#### Fee Methodology Factors and Descriptions

##### Factor

##### Description

Land value:

For Term permits, the value of the use area in the right-of-way shall be based on the abutting parcel's current per-square-foot land value as determined by the King County Assessor. If the use area extends beyond the right-of-way centerline or abuts multiple parcels, the permit fee shall be calculated by averaging the abutting parcels' current land values.

For Shoreline Street End permits, the value of the use area in the right-of-way shall be based on the abutting parcel's current per-square-foot land value as determined by the King County Assessor. If the use area extends beyond the centerline of the right-of-way or abuts multiple parcels, the permit fee shall be calculated for each portion of the use area according to the current per-square-footland value of the abutting parcels.

If all parcels abutting the Term or Shoreline Street End permitted use area are government-owned and the parcels are not tax assessed in whole or in part by King County, the parcels shall be excluded when establishing the Term or Shoreline Street End permit fee. To determine the permit fee, the current per-square-foot land value as determined by the King County Assessor of the closest privately-owned parcel or parcels with the same zoning or shoreline designation of the Term or Shoreline Street End permitted use area shall be averaged. If the next closest privately-owned parcel or parcels do not have the same underlying zoning or shoreline designation as the abutting government-owned parcel, the Seattle Department of Transportation shall consult with the City Appraiser. The City Appraiser shall determine if the next closest parcel or parcels with similar zoning or shoreline designation reasonably establishes the current per-square-foot land value of the use area in the right of way for fee calculation purposes.

|                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| Use area:                                | Square footage of the permitted encroachment in the right-of-way, as authorized by Seattle Department of Transportation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Rate of return:                          | Annualized rate of return on market value of the right-of-way, as established by the City Appraiser or a State of Washington Certified General Real Estate Appraiser retained by the Director of Transportation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Degree of alienation:                    | For Term permits, the degree of impact on the public, utilities, right-of-way, and other potential uses of the right-of-way based on City policy, as established by Seattle Department of Transportation. Refer to Table A: Degree of Alienation Factor.                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Demand probability:                      | For Shoreline Street End permits, the estimated demand of probable use shall be based on factors that include, but are not limited to, location, access, size, view, and topography; as established by the City Appraiser or a State of Washington Certified General Real Estate Appraiser retained by the Director of Transportation. Refer to Attachment A: Demand Probability Factor. The Director of Transportation is authorized to update Attachment A based upon the recommendations of the City Appraiser or a State of Washington Certified General Real Estate Appraiser. The new Demand Probability Factor shall become effective when the updated Demand Probability Factor is adopted by rule. |
| Maritime Industrial Use Discount Factor: | To support the City's policies of protecting its maritime uses, a 50 percent discount factor shall apply to that portion of the Shoreline Street End occupied by a legally-established water-dependant or water-related use as defined in Seattle Municipal Code Section 23.60.944.                                                                                                                                                                                                                                                                                                                                                                                                                         |

The Department of Transportation is directed to use the shoreline street end permit fees credited to the Transportation Operating Fund for the following purposes:

- (a) Notifying property owners that abut shoreline street ends of the need for permits for private use of the street end and of the fee schedule;
- (b) Administering and inspecting shoreline street end use;
- (c) Verifying property boundaries and area of use;
- (d) Matching funds for neighborhood improvements of shoreline street ends for public use;
- (e) Signing, demarcating, and maintaining shoreline street ends;
- (f) Funding street and sidewalk improvements within a half-block radius of any of the shoreline street ends identified in Exhibit A to Resolution 29370 that directly contribute to public access to the shoreline street end.

\* Portions of sub-surface or above-grade structures, such as columns or stairwells, may be located at grade. Except for vehicle ramps, the total value of the term permit annual fee shall be calculated by adding the value of the at-grade use area to the value of the sub-surface or above-grade use area.

\*\* In order to qualify for this term permit use code, the development must be participating in the City's Living Building Pilot Program, be capable of achieving Leadership in Energy and Environmental Design (LEED) platinum certification, or both.

### **1. BILL SUMMARY**

**Legislation Title:** AN ORDINANCE relating to street and sidewalk use; amending the Street Use Permit Fee Schedule authorized by Section 15.04.074 of the Seattle Municipal Code.

**Summary and background of the Legislation:** This legislation updates the “Schedule A” permit fees, authorized through SMC 15.04.074, as assessed by the Seattle Department of Transportation Street Use Division. The new rates will be effective March 31, 2016. Permit fees are being restructured primarily for construction-type activities. Permit issuance fees for permits requiring no plan review will be reduced from \$146 to \$138. All other permit issuance fees (except public space activity fees) will increase from \$146 to \$305. Issuance fees for public space activity permits will remain at \$146 pending further evaluation in 2016. All plan review and inspection time will be billed at an hourly rate of \$196. The current structure has a \$172/hour rate and was last adjusted in 2011, and is collected on all Street Use services conducted related to the review and inspections of a permit. The department will evaluate the appropriateness of the new hourly review and inspection rate in 2016 and may request adjustment for future years.

Lastly, this legislation implements a new rate structure that aligns the interest of the City and the community’s values to incentivize complete and comprehensive plan submittals from applicants and quality and timely construction activities in the field. Applicants who are not prepared, generally submit plans and do work that is substandard will see higher permit fees as these costs are a direct result of more time billed by staff to complete the work. Well-prepared applicants will see the lowest possible permit costs as additional staff time is not needed to coordinate plan review and inspections.

### **2. CAPITAL IMPROVEMENT PROGRAM**

☐ This legislation creates, funds, or amends a CIP Project.

### **3. SUMMARY OF FINANCIAL IMPLICATIONS**

☒ This legislation has direct financial implications.

### 3.a. Appropriations

**X** This legislation adds, changes, or deletes appropriations.

| Fund Name and number                  | Dept | Budget Control Level Name/## | 2015 Appropriation Change | 2016 Estimated Appropriation Change |
|---------------------------------------|------|------------------------------|---------------------------|-------------------------------------|
| Transportation Operating Fund (10310) | SDOT | Right of Way Management      | \$0                       | \$11.04 M                           |
| <b>TOTAL</b>                          |      |                              | <b>\$0</b>                | <b>\$11.04 M</b>                    |

\*See budget book to obtain the appropriate Budget Control Level for your department.

#### Appropriations Notes:

The department has submitted for consideration, a 2016 Budget Issue Paper (SDOT-112) to account for the impact of this rate change which will be incorporated into SDOT's 2016 Proposed Budget package.

### 3.b. Revenues/Reimbursements

**X** This legislation adds, changes, or deletes revenues or reimbursements.

#### Anticipated Revenue/Reimbursement Resulting from this Legislation:

| Fund Name and Number                  | Dept | Revenue Source                                   | 2015 Revenue | 2016 Estimated Revenue |
|---------------------------------------|------|--------------------------------------------------|--------------|------------------------|
| Transportation Operating Fund (10310) | SDOT | Permit Issuance, Plan Review and Inspection Fees | \$0          | \$8.5M                 |
| <b>TOTAL</b>                          |      |                                                  | <b>\$0</b>   | <b>\$8.5M</b>          |

### Revenue/Reimbursement Notes:

The department has submitted for consideration, a 2016 Budget Issue Paper (SDOT-112) to account for the impact of this rate change which will be incorporated into SDOT's 2016 Proposed Budget package.

### **3.c. Positions**

**\_\_\_\_\_ This legislation adds, changes, or deletes positions.**

### **4. OTHER IMPLICATIONS**

- a) Does the legislation have indirect or long-term financial impacts to the City of Seattle that are not reflected in the above?**  
No.
- b) Is there financial cost or other impacts of not implementing the legislation?**  
Rates have not been adjusted since 2011. This rate adjustment will assist the department move closer to achieving the goal of full cost recovery on the Street Use permit issuance, plan review and inspection business. Failing to adjust fees will result in continued imbalance and increase subsidy from the Street Use Cost Center.
- c) Does this legislation affect any departments besides the originating department?**  
Primarily, this change affects SPU and SCL and all departments and external customers that obtain SU permits. SDOT is delaying implementing issuance fee changes that affect SPU and SCL (and all other utilities), pending more outreach and aligning rate capacity with those groups in 2016.
- d) Is a public hearing required for this legislation?**  
No.
- e) Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**  
No.
- f) Does this legislation affect a piece of property?**  
No.
- g) Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities?**  
This rate change will lower the cost of some permits that typically affect smaller businesses and residents. Prior to this point, those permits likely subsidized larger, more complex permits for larger scale development. Maintaining this service as a fee-supported activity eliminates the need for a subsidy from taxes and general fund sources, which are funding sources for social programs.

- h) If this legislation includes a new initiative or a major programmatic expansion:  
What are the long-term and measurable goals of the program? Please describe how  
this legislation would help achieve the program's desired goals.**

No. While program improvements will be made on a continuous basis, this is needed to support current and likely forecast activity and support the goals and deliverables of the Move Seattle initiative.

- i) Other Issues:** None.

**List attachments/exhibits below:** None.
